Commissioners:

People took to the streets this weekend in protest of the overturning of Roe v. Wade and the federal court's decision that people do not have the right to an abortion. LAPD brutalized, intimidated, and harassed protestors as well as journalists and legal observers who were documenting. This is a continuation of how LAPD attempts to shut down and stifle protest and dissent over the violation of people's rights; protests that will not be quelled. LAPD was also gathering video of every interaction through Body-Worn-Video, hand-held video, CCTVs, helicopter and more, much of which will be retained indefinitely at the expense of the city of LA, and will only be used in attempts to track and criminalize community members; and will never be used against police despite our demands for an end to their violence.

We cannot continue to fund these institutions of violence.

LAPD even beat to death one of their own, allegedly in a training exercise in May, and in closed session today Commissioners will discuss yet another death at the hands of police, a so-called "in custody death" where 29-year-old Amanda Thornberry was supposedly found dead in a jail cell in July 2021.

At the same time, the city continues to invest time and money trying to recruit more cops, even as we demand a divestment from LAPD, and an investment in communities. We don't want more cops and they do not keep us safe. We demand investments in schools, housing, healthcare, transportation, parks, recreational programs for community members that are not police! It is an act of violence to invest resources in trying to house police officers when over 60,000 people in Los Angeles

are unsheltered, and police routinely engage in domestic violence, sexual assault, shooting, and other acts of violence in and around their own homes.

Finally, remove the limitations on public comment! Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

We cannot continue to fund these institutions of violence.

LAPD even beat to death one of their own, allegedly in a training exercise in May, and in closed session today Commissioners will discuss yet another death at the hands of police, a so-called "in custody death" where 29-year-old Amanda Thornberry was supposedly found dead in a jail cell in July 2021.

At the same time, the city continues to invest time and money trying to recruit more cops, even as we demand a divestment from LAPD, and an investment in communities. We don't want more cops and they do not keep us safe. We demand investments in schools, housing, healthcare, transportation, parks, recreational programs for community members that are not police! It is an act of violence to invest resources in trying to house police officers when over 60,000 people in Los Angeles

are unsheltered, and police routinely engage in domestic violence, sexual assault, shooting, and other acts of violence in and around their own homes.

Finally, remove the limitations on public comment! Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Commissioners:

People took to the streets throughout the United States this past weekend to protest the US Supreme Court's decision to overturn Roe v. Wade. Here in Los Angeles, LAPD responded to this guttural outcry by brutalizing, intimidating, and harassing protestors, journalists, and legal observers. LAPD's harmful, traumatizing, and illegal activity violates people's rights to lawful protest and honest dissent. Despite LAPD's dangerous attempts, they will not quell the constitutional right to peacefully assemble. LAPD was also gathering video of every interaction through Body-Worn-Video, hand-held video, CCTVs, helicopters, drones, and more; much of which will be retained indefinitely at the expense of the city of LA and will only be used in attempts to track and criminalize community members, while never being used against the criminal activity of the police despite our demands for an end to their assaults on our communities.

We cannot continue to fund these institutions of violence.

LAPD even beat one of their own to death, allegedly in a training exercise in May. In closed session, Commissioners will discuss yet another death at the hands of police, a so-called "in-custody death" where 29-year-old Amanda Thornberry was supposedly found dead in a jail cell in July 2021.

At the same time, the city continues to invest time and money trying to recruit more cops, even as we demand divestment from LAPD and investment in LA communities. We don't want more cops, and they do not keep us safe. We demand actual harm reduction and increased community safety by investments in schools, housing, healthcare, transportation, parks, and recreational programs for community members that are not the police! It is an act of violence to invest resources in trying to house police officers when over 60,000 people in Los Angeles are unsheltered, and police routinely engage in domestic violence, sexual assault, shooting, and other acts of violence in and around their own homes.

People took to the streets this weekend in protest of the overturning of Roe v. Wade and the federal court's decision that people do not have the right to an abortion. LAPD brutalized, intimidated, and harassed protestors as well as journalists and legal observers who were documenting. This is a continuation of how LAPD attempts to shut down and stifle protest and dissent over the violation of people's rights; protests that will not be quelled. LAPD was also gathering video of every interaction through Body-Worn-Video, hand-held video, CCTVs, helicopter and more, much of which will be retained indefinitely at the expense of the city of LA, and will only be used in attempts to track and criminalize community members; and will never be used against police despite our demands for an end to their violence.

We cannot continue to fund these institutions of violence.

LAPD even beat to death one of their own, allegedly in a training exercise in May, and in closed session today Commissioners will discuss yet another death at the hands of police, a so-called "in custody death" where 29-year-old Amanda Thornberry was supposedly found dead in a jail cell in July 2021.

