Commissioners,

In the 6-½ weeks between December 18th 2021 and February 1st 2022, LAPD killed four young people who appeared to be in the midst of a mental health crisis - Jonathan Murillo-Nix (28), Enrique Ruiz Jr. (33), Daniel Elena-Lopez Jr. (24), Margarito Lopez Jr. (22). In each of these cases, cops responded to these young people in crisis by killing them, and in killing Daniel Elena-Lopez, LAPD also shot through a wall into a changing room, killing 14-year-old Valentina Orellana-Peralta.

Amidst these police murders, LAPD attempts to cover up its own brutality and inhumanity, lying about police actions and attempting to re-write the narrative as neighborhoods and families are left with the repercussions of an ableist and violent police response. In an interview with KTLA on February 1st, LAPD's Michel Moore attempted to revise the narrative by indicating that 14-year-old Valentina Orellana-Peralta was killed as her mother tried to "shield her from an attack of a person suffering from mental illness," and calling this "yet another episode of law enforcement being called in to stop the violence, stop the threat." This is far different from reality and how police rushed in and escalated the violence, killing Daniel and Valentina, then failed to check on Valentina and her mother Soledad Peralta, [even as Soledad screamed for help](#).

It is a pattern for Moore to refer to folks with mental illness or who are in crisis as threats or in ableist and derogatory terms; referring to people as being "mentally deranged," and speaking of "random attacks," while failing to acknowledge that in a community where health care services and support were accessible and affordable on an ongoing basis, there would likely be a decrease in the number of folks in crisis. Instead, Moore blames mental health care services, indicating it is a failure in which people with mental illness are "released" and "end up being back in our communities." We reject carceral and ableist responses to folks with mental illness, and demand funding and investment in life-affirming services and care! Defund and abolish LAPD!

For item 3A, we reject the grant for \$2.5M over 5 years, putting 20 additional cops in the Harvard Park and South Park CSPs, or “Community Safety Partnership” sites. In 2020 LAPD conducted so-called “safety assessments” at Harvard Park and South Park CSP sites, and the recommendation for each was to add more cameras. The assessments were conducted by LAPD alone, though the department seeks to add the guise of community, by using grant money to “stabilize advisory councils” and include select community members, who must follow the direction of LAPD. Community policing is surveillance and infiltration, funding the salaries of cops while that money could go to the community instead. Community policing is not safety - defund CSP!

Finally: At last week’s meeting, LAPD’s John McMahon indicated LAPD has not been in compliance with the existing ALPR policy, created in 2020, and would not know if the records were being accessed improperly, nor would they have been able to conduct an audit. He then reassured us that with a new system, using Vigilant Solutions, LAPD would be “in an excellent position to comply,” meaning it is apparently still uncertain.

McMahon further stated “I heard the term fusion center come up. This data is currently not shared with them,” however:

-
-
- LAPD has had a data-sharing agreement with local fusion center JRIC, or
- Joint Regional Intelligence Center
- since 2011
-
-
-
- LAPD has been in an agreement with the FBI, LASD, LBPB, DHS, and additional agencies to centralize information at JRIC
- since at least 2012
-
-
-
- A
- [Palantir](#)
- [Guide obtained by Muckrock](#) indicates that in 2016, LAPD was sharing ALPR data with the Northern California
- Regional Intelligence Center (NCRIC)
-

The LAPD are liars and they do not care about policies. Defund and dismantle Automatic License Plate Readers! Defund LAPD!

Decrease Moore’s time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Best,

Dear Commissioners,

In the 6-½ weeks between December 18th 2021 and February 1st 2022, LAPD killed four young people who appeared to be in the midst of a mental health crisis - Jonathan Murillo-Nix (28), Enrique Ruiz Jr. (33), Daniel Elena-Lopez Jr. (24), Margarito Lopez Jr. (22). In each of these cases, cops responded to these young people in crisis by killing them, and in killing Daniel Elena-Lopez, LAPD also shot through a wall into a changing room, killing 14-year-old Valentina Orellana-Peralta.

Amidst these police murders, LAPD attempts to cover up its own brutality and inhumanity, lying about police actions and attempting to re-write the narrative as neighborhoods and families are left with the repercussions of an ableist and violent police response. In an interview with KTLA on February 1st, LAPD's Michel Moore attempted to revise the narrative by indicating that 14-year-old Valentina Orellana-Peralta was killed as her mother tried to "shield her from an attack of a person suffering from mental illness," and calling this "yet another episode of law enforcement being called in to stop the violence, stop the threat." This is far different from reality and how police rushed in and escalated the violence, killing Daniel and Valentina, then failed to check on Valentina and her mother Soledad Peralta, [even as Soledad screamed for help](#).

It is a pattern for Moore to refer to folks with mental illness or who are in crisis as threats or in ableist and derogatory terms; referring to people as being "mentally deranged," and speaking of "random attacks," while failing to acknowledge that in a community where health care services and support were accessible and affordable on an ongoing basis, there would likely be a decrease in the number of folks in crisis. Instead, Moore blames mental health care services, indicating it is a failure in which people with mental illness are "released" and "end up being back in our communities." We reject carceral and ableist responses to folks with mental illness, and demand funding and investment in life-affirming services and care! Defund and abolish LAPD!

For item 3A, we reject the grant for \$2.5M over 5 years, putting 20 additional cops in the Harvard Park and South Park CSPs, or “Community Safety Partnership” sites. In 2020 LAPD conducted so-called “safety assessments” at Harvard Park and South Park CSP sites, and the recommendation for each was to add more cameras. The assessments were conducted by LAPD alone, though the department seeks to add the guise of community, by using grant money to “stabilize advisory councils” and include select community members, who must follow the direction of LAPD. Community policing is surveillance and infiltration, funding the salaries of cops while that money could go to the community instead. Community policing is not safety - defund CSP!

Finally: At last week’s meeting, LAPD’s John McMahon indicated LAPD has not been in compliance with the existing ALPR policy, created in 2020, and would not know if the records were being accessed improperly, nor would they have been able to conduct an audit. He then reassured us that with a new system, using Vigilant Solutions, LAPD would be “in an excellent position to comply,” meaning it is apparently still uncertain.

