Commissioners,

#### Summary

1. We're not in a property crime wave, despite Chief Moore's fear-mongering.
2. I oppose the 12% increase in the LAPD budget.
3. I oppose the TVTP (CVE) (PATHE) grant. This harmful program will be implemented in a discriminatory manner and become another line item in the bloated LAPD budget.
4. I oppose the profoundly failed and profoundly mismanaged Fusion Center program and I oppose promoting Officer Alex Vargas of the Fusion Center.
5. Allow public comment. Decrease Chief Moore's time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit.

#### Details

Chief Moore and other City officials held a press conference this past Thursday to further sensationalize recent instances of property crime. Chief Moore used this press conference to push the narrative that the city has devolved into pandemonium, even though robberies in the city of Los Angeles are down more than 7% from last year and almost 25% from 2019. He then used these instances of property crime to attack the people's hard won Zero Bail Policy and to sow fear among Angelenos. Attacking the Zero Bail Policy serves only to wind back progress. As a recently released statement by BLM-Los Angeles states "Holding people in jail doesn't reduce crime or improve lives but comes at a tremendous price to taxpayers".

It's clear that Moore's continued fear-mongering is an attempt to justify his ridiculous proposed 12% increase to the LAPD budget. We reject these attempts to undermine the will of community members and we reject Chief Moore's pathetic attempts at spreading fear to strengthen his murderous police force.

Item 3D on the agenda is a vote on the approval of a \$250,000 Targeted Violence Terrorism Prevention (TVTP) grant. The TVTP grant is just the most recent rebranding of the Countering Violent Extremism (CVE) grant that Angelenos, primarily educators, rejected in 2018. This grant will be used to fund a program called Providing Alternatives to Hinder Extremism (PATHE) meant to develop and train a 500 person team of spies and informants to monitor youth using risk assessment tools and by monitoring "suspicious behavior". We've seen implementations of CVE programs in Minnesota similar to PATHE result in the targeting of Black Muslim, East African, Somali and Native Youth. In fact, in 2016 The American Federation of Teachers wrote to the director of the FBI in sharp opposition to its "Don't Be a Puppet" program, similar to PATHE and CVE, citing its "emotional and psychological toll on innocent children". The racist intent of these programs would only be compounded by the racist LAPD. This TVTP grant is a clear effort to circumnavigate the clear and resounding rejection of CVE that community members projected in 2018.

Alex Vargas, the officer set to lead PATHE, currently serves as the deputy director of Los Angeles' Fusion Center. Vargas oversaw the surveillance of protesters during the George Floyd Uprisings, proving that the criterion for his qualification is his effectiveness in targeting Black and Brown Angelenos and his desire to quell dissent.

This is also obviously another attempt by the LAPD to grow their massive budget. As with so many of the harmful programs the LAPD has in its arsenal, PATHE will initially be funded by a grant but will inevitably find its way as a line item proposal by the LAPD. PATHE runs contrary to the public's calls to defund the police.

Regarding public comment - let people speak after agenda items! The community must have input on agenda items after hearing additional information on the item; it is through fear of public knowledge and public comment that the Police Commission does not currently allow this.

Decrease Moore's time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say. Resume in-person meetings immediately, but keep a virtual public-comment option for people who can't or don't want to show up in person.

Signed,

We've seen implementations of CVE programs in Minnesota similar to PATHE result in the targeting of Black Muslim, East African,

Somali and Native Youth. In fact, in 2016 The American Federation of Teachers wrote to the director of the FBI in sharp opposition to its “Don’t Be a Puppet” program, similar to PATHE and CVE, citing its “emotional and psychological toll on innocent children”. The racist intent of these programs would only be compounded by the racist LAPD. This TVTP grant is a clear effort to circumnavigate the absolute and resounding rejection of CVE that community members projected in 2018.

Alex Vargas, the officer set to lead PATHE, currently serves as the deputy director of Los Angeles’ Fusion Center. Vargas oversaw the surveillance of protesters during the George Floyd Uprisings, proving that the criterion for his qualification is his effectiveness in targeting Black and Brown Angelenos and his desire to quell dissent.

This is also obviously another attempt by the LAPD to grow their massive budget. PATHE runs contrary to the public’s calls to defund the police.

Additionally, this week the LA Times unveiled the fact that Chief Moore’s security detail illegally detained an individual during Moore’s visit to France in anticipation of the wholly unwanted 2028 Summer Olympics. An individual in Chief Moore’s party wrongly accused a French Civilian of stealing their phone, leading to LAPD officers detaining a French person in France. This embarrassing episode of unchecked shitbagery by the LAPD is emblematic of their uncontrollable inclination toward violence and brutalization. It’s so telling that the LAPD felt comfortable detaining someone in ANOTHER COUNTRY. Chief Moore couldn’t manage or restrain two officers in his security detail, how could he possibly manage to oversee the most murderous police department in the country.

Commissioners,

Chief Moore and other City officials held a press conference this past Thursday to further sensationalize recent instances of property crime. Chief Moore used this press conference to push the narrative that the city has devolved into pandemonium,

even though robberies in the city of Los Angeles are down more than 7% from last year and almost 25% from 2019. He then used these instances of property crime to attack the people's hard won Zero Bail Policy and to sow fear among Angelenos. Attacking the Zero Bail Policy serves only to regress the progressive efforts put forward by organizers in this city. As a recently released statement by BLM-Los Angeles states "Holding people in jail doesn't reduce crime or improve lives but comes at a tremendous price to taxpayers". It's clear that Moore's continued fear-mongering is an attempt to justify his ridiculous proposed 12% increase to the LAPD budget. We reject these attempts to undermine the will of community members and we reject Chief Moore's pathetic attempts at spreading terror to strengthen his murderous police force.

