

OFFICE OF OPERATIONS

NOTICE

October 30, 2017

1.11

TO: All Office of Operations Personnel

FROM: Director, Office of Operations

SUBJECT: TRANSIT-RELATED PREMISE CODES AND MODUS OPERANDI FIELD

The Department provides effective police services to the transportation systems to fulfill the contract made with the Los Angeles County Metropolitan Transportation Authority (LACMTA). To ensure continued accuracy in classifying the location of transit-related incidents or crimes, it is critical that Department personnel record the proper premise codes and include transit vehicle numbers in the Modus Operandi (MO) field on investigative reports.

Premise codes assist in classifying the location of incidents. Previously, transit premise codes were developed to capture crime data by bus/rail line. Due to LACMTA requirements, the premise codes were updated to also capture crime data by station. Therefore, it is important to include both the line AND nearest station of occurrence (i.e., MTA Red Line, 7th & Metro Center). See attachments for an example.

If known, the MO field should include ***Train Line and Car Number for rail, or Bus Line and Bus Number for buses.*** This will assist in determining which routes have common problems as well as help obtain video footage.

By solidifying this data at the records inputting level, our overall information will be more accurate allowing the Department to properly assess where transit-related crime is recurring.

Should you have any questions regarding this matter, please contact Evaluation and Administration Section, Office of Operations, at (213) 486-6050.

MICHEL R. MOORE, First Assistant Chief
Director, Office of Operations

DISTRIBUTION "A"

**TRANSIT SERVICES DIVISION
COMMON ERRORS ON TRANSIT-RELATED INVESTIGATIVE REPORTS**

Incorrect IR:

1. Premise description of "TRAIN" is too generic
2. Location of occurrence is NOT a valid address
3. Transit-related boxes are not marked
4. MO does not include train or bus numbers so video can be requested

Correct IR:

1. Premise description of "MTA RED LINE 7TH & METRO" is correct and specific
 - a. Premise codes MUST include the line and nearest station of occurrence
2. Location of occurrence is a valid address that can be geocoded
3. Transit-related boxes are checked
4. MO identifies Train Line and Car # for rail, or Bus Line # and Bus #