McMahon further stated "I heard the term fusion center come up. This data is currently not shared with them," however:

-
-
- LAPD has had a data-sharing agreement
- with local fusion center JRIC, or Joint
- Regional Intelligence Center since

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Commissioners,

In the 6-½ weeks between December 18th 2021 and February 1st 2022, LAPD killed four young people who appeared to be in the midst of a mental health crisis - Jonathan Murillo-Nix (28), Enrique Ruiz Jr. (33), Daniel Elena-Lopez Jr. (24), Margarito Lopez Jr. (22). In each of these cases, cops responded to these young people in crisis by killing them, and in killing Daniel Elena-Lopez, LAPD also shot through a wall into a changing room, killing 14-year-old Valentina Orellana-Peralta.

Amidst these police murders, LAPD attempts to cover up its own brutality and inhumanity, lying about police actions and attempting to re-write the narrative as neighborhoods and families are left with the repercussions of an ableist and violent police response. In an interview with KTLA on February 1st, LAPD's Michel Moore attempted to revise the narrative by indicating that 14-year-old Valentina Orellana-Peralta was killed as her mother tried to "shield her from an attack of a person suffering from mental illness," and calling this "yet another episode of law enforcement being called in to stop the violence, stop the threat." This is far different from reality and how police rushed in and escalated the violence, killing Daniel and Valentina, then failed to check on Valentina and her mother Soledad Peralta, [even as Soledad screamed for help](#).

It is a pattern for Moore to refer to folks with mental illness or who are in crisis as threats or in ableist and derogatory terms; referring to people as being "mentally deranged," and speaking of "random attacks," while failing to acknowledge that in a community where health care services and support were accessible and affordable on an ongoing basis, there would likely be a decrease in the number of folks in crisis. Instead, Moore blames mental health care services, indicating it is a failure in which people with mental illness are "released" and "end up being back in our communities." We reject carceral and ableist responses to folks with mental illness, and demand funding and investment in life-affirming services and care! Defund and abolish LAPD!

For item 3A, we reject the grant for \$2.5M over 5 years, putting 20 additional cops in the Harvard Park and South Park CSPs, or “Community Safety Partnership” sites. In 2020 LAPD conducted so-called “safety assessments” at Harvard Park and South Park CSP sites, and the recommendation for each was to add more cameras. The assessments were conducted by LAPD alone, though the department seeks to add the guise of community, by using grant money to “stabilize advisory councils” and include select community members, who must follow the direction of LAPD. Community policing is surveillance and infiltration, funding the salaries of cops while that money could go to the community instead. Community policing is not safety - defund CSP!

Finally: At last week’s meeting, LAPD’s John McMahon indicated LAPD has not been in compliance with the existing ALPR policy, created in 2020, and would not know if the records were being accessed improperly, nor would they have been able to conduct an audit. He then reassured us that with a new system, using Vigilant Solutions, LAPD would be “in an excellent position to comply,” meaning it is apparently still uncertain.

McMahon further stated “I heard the term fusion center come up. This data is currently not shared with them,” however:

- LAPD has had a data-sharing agreement with local fusion center JRIC, or Joint Regional Intelligence Center since 2011
- LAPD has been in an agreement with the FBI, LASD, LBPD, DHS, and additional agencies to centralize information at JRIC since at least 2012
- A [Palantir Guide obtained by Muckrock](#) indicates that in 2016, LAPD was sharing ALPR data with the Northern California Regional Intelligence Center (NCRIC)

The LAPD are liars and they do not care about policies. Defund and dismantle Automatic License Plate Readers! Defund LAPD!

Decrease Moore’s time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Commissioners,

Here we are, a month into a new year and we're seeing our communities suffer from the same violence from LAPD and your body continuing to not hold Chief Moore accountable.

In the 6-½ weeks between December 18th 2021 and February 1st 2022, LAPD killed four young people who appeared to be in the midst of a mental health crisis - Jonathan Murillo-Nix (28), Enrique Ruiz Jr. (33), Daniel Elena-Lopez Jr. (24), Margarito Lopez Jr. (22). In each of these cases, cops responded to these young people in crisis by killing them, and in killing Daniel Elena-Lopez, LAPD also shot through a wall into a changing room, killing 14-year-old Valentina Orellana-Peralta.

Amidst these police murders, LAPD attempts to cover up its own brutality and inhumanity, lying about police actions and attempting to re-write the narrative as neighborhoods and families are left with the repercussions of an ableist and violent police response. In an interview with KTLA on February 1st, LAPD's Michel Moore attempted to revise the narrative by indicating that 14-year-old Valentina Orellana-Peralta was killed as her mother tried to "shield her from an attack of a person suffering from mental illness," and calling this "yet another episode of law enforcement being called in to stop the violence, stop the threat." This is far different from reality and how police rushed in and escalated the violence, killing Daniel and Valentina, then failed to check on Valentina and her mother Soledad Peralta, [even as Soledad screamed for help](#).

It is a pattern for Moore to refer to folks with mental illness or who are in crisis as threats or in ableist and derogatory terms; referring to people as being "mentally deranged," and speaking of "random attacks," while failing to acknowledge that in a community where health care services and support were accessible and affordable on an ongoing basis, there would likely be a decrease in the number of folks in crisis. Instead, Moore blames mental health care services, indicating it is a failure in which people with mental illness are "released" and "end up being back in our communities." We reject carceral and ableist responses to folks with mental illness, and demand funding and investment in life-affirming services and care! Defund and abolish LAPD!

For item 3A, we reject the grant for \$2.5M over 5 years, putting 20 additional cops in the Harvard Park and South Park CSPs, or "Community Safety Partnership" sites. In 2020 LAPD conducted so-called "safety assessments" at Harvard Park and South Park CSP sites, and the recommendation for each was to add more cameras. ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Commissioners,

In the 6-½ weeks between December 18th 2021 and February 1st 2022, LAPD killed four young people who appeared to be in the midst of a mental health crisis - Jonathan Murillo-Nix (28), Enrique Ruiz Jr. (33), Daniel Elena-Lopez Jr. (24), Margarito Lopez Jr. (22). In each of these cases, cops responded to these young people in crisis by killing them, and in killing Daniel Elena-Lopez, LAPD also shot through a wall into a changing room, killing 14-year-old Valentina Orellana-Peralta.