Item 3D on the agenda is a vote on the approval of a \$250,000 Targeted Violence Terrorism Prevention (TVTP) grant. The TVTP grant is just the most recent rebranding of the Countering Violent Extremism (CVE) grant that Angelenos, primarily educators, rejected in 2018. This grant will be used to fund a program called Providing Alternatives to Hinder Extremism (PATHE) meant to develop and train a 500 person team of spies and informants to monitor youth using risk assessment tools and by monitoring "suspicious behavior". We've seen implementations of CVE programs in Minnesota similar to PATHE result in the targeting of Black Muslim, East African, Somali and Native Youth. In fact, in 2016 The American Federation of Teachers wrote to the director of the FBI in sharp opposition to its "Don't Be a Puppet" program, similar to PATHE and CVE, citing its "emotional and psychological toll on innocent children". The racist intent of these programs would only be compounded by the racist LAPD. This TVTP grant is a clear effort to circumnavigate the absolute and resounding rejection of CVE that community members projected in 2018.

Alex Vargas, the officer set to lead PATHE, currently serves as the deputy director of Los Angeles' Fusion Center. Vargas oversaw the surveillance of protesters during the George Floyd Uprisings, proving that the criterion for his qualification is his effectiveness in targeting Black and Brown Angelenos and his desire to quell dissent.

This is also obviously another attempt by the LAPD to grow their massive budget. As with so many of the harmful programs the LAPD has in its arsenal, PATHE will initially be funded by a grant but will inevitably find its way as a line item proposal by the LAPD. PATHE runs contrary to the public's calls to defund the police.

Additionally, this week the LA Times unveiled the fact that Chief Moore's security detail illegally detained an individual during Moore's visit to France in anticipation of the wholly unwanted 2028 Summer Olympics. An individual in Chief Moore's party wrongly accused a French Civilian of stealing their phone, leading to LAPD officers detaining a French person in France. This embarrassing episode of unchecked shitbagery by the LAPD is emblematic of their uncontrollable inclination toward violence and brutalization. It's so telling that the LAPD felt comfortable

Regarding public comment - let people speak after agenda items! The community must have input on agenda items after hearing additional information on the item; it is through fear of public knowledge and public comment that the Police Commission does not currently allow this.

Decrease Moore's time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say. Resume in-person meetings immediately, but keep a virtual public-comment option for people who can't or don't want to show up in person.

Commissioners,

Chief Moore and other City officials held a press conference this past Thursday to further sensationalize recent instances of property crime. Chief Moore used this press conference to push the narrative that the city has devolved into pandemonium, even though robberies in the city of Los Angeles are down more than 7% from last year and almost 25% from 2019. He then used these instances of property crime to attack the people's hard won Zero Bail Policy and to sow fear among Angelenos.

Attacking the Zero Bail Policy serves only to regress the progressive efforts put forward by organizers in this city. As a recently released statement by BLM-Los Angeles states "Holding people in jail doesn't reduce crime or improve lives but comes at a tremendous price to taxpayers". It's clear that Moore's continued fear-mongering is an attempt to justify his ridiculous proposed 12% increase to the LAPD budget. We reject these attempts to undermine the will of community members and we reject Chief Moore's pathetic attempts at spreading terror to strengthen his murderous police force.

Item 3D on the agenda is a vote on the approval of a \$250,000 Targeted Violence Terrorism Prevention (TVTP) grant. The TVTP grant is just the most recent rebranding of the Countering Violent Extremism (CVE) grant that Angelenos, primarily educators, rejected in 2018. This grant will be used to fund a program called Providing Alternatives to Hinder Extremism (PATHE) meant to develop and train a 500 person team of spies and informants to monitor youth using risk assessment tools and by monitoring "suspicious behavior". We've seen implementations of CVE programs in Minnesota similar to PATHE result in the targeting of Black Muslim, East African, Somali and Native Youth. In fact, in 2016 The American Federation of Teachers wrote to the director of the FBI in sharp opposition to its "Don't Be a Puppet" program, similar to PATHE and CVE, citing its "emotional and psychological toll on innocent children". The racist intent of these programs would only be compounded by the racist LAPD. This TVTP grant is a clear effort to circumnavigate the absolute and resounding rejection of CVE that community members projected in 2018.

Alex Vargas, the officer set to lead PATHE, currently serves as the deputy director of Los Angeles' Fusion Center. Vargas oversaw the surveillance of protesters during the George Floyd Uprisings, proving that the criterion for his qualification is his effectiveness in targeting Black and Brown Angelenos and his desire to quell dissent.

This is also obviously another attempt by the LAPD to grow their massive budget. As with so many of the harmful programs the LAPD has in its arsenal, PATHE will initially be funded by a grant but will inevitably find its way as a line item proposal by the LAPD. PATHE runs contrary to the public's calls to defund the police.

Additionally, this week the LA Times unveiled the fact that Chief Moore's security detail illegally detained an individual during Moore's visit to France in anticipation of the wholly unwanted 2028 Summer Olympics. An individual in Chief Moore's party wrongly accused a French Civilian of stealing their phone, leading to LAPD officers detaining a French person in France. This embarrassing episode of unchecked shitbagery by the LAPD is emblematic of their uncontrollable inclination toward violence and brutalization. It's so telling that the LAPD felt comfortable detaining someone in ANOTHER COUNTRY. Chief Moore couldn't manage or restrain two officers in his security detail, how could he possibly manage to oversee the most murderous police department in the country.

Regarding public comment - let people speak after agenda items! The community must have input on agenda items after hearing additional information on the item; it is through fear of public knowledge and public comment that the Police Commission does

not currently allow this.

Decrease Moore's time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say. Resume in-person meetings immediately, but keep a virtual public-comment option for people who can't or don't want to show up in person.

An individual in Chief Moore's party wrongly accused a French Civilian of stealing their phone, leading to LAPD officers detaining a French person in France. This embarrassing episode of unchecked shitbagery by the LAPD is emblematic of their uncontrollable inclination

toward violence and brutalization. It's so telling that the LAPD felt comfortable detaining someone in ANOTHER COUNTRY. Chief Moore couldn't manage or restrain two officers in his security detail, how could he possibly manage to oversee the most murderous police department in the country.