At the same time, the city continues to invest time and money trying to recruit more cops, even as we demand a divestment from LAPD, and an investment in communities. We don't want more cops and they do not keep us safe. We demand investments in schools, housing, healthcare, transportation, parks, recreational programs for community members that are not police! It is an act of violence to invest resources in trying to house police officers when over 60,000 people in Los Angeles

are unsheltered, and police routinely engage in domestic violence, sexual assault, shooting, and other acts of violence in and around their own homes.

Finally, remove the limitations on public comment! Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Anna Montgomery

Dear Board of Commissioners and City Council Members:

As a citizen of Los Angeles District 10 (changed address) I'm writing to submit public comments to the LA Police Commission meeting. I'm also cc-ing my city council member since the commission continuously fails to hold LAPD accountable.

**General Public Comment: LAPD's Brutality Once Again**

What excuses are you going to make now to give more money and no accountability to LAPD? Despite all of the "training" and "new policies" and millions more of money you've given LAPD to somehow make them better trained after their gross mishandling of protests in the summer of 2020, this weekend LAPD brutalized, intimidated, and harassed protestors as well as journalists and legal observers who were documenting. This is a continuation of how LAPD attempts to shut down and stifle protest and dissent over the violation of people's rights; protests that will not be quelled. LAPD was also gathering video of every interaction through Body-Worn-Video, hand-held video, CCTVs, helicopter and more, much of which will be retained indefinitely at the expense of the city of LA, and will only be used in attempts to track and criminalize community members; and will never be used against police despite our demands for an end to their violence.

I refuse you continuously lifting up and promoting LAPD and doing nothing but giving them a slap on the wrist. DEFUND LAPD NOW. FIRE CHIEF MOORE.

**General Public Comment: Public Comment Limitations**

Finally, remove the limitations on public comment! Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

**General Public Comment: LAPC Meeting Time**

Why are these meetings held at the same time as City Council and Board of Supervisor meetings? Can we please change the meeting time so more people can participate in the meetings?

Sincerely,

---

LAPD brutalized, intimidated, and harassed protestors as well as journalists and legal observers who were documenting. This is a continuation of how LAPD attempts to shut down and stifle protest and dissent over the violation of people's rights; protests that will not be quelled. LAPD was also gathering video of every interaction through Body-Worn-Video, hand-held video, CCTVs, helicopter and more, much of which will be retained indefinitely at the expense of the city of LA, and will only be used in attempts to track and criminalize community members; and will never be used against police despite our demands for an end to their violence.

We cannot continue to fund these institutions of violence.

LAPD even beat to death one of their own, allegedly in a training exercise in May, and in closed session today Commissioners will discuss yet another death at the hands of police, a so-called "in custody death" where 29-year-old Amanda Thornberry was supposedly found dead in a jail cell in July 2021.

At the same time, the city continues to invest time and money trying to recruit more cops, even as we demand a divestment from LAPD, and an investment in communities. We don't want more cops and they do not keep us safe. We demand investments in schools, housing, healthcare, transportation, parks, recreational programs for community members that are not police! It is an act of violence to invest resources in trying to house police officers when over 60,000 people in Los Angeles are unsheltered, and police routinely engage in domestic violence, sexual assault, shooting, and other acts of violence in and around their own homes.

Finally, remove the limitations on public comment! Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Commissioners:

This weekend LAPD brutalized, intimidated, and harassed protestors as well as journalists and legal observers who were documenting. Peaceful protest is legal in this country and one way the people express their dissatisfaction. This is a continuation of how LAPD attempts to shut down and stifle protest and dissent over the violation of people's rights; protests that will not be quelled. LAPD was also gathering video of every interaction through Body-Worn-Video, hand-held video, CCTVs, helicopter and more, much of which will only ever be used to incriminate the community. These recording devices were meant to ensure accountability of the police, but will be used against the people they claim to protect.

We cannot continue to fund these institutions of violence.

LAPD even beat to death one of their own, allegedly in a training exercise in May, and in closed session today Commissioners will discuss yet another death at the hands of police, a so-called "in custody death" where 29-year-old Amanda Thornberry was supposedly found dead in a jail cell in July 2021.

The city continues to invest more in the very cops who do NOT keep us safe. We demand investments in schools, housing, healthcare, transportation, parks, recreational programs for community members that are not police! It is an act of violence to invest resources in trying to house police officers when over 60,000 people in Los Angeles are unsheltered, and police routinely engage in domestic violence, sexual assault, shooting, and other acts of violence in and around their own homes.