Amidst these police murders, LAPD attempts to cover up its own brutality and inhumanity, lying about police actions and attempting to re-write the narrative as neighborhoods and families are left with the repercussions of an ableist and violent police response. In an interview with KTLA on February 1st, LAPD's Michel Moore attempted to revise the narrative by indicating that 14-year-old Valentina Orellana-Peralta was killed as her mother tried to "shield her from an attack of a person suffering from mental illness," and calling this "yet another episode of law enforcement being called in to stop the violence, stop the threat." This is far different from reality and how police rushed in and escalated the violence, killing Daniel and Valentina, then failed to check on Valentina and her mother Soledad Peralta, [even as Soledad screamed for help](#).

It is a pattern for Moore to refer to folks with mental illness or who are in crisis as threats or in ableist and derogatory terms; referring to people as being "mentally deranged," and speaking of "random attacks," while failing to acknowledge that in a community where health care services and support were accessible and affordable on an ongoing basis, there would likely be a decrease in the number of folks in crisis. Instead, Moore blames mental health care services, indicating it is a failure in which people with mental illness are "released" and "end up being back in our communities." **As a licensed clinical psychologist in California, I am horrified that our sheriff leadership has such inaccurate, carceral and ableist responses to folks with mental illness. It is clear that this person entirely lacks the knowledge to be given responsibility**

and power in our community around safety. I wholeheartedly urge funding and investment in life-affirming services and care to effectively support the community! It is extremely dangerous and ineffective (as ample data repeatedly demonstrates) to continue to rely on LAPD as custodians of these endeavors. We must put our money towards evidence-based solutions- there is plenty of wasted money, or money going towards violence promotion, that we can reallocate away from LAPD immediately!

Regarding item 3A, we reject the grant for \$2.5M over 5 years, putting 20 additional cops in the Harvard Park and South Park CSPs, or “Community Safety Partnership” sites. In 2020 LAPD conducted so-called “safety assessments” at Harvard Park and South Park CSP sites, and the recommendation for each was to add more cameras. The assessments were conducted by LAPD alone, though the department seeks to add the guise of community, by using grant money to “stabilize advisory councils” and include select community members, who must follow the direction of LAPD. Community policing is surveillance and infiltration, funding the salaries of cops while that money could go to the community instead. **Community policing is not safety - defund CSP!**

Finally: At last week’s meeting, LAPD’s John McMahon indicated LAPD has not been in compliance with the existing ALPR policy, created in 2020, and would not know if the records were being accessed improperly, nor would they have been able to conduct an audit. He then reassured us that with a new system, using Vigilant Solutions, LAPD would be “in an excellent position to comply,” meaning it is apparently still uncertain.

McMahon further stated "I heard the term fusion center come up. This data is currently not shared with them," however:

-
-
- LAPD has had a data-sharing agreement with local fusion center JRIC, or
- Joint Regional Intelligence Center
- since 2011
-
-
-
- LAPD has been in an agreement with the FBI, LASD, LBPD, DHS, and additional agencies to centralize information
- at JRIC since at least 2012

-

The LAPD are liars and they do not care about policies. Defund and dismantle Automatic License Plate Readers! Defund LAPD!

These meetings are advised as community oversight, but in order for this to be true you must make public comment more accessible and prioritized. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say. Thus we ask that you expand and prioritize public comment, and commit to consideration of the community expertise of lived experience. As a clinical

psychologist, we know that lived experience is the highest wisdom, which can be coupled with the skills and techniques of a professional collaboratively for best results, but these tools cannot be used without collaborative input if the goal is truly to improve the lives of community members and ensure efficacy of the systems under which they exist.

Sincerely,
Dr. Laura Adery, Ph.D.

In an interview with KTLA on February 1st, LAPD's Michel Moore attempted to revise the narrative by indicating that 14-year-old Valentina Orellana-Peralta was killed as her mother tried to "shield her from an attack of a person suffering from mental illness," and calling this "yet another episode of law enforcement being called in to stop the violence, stop the threat." This is far different from reality and how police rushed in and escalated the violence, killing Daniel and Valentina, then failed to check on Valentina and her mother Soledad Peralta, even as Soledad screamed for help.

It is a pattern for Moore to refer to folks with mental illness or who are in crisis as threats or in ableist and derogatory terms; referring to people as being "mentally deranged," and speaking of "random attacks," while failing to acknowledge that in a community where health care services and support were accessible and affordable on an ongoing basis, there would likely be a decrease in the number of folks in crisis. Instead, Moore blames mental health care services, indicating it is a failure in which people with mental illness are "released" and "end up being back in our communities." We reject carceral and ableist responses to folks with mental illness, and demand funding and investment in life-affirming services and care! Defund and abolish LAPD!

For item 3A, we reject the grant for \$2.5M over 5 years, putting 20 additional cops in the Harvard Park and South Park CSPs, or "Community Safety Partnership" sites. In 2020 LAPD conducted so-called "safety assessments" at Harvard Park

and South Park CSP sites, and the recommendation for each was to add more cameras. The assessments were conducted by LAPD alone, though the department seeks to add the guise of community, by using grant money to “stabilize advisory councils” and include select community members, who must follow the direction of LAPD. Community policing is surveillance and infiltration, funding the salaries of cops while that money could go to the community instead. Community policing is not safety - defund CSP!

Finally: At last week’s meeting, LAPD’s John McMahon indicated LAPD has not been in compliance with the existing ALPR policy, created in 2020, and would not know if the records were being accessed improperly, nor would they have been able to conduct an audit. He then reassured us that with a new system, using Vigilant Solutions, LAPD would be “in an excellent position to comply,” meaning it is apparently still uncertain.

McMahon further stated "I heard the term fusion center come up. This data is currently not shared with them," however:

LAPD has had a data-sharing agreement with local fusion center JRIC, or Joint Regional Intelligence Center since 2011

LAPD has been in an agreement with the FBI, LASD, LBPD, DHS, and additional agencies to centralize information at JRIC since at least 2012

A Palantir Guide obtained by Muckrock indicates that in 2016, LAPD was sharing ALPR data with the Northern California Regional Intelligence Center (NCRIC)

The LAPD are liars and they do not care about policies. Defund and dismantle Automatic License Plate Readers! Defund LAPD!