Regarding public comment - let people speak after agenda items! The community must have input on agenda items after hearing additional information on the item; it is through fear of public knowledge and public comment that the Police Commission does not currently allow this.

Decrease Moore's time and open up public comment, with no restrictions on the number of speakers and no 45-minute time limit. Members of the communities most affected by police are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say. Resume in-person meetings immediately, but keep a virtual public-comment option for people who can't or don't want to show up in person.

Commissioners,

Chief Moore and other City officials held a press conference this past Thursday to further sensationalize recent instances of property crime. Chief Moore used this press conference to push the narrative that the city has devolved into pandemonium, even though robberies in the city of Los Angeles are down more than 7% from last year and almost 25% from 2019. He then used these instances of property crime to attack the people's hard won Zero Bail Policy and to sow fear among Angelenos. Attacking the Zero Bail Policy serves only to regress the progressive efforts put forward by organizers in this city. As a recently released statement by BLM-Los Angeles states "Holding people in jail doesn't reduce crime or improve lives but comes at a tremendous price to taxpayers". It's clear that Moore's continued fear-mongering is an attempt to justify his ridiculous proposed 12% increase to the LAPD budget. We reject these attempts to undermine the will of community members and we reject Chief Moore's pathetic attempts at spreading terror to strengthen his murderous police force.

Item 3D on the agenda is a vote on the approval of a \$250,000 Targeted Violence Terrorism Prevention (TVTP) grant. The TVTP grant is just the most recent rebranding of the Countering Violent Extremism (CVE) grant that Angelenos, primarily educators, rejected in 2018. This grant will be used to fund a program called Providing Alternatives to Hinder Extremism (PATHE) meant to develop and train a 500 person team of spies and informants to monitor youth using risk assessment tools and by monitoring "suspicious behavior". We've seen implementations of CVE programs in Minnesota similar to PATHE result in the targeting of Black Muslim, East African, Somali and Native Youth. In fact, in 2016 The American Federation of Teachers wrote to the director of the FBI in sharp opposition to its "Don't Be a Puppet" program, similar to PATHE and CVE, citing its "emotional and psychological toll on innocent children". The racist intent of these programs would only be compounded by the racist LAPD. This TVTP grant is a clear effort to circumnavigate the absolute and resounding rejection of CVE that community members projected in 2018.

Alex Vargas, the officer set to lead PATHE, currently serves as the deputy director of Los Angeles' Fusion Center. Vargas oversaw the surveillance of protesters during the George Floyd Uprisings, proving that the criterion for his qualification is his effectiveness in targeting Black and Brown Angelenos and his desire to quell dissent.

This is also obviously another attempt by the LAPD to grow their massive budget. As with so many of the harmful programs the LAPD has in its arsenal, PATHE will initially be funded by a grant but will inevitably find its way as a line item proposal by the LAPD. PATHE runs contrary to the public's calls to defund the

police.

Additionally, this week the LA Times unveiled the fact that Chief Moore's security detail illegally detained an individual during Moore's visit to France in anticipation of the wholly unwanted 2028 Summer Olympics. An individual in Chief Moore's party wrongly accused a French Civilian of stealing their phone, leading to LAPD officers detaining a French person in France. This grant will be used to fund a program called Providing Alternatives to Hinder Extremism (PATHE) meant to develop and train a 500 person team of spies and informants to monitor youth using risk assessment tools and by monitoring "suspicious behavior". We've seen implementations of CVE programs in Minnesota similar to PATHE result in the targeting of Black Muslim, East African, Somali and Native Youth. In fact, in 2016 The American Federation of Teachers wrote to the director of the FBI in sharp opposition to its "Don't Be a Puppet" program, similar to PATHE and CVE, citing its "emotional and psychological toll on innocent children". The racist intent of these programs would only be compounded by the racist LAPD. This TVTP grant is a clear effort to circumnavigate the absolute and resounding rejection of CVE that community members projected in 2018.

Alex Vargas, the officer set to lead PATHE, currently serves as the deputy director of Los Angeles' Fusion Center. Vargas oversaw the surveillance of protesters during the George Floyd Uprisings, proving that the criterion for his qualification is his effectiveness in targeting Black and Brown Angelenos and his desire to quell dissent.

This is also obviously another attempt by the LAPD to grow their massive budget. As with so many of the harmful programs the LAPD has in its arsenal, PATHE will initially be funded by a grant but will inevitably find its way as a line item proposal by the LAPD. PATHE runs contrary to the public's calls to defund the police.

Additionally, this week the LA Times unveiled the fact that Chief Moore's security detail illegally detained an individual during Moore's visit to France in anticipation of the wholly unwanted 2028 Summer Olympics. An individual in Chief Moore's party wrongly accused a French Civilian of stealing their phone, leading to LAPD officers detaining a French person in France. This embarrassing episode of unchecked shitbagery by the LAPD is emblematic of their uncontrollable inclination toward violence and brutalization. It's so telling that the LAPD felt comfortable detaining someone in ANOTHER COUNTRY. Chief Moore couldn't manage or restrain two officers in his security detail, how could he possibly manage to oversee the most murderous police department in the country.

Regarding public comment - let people speak after agenda items! The community must have input on agenda items after hearing additional information on the item; it is through fear of public knowledge and public comment that the Police Commission does not currently allow this.

Decrease Moore's time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say. Resume in-person meetings immediately, but keep a virtual public-comment option for people who can't or don't want to show up in person.

Commissioners:

On the agenda this week as usual are items directing more money to police, which is against the demands of more than half of city residents, the majority of which favor defunding the police! Every year, the LAPD spends over \$3.2 billion, taking over half the city's discretionary funding. \$187K of this grant money (item 3C) is to pay LAPD to teach 40 youth to ride minibikes. As community members have stated regarding funding LAPD activities with youth, they would rather the city supported families having those interactions, instead of paying police for these programs - invest in communities, take out police! We demand a divestment from police, and an investment in supportive and fulfilling community services.

