Commissioners:

LAPD killed a person in El Sereno on July 22nd. This is the 22nd shooting by LAPD this year. Of those 22 shootings, LAPD has killed nine people in seven months. There have additionally been three people who have died in LAPD custody. There is no amount of training or cameras on cops or in police facilities that will stop these killings. We demand a divestment from police and policing, and an investment in community lives and community services! We demand funding for housing, schools, education, job training, transportation, and health care services. We demand an investment in city departments and services other than police!

LAPD continues to shoot and kill individuals with mental illness, including the shooting of Jermaine Petit in his community of Leimert Park this July 18th. These devastating attacks on the disabled community by police must stop. The crisis response line 988 was recently launched nationally to provide a resource to folks who are having a mental health emergency - how is the city of Los Angeles investing in this resource, rather than spending more money on LAPD? People with mental illness should be able to exist in public (or anywhere!) without fear of getting killed by police. We don't need police to respond to folks who need help, we need an investment in services that are preventative, as well as crisis response that is not police.

On the agenda this week is the ABLE program, training for cops to "intervene" when they see a cop doing something harmful. How is this not already a basic requirement of the job? These training programs in response to the actions of killer cops including Derek Chauvin are an act of violence against the community in themselves, and intentionally fail to address the real issue: the fundamental racist violence of policing, that seeks to dominate and retain social control. The ABLE program is just more funding for police and it will not prevent people from being killed.

Finally, remove the limitation on public comment, and let every person who calls in and raises their hand, give public comment. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,

Danielle Carne

Commissioners:

LAPD killed a person in El Sereno on July 22nd. This is the 22nd shooting by LAPD this year. Of those 22 shootings, LAPD has killed nine people in seven months. There have additionally been three people who have died in LAPD custody. There is no amount of training or cameras on cops or in police facilities that will stop these killings. We demand a divestment from police and policing, and an investment in community lives and community services! We demand funding for housing, schools, education, job training, transportation, and health care services. We demand an investment in city departments and services other than police!

LAPD continues to shoot and kill individuals with mental illness, including the shooting of Jermaine Petit in his community of Leimert Park this July 18th. These devastating attacks on the disabled community by police must stop. The crisis response line 988 was recently launched nationally to provide a resource to folks who are having a mental health emergency - how is the city of Los Angeles investing in this resource, rather than spending more money on LAPD? People with mental illness should be able to exist in public (or anywhere!) without fear of getting killed by police. We don't need police to respond to folks who need help, we need an investment in services that are preventative, as well as crisis response that is not police.

On the agenda this week is the ABLE program, training for cops to "intervene" when they see a cop doing something harmful. How is this not already a basic requirement of the job? These training programs in response to the actions of killer cops including Derek Chauvin are an act of violence against the community in themselves, and intentionally fail to address the real issue: the fundamental racist violence of policing, that seeks to dominate and retain social control. The ABLE program is just more funding for police and it will not prevent people from being killed.

Finally, remove the limitation on public comment, and let every person who calls in and raises their hand, give public comment. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,

Hello Commissioners:

Unsurprisingly, LAPD killed a person in El Sereno on July 22nd. This is the 22nd shooting by LAPD this year. Of those 22 shootings, LAPD has murdered nine people in 7 months. There have additionally been three people who have died in LAPD custody. This behavior CANNOT BE REFORMED. There is no amount of training or cameras on cops or in police facilities that will stop these killings. We demand a divestment from police and policing, and an investment in community lives and community services! We demand funding for housing, schools, education, job training, transportation, and health care services. We demand an investment in city departments and services other than police!

LAPD continues to shoot and kill individuals with mental illness, including the shooting of Jermaine Petit in his community of Leimert Park this July 18th. These devastating attacks on the disabled community by police must stop. The crisis response line 988 was recently launched nationally to provide a resource to folks who are having a mental health emergency - how is the city of Los Angeles investing in this resource, rather than spending more money on LAPD? People with mental illness should be able to exist in public (or anywhere!) without fear of getting killed by police. We don't need police to respond to folks who need help, we need an investment in services that are preventative, as well as crisis response that is not police. Police make things worse, not better in these situations. They have little to know training in mental health emergencies.

On the agenda this week is the ABLE program, training for cops to "intervene" when they see a cop doing something harmful. How is this not already a basic requirement of the job? These training programs in response to the actions of killer cops including Derek Chauvin are an act of violence against the community in themselves, and intentionally fail to address the real issue: the fundamental racist violence of policing, that seeks to dominate and retain social control. The ABLE program is just more funding for police and it will not prevent people from being killed.

Finally, remove the limitation on public comment, and let every person who calls in and raises their hand, give public comment. People with mental illness should be able to exist in public (or anywhere!) without fear of getting killed by police. We don't need police to respond to folks who need help, we need an investment in services that are preventative, as well as crisis response that is not police.