Decrease Moore’s time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Fuck off,
Jason Reedy

Commissioners,

In the 6-½ weeks between December 18th 2021 and February 1st 2022, LAPD killed four young people who appeared to be in the midst of a mental health crisis - Jonathan Murillo-Nix (28), Enrique Ruiz Jr. (33), Daniel Elena-Lopez Jr. (24), Margarito Lopez Jr. (22). In each of these cases, cops responded to these young people in crisis by killing them, and in killing Daniel Elena-Lopez, LAPD also shot through a wall into a changing room, killing 14-year-old Valentina Orellana-Peralta.

Amidst these police murders, LAPD attempts to cover up its own brutality and inhumanity, lying about police actions and attempting to re-write the narrative as neighborhoods and families are left with the repercussions of an ableist and violent police response. In an interview with KTLA on February 1st, LAPD's Michel Moore attempted to revise the narrative by indicating that 14-year-old Valentina Orellana-Peralta was killed as her mother tried to "shield her from an attack of a person suffering from mental illness," and calling this "yet another episode of law enforcement being called in to stop the violence, stop the threat." This is far different from reality and how police rushed in and escalated the violence, killing Daniel and Valentina, then failed to check on Valentina and her mother Soledad Peralta, [even as Soledad screamed for help](#).

Subject: Public comment for Police Commission, Feb 7th 2022

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Hello,

The Feb. 1st Police Commission Meeting was the second in recent weeks when LAPD outright stated that it just hasn't been following policy set by BOPC; another recent time being when the OIG reviewed the audit of Non-categorical use of Force (NCUOF) for q1 2021, and revealed that LAPD has not been following a policy regarding this since 2012 (I think?) when the policy was passed at BOPC: that different cops who are part of a NCUOF, fill out different forms, not share one form.

On Feb. 1st 2022 though, it was regarding Automatic License Plate Readers, that LAPD has been using in some capacity since about 2005, but that it only developed a policy on in 2020 (which was likely voted through by BOPC as usual, with a round of congratulations to all, on how the system is working). At last week's meeting though LAPD indicated, out of the mouth of McMahon, that they have not been able to check if the data has been accessed improperly, due to the "antiquated" nature of the system - and for that same reason, an audit has not been possible - which makes one wonder, WTF did LAPD agree to the Dec 2020 policy? Did they not read the policy, or understand the limits of their own system? Oh wait they knew it wouldn't really matter.

Then last week McMahon further stated, LAPD does not share this ALPR data with fusion centers... this is so highly unlikely, as this is the reason these data systems exist, and why LAPD signed with Palantir and with JRIC, the nearest fusion center, to be able to quickly and seamlessly share info. What the hell is LAPD talking about.

What liars, which is never surprising, but wow commissioners. You cannot trust LAPD, they will never change, and they must be defunded.

Also Moore stop dehumanizing and degrading folks that are unhoused, and that are experiencing mental illness! This is ableist, anti-poor, and disgusting.

Further, I agree with and lift all of the below.

In the 6-½ weeks between December 18th 2021 and February 1st 2022, LAPD killed four young people who appeared to be in the midst of a mental health crisis - Jonathan Murillo-Nix (28), Enrique Ruiz Jr. (33), Daniel Elena-Lopez Jr. (24), Margarito Lopez Jr. (22). Subject: My Public Comment for the Board of Police Commissioners - 2/7/2022

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Police Commissioners,

In the 6-½ weeks between December 18th 2021 and February 1st 2022, LAPD killed four young people who appeared to be in the midst of a mental health crisis - Jonathan Murillo-Nix (28), Enrique Ruiz Jr. (33), Daniel Elena-Lopez Jr. (24), Margarito Lopez Jr. (22). In each of these cases, cops responded to these young people in crisis by killing them, and in killing Daniel Elena-Lopez, LAPD also shot through a wall into a changing room, killing 14-year-old Valentina Orellana-Peralta.

Amidst these police murders, LAPD attempts to cover up its own brutality and inhumanity, lying about police actions and attempting to re-write the narrative as neighborhoods and families are left with the repercussions of an ableist and violent police response. In an interview with KTLA on February 1st, LAPD's Michel Moore attempted to revise the narrative by indicating that 14-year-old Valentina Orellana-Peralta was killed as her mother tried to "shield her from an attack of a person suffering from mental illness," and calling this "yet another episode of law enforcement being called in to stop the violence, stop the threat." This is far different from reality and how police rushed in and escalated the violence, killing Daniel and Valentina, then failed to check on Valentina and her mother Soledad Peralta, even as Soledad screamed for help.

It is a pattern for Moore to refer to folks with mental illness or who are in crisis as threats or in ableist and derogatory terms; referring to people as being "mentally deranged," and speaking of "random attacks," while failing to acknowledge that in a community where health care services and support were accessible and affordable on an ongoing basis, there would likely be a decrease in the number of folks in crisis. Instead, Moore blames mental health care services, indicating it is a failure in which people with mental illness are "released" and "end up being back in our communities." We reject carceral and ableist responses to folks with mental illness, and demand funding and investment in life-affirming services and care! Defund and abolish LAPD!

For item 3A, we reject the grant for \$2.5M over 5 years, putting 20 additional cops in the Harvard Park and South Park CSPs, or "Community Safety Partnership" sites. In 2020 LAPD conducted so-called "safety assessments" at Harvard Park

and South Park CSP sites, and the recommendation for each was to add more cameras. The assessments were conducted by LAPD alone, though the department seeks to add the guise of community, by using grant money to “stabilize advisory councils” and include select community members, who must follow the direction of LAPD. Community policing is surveillance and infiltration, funding the salaries of cops while that money could go to the community instead. Community policing is not safety - defund CSP!

Finally: At last week’s meeting, LAPD’s John McMahon indicated LAPD has not been in compliance with the existing ALPR policy, created in 2020, and would not know if the records were being accessed improperly, nor would they have been able to conduct an audit. He then reassured us that with a new system, using Vigilant Solutions, LAPD would be “in an excellent position to comply,” meaning it is apparently still uncertain.

McMahon further stated, "I heard the term fusion center come up. This data is currently not shared with them," however:

- LAPD has had a data-sharing agreement with local fusion center JRIC, or Joint Regional Intelligence Center since 2011
- LAPD has been in an agreement with the FBI, LASD, LBPD, DHS, and additional agencies to centralize information at JRIC since at least 2012
- A Palantir Guide obtained by Muckrock indicates that in 2016, LAPD was sharing ALPR data with the Northern California Regional Intelligence Center (NCRIC)

The LAPD are liars and they do not care about policies. Defund and dismantle Automatic License Plate Readers! Defund LAPD!