For item 4B, LAPD lists where it is with regard to police "accountability" laws, all of which is a farce. Moore closes the document by performatively listing the George Floyd Justice in Policing Act, a bill that was not passed but Moore can't stop from taking the opportunity to say that LAPD is in compliance with numerous protocols on the bill anyway (it's not), and therefore LAPD is a "leader" in police practices." In reality, LAPD is a leader in police brutality, cruelly taking the majority of the city budget year after year while poverty increases, then using those resources to target folks that are unhoused. LAPD further leads in killings by police, and is consistently one of the deadliest police forces in the country. Performatively ticking the boxes by such claims as "eliminate practices that permit racial profiling" is yet another of some many of Moore's lies. Defund LAPD!

Regarding public comment - let people speak after agenda items! The community must have input on agenda items after hearing additional information on the item; it is through fear of public knowledge and public comment that the Police Commission does not currently allow this.

Decrease Moore's time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Commissioners,

Chief Moore and other City officials held a press conference this past Thursday to further sensationalize recent instances of property crime. Chief Moore used this press conference to push the narrative that the city has devolved into pandemonium, even though robberies in the city of Los Angeles are down more than 7% from last year and almost 25% from 2019. He then used these instances of property crime to attack the people's hard won Zero Bail Policy and to sow fear among Angelenos. Attacking the Zero Bail Policy serves only to regress the progressive efforts put forward by organizers in this city. As a recently released statement by BLM-Los Angeles states "Holding people in jail doesn't reduce crime or improve lives but comes at a tremendous price to taxpayers". It's clear that Moore's continued fear-mongering is an attempt to justify his ridiculous proposed 12% increase to the LAPD budget. We reject these attempts to undermine the will of community members and we reject Chief Moore's pathetic attempts at spreading terror to strengthen his murderous police force.

Item 3D on the agenda is a vote on the approval of a \$250,000 Targeted Violence Terrorism Prevention (TVTP) grant. The TVTP grant is just the most recent rebranding of the Countering Violent Extremism (CVE) grant that Angelenos, primarily educators, rejected in 2018. This grant will be used to fund a program called Providing

Chief Moore and other City officials held a press conference this past Thursday to further sensationalize recent instances of property crime. Chief Moore used this press conference to push the narrative that the city has devolved into pandemonium, even though robberies in the city of Los Angeles are down more than 7% from last year and almost 25% from 2019. He then used these instances of property crime to attack the people's hard won Zero Bail Policy and to sow fear among Angelenos. Attacking the Zero Bail Policy serves only to regress the progressive efforts put forward by organizers in this city. As a recently released statement by BLM-Los Angeles states "Holding people in jail doesn't reduce crime or improve lives but comes at a tremendous price to taxpayers". It's clear that Moore's continued fear-mongering is an attempt to justify his ridiculous proposed 12% increase to the LAPD budget. We reject these attempts to undermine the will of community members and we reject Chief Moore's pathetic attempts at spreading terror to strengthen his murderous police force.

Item 3D on the agenda is a vote on the approval of a \$250,000 Targeted Violence Terrorism Prevention (TVTP) grant. The TVTP grant is just the most recent rebranding of the Countering Violent Extremism (CVE) grant that Angelenos, primarily educators, rejected in 2018. This grant will be used to fund a program called Providing Alternatives to Hinder Extremism (PATHE) meant to develop and train a 500 person team of spies and informants to monitor youth using risk assessment tools and by monitoring "suspicious behavior". We've seen implementations of CVE programs in Minnesota similar to PATHE result in the targeting of Black Muslim, East African, Somali and Native Youth. In fact, in 2016 The American Federation of Teachers wrote to the director of the FBI in sharp opposition to its "Don't Be a Puppet" program, similar to PATHE and CVE, citing its "emotional and psychological toll on innocent children". The racist intent of these programs would only be compounded by the racist LAPD. This TVTP grant is a clear effort to circumnavigate the absolute and resounding rejection of CVE that community members projected in 2018.

Alex Vargas, the officer set to lead PATHE, currently serves as the deputy director of Los Angeles' Fusion Center. Vargas oversaw the surveillance of protesters during the George Floyd Uprisings, proving that the criterion for his qualification is his effectiveness in targeting Black and Brown Angelenos and his desire to quell dissent.

This is also obviously another attempt by the LAPD to grow their massive budget. As with so many of the harmful programs the LAPD has in its arsenal, PATHE will initially be funded by a grant but will inevitably find its way as a line item proposal by the LAPD. PATHE runs contrary to the public's calls to defund the police.

Additionally, this week the LA Times unveiled the fact that Chief Moore's security detail illegally detained an individual during Moore's visit to France in anticipation of the wholly unwanted 2028 Summer Olympics. An individual in Chief Moore's party wrongly accused a French Civilian of stealing their phone, leading to LAPD officers detaining a French person in France. This embarrassing episode of unchecked shitbagery by the LAPD is emblematic of their uncontrollable inclination toward violence and brutalization. It's so telling that the LAPD felt comfortable detaining someone in ANOTHER COUNTRY. Chief Moore couldn't manage or restrain two officers in his security detail, how could he possibly manage to oversee the most murderous police department in the country.

Regarding public comment - let people speak after agenda items! The community must have input on agenda items after hearing additional information on the item; it is through fear of public knowledge and public comment that the Police Commission does not currently allow this.

Decrease Moore's time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say. Resume in-person meetings immediately, but keep a virtual public-comment option for people who can't or don't want to show up in person.

Commissioners,

Consent items, by definition and commonly accepted meaning, should be limited to uncontroversial matters. Contributions of funds to LAPD that supplement their already huge budget, are NOT uncontroversial and I demand that you stop classifying them as such.

As with so many of the harmful programs the LAPD has in its arsenal, PATHE will initially be funded by a grant but will inevitably find its way as a line item proposal by the LAPD. PATHE runs contrary to the public's calls to defund the police.

