Dear Board of Commissioners and City Council Members:

As a citizen of Los Angeles District 11 I'm writing to submit public comments to the LAPC Meeting.

Agenda Item 4B

I'm guessing you're going to try to tell us that LAPD does not engage in immigration enforcement activities even though they work with agencies like FBI, DHS, ICE, and CBP. This is a lie and we know it for the following reasons:

- LAPD constantly engages in data-gathering and surveillance of immigrant communities.
- LAPD's databases and records management system is easily accessible to federal agencies that incarcerate and deport people due to immigration status.
- LAPD's own policing and surveillance disproportionately targets and ensnares immigrant community members and migrants that would otherwise not have come into contact with DHS, ICE, or CBP. As an example, LAPD's Human Trafficking Task Force disproportionately impacts Black, brown, and trans undocumented women and individuals. Suspicious Activity Reports (SARs), neighborhood watch communities, and iWatch, also known as "See Something, Say Something" also disproportionately impact undocumented folks and places immigrant communities at great risk by encouraging and empowering civilians to "follow their gut" and report on anyone they deem suspicious.

As with all law enforcement, Black immigrants from Africa, the Caribbean, and Latin America face the highest rates of immigration detention and deportation due to anti-Black discrimination and racist profiling. All these tools of policing and surveillance are a part of immigration enforcement and how immigrant communities are targeted and policed, all of which is facilitated by LAPD and expanded as its network of surveillance expands.

Agenda Item 5A, #2

Police killed 26-year old Christopher Garcia, a Pacoima community member who was shot multiple times by LAPD. The police escalated what was reported as "reckless driving" into murder. Chris was a beloved family and community member who was known for his love of baseball, which he played and also coached. His murder by police left a gaping hole and did nothing to make the community more safe.

General Public Comment: "Happy Hunting" Remark

Time and time again Chief Moore has said he will "discipline" those officers who break the law or voice racism. What is he going to do with the SWAT officer who told his colleagues "Happy hunting" before they shot a man? How are you going to start holding LAPD accountable rather than just bowing to their continued corrupt lip service?

General Public Comment: Public Comment Limitations

Finally, remove the limitations on public comment! Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

General Public Comment: LAPC Meeting Time

Why are these meetings held at the same time as City Council and Board of Supervisor meetings? Can we please change the meeting time so more people can participate in the meetings?

Sincerely,
Sarah Bowers

Commissioners,

On the agenda this week is the annual report from LAPD regarding Immigration Enforcement, the purpose of which seems to be indicating that LAPD does not engage in immigration enforcement activities, despite participating on a large number of task forces with federal, state, and local law enforcement agencies including FBI, DHS, ICE, and CBP. This is a lie, as LAPD constantly engages in data-gathering and surveillance of immigrant communities and its databases and records management system is easily accessible to federal agencies that incarcerate and deport people due to immigration status. Further, LAPD's own policing and surveillance disproportionately targets and ensnares immigrant community members and migrants that would otherwise not have come into contact with DHS, ICE, or CBP.

For example, the enforcement practices of LAPD's Human Trafficking Task Force disproportionately impacts Black, brown, and trans undocumented women and individuals. Suspicious Activity Reports (SARs) and iWatch, also known as "See Something, Say Something" also disproportionately impact undocumented people and put immigrant communities at great risk by encouraging and empowering civilians to "follow their gut" and report on anyone they deem suspicious.

As with all law enforcement, Black immigrants from Africa, the Caribbean, and Latin America face the highest rates of immigration detention and deportation due to anti-Black discrimination and racist profiling. All these tools of policing and surveillance are a part of immigration enforcement and how immigrant communities are targeted and policed, all of which is facilitated by LAPD and expanded as its network of surveillance expands.

Also on the agenda is the police killing of 26-year old Christopher Garcia, a Pacoima community member who was shot multiple times by LAPD near the freeway, after police escalated what was reportedly a "reckless driving" situation. Chris was a beloved family and community member who was known for his love of baseball, which he played and also coached. Chris' life was infinitely precious and his murder by police left a gaping hole that cannot be filled and did nothing to make the community any safer.

Finally, remove the limitations on public comment! Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,
Catherine Safley

Commissioners,

On the agenda this week is the annual report from LAPD regarding Immigration Enforcement, the purpose of which seems to be indicating that LAPD, while participating on a large number of task forces with federal, state, and local law enforcement agencies including FBI, DHS, ICE, and CBP; does not engage in immigration enforcement activities. **This is a lie**, as LAPD constantly engages in data-gathering and surveillance of immigrant communities and its databases and records management system is easily accessible to federal agencies that incarcerate and deport people due to immigration status. Further, LAPD's own policing and surveillance disproportionately targets and ensnares immigrant community members and migrants that would otherwise not have come into contact with DHS, ICE, or CBP.

For example, the enforcement practices of LAPD's Human Trafficking Task Force disproportionately impacts Black, brown, and trans undocumented women and individuals. Suspicious Activity Reports (SARs) and iWatch, also known as "See Something, Say Something" also disproportionately impact undocumented folks and places immigrant communities at great risk by encouraging and empowering civilians to "follow their gut" and report on anyone they deem suspicious.

As with all law enforcement, Black immigrants from Africa, the Caribbean, and Latin America face the highest rates of immigration detention and deportation due to anti-Black discrimination and racist profiling. All these tools of policing and surveillance are a part of immigration enforcement and how immigrant communities are targeted and policed, all of which is facilitated by LAPD and expanded as its network of surveillance expands.