Decrease Moore’s time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Disgustedly,

Mayank Keshaviah

It is a pattern for Moore to refer to folks with mental illness or who are in crisis as threats or in ableist and derogatory terms; referring to people as being "mentally deranged," and speaking of "random attacks," while failing to acknowledge that in a community where health care services and support were accessible and affordable on an ongoing basis, there would likely be a decrease in the number of folks in crisis. Instead, Moore blames mental health care services, indicating it is a failure in which people with mental illness are "released" and "end up being back in our communities." We reject carceral and ableist responses to folks with mental illness, and demand funding and investment in life-affirming services and care! Defund and abolish LAPD!

For item 3A, we reject the grant for \$2.5M over 5 years, putting 20 additional cops in the Harvard Park and South Park CSPs, or "Community Safety Partnership" sites. In 2020 LAPD conducted so-called "safety assessments" at Harvard Park and South Park CSP sites, and the recommendation for each was to add more cameras. The assessments were conducted by LAPD alone, though the department seeks to add the guise of

community, by using grant money to “stabilize advisory councils” and include select community members, who must follow the direction of LAPD. Community policing is surveillance and infiltration, funding the salaries of cops while that money could go to the community instead. Community policing is not safety - defund CSP!

Finally: At last week’s meeting, LAPD’s John McMahon indicated LAPD has not been in compliance with the existing ALPR policy, created in 2020, and would not know if the records were being accessed improperly, nor would they have been able to conduct an audit. He then reassured us that with a new system, using Vigilant Solutions, LAPD would be “in an excellent position to comply,” meaning it is apparently still uncertain.

McMahon further stated "I heard the term fusion center come up. This data is currently not shared with them," however:

-
-
- LAPD has had a data-sharing agreement with local fusion center
- JRIC, or Joint Regional Intelligence Center
- since 2011
-
-
-
- LAPD has been in an agreement with the FBI, LASD, LBPB, DHS,
- and additional agencies to centralize information at JRIC since at least 2012
-
-
-
- A
- [Palantir](#)
- [Guide obtained by Muckrock](#) indicates that in
- 2016, LAPD was sharing ALPR data with the Northern California Regional Intelligence Center (NCRIC)
-

The LAPD are liars and they do not care about policies. Defund and dismantle Automatic License Plate Readers! Defund LAPD!

Decrease Moore’s time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,
Anna Montgomery

Commissioners,

In the 6-½ weeks between December 18th 2021 and February 1st 2022, LAPD killed four young people who appeared to be in the midst of a mental health crisis - Jonathan Murillo-Nix (28), Enrique Ruiz Jr. (33), Daniel Elena-Lopez Jr. (24), Margarito Lopez Jr. (22). In each of these cases, cops responded to these young people in crisis by killing them, and in killing Daniel Elena-Lopez, LAPD also shot through a wall into a changing room, killing 14-year-old Valentina Orellana-Peralta.

Amidst these police murders, LAPD attempts to cover up its own brutality and inhumanity, lying about police actions and attempting to re-write the narrative as neighborhoods and families are left with the repercussions of an ableist and violent police response. In an interview with KTLA on February 1st, LAPD's Michel Moore attempted to revise the narrative by indicating that 14-year-old Valentina Orellana-Peralta was killed as her mother tried to "shield her from an attack of a person suffering from mental illness," and calling this "yet another episode of law enforcement being called in to stop the violence, stop the threat." This is far different from reality and how police rushed in and escalated the violence, killing Daniel and Valentina, then failed to check on Valentina and her mother Soledad Peralta, [even as Soledad screamed for help](#).

It is a pattern for Moore to refer to folks with mental illness or who are in crisis as threats or in ableist and derogatory terms; referring to people as being "mentally deranged," and speaking of "random attacks," while failing to acknowledge that in a community where health care services and support were accessible and affordable on an ongoing basis, there would likely be a decrease in the number of folks in crisis. ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Commissioners,

I'm sitting here this morning thinking about the families of all those murdered by LAPD. Do you think of them while you're doing your jobs? In the 6-½ weeks between December 18th 2021 and February 1st 2022, LAPD killed four young people who appeared to be in the midst of a mental health crisis - Jonathan Murillo-Nix (28), Enrique Ruiz Jr. (33), Daniel Elena-Lopez Jr. (24), Margarito Lopez Jr. (22). In each of these cases, cops responded to these young people in crisis by killing them, and in killing Daniel Elena-Lopez, LAPD also shot through a wall into a changing room, killing 14-year-old Valentina Orellana-Peralta. Families now live with the loss of these human beings, while you raise more and more funds to put cops on the street to kill people who need help. Stop. Just stop!

Amidst these police murders, LAPD attempts to cover up its own brutality and inhumanity, lying about police actions and attempting to re-write the narrative as neighborhoods and families are left with the repercussions of an **ableist and violent police response**. Ableist in that someone experiencing a mental health crisis needs support and care, not to have someone with a gun end their lives.

In an interview with KTLA on February 1st, LAPD's Michel Moore attempted to revise the narrative by indicating that 14-year-old Valentina Orellana-Peralta was killed as her mother tried to "shield her from an attack of a person suffering from mental illness," and calling this "yet another episode of law enforcement being called in to stop the violence, stop the threat." **This is far different from reality and how police rushed in and escalated the violence, killing Daniel and Valentina, then failed to check on Valentina and her mother Soledad Peralta, [even as Soledad screamed for help](#).**

It is a pattern for Moore to refer to folks with mental illness or who are in crisis as threats or in ableist and derogatory terms; referring to people as being "mentally deranged," and speaking of "random attacks," while **failing to acknowledge that in a community where health care services and support were**

accessible and affordable on an ongoing basis, there would likely be a decrease in the number of folks in crisis. Instead, Moore blames mental health care services, indicating it is a failure in which people with mental illness are “released” and “end up being back in our communities.” **We reject carceral and ableist responses to folks with mental illness, and demand funding and investment in life-affirming services and care! Defund and abolish LAPD!**

For item 3A, we reject the grant for \$2.5M over 5 years, putting 20 additional cops in the Harvard Park and South Park CSPs, or “Community Safety Partnership” sites. **NO MORE FUNDING TO LAPD.** In 2020 LAPD conducted so-called “safety assessments” at Harvard Park and South Park CSP sites, and the recommendation for each was to add more cameras. The assessments were conducted by LAPD alone, though the department seeks to add the guise of community, by using grant money to “stabilize advisory councils” and include select community members, who must follow the direction of LAPD. Community policing is surveillance and infiltration, funding the salaries of cops while that money could go to the community instead. Community policing is not safety - defund CSP!