Additionally, this week the LA Times unveiled the fact that Chief Moore's security detail illegally detained an individual during Moore's visit to France in anticipation of the wholly unwanted 2028 Summer Olympics. An individual in Chief Moore's party wrongly accused a French Civilian of stealing their phone, leading to LAPD officers detaining a French person in France. This embarrassing episode of unchecked shitbagery by the LAPD is emblematic of their uncontrollable inclination toward violence and brutalization. It's so telling that the LAPD felt comfortable detaining someone in ANOTHER COUNTRY. Chief Moore couldn't manage or restrain two officers in his security detail, how could he possibly manage to oversee the most murderous police department in the country.

Regarding public comment - let people speak after agenda items! The community must have input on agenda items after hearing additional information on the item; it is through fear of public knowledge and public comment that the Police Commission

does not currently allow this.

Decrease Moore's time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say. Resume in-person meetings immediately, but keep a virtual public-comment option for people who can't or don't want to show up in person.

Commissioners,

Chief Moore and other City officials held a press conference this past Thursday to further sensationalize recent instances of property crime. Chief Moore used this press conference to push the narrative that the city has devolved into pandemonium, even though robberies in the city of Los Angeles are down more than 7% from last year and almost 25% from 2019. He then used these instances of property crime to attack the people's hard won Zero Bail Policy and to sow fear among Angelenos. Attacking the Zero Bail Policy serves only to regress the progressive efforts put forward by organizers in this city. As a recently released statement by BLM-Los Angeles states "Holding people in jail doesn't reduce crime or improve lives but comes at a tremendous price to taxpayers". It's clear that Moore's continued fear-mongering is an attempt to justify his ridiculous proposed 12% increase to the LAPD budget. We reject these attempts to undermine the will of community members and

we reject Chief Moore's pathetic attempts at spreading terror to strengthen his murderous police force.

Item 3D on the agenda is a vote on the approval of a \$250,000 Targeted Violence Terrorism Prevention (TVTP) grant. The TVTP grant is just the most recent rebranding of the Countering Violent Extremism (CVE) grant that Angelenos, primarily educators, rejected in 2018. This grant will be used to fund a program called Providing Alternatives to Hinder Extremism (PATHE) meant to develop and train a 500 person team of spies and informants to monitor youth using risk assessment tools and by monitoring "suspicious behavior". We've seen implementations of CVE programs in Minnesota similar to PATHE result in the targeting of Black Muslim, East African, Somali and Native Youth. In fact, in 2016 The American Federation of Teachers wrote to the director of the FBI in sharp opposition to its "Don't Be a Puppet" program, similar to PATHE and CVE, citing its "emotional and psychological toll on innocent children". The racist intent of these programs would only be compounded by the racist LAPD. This TVTP grant is a clear effort to circumnavigate the absolute and resounding rejection of CVE that community members projected in 2018.

Alex Vargas, the officer set to lead PATHE, currently serves as the deputy director of Los Angeles' Fusion Center. Vargas oversaw the surveillance of protesters during the George Floyd Uprisings, proving that the criterion for his qualification is his effectiveness in targeting Black and Brown Angelenos and his desire to quell dissent.

This is also obviously another attempt by the LAPD to grow their massive budget. As with so many of the harmful programs the LAPD has in its arsenal, PATHE will initially be funded by a grant but will inevitably find its way as a line item proposal by the LAPD. PATHE runs contrary to the public's calls to defund the police.

In fact, in 2016 The American Federation of Teachers wrote to the director of the FBI in sharp opposition to its "Don't Be a Puppet" program, similar to PATHE and CVE, citing its "emotional and psychological toll on innocent children". The racist intent of these programs would only be compounded by the racist LAPD. This TVTP grant is a clear effort to circumnavigate the absolute and resounding rejection of CVE that community members projected in 2018.

Alex Vargas, the officer set to lead PATHE, currently serves as the deputy director of Los Angeles' Fusion Center. Vargas oversaw the surveillance of protesters during the George Floyd Uprisings, proving that the criterion for his qualification is his effectiveness in targeting Black and Brown Angelenos and his desire to quell dissent.

This is also obviously another attempt by the LAPD to grow their massive budget. As with so many of the harmful programs the LAPD has in its arsenal, PATHE will

initially be funded by a grant but will inevitably find its way as a line item proposal by the LAPD. PATHE runs contrary to the public's calls to defund the police.

Additionally, this week the LA Times unveiled the fact that Chief Moore's security detail illegally detained an individual during Moore's visit to France in anticipation of the wholly unwanted 2028 Summer Olympics. An individual in Chief Moore's party wrongly accused a French Civilian of stealing their phone, leading to LAPD officers detaining a French person in France. This embarrassing episode of unchecked shitbagery by the LAPD is emblematic of their uncontrollable inclination toward violence and brutalization. It's so telling that the LAPD felt comfortable detaining someone in ANOTHER COUNTRY. Chief Moore couldn't manage or restrain two officers in his security detail, how could he possibly manage to oversee the most murderous police department in the country.

Regarding public comment - let people speak after agenda items! The community must have input on agenda items after hearing additional information on the item; it is through fear of public knowledge and public comment that the Police Commission does not currently allow this.

Decrease Moore's time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say. Resume in-person meetings immediately, but keep a virtual public-comment option.

Thank you from a concerned citizen

Commissioners,

Item 3D on the agenda of tomorrow's meeting is a vote on the approval of a \$250,000 Targeted Violence Terrorism Prevention (TVTP) grant. The TVTP is the most recent rebranding of the Countering Violent Extremism (CVE) grant that Angelenos rejected in 2018. This grant will be used to fund a program called Providing Alternatives to Hinder Extremism (PATHE) meant to develop and train a 500-person team of informants to monitor youth using risk assessment tools and monitoring "suspicious behavior." We've seen implementations of CVE programs in Minnesota similar to PATHE result in the targeting of Black Muslim, East African, Somali and Native Youth. In fact, in 2016 The American Federation of Teachers wrote to the director of the FBI in sharp opposition to its "Don't Be a Puppet" program, similar to PATHE and CVE, citing its "emotional and psychological toll on innocent children." This TVTP grant is a clear effort to do an end run around the resounding rejection of CVE that community members projected in 2018.

