Commissioners,

On the agenda this week is a presentation of LAPD's 2021 "Use of Force" Report. This report is LAPD's attempt to datify and normalize brutalization, assault, shooting, and murder that have been committed by LAPD in the last year, and to give the appearance that police violence is somehow being measured and tracked. In reality, a large volume of violent acts committed by LAPD against community members every year are never reported, or are minimized, denied, or covered over. To indicate that this is being meaningfully measured and reported every year by police is a complete fallacy.

Additionally, LAPD uses these reports to attempt to criminalize those folks against which it is most brutal. Entrenched in white supremacy, LAPD is more violent towards Black, brown, poor, and unhoused communities, as well as folks with mental illness. In its "Use of Force" publications, LAPD attempts to justify its bias by printing its own crime statistics - gathered and kept by police - in an attempt to associate "criminality" with the communities it brutalizes. In doing so, LAPD reminds us how much it has invested in racial profiling and criminalizing entire communities, while claiming "safety" and "transparency." We reject this violent institution and its reports.

In addition: Decrease Moore's time in Police Commission meetings and open up public comment, with no restrictions on the number of speakers, and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,

Mads Gauger

Commissioners,

On the agenda this week is a presentation of LAPD's 2021 "Use of Force" Report. This report is LAPD's attempt to datify and normalize the brutality, assaults, shootings, and murders that have been committed by LAPD in the last year, and to give the appearance that police violence is somehow being measured and tracked. In reality, a large number of the violent acts committed by LAPD against community members every year are never reported, or are minimized, denied, or covered up. It is completely false to imply that this is being meaningfully measured and reported every year by police.

Additionally, LAPD uses these reports as an excuse to criminalize the people to whom it is the most brutal. Entrenched in white supremacy, LAPD is more violent towards Black, brown, poor, and unhoused communities, as well as people with mentally illness. In its "Use of Force" publications, LAPD attempts to justify its bias by printing its own crime statistics-gathered and kept by police- in an attempt to associate "criminality" with the communities it brutalizes. In doing so, LAPD demonstrates how much it has invested in racial profiling and criminalizing entire communities, while claiming "safety" and "transparency." We reject this violent institution and its reports.

In addition: Decrease Moore's time in Police Commission meetings and open up public comment, with no restrictions on the number of speakers, and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,
Catherine Safley

Subject: My Public Comment for the BOPC - April 11, 2022

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

To The Commissioners,

On the agenda this week is a presentation of LAPD's 2021 "Use of Force" Report. This report is LAPD's attempt to quantify and normalize brutalization, assault, shooting, and murder that have been committed by LAPD in the last year, and to give the appearance that police violence is somehow being measured and tracked. In reality, a large volume of violent acts committed by LAPD against community members every year are never reported, or are minimized, denied, or covered over. To indicate that this is being meaningfully measured and reported every year by police is a complete fallacy.

Additionally, LAPD uses these reports to attempt to criminalize those folks against which it has behaved most brutally. Entrenched in white supremacy, LAPD is more violent towards Black, brown, poor, and unhoused communities, as well as folks with mental illness. In its "Use of Force" publications, LAPD attempts to justify its bias by printing its own crime statistics - gathered and kept by police - in an attempt to associate "criminality" with the communities it brutalizes. In doing so, LAPD reminds us how much it has invested in racial profiling and criminalizing entire communities, while claiming "safety" and "transparency." We reject this violent institution and its reports.

In addition, we continue to demand that you decrease Moore's time in Police Commission meetings and open up public comment, with no restrictions on the number of speakers, and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

To whom it may concern:

I see that your agenda includes a 2021 Use of Force report. You've abused the trust of the people of LA and we know that there is no meaningful measurement being done when so many of these "incidents" are not tracked or reported. Why not have an outside agency, completely unrelated and not funded by LAPD, conduct such a report? It is not acceptable or appropriate for such an institution, with its history of extreme violence against every marginalized community, to collect, keep, and analyze its own "checks and balances" reports. Such reports will inevitably be biased and therefore useless. We need transparency. I stand in full agreement and solidarity with the LAPCFails coalition and their comments.

I demand less time given to Moore in the meetings and I demand that these meetings be open to public comment with no restrictions to the # of speakers and no 45 minute time limit. People affected by LAPD's brutality are THE most knowledgeable about the matters before the board, and about their very own neighborhoods. You need to listen to them in order to understand. You need to hear them.

Sincerely,
Annica Stitch

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Dear Board of Commissioners and City Council Members:

As a citizen of Los Angeles District 11 I'm writing to submit public comments to the LAPC Meeting.

Agenda Item 4A

The LAPD annual report has a lot of problems with it, as it always does.

- This report is merely LAPD's attempt to datify and normalize the brutalization, assaults, shootings, and murders that LAPD committed in the past year.
- It gives the appearance that police violence in all of its forms are being tracked and measured. But it isn't. A large volume of violent acts committed by LAPD against community members every year are never reported, or are minimized, denied, or covered over.
- LAPD uses this report each year to criminalize people more.
- LAPD uses the report to justify its bias and disparity in criminalizing and enacting more violence towards Black, brown, poor, and unhoused communities, as well as folks with mental illness. LAPD uses this report as an excuse to invest in racial profiling and criminalization of entire communities, while claiming "safety" and "transparency."

General Public Comment: Public Comment Limitations

Stop capping your meetings' public comment period at a mere forty-five minutes. You give 45 minutes for public comment from a city of 4 million people. Despite your weekly protestations to the contrary, you are silencing the voices of Angelenos by limiting who can speak at your meetings, and for how long.

Let people speak after each agenda item; the other way doesn't make sense.

Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

General Public Comment: LAPC Meeting Time

Why are these meetings held at the same time as City Council and Board of Supervisor meetings? Can we please change the meeting time so more people can participate in the meetings?

Sincerely,
Sarah Bowers

Commissioners,

On the agenda this week is a presentation of LAPD's 2021 "Use of Force" Report. This report is LAPD's attempt to datify and normalize brutalization, assault, shooting, and murder that have been committed by LAPD in the last year, and to give the appearance that police violence is somehow being measured and tracked. In reality, a large volume of violent acts committed by LAPD against community members every year are never reported, or are minimized, denied, or covered over. To indicate that this is being meaningfully measured and reported every year by police is a complete fallacy.

Additionally, LAPD uses these reports to attempt to criminalize those folks against which it is most brutal. Entrenched in white supremacy, LAPD is more violent towards Black, brown, poor, and unhoused communities, as well as folks with mental illness. In its "Use of Force" publications, LAPD attempts to justify its bias by printing its own crime statistics - gathered and kept by police - in an attempt to associate "criminality" with the communities it brutalizes. In doing so, LAPD reminds us how much it has invested in racial profiling and criminalizing entire communities, while claiming "safety" and "transparency." We reject this violent institution and its reports.

In addition: Decrease Moore's time in Police Commission meetings and open up public comment, with no restrictions on the number of speakers, and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,
Ken Barnard

Commissioners,

On the agenda this week is a presentation of LAPD's 2021 "Use of Force" Report. This report is LAPD's attempt to datify and normalize brutalization, assault, shooting, and murder that have been committed by LAPD in the last year, and to give the appearance that police violence is somehow being measured and tracked. In reality, a large volume of violent acts committed by LAPD against community members every year are never reported, or are minimized, denied, or covered over. To indicate that this is being meaningfully measured and reported every year by police is a complete fallacy.

Additionally, LAPD uses these reports to attempt to criminalize those folks against which it is most brutal. Entrenched in white supremacy, LAPD is more violent towards Black, brown, poor, and unhoused communities, as well as folks with mental illness. In its "Use of Force" publications, LAPD attempts to justify its bias by printing its own crime statistics - gathered and kept by police - in an attempt to associate "criminality" with the communities it brutalizes. In doing so, LAPD reminds us how much it has invested in racial profiling and criminalizing entire communities, while claiming "safety" and "transparency." We reject this violent institution and its reports.

In addition: Decrease Moore's time in Police Commission meetings and open up public comment, with no restrictions on the number of speakers, and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,
Lucas O'Connor

Commissioners,

This week's agenda includes a presentation of LAPD's 2021 "Use of Force" Report, which is LAPD's attempt to normalize the brutalization, assault, shooting, and murder that have been committed by LAPD in the last year, and to give the appearance that police violence is somehow being measured and tracked. The reality is that a large portion of the violent acts committed by LAPD against community members every year are not reported, or are minimized, denied, or covered up. To claim that police violence is being accurately measured and reported every year by police is a complete fallacy.

Additionally, LAPD uses these reports to attempt to criminalize those folks who are most impacted by police violence. Entrenched in white supremacy, LAPD is more violent towards Black, brown, poor, and unhoused communities, as well as folks with disabilities or mental illness. In its "Use of Force" publications, LAPD attempts to justify its bias by printing its own crime statistics - gathered and kept by police - in an attempt to associate "criminality" with the communities it brutalizes. In doing so, LAPD reminds us how much it has invested in racial profiling and criminalizing entire communities, while claiming "safety" and "transparency." We reject this violent institution and its reports.

In addition: Decrease Moore's time in Police Commission meetings and open up public comment, with no restrictions on the number of speakers, and no 45-minute time limit. To indicate that this is being meaningfully measured and reported every year by police is a complete fallacy.

Additionally, LAPD uses these reports to attempt to criminalize those folks against which it is most brutal. Entrenched in white supremacy, LAPD is more violent towards Black, brown, poor, and unhoused communities, as well as folks with mental illness. In its "Use of Force" publications, LAPD attempts to justify its bias by printing its own crime statistics - gathered and kept by police - in an attempt to associate "criminality" with the communities it brutalizes. In doing so, LAPD reminds us how much it has invested in racial profiling and criminalizing entire communities, while claiming "safety" and "transparency." We reject this violent institution and its reports.

In addition: Decrease Moore's time in Police Commission meetings and open up public comment, with no restrictions on the number of speakers, and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,

Lizbeth Belli *she/her/hers*

Commissioners,

On the agenda this week is a presentation of LAPD's 2021 "Use of Force" Report. This report is LAPD's attempt to datify and normalize brutalization, assault, shooting, and murder that have been committed by LAPD in the last year, and to give the appearance that police violence is somehow being measured and tracked. In reality, a large volume of violent acts committed by LAPD against community members every year are never reported, or are minimized, denied, or covered over. To indicate that this is being meaningfully measured and reported every year by police is a complete fallacy.

Additionally, LAPD uses these reports to attempt to criminalize those folks against which it is most brutal. Entrenched in white supremacy, LAPD is more violent towards Black, brown, poor, and unhoused communities, as well as folks with mental illness. In its "Use of Force" publications, LAPD attempts to justify its bias by printing its own crime statistics - gathered and kept by police - in an attempt to associate "criminality" with the communities it brutalizes. In doing so, LAPD reminds us how much it has invested in racial profiling and criminalizing entire communities, while claiming "safety" and "transparency." We reject this violent institution and its reports.

In addition: Decrease Moore's time in Police Commission meetings and open up public comment, with no restrictions on the number of speakers, and no 45-minute time limit. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,
Danielle Carne