Finally: At last week’s meeting, LAPD’s John McMahon indicated LAPD has not been in compliance with the existing ALPR policy, created in 2020, and would not know if the records were being accessed improperly, nor would they have been able to conduct an audit. He then reassured us that with a new system, using Vigilant Solutions, LAPD would be “in an excellent position to comply,” meaning it is apparently still uncertain.

McMahon further stated “I heard the term fusion center come up. This data is currently not shared with them,” however:

-
-

Subject: BOPC Public Comment: 2/8/2022

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Dear Board of Commissioners and City Council Members:

As a citizen of Los Angeles District 11 I'm writing to submit public comments to the LAPC Meeting.

Agenda Item 3A: Reject \$2.5 Million Grant

Time and time again we have told you the truth that community policing is just a politically friendly term for policing and surveillance and infiltration. It funds the salaries of cops with money that could easily go to the community instead. LAPD does these "safety assessments" independently, in other words, they can make assessment results any way they like. Then they use grant money to have "advisory boards" and include community members who they like and who have to follow LAPD's directions. You need to reject the \$2.5 million grant that would place 20 more cops in the Harvard Park and South Park CSPs. Stop giving millions of more money to LAPD!

General Public Comment: LAPD Lies about ALPRs

At last week's meeting, LAPD's John McMahon indicated LAPD has not been in compliance with the existing ALPR policy, created in 2020, and would not know if the records were being accessed improperly, nor would they have been able to conduct an audit. You're just going to let that lack of accountability slide?!

He then reassured us that with a new system, using Vigilant Solutions, LAPD would be "in an excellent position to comply," meaning it is apparently still uncertain.

McMahon further stated "I heard the term fusion center come up. This data is currently not shared with them," however:

-
-
- LAPD has had a data-sharing agreement with local fusion center JRIC, or
- Joint Regional Intelligence Center
- since 2011

-
-
-
- LAPD has been in an agreement with the FBI, LASD, LBPB, DHS, and additional agencies to centralize information at JRIC
- since at least 2012
-
-
-
- A
- [Palantir](#)
- [Guide obtained by Muckrock](#) indicates that in 2016, LAPD was sharing ALPR data with the Northern California
- Regional Intelligence Center (NCRIC)
-

The LAPD are liars and they do not care about policies. Defund and dismantle Automatic License Plate Readers! Defund LAPD!

General Public Comment: LAPD's Murder Spree

LAPD continues to kill more and more people, most of whom were in crisis and needed to be helped, not killed. LAPD and Chief Moore in turn try to change the narrative, blaming the killing of Valentina Orellana-Peralta on someone "suffering from mental illness" instead of the LAPD officer who ignored commands to stop shooting and killed her. This is far different from reality and how police rushed in and escalated the violence, killing Daniel and Valentina, then failed to check on Valentina and her mother Soledad Peralta, [even as Soledad screamed for help](#). LAPD attempts to cover up its own brutality and inhumanity, lying about police actions and attempting to re-write the narrative as neighborhoods and families are left with the repercussions of an ableist and violent police response.

General Public Comment: Chief Moore Referring to Those With Mental Illness with Derogatory Terms

It is a pattern for Moore to refer to folks with mental illness or who are in crisis as threats or in ableist and derogatory terms; referring to people as being "mentally deranged," and speaking of "random attacks," while failing to acknowledge that in a community where health care services and support were accessible and affordable on an ongoing basis, there would likely be a decrease in the number of folks in crisis. Other cities like Eugene, Albuquerque, and Denver have had much success in creating alternatives to police in which trained mental health professionals respond to emergency calls - and there has been zero people killed. Still, you and LAPD continue to perpetuate the lie that police are the only form of crisis response, even though they continue to kill people. Then, while you won't consider giving any funding over to possible mental health crisis response workers or alternatives to police, Chief Moore blames mental health care services, indicating it is a failure in which people with mental illness are "released" and "end up being back in our communities." We reject carceral and ableist responses to folks with mental illness, and demand funding and investment in life-affirming services and care! Defund and abolish LAPD!

General Public Comment: Public Comment Limitations

Stop capping your meetings' public comment period at a mere forty-five minutes. You give 45 minutes for public comment from a city of 4 million people. Despite your weekly protestations to the contrary, you are silencing the voices of Angelenos by limiting who can speak at your meetings, and for how long.

Let people speak after each agenda item; the other way doesn't make sense.

Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

General Public Comment: LAPC Meeting Time

Why are these meetings held at the same time as City Council and Board of Supervisor meetings? Can we please change the meeting time so more people can participate in the meetings?

Sincerely,
Sarah Bowers

Commissioners,

TLDR: defund LAPD and shame on you.

In the six and a half weeks between December 18th 2021 and February 1st 2022, LAPD killed four young people who appeared to be in the midst of a mental health crisis: Jonathan Murillo-Nix (28), Enrique Ruiz Jr. (33), Daniel Elena-Lopez Jr. (24), and Margarito Lopez Jr. (22). In each of these cases, cops responded to these young people in crisis by killing them, and in killing Daniel Elena-Lopez, LAPD also shot through a wall into a changing room, thereby ALSO murdering 14-year-old Valentina Orellana-Peralta.

Amidst these police murders, LAPD attempts to cover up its own brutality and inhumanity, lying about police actions and attempting to re-write the narrative as neighborhoods and families are left with the repercussions of an ableist and violent police response. In an interview with KTLA on February 1st, Chief Michel "Musty Mike" Moore attempted to revise the narrative, stating that Orellana-Peralta was killed as her mother tried to "shield her from an attack of a person suffering from mental illness," and calling this "yet another episode of law enforcement being called in to stop the violence, stop the threat." This is baloney. What actually happened is that police rushed in and escalated the violence, killing Daniel and Valentina, then failed to check on Valentina and her mother, Soledad Peralta, even as Ms. Peralta screamed for help.