Alex Vargas, the officer set to lead PATHE, currently serves as the deputy director of Los Angeles' Fusion Center. Vargas oversaw the surveillance of protesters during the George Floyd Uprisings, thus the primary criterion for his qualification is his effectiveness in targeting Black and Brown Angelenos and his desire to quell dissent.

I urge you to Decrease Chief Moore's time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board and about LAPD in their neighborhoods.

Thank you for your consideration,

Commissioners,

Chief Moore and other City officials held a press conference this past Thursday to further sensationalize recent instances of property crime. Chief Moore used this press conference to push the narrative that the city has devolved into pandemonium, even though robberies in the city of Los Angeles are down more than 7% from last year and almost 25% from 2019. He then used these instances of property crime to attack the people's hard won Zero Bail Policy and to sow fear among Angelenos. Attacking the Zero Bail Policy serves only to regress the progressive efforts put forward by organizers in this city. As a recently released statement by BLM-Los Angeles states "Holding people in jail doesn't reduce crime or improve lives but comes at a tremendous price to taxpayers". It's clear that Moore's continued fear-mongering is an attempt to justify his ridiculous proposed 12% increase to the LAPD budget. We reject these attempts to undermine the will of community members and we reject Chief Moore's pathetic attempts at spreading terror to strengthen his murderous police force.

Item 3D on the agenda is a vote on the approval of a \$250,000 Targeted Violence Terrorism Prevention (TVTP) grant. Commissioners,

I am writing to you as a concerned resident and stakeholder, alarmed by the extreme lack of accountability from the LAPD and its egregious fearmongering that they are weaponizing to push their own agenda against that of the people. Chief Moore and other City officials held a press conference this past Thursday to further sensationalize recent instances of property crime. Chief Moore used this press conference to push the narrative that the city has devolved into pandemonium, even though robberies in the city of Los Angeles are down more than 7% from last year and almost 25% from 2019. He then used these instances of property crime to attack the people's hard won Zero Bail Policy and to sow fear among Angelenos. Attacking the Zero Bail Policy serves only to regress the progressive efforts put forward by organizers in this city.

Worrisomely, Item 3D on the agenda is a vote on the approval of a \$250,000 Targeted Violence Terrorism Prevention (TVTP) grant. The TVTP grant is just the most recent rebranding of the Countering Violent Extremism (CVE) grant that Angelenos, primarily educators, rejected in 2018. This is also obviously another attempt by the LAPD to grow their already over inflated budget. As with so many of the harmful programs the LAPD has in its arsenal, PATHE will initially be funded by a grant but will inevitably find its way as a line item proposal by the LAPD. PATHE runs contrary to the public's calls to defund the police.

Dear Board of Commissioners and City Council Members:

As a citizen of Los Angeles District 11 I'm writing to submit public comments to the

LAPC Meeting.

#### Item 3D: TVTP Grant

This program is just a new presentation on racist CVE (Countering Violent Extremism) programs that target Black, Brown, and Indigenous youth. In 2016 The American Federation of Teachers wrote to the director of the FBI in sharp opposition to its "Don't Be a Puppet" program, similar to PATHE and CVE, citing its "emotional and psychological toll on innocent children". The racist intent of these programs would only be compounded by the racist LAPD. This TVTP grant is a clear effort to circumnavigate the absolute and resounding rejection of CVE that community members projected in 2018.

Plus, LAPD now wants to put in charge of the PATHE program the guy who oversaw surveillance of protestors, further showing that this program is just about targeting Black and Brown Angelenos and silencing the voices of those who critique LAPD the most.

#### General Public Comment: Response to Chief Moore's Press Conference

Chief Moore held a press conference to take advantage of recent incidents of property crime. As usual, he only presents a slanted and limited view of the facts, ignoring that robberies in the city are lower than last year. His stance on zero bail is gross and misplaced. As a recently released statement by BLM-Los Angeles states "Holding people in jail doesn't reduce crime or improve lives but comes at a tremendous price to taxpayers". It's clear that Moore's continued fear-mongering is an attempt to justify his ridiculous proposed 12% increase to the LAPD budget. We reject these attempts to undermine the will of community members and we reject Chief Moore's pathetic attempts at spreading terror to strengthen his murderous police force.

#### General Public Comment: LAPD Again Embarrassing Us, This Time in France

An individual in Chief Moore's international traveling party wrongly accused a French Civilian of stealing their phone, leading to LAPD officers detaining a French person in France. This embarrassing episode of unchecked arrogance by the LAPD is emblematic of their uncontrollable inclination toward violence and brutalization. It's so telling that the LAPD felt comfortable detaining someone in ANOTHER COUNTRY. Chief Moore couldn't manage or restrain two officers in his security detail, how could he possibly manage to oversee the most murderous police department in the country.

#### General Public Comment: Public Comment Limitations

Stop capping your meetings' public comment period at a mere forty-five minutes. You give 45 minutes for public comment from a city of 4 million people. Despite your weekly protestations to the contrary, you are silencing the voices of Angelenos by limiting who can speak at your meetings, and for how long.

Let people speak after each agenda item; the other way doesn't make sense.

Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

General Public Comment: LAPC Meeting Time

Why are these meetings held at the same time as City Council and Board of Supervisor meetings? Can we please change the meeting time so more people can participate in the meetings?