On the agenda this week is the ABLE program, training for cops to "intervene" when they see a cop doing something harmful. How is this not already a basic requirement of the job? These training programs in response to the actions of killer cops including Derek Chauvin are an act of violence against the community in themselves, and intentionally fail to address the real issue: the fundamental racist violence of policing, that seeks to dominate and retain social control. The ABLE program is just more funding for police and it will not prevent people from being killed.

Finally, remove the limitation on public comment, and let every person who calls in and raises their hand, give public comment. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Commissioners:

LAPD killed a person in El Sereno on July 22nd. This is the 22nd shooting by LAPD this year. Of those 22 shootings, LAPD has killed nine people in seven months. There

have additionally been three people who have died in LAPD custody. There is no amount of training or cameras on cops or in police facilities that will stop these killings. We demand a divestment from police and policing, and an investment in community lives and community services! We demand funding for housing, schools, education, job training, transportation, and health care services. We demand an investment in city departments and services other than police!

LAPD continues to shoot and kill individuals with mental illness, including the shooting of Jermaine Petit in his community of Leimert Park this July 18th. These devastating attacks on the disabled community by police must stop. The crisis response line 988 was recently launched nationally to provide a resource to folks who are having a mental health emergency - how is the city of Los Angeles investing in this resource, rather than spending more money on LAPD? People with mental illness should be able to exist in public (or anywhere!) without fear of getting killed by police. We don't need police to respond to folks who need help, we need an investment in services that are preventative, as well as crisis response that is not police.

Subject: BOPC Public Comment: 7/26/2022

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Dear Board of Commissioners and City Council Members:

As a citizen of Los Angeles District 10 (changed address) I'm writing to submit public comments to the LA Police Commission meeting. I'm also cc-ing city council members since a) the commission continuously fails to hold LAPD accountable and b) my district does not currently have a city council member present at city council meetings and votes.

Agenda Item 5A

On the agenda this week is the ABLE program, training for cops to "intervene" when they see a cop doing something harmful. How is this not already a basic requirement of the job? Secondly, these programs are ineffective because the entire police department and infrastructure itself is violent -- policing is based on racist violence from its white supremacist origins. Policing is about dominating and retaining social control over marginalized people. The ABLE program is just more funding for police and it will not prevent people from being killed.

General Public Comment: LAPD Helicopters

The amount of helicopters LAPD has and uses is ridiculous. My neighborhood is a safe neighborhood yet it is constantly being circled by loud noisy helicopters. It is so interruptive, annoying, and disruptive, and even this past week the use of LAPD helicopters has interfered in interactions between police and civilians, causing more confusion and disruption. LAPD does not need 18 helicopters and doesn't need to be spending the amount it does to fuel and fly its helicopters that bring more disruption to neighborhoods than anything else.

General Public Comment: LAPD's Killing Spree

LAPD killed a person in El Sereno on July 22nd. This is the 22nd shooting by LAPD this year. Of those 22 shootings, LAPD has killed nine people in seven months. There have additionally been three people who have died in LAPD custody. There is no amount of training or cameras on cops or in police facilities that will stop these killings. We demand a divestment from police and policing, and an investment in community lives and community services! We demand funding for housing, schools, education, job training, transportation, and health care services. We demand an investment in city departments and services other than police!

General Public Comment: LAPD is not qualified to answer calls involving those with mental illness

LAPD continues to shoot and kill individuals with mental illness, including the shooting of Jermaine Petit in his community of Leimert Park this July 18th. These devastating attacks on the disabled community by police must stop. The crisis response line 988 was recently launched nationally to provide a resource to folks

who are having a mental health emergency - how is the city of Los Angeles investing in this resource, rather than spending more money on LAPD? People with mental illness should be able to exist in public (or anywhere!) without fear of getting killed by police. We don't need police to respond to folks who need help, we need an investment in services that are preventative, as well as crisis response that is not police.

#### General Public Comment: Public Comment Limitations

Finally, remove the limitations on public comment! Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

#### General Public Comment: LAPC Meeting Time

Why are these meetings held at the same time as City Council and Board of Supervisor meetings? Can we please change the meeting time so more people can participate in the meetings?

Sincerely,  
Sarah Bowers

Hello-

LAPD killed a person in my neighborhood, El Sereno on July 22nd.

This is the 22nd shooting by LAPD this year. Of those 22 shootings, LAPD has killed nine people in seven months. There have additionally been three people who have died in LAPD custody. There is no amount of training or cameras on cops or in police facilities that will stop these killings. We demand a divestment from police and policing, and an investment in community lives and community services! We demand funding for housing, schools, education, job training, transportation, and health care services. We demand an investment in city departments and services other than police!