It is a pattern for Moore to refer to folks with mental illness or who are in crisis as threats, or in ableist and derogatory terms; referring to people as being "mentally deranged," and speaking of "random attacks," while failing to acknowledge that in a community where health care services and support were accessible and affordable on an ongoing basis, there would likely be a decrease in the number of folks in crisis. Instead, Moore blames mental health care services for a situation in which people with mental illness are "released" and "end up being back in our communities." We reject carceral and ableist responses to people with mental illness, and demand funding and investment in life-affirming services and care! Defund and abolish LAPD.

For item 3A, we reject the grant for \$2.5M over 5 years, putting 20 additional cops in the Harvard Park and South Park

CSPs. In 2020 LAPD conducted so-called “safety assessments” at Harvard Park and South Park CSP sites, and the recommendation for each was to add more cameras. The assessments were conducted by LAPD alone, though the department wants to pretend that they had community input, by using grant money to “stabilize advisory councils” and including select community members (who compliantly follow the direction of LAPD). Community policing is surveillance and infiltration, funding the salaries of cops while that money could go to the community instead. Community policing is not safety - defund CSP.

Finally: At last week’s meeting, LAPD’s John McMahon indicated that LAPD has not been in compliance with the existing ALPR policy, created in 2020, and would not know if records were being accessed improperly, nor would they have been able to conduct an audit. He then reassured us that with a new system, using Vigilant Solutions, LAPD would be “in an excellent position to comply,” meaning it is apparently still uncertain.

McMahon further stated "I heard the term 'fusion center' come up. This data is currently not shared with them," however:

LAPD has had a data-sharing agreement with local fusion center JRIC, or Joint Regional Intelligence Center since 2011

LAPD has been in an agreement with the FBI, LASD, LBPD, DHS, and additional agencies to centralize information at JRIC since at least 2012

A Palantir Guide obtained by Muckrock indicates that in 2016, LAPD was sharing ALPR data with the Northern California Regional Intelligence Center (NCRIC)

Bottom line: LAPD lies, and they do not care about policies. Defund and dismantle Automatic License Plate Readers. Defund LAPD.

Decrease Moore’s time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,
Zach Sherwin

Instead, Moore blames mental health care services, indicating it is a failure in which people with mental illness are "released" and "end up being back in our communities." We reject carceral and ableist responses to folks with mental illness, and demand funding and investment in life-affirming services and care! Defund and abolish LAPD!

For item 3A, we reject the grant for \$2.5M over 5 years, putting 20 additional cops in the Harvard Park and South Park CSPs, or "Community Safety Partnership" sites. In 2020 LAPD conducted so-called "safety assessments" at Harvard Park and South Park CSP sites, and the recommendation for each was to add more

cameras. The assessments were conducted by LAPD alone, though the department seeks to add the guise of community, by using grant money to “stabilize advisory councils” and include select community members, who must follow the direction of LAPD. Community policing is surveillance and infiltration, funding the salaries of cops while that money could go to the community instead. Community policing is not safety - defund CSP!

Finally: At last week’s meeting, LAPD’s John McMahon indicated LAPD has not been in compliance with the existing ALPR policy, created in 2020, and would not know if the records were being accessed improperly, nor would they have been able to conduct an audit. He then reassured us that with a new system, using Vigilant Solutions, LAPD would be “in an excellent position to comply,” meaning it is apparently still uncertain.

McMahon further stated "I heard the term fusion center come up. This data is currently not shared with them," however:

-
-
- LAPD has had a data-sharing agreement with local fusion center JRIC, or
- Joint Regional Intelligence Center
- since 2011
-
-
-
- LAPD has been in an agreement with the FBI, LASD, LBPD, DHS, and additional agencies to centralize information
- at JRIC since at least 2012
-
-
-
- A
- [Palantir](#)
- [Guide obtained by Muckrock](#) indicates that in 2016, LAPD was sharing ALPR data with the Northern California Regional Intelligence Center (NCRIC)
-

The LAPD are liars and they do not care about policies. Defund and dismantle Automatic License Plate Readers! Defund LAPD!

Decrease Moore’s time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,

Commissioners,

In the 6-½ weeks between December 18th 2021 and February 1st 2022, LAPD killed four young people who appeared to be in the midst of a mental health crisis - Jonathan Murillo-Nix (28), Enrique Ruiz Jr. (33), Daniel Elena-Lopez Jr. (24), Margarito Lopez Jr. (22). In each of these cases, cops responded to these young people in crisis by killing them, and in killing Daniel Elena-Lopez, LAPD also shot through a wall into a changing room, killing 14-year-old Valentina Orellana-Peralta.

Amidst these police murders, LAPD attempts to cover up its own brutality and inhumanity, lying about police actions and attempting to re-write the narrative as neighborhoods and families are left with the repercussions of an ableist and violent police response. In an interview with KTLA on February 1st, LAPD's Michel Moore attempted to revise the narrative by indicating that 14-year-old Valentina Orellana-Peralta was killed as her mother tried to "shield her from an attack of a person suffering from mental illness," and calling this "yet another episode of law enforcement being called in to stop the violence, stop the threat." This is far different from reality and how police rushed in and escalated the violence, killing Daniel and Valentina, then failed to check on Valentina and her mother Soledad Peralta, [even as Soledad screamed for help](#).

It is a pattern for Moore to refer to folks with mental illness or who are in crisis as threats or in ableist and derogatory terms; referring to people as being "mentally deranged," and speaking of "random attacks," while failing to acknowledge that in a community where health care services and support were accessible and affordable on an ongoing basis, there would likely be a decrease in the number of folks in crisis. Instead, Moore blames mental health care services, indicating it is a failure in which people with mental illness are "released" and "end up being back in our communities." We reject carceral and ableist responses to folks with mental illness, and demand funding and investment in life-affirming services and care! Defund and abolish LAPD!

To The Police Commissioners, to the Citizens of Los Angeles, to the PRESS, to the Mayor of Los Angeles, Eric Garcetti, and to the Governor of California, Gavin Newsom,

I am a white suburban Mom and a tax payer. I was born in Los Angeles in 1971 and I have spent most of my life naive about policing. However, I do believe that once you know better, you do better. In 2020, citizens across this nation witnessed a police killing. While we watched in shock, the police know that killing is an occupational hazard. The LAPD has a long, deep, sad, and brutal murderous history. However, we have an opportunity to change. And in 2020, mainstream American demanded change, and many wealthy corporations wrote statements in support of this change.