Sincerely,  
Sarah Bowers

Commissioners,

Chief Moore and other City officials held a press conference this past Thursday to further sensationalize recent instances of property crime. Chief Moore used this press conference to push the narrative that the city has devolved into pandemonium, even though robberies in the city of Los Angeles are down more than 7% from last year and almost 25% from 2019. He then used these instances of property crime to attack the people's hard won Zero Bail Policy and to sow fear among Angelenos. Attacking the Zero Bail Policy serves only to regress the progressive efforts put forward by organizers in this city. As a recently released statement by BLM-Los Angeles asserts, "Holding people in jail doesn't reduce crime or improve lives but comes at a tremendous price to taxpayers." It's clear that Moore's continued fear-mongering is an attempt to justify his ridiculous proposed 12% increase to the LAPD budget. We reject these deceitful attempts to undermine the will of community

members and we reject Chief Moore's pathetic attempts at spreading terror to strengthen his murderous police force.

Item 3D on the agenda is a vote on the approval of a \$250,000 Targeted Violence Terrorism Prevention (TVTP) grant. The TVTP grant is just the most recent rebranding of the Countering Violent Extremism (CVE) grant that Angelenos, primarily educators, rejected in 2018. This grant will be used to fund a program called Providing Alternatives to Hinder Extremism (PATHE) meant to develop and train a 500 person team of spies and informants to monitor youth using risk assessment tools and by monitoring "suspicious behavior". We've seen implementations of CVE programs in Minnesota similar to PATHE result in the targeting of Black Muslim, East African, Somali and Native Youth. In fact, in 2016 The American Federation of Teachers wrote to the director of the FBI in sharp opposition to its "Don't Be a Puppet" program, similar to PATHE and CVE, citing its "emotional and psychological toll on innocent children". The racist intent of these programs would only be compounded by the racism of the LAPD. This TVTP grant is a clear effort to circumnavigate the absolute and resounding rejection of CVE that community members projected in 2018.

Alex Vargas, the officer set to lead PATHE, currently serves as the deputy director of Los Angeles' Fusion Center. Vargas oversaw the surveillance of protesters during the George Floyd Uprisings, proving that the criterion for his qualification is his effectiveness in targeting Black and Brown Angelenos and his desire to quell dissent.

This is also obviously another attempt by the LAPD to grow their massive budget. As with so many of the harmful programs the LAPD has in its arsenal, PATHE will initially be funded by a grant but will inevitably find its way as a line item proposal by the LAPD. PATHE goes against to the public's calls to defund the police.

Additionally, this week the LA Times unveiled the fact that Chief Moore's security detail illegally detained an individual during Moore's visit to France in anticipation of the wholly unwanted 2028 Summer Olympics. An individual in Chief Moore's party wrongly accused a French Civilian of stealing their phone, leading to LAPD officers detaining a French person in France. This disgraceful episode of unchecked shitbagery by the LAPD is emblematic of their uncontrollable inclination toward violence and brutality. It's so telling that the LAPD felt comfortable detaining someone in ANOTHER COUNTRY. Chief Moore couldn't manage or restrain two officers in his security detail, how could he possibly manage to oversee the most murderous police department in the country.

Regarding public comment: let people speak after agenda items! The community must have input on agenda items after hearing additional information on the item; Police Commission currently refuses to allow this out of fear of public knowledge and public comment.

Decrease Moore's time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say. Resume in-person meetings immediately, but keep a

virtual public-comment option for people who can't or don't want to show up in person.

Signed,  
Catherine Safley

Commissioners,

Chief Moore and other City officials held a press conference this past Thursday to further sensationalize recent instances of property crime. Chief Moore used this press conference to push the narrative that the city has devolved into pandemonium, even though robberies in the city of Los Angeles are down more than 7% from last year and almost 25% from 2019. He then used these instances of property crime to attack the people's hard won Zero Bail Policy and to sow fear among Angelenos. Attacking the Zero Bail Policy serves only to regress the progressive efforts put forward by organizers in this city. As a recently released statement by BLM-Los Angeles states "Holding people in jail doesn't reduce crime or improve lives but comes at a tremendous price to taxpayers". It's clear that Moore's continued fear-mongering is an attempt to justify his ridiculous proposed 12% increase to the LAPD budget. We reject these attempts to undermine the will of community members and we reject Chief Moore's pathetic attempts at spreading terror to strengthen his murderous police force.

Item 3D on the agenda is a vote on the approval of a \$250,000 Targeted Violence Terrorism Prevention (TVTP) grant. The TVTP grant is just the most recent rebranding of the Countering Violent Extremism (CVE) grant that Angelenos, primarily educators, rejected in 2018. This grant will be used to fund a program called Providing Alternatives to Hinder Extremism (PATHE) meant to develop and train a 500 person team of spies and informants to monitor youth using risk assessment tools and by monitoring "suspicious behavior". We've seen implementations of CVE programs in Minnesota similar to PATHE result in the targeting of Black Muslim, East African, Somali and Native Youth. In fact, in 2016 The American Federation of Teachers wrote to the director of the FBI in sharp opposition to its "Don't Be a Puppet" program, similar to PATHE and CVE, citing its "emotional and psychological toll on innocent children". The racist intent of these programs would only be compounded by the racist LAPD. This TVTP grant is a clear effort to circumnavigate the absolute and resounding rejection of CVE that community members projected in 2018. Time and time again, community has been clear about not wanting these counter-terrorism programs in any way, shape or form.

Alex Vargas, the officer set to lead PATHE, currently serves as the deputy director of Los Angeles' Fusion Center. Vargas oversaw the surveillance of protesters during the George Floyd Uprisings, proving that the criterion for his qualification is his effectiveness in targeting Black and Brown Angelenos and his desire to quell dissent.

This is also obviously another attempt by the LAPD to grow their massive budget. As with so many of the harmful programs the LAPD has in its arsenal, PATHE will initially be funded by a grant but will inevitably find its way as a line item proposal by the LAPD. PATHE runs contrary to the public's calls to defund the police.

Police Commission of the LAPD,

As the representatives and voices of the people of Los Angeles, we ask you to ask Chief Moore to respond to and answer the following questions which he has either intentionally or unintentionally ignored to the detriment of the understanding of the community-police relationship in our city. Many of these questions have been asked in public comment at the BOPC meeting and have not yet been addressed by Chief Moore.

