

COUNTER-TERRORISM AND SPECIAL OPERATIONS BUREAU

December 7, 2022

NOTICE

1.15

TO: All Commanding Officers

FROM: Commanding Officer, Counter-Terrorism and Special Operations Bureau

SUBJECT: LOS ANGELES POLICE DEPARTMENT FIREWORKS REDUCTION PROGRAM

The New Year's holiday period has historically resulted in a proliferation of the illegal possession and usage of fireworks throughout the City of Los Angeles. These fireworks pose an extreme fire danger and have repeatedly been the cause of significant and life-threatening injuries. Additionally, the volume of fireworks-related calls for service in the geographic divisions adversely impacts available police resources.

In an effort to reduce injuries and property damage associated with the illegal use of fireworks, the Los Angeles Police Department (LAPD) and the Los Angeles Fire Department (LAFD) have engaged in a collaborative Fireworks Reduction Program for several years. For the New Year's holiday, the operational period for the Fireworks Reduction Program is December 26, 2022, through January 5, 2023, in conjunction with Temporary Procedures for Online Reporting link established at <https://lapdonline.org/fireworks> during the same time period.

PUBLIC EDUCATION

Personnel assigned to geographic Areas, particularly Senior Lead Officers, should use additional methods to include social media to educate the community that fireworks of any kind (including the "Safe and Sane" variety) are dangerous and illegal to use and/or possess within the City of Los Angeles. Personnel should engage the LAFD to join them in the educational processes.

Presentations and/or information concerning illegal fireworks should focus on the following points:

- Fireworks are extremely dangerous, and every year, fireworks cause significant injuries to both children and adults.
- Fireworks pose a high risk of fire danger, especially considering the dry conditions that the City of Los Angeles has experienced during the last few years. Significant brush growth, coupled with a drier than normal year, has contributed to an abundant dry and highly combustible fuel source.
- Fireworks of any kind (including the "Safe and Sane" variety) are illegal within the City of Los Angeles, and law enforcement officers will take appropriate enforcement action.

ENFORCEMENT GUIDELINES

Department personnel investigating the possession and/or use of illegal fireworks can use either of the below code sections as a means of enforcement:

- Los Angeles Municipal Code Section 57.5608.1.2: It shall be unlawful for any person to use, give, possess, sell, or discharge **any** firework(s) within the City limits.
 - This section is generally utilized for individuals with a small quantity of fireworks possessed for personal or family use. Adults may be issued a Release from Custody (RFC) citation, via the Non-Traffic Notice to Appear, Form 05.02.02, for this violation. Utilizing the Administrative Citation Enforcement Program (ACE), Form 05.40.00, is also permissible. Juveniles may be cited utilizing a Traffic Notice to Appear, Form 04.50.00.
- Health and Safety Code Section 12677: It is a misdemeanor for any person to possess dangerous fireworks without a permit.
 - This section is used for persons in possession of larger amounts of fireworks, including M-80 type devices, and fireworks that are obviously not for personal use. Officers should be able to articulate that the materials are not for personal use, as well as the fact the possessor does not have a permit (i.e., is not engaged in legal sales in another jurisdiction where fireworks sales are permitted). Violations of Section 12677 of the Health and Safety Code is a misdemeanor and should be handled by physical arrest, not RFC or citation.

The items listed below are **EXTREMELY DANGEROUS**. Emergency Services Division, Explosives Unit (Bomb Squad) shall be contacted for advice prior to transporting these items.

- Any firework(s) that appear to be modified, improvised or homemade.
- Any firework(s) that may be deteriorated or leaking powder.

NOTE: M-80 type devices shall only be transported or stored by members of the Bomb Squad. Department personnel who encounter M-80 type devices should immediately notify the Bomb Squad.

The Bomb Squad should be contacted for any questions or concerns relating to the seizure, transportation, and storage of fireworks. Prior to providing booking approval for any firework or explosive-related arrests, the involved watch commander should seek advice from Major Crimes Division, Criminal Conspiracy Section.

Officers are encouraged to use discretion when determining the appropriate enforcement action when investigating the use of illegal fireworks. Consideration should be given to existing call

load, degree of cooperation, limited use of street-level fireworks in a community setting, number of participants/onlookers involved, etc. In some cases, enforcement can be limited to seizure of the fireworks and the issuance of a Receipt for Property Taken into Custody, Form 10.10.00.

HANDLING AND BOOKING OF FIREWORKS

Department personnel may transport seized fireworks and store them in a temporary location as described below until they are picked up by Bomb Squad personnel. Personnel who encounter fireworks that appear to be modified, improvised, homemade, deteriorating, or leaking powder should seek approval from on-duty or on-call Bomb Squad personnel prior to seizing or transporting the fireworks. These expedited procedures for handling illegal fireworks may only be used during the Fireworks Reduction Program period.

REQUIRED REPORTS FOR CONFISCATED FIREWORKS

- 1) A completed Non-Traffic Notice to Appear with the suspect's thumbprint and photograph (if not in possession of identification). The Non-Traffic Notice to Appear should include the officers' observations including what they heard and/or smelled. During this program period, no evidence Division of Records (DR) number is necessary.
- 2) Take a clear photograph of the fireworks.
- 3) Complete a detailed Receipt for Property Taken into Custody including brand names, size and quantity, and issue a copy to the possessor.
- 4) Citing/arresting officers shall write their opinion that the items seized/booked are in fact fireworks. The opinion must be based on and supported by factual information.
- 5) Juveniles may be cited utilizing a Traffic Notice to Appear for the appropriate Los Angeles Municipal Code Section, per existing Department policy. A Receipt for Property Taken into Custody shall be issued to the juvenile and their parent/guardian if at scene.

FIREWORKS STORAGE

- Fireworks may be temporarily stored in an unused Department vehicle (van or other similarly sized vehicle) that is parked in a shaded area of the station parking lot away from gas pumps. A Conex box is also an acceptable form of temporary storage provided it is shaded, not accessible to the public, and able to be secured.
- Fireworks should be stored in separate, pre-labeled cardboard boxes (Safe & Sane, Dangerous Fireworks, Snap Cap fireworks, etc.).
- Do not stack boxes on top of each other. Fireworks are extremely sensitive to heat, shock, friction and pressure.
- Any Snap Cap fireworks seized must be packaged and stored away from all other fireworks. These items can start a fire with the slightest pressure.
- **Do not tape the boxes shut.** The Bomb Squad will examine the contents prior to transportation and destruction.

ADDITIONAL

At various times throughout the operational period, Bomb Squad personnel will respond to Area stations and pick up any temporarily stored fireworks. Should the fireworks storage vehicle become full, Bomb Squad personnel should be notified at (323) 342-4200 (Monday-Friday 0600-1600 Hours). Off-hour notifications can be made through the Department Operations Center, at (213) 484-6700.

Department personnel encountering large quantities of illegal fireworks (i.e., U-Haul truck, warehouse, or garage) shall notify the Bomb Squad and Criminal Conspiracy Section to assist in the recovery and subsequent investigation.

As in prior years, Bomb Squad personnel will be available to provide roll call training to personnel in the weeks leading up to the holiday period. This training will include an overview of illegal fireworks and related safety concerns, investigation and enforcement guidelines, protocols for transportation and storage, and notification procedures.

If you have any questions regarding this Notice, please contact the Bomb Squad, Emergency Services Division, at (323) 342-4200.

DAVID L. KOWALSKI, Deputy Chief
Commanding Officer
Counter-Terrorism and Special Operations Bureau

APPROVED:

DANIEL RANDOLPH, Deputy Chief
Chief of Staff
Office of the Chief of Police