Unfortunately, many every day citizens of Los Angeles regard this Civilian Oversight Committee, as indeed, what it sounds like, a committee of every day citizens who can and will CHECK the power of the police. It is my experience that the LA Police Commission does not oversee with any true commitment towards change that is nonviolent, nor offering healthy alternatives. Instead this Commission appears to be a front to support police policy and practices.

For this reason, I reject the notion of giving more money to the police and do hope that LA City Commissioners, the Mayor and the Governor of California continue to look at long term SOLUTIONS where we INVEST in community programs, NOT more weapons, or men and women in uniform.

PLEASE Reconsider Funding

For item 3A, the grant for \$2.5M over 5 years, putting 20 additional cops in the Harvard Park and South Park CSPs, or “Community Safety Partnership” would be BETTER INVESTED in the community itself.

- We need SOCIAL WORKERS, MENTAL HEALTH PROFESSIONALS, food, water, and shelter! People need access to health care!
- Communities need HELP, not policing.

- Dollar for Dollar, this money needs to be invested in HEALTHY WHOLISTIC approaches. (alternative Community Programs have been outlined in LA City Council Meetings through proposals from community leaders)

We cannot expect police, armed with guns, to create long term solutions to societal ills.

- Los Angeles citizens have been through unprecedented times with Covid-19, and young people are suffering mentally. The LAPD response? TO KILL 4 young people who NEED HELP. Is murder really the best reponse for mental illness?

Since December, The LAPD has recently killed 4 young unarmed and emotionally hurt people, and a 14 year old in the crossfire of a mentally challenged person.

- The media and powerful focus on the uptick of petty crimes and not on the FULL picture of a hurting city.
- There have been recent murders committed by homeless folks who need HELP.

This city needs not to spend 2.5 more million dollars on the police, IN ADDITION to its 8MILLION per day!! Instead, please allocate the 2.5 million dollars towards mental health resources, shelter, water, and food for the homeless who have been struggling in a bitter winter, AND in community programs (outlined in JUSTICE LA and proposed through the LA City Commission) that invest in people’s lives to ensure their well being.

DATA-

ALPR policy was created in 2020.

LAPD has admitted, it is not in compliance.

Finally: At last week’s meeting, (February 2022) LAPD’s John McMahon indicated LAPD has not been in compliance with the existing ALPR policy, and would not know if the records were being accessed improperly, nor would they have been able to conduct an audit.

The LAPD is not aligned with the values of the United States that promises, all men are equal, in the eyes of the law.

It came to light in the summer of 2020 to Americans across the country that men and women in uniform should not be allowed to kill unarmed citizens as part of their “job.”

Commissioners,

In the 6-½ weeks between December 18th 2021 and February 1st 2022, LAPD killed four young people who appeared to be in the midst of a mental health crisis - Jonathan Murillo-Nix (28), Enrique Ruiz Jr. (33), Daniel Elena-Lopez Jr. (24), Margarito Lopez Jr. (22). In each of these cases, cops responded to these young people in crisis by killing them, and in killing Daniel Elena-Lopez, LAPD also shot through a wall into a changing room, killing 14-year-old Valentina Orellana-Peralta.

Amidst these police murders, LAPD attempts to cover up its own brutality and inhumanity, lying about police actions and attempting to re-write the narrative as neighborhoods and families are left with the repercussions of an ableist and violent police response. In an interview with KTLA on February 1st, LAPD's Michel Moore attempted to revise the narrative by indicating that 14-year-old Valentina Orellana-Peralta was killed as her mother tried to "shield her from an attack of a person suffering from mental illness," and calling this "yet another episode of law enforcement being called in to stop the violence, stop the threat." This is far different from reality and how police rushed in and escalated the violence, killing Daniel and Valentina, then failed to check on Valentina and her mother Soledad Peralta, [even as Soledad screamed for help](#).

It is a pattern for Moore to refer to folks with mental illness or who are in crisis as threats or in ableist and derogatory terms; referring to people as being "mentally deranged," and speaking of "random attacks," while failing to acknowledge that in a community where health care services and support were accessible and affordable on an ongoing basis, there would likely be a decrease in the number of folks in crisis. Instead, Moore blames mental health care services, indicating it is a failure in which people with mental illness are "released" and "end up being back in our communities." We reject carceral and ableist responses to folks with mental illness, and demand funding and investment in life-affirming services and care! Defund and abolish LAPD!

For item 3A, we reject the grant for \$2.5M over 5 years, putting 20 additional cops in the Harvard Park and South Park CSPs, or "Community Safety Partnership" sites. In 2020 LAPD conducted so-called "safety assessments" at Harvard Park and South Park CSP sites, and the recommendation for each was to add more

cameras. The assessments were conducted by LAPD alone, though the department seeks to add the guise of community, by using grant money to “stabilize advisory councils” and include select community members, who must follow the direction of LAPD. Community policing is surveillance and infiltration, funding the salaries of cops while that money could go to the community instead. Community policing is not safety - defund CSP!

Finally: At last week’s meeting, LAPD’s John McMahon indicated LAPD has not been in compliance with the existing ALPR policy, created in 2020, and would not know if the records were being accessed improperly, nor would they have been able to conduct an audit. He then reassured us that with a new system, using Vigilant Solutions, LAPD would be “in an excellent position to comply,” meaning it is apparently still uncertain.

McMahon further stated "I heard the term fusion center come up. This data is currently not shared with them," however:

-
-
- LAPD has had a data-sharing agreement with local fusion center JRIC, or
- Joint Regional Intelligence Center
- since 2011
-
-
-
- LAPD has been in an agreement with the FBI, LASD, LBPD, DHS, and additional agencies to centralize information
- at JRIC since at least 2012
-
-
-
- A
- [Palantir](#)
- [Guide obtained by Muckrock](#) indicates that in 2016, LAPD was sharing ALPR data with the Northern California Regional Intelligence Center (NCRIC)
-

The LAPD are liars and they do not care about policies. Defund and dismantle Automatic License Plate Readers! Defund LAPD!

Decrease Moore’s time and open up public comment, with no restrictions on number of speakers and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,

Cody Sloan