The questions are presented in no order.

1. What is the demographic information for suspects as gathered by crime reports taken from victims? Related to that question, what are the demographics for traffic and investigative stops?
2. What is the response time for LAPD to non-coded radio calls and emergency Code 3 calls?
3. How many foot beats are deployed in Los Angeles and exactly where are they assigned?
4. How many Neighborhood Watches are there in LA and is there a list of them by division with contact info for those who are interested in participating?
5. What is the follow up for the Saint Father Junipero Serra statue vandalism incident? Were there any arrests, and if so, why not? How does a statue get torn down at the very public Olvera St just across from Union Station without an LAPD response and arrest at the time of incident? And what is the follow up for the Hate Crime Vandalism committed at St. Peters Italian Catholic Church at 1039 N. Broadway?
6. In order to measure real time satisfaction or lack thereof regarding police response to radio calls have you considered a quality service review system as is utilized in private industry, especially customer service?
7. Why was the Bluestone company awarded a NO BID contract to perform objectionable medical tests for the Covid 19 virus?
8. Why are officers who conscientiously object to being vaccinated being forced to pay for testing out of their own pocket twice a week?
9. Why are officers who conscientiously object to being vaccinated being forced to pay for testing out of their own pocket twice a week? (Why are vaccinated officers not also tested? Why are unvaccinated officers put on unpaid sick leave while

vaccinated officers get paid sick leave if they contract Covid?)

10. How are Senior Lead Officers being evaluated? Are they holding virtual community meetings? Are all divisions using the Community Meeting Critique form, and if not, how are meetings being recorded as to frequency and effectiveness?

11. How many roll calls, ride along, community meetings, are the Police Commissioners participating in on a monthly basis and would you, Police Commissioners, object to publicly posting that information?

Being a Police Commissioner is a challenging job and we thank you for the time and effort you spend in performing such an important civic duty. While we may sometimes agree and sometimes disagree, we feel confident that we have the common goal of creating a safer city with an ever improving LAPD that is proactive, effective, and that WE can ALL be proud of!

Thank you for your time in consideration of our questions.

Respectfully,

Voices For LAPD

have input on agenda items after hearing additional information on the item; it is  
through fear of

allow this.

Decrease Moore's time and open up public comment, with no restrictions on number of

policing  
are by far the most knowledgeable about the real-world effects of the matters before  
the board,

The TVTP grant is just the most recent rebranding of the Countering Violent Extremism (CVE) grant that Angelenos, primarily educators, rejected in 2018. This grant will be used to fund a program called Providing Alternatives to Hinder Extremism (PATHE) meant to develop and train a 500 person team of spies and informants to monitor youth using risk assessment tools and by monitoring "suspicious behavior". We've seen implementations of CVE programs in Minnesota similar to PATHE result in the targeting of Black Muslim, East African, Somali and Native Youth. In fact, in 2016 The American Federation of Teachers wrote to the director of the FBI in sharp opposition to its "Don't Be a Puppet" program, similar to PATHE and CVE, citing its "emotional and psychological toll on innocent children". The racist intent of these programs would only be compounded by the racist LAPD. This TVTP grant is a clear effort to circumnavigate the absolute and resounding rejection of CVE that community members projected in 2018.

Alex Vargas, the officer set to lead PATHE, currently serves as the deputy director of Los Angeles' Fusion Center. Vargas oversaw the surveillance of protesters during the George Floyd Uprisings, proving that the criterion for his qualification is his effectiveness in targeting Black and Brown Angelenos and his desire to quell dissent.

This is also obviously another attempt by the LAPD to grow their massive budget. As with so many of the harmful programs the LAPD has in its arsenal, PATHE will initially be funded by a grant but will inevitably find its way as a line item proposal by the LAPD. PATHE runs contrary to the public's calls to defund the police.

Additionally, this week the LA Times unveiled the fact that Chief Moore's security detail illegally detained an individual during Moore's visit to France in anticipation of the wholly unwanted 2028 Summer Olympics. An individual in Chief Moore's party wrongly accused a French Civilian of stealing their phone, leading to LAPD officers detaining a French person in France. This embarrassing episode of unchecked bad behavior by the LAPD is emblematic of their uncontrollable inclination toward violence and brutalization. It's so telling that the LAPD felt comfortable detaining someone in ANOTHER COUNTRY. Chief Moore couldn't manage or restrain two officers in his security detail, how could he possibly manage to oversee the most murderous police department in the country.

Regarding public comment - let people speak after agenda items! The community must have input on agenda items after hearing additional information on the item; it is through fear of public knowledge and public comment that the Police Commission does not currently allow this.

Decrease Moore's time and open up public comment, with no restrictions on number of

speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say. Resume in-person meetings immediately, but keep a virtual public-comment option for people who can't or don't want to show up in person.

Commissioners,

Chief Moore and other City officials held a press conference this past Thursday to further sensationalize recent instances of property crime. Chief Moore used this press conference to push the narrative that the city has devolved into pandemonium, even though robberies in the city of Los Angeles are down more than 7% from last year and almost 25% from 2019. He then used these instances of property crime to attack the people's hard won Zero Bail Policy and to sow fear among Angelenos. Attacking the Zero Bail Policy serves only to regress the progressive efforts put forward by organizers in this city. As a recently released statement by BLM-Los Angeles states "Holding people in jail doesn't reduce crime or improve lives but comes at a tremendous price to taxpayers". It's clear that Moore's continued fear-mongering is an attempt to justify his ridiculous proposed 12% increase to the LAPD budget. We reject these attempts to undermine the will of community members and we reject Chief Moore's pathetic attempts at spreading terror to strengthen his murderous police force.

Item 3D on the agenda is a vote on the approval of a \$250,000 Targeted Violence Terrorism Prevention (TVTP) grant. The TVTP grant is just the most recent rebranding of the Countering Violent Extremism (CVE) grant that Angelenos, primarily educators, rejected in 2018.