Also on the agenda is the police killing of 26-year old Christopher Garcia, a Pacoima community member who was shot multiple times by LAPD after police escalated what was reportedly “reckless driving” into the police murder of Chris by the freeway. Chris was a beloved family and community member who was known for his love of baseball, which he played and also coached. His murder by police left a gaping hole and did nothing to make the community more safe.

Finally, remove the limitations on public comment! Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Commissioners,

This week on the agenda is the annual report from LAPD regarding Immigration Enforcement. The purpose of this seems to be indicating that LAPD (while participating on a large number of task forces with federal, state, and local law enforcement agencies including FBI, DHS, ICE, and CBP) does not engage in immigration enforcement activities. **This is untruthful**, as LAPD consistently engages in data-gathering and surveillance of immigrant communities. Its databases and records management system are easily accessible to federal agencies that incarcerate and deport people due to immigration status.

Additionally, **LAPD's own policing and surveillance disproportionately targets and ensnares immigrant community members and migrants** that would otherwise not have come into contact with DHS, ICE, or CBP. For example, the enforcement practices of LAPD's Human Trafficking Task Force disproportionately impacts Black, brown, and trans undocumented women and individuals. Suspicious Activity Reports (SARs) and iWatch, also known as "See Something, Say Something" also disproportionately impact undocumented folks and places immigrant communities at great risk by encouraging and empowering civilians to "follow their gut" and report on anyone they deem suspicious.

As with all law enforcement, Black immigrants from Africa, the Caribbean, and Latin America face the highest rates of immigration detention and deportation due to anti-Black discrimination and racist profiling. All these tools of policing and surveillance are a part of immigration enforcement and how immigrant communities are targeted and policed, all of which is facilitated by LAPD and expanded as its network of surveillance expands.

Also on the agenda is the **police killing of 26-year old Christopher Garcia**, a Pacoima community member who was shot multiple times by LAPD after police escalated what was reportedly “reckless driving” into the police murder of Chris by the freeway. Chris was a beloved family and community member who was known for his love of baseball, which he played and also coached. His murder by police left a gaping hole and did nothing to make the community more safe.

Finally, **remove the limitations on public comment!** Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Commissioners,

On the agenda this week is the annual report from LAPD regarding Immigration Enforcement, the purpose of which seems to be indicating that LAPD, while participating on a large number of task forces with federal, state, and local law enforcement agencies including FBI, DHS, ICE, and CBP; does not engage in immigration enforcement activities. This is a lie, as LAPD constantly engages in data-gathering and surveillance of immigrant communities and its databases and records management system is easily accessible to federal agencies that incarcerate and deport people due to immigration status. Further, LAPD's own policing and surveillance disproportionately targets and ensnares immigrant community members and migrants that would otherwise not have come into contact with DHS, ICE, or CBP.

For example, the enforcement practices of LAPD's Human Trafficking Task Force disproportionately impacts Black, brown, and trans undocumented women and individuals. Suspicious Activity Reports (SARs) and iWatch, also known as "See Something, Say Something" also disproportionately impact undocumented folks and places immigrant communities at great risk by encouraging and empowering civilians to "follow their gut" and report on anyone they deem suspicious.

As with all law enforcement, Black immigrants from Africa, the Caribbean, and Latin America face the highest rates of immigration detention and deportation due to anti-Black discrimination and racist profiling. All these tools of policing and surveillance are a part of immigration enforcement and how immigrant communities are targeted and policed, all of which is facilitated by LAPD and expanded as its network of surveillance expands.

Also on the agenda is the police killing of 26-year old Christopher Garcia, a Pacoima community member who was shot multiple times by LAPD after police escalated what was reportedly "reckless driving" into the police murder of Chris by the freeway. Chris was a beloved family and community member who was known for his love of baseball, which he played and also coached. His murder by police left a gaping hole and did nothing to make the community more safe.

Finally, remove the limitations on public comment! Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,
Samantha

Commissioners,

On the agenda this week is the annual report from LAPD regarding Immigration Enforcement, the purpose of which seems to be indicating that LAPD, while participating on a large number of task forces with federal, state, and local law enforcement agencies including FBI, DHS, ICE, and CBP; does not engage in immigration enforcement activities. This is a lie, as LAPD constantly engages in data-gathering and surveillance of immigrant communities and its databases and records management system is easily accessible to federal agencies that incarcerate and deport people due to immigration status. Further, LAPD's own policing and surveillance disproportionately targets and ensnares immigrant community members and migrants that would otherwise not have come into contact with DHS, ICE, or CBP.

For example, the enforcement practices of LAPD's Human Trafficking Task Force disproportionately impacts Black, brown, and trans undocumented women and individuals. Suspicious Activity Reports (SARs) and iWatch, also known as "See Something, Say Something" also disproportionately impact undocumented folks and places immigrant communities at great risk by encouraging and empowering civilians to "follow their gut" and report on anyone they deem suspicious.

As with all law enforcement, Black immigrants from Africa, the Caribbean, and Latin America face the highest rates of immigration detention and deportation due to anti-Black discrimination and racist profiling. All these tools of policing and surveillance are a part of immigration enforcement and how immigrant communities are targeted and policed, all of which is facilitated by LAPD and expanded as its network of surveillance expands.

Also on the agenda is the police killing of 26-year old Christopher Garcia, a Pacoima community member who was shot multiple times by LAPD after police escalated what was reportedly "reckless driving" into the police murder of Chris by the freeway. Chris was a beloved family and community member who was known for his love of baseball, which he played and also coached. His murder by police left a gaping hole and did nothing to make the community more safe.

Finally, remove the limitations on public comment! Members of the communities most affected by policing are by far

the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Sincerely,
Jessi Jones
