

Los Angeles Police Department
LD 29 Traffic Collision Investigations
EV4 Traffic Enforcement
S20 Traffic Collision
Learning Activity #1

Purpose: [29.V.A, A1,A2,A3,A4]

Peace officers need to have an understanding of what their responsibility are when responding to a traffic collision investigation. Peace officers need to know how to effectively manage a traffic collision scene, ensure their safety, the safety of others, and protect the scene of the collision while obtaining information of what took place.

Description:

Students will participate in a learning activity to determine compass direction and the method of determining the AOI (Area of Impact.)

Resources needed:

- ARTC Rear parking lot (Intersection)
- Traffic cone

Directions:

Select various points on the painted intersection (ARTC rear parking lot) and choose recruits to identify the AOI by walking off the distance and using the extension of the curb lines to determine the AOI.

Time required: 15 - 20 minutes.