LAPD continues to shoot and kill individuals with mental illness, including the shooting of Jermaine Petit in his community of Leimert Park this July 18th. These devastating attacks on the disabled community by police must stop. The crisis response line 988 was recently launched nationally to provide a resource to folks who are having a mental health emergency - how is the city of Los Angeles investing in this resource, rather than spending more money on LAPD? People with mental illness should be able to exist in public (or anywhere!) without fear of getting killed by police. We don't need police to respond to folks who need help, we need an investment in services that are preventative, as well as crisis response that is not

police.

On the agenda this week is the ABLE program, training for cops to “intervene” when they see a cop doing something harmful. How is this not already a basic requirement of the job? These training programs in response to the actions of killer cops including Derek Chauvin are an act of violence against the community in themselves, and intentionally fail to address the real issue: the fundamental racist violence of policing, that seeks to dominate and retain social control. Commissioners:

LAPD killed a person in El Sereno on July 22nd. This is the 22nd shooting by LAPD this year. Of those 22 shootings, LAPD has killed nine people in seven months. There have additionally been three people who have died in LAPD custody. There is no amount of training or cameras on cops or in police facilities that will stop these killings. We demand a divestment from police and policing, and an investment in

community lives and community services! We demand funding for housing, schools, education, job training, transportation, and health care services. We demand an investment in city departments and services other than police!

LAPD continues to shoot and kill individuals with mental illness, including the shooting of Jermaine Petit in his community of Leimert Park this July 18th. These devastating attacks on the disabled community by police must stop. The crisis response line 988 was recently launched nationally to provide a resource to folks who are having a mental health emergency - how is the city of Los Angeles investing in this resource, rather than spending more money on LAPD? People with mental illness should be able to exist in public (or anywhere!) without fear of getting killed by police. We don't need police to respond to folks who need help, we need an investment in services that are preventative, as well as crisis response that is not police.

On the agenda this week is the ABLE program, training for cops to "intervene" when they see a cop doing something harmful. How is this not already a basic requirement of the job? These training programs in response to the actions of killer cops including Derek Chauvin are an act of violence against the community in themselves, and intentionally fail to address the real issue: the fundamental racist violence of policing, that seeks to dominate and retain social control. The ABLE program is just more funding for police and it will not prevent people from being killed.

Finally, remove the limitation on public comment, and let every person who calls in and raises their hand, give public comment. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Commissioners,

As you should know by the several email I have sent out I am frequently being harass and facing extreme violent intimidation by both the Lapd and Lafd. Like I stated in past emails this stems from a past employer who spread FALSE lies about me in retaliation. Like I said before I worked at this job for almost five years when management changed (both store manger and loss prevention manger) with the shift in management the dynamic of the facility drastically changed.

I was being targeted seven months after new management appeared. During my almost five years working at this job never have I been written up or discipline in any way shape or form. From my knowledge the assistant manger had problems with the new store manager and went on leave because of this. I was accuse of being a disgruntled when I was actually the one being harass after I had spoken to Hr they retaliated. What was told to Lapd was told in retaliation from me reporting them to HR and

because the absolute lack of proper investigation which I should have been interviewed this has been allowed to drag on actually followed me at another job about 4 miles from my previous employer.

So this employer continues to harass and spread lies to people I don't know putting me in a vulnerable position and helpless to correct this problem. When your being ignored, gaslit and with no help and lazy bias policing you can't defend yourself against defamation of character so it sat and it eventually followed me to another employer.

Now fast forward the Lapd and Lafd continually harass and try to intimidate me. They use extreme generalization of my actions (like for example me shopping for essentials or taking a walk in my neighborhood or me posting on social media that they stalk) as an opportunity to continue harass to me. This is being used as a way to obstruct justice and to bully me to remain quiet. They are literally surveillance/stalking me like slave patrol. Doing the upmost to avoid accountability. Lapd harassing me over their inability to investigate correctly and when the narrative doesn't swing in the direction they want they just obstruct, suppress, oppress and stalk.

Lapd never transparent if they feel like it might lead to accountability so they remained quiet. They are prosecuting me through predictive policing which has stripped and violated my rights. Misusing their power to systematically suppress and obstruct justice and to keep this out of the court system to protect them fiscally.

I gather because I am a Black Woman and because lapd has a history of racist policing they think my story should never hit the light of day. They are completely comfortable misusing tax payers money and abusing power to impose the narrative they see fit (A FALSE NARRATIVE!).

To have to demand justice or to be heard from this commission is belittling and demeaning especially since it is called an oversight committee. This commission constantly conspires with the lapd in suppressing communities issues with them (lapd).

The same Police Department that miscalculated weight of firework resulting in the death of two residents. This is an example, of horrible lazy policing from a department that's fully equipped in the state of the art equipment but not in cognitive abilities.

Lapd using bare minimum policing to protect themselves in two major ways #1 keep quiet about a disaster boatched investigation to avoid accountability (ie coverup) #2 obstructing justice by deeming me potential threat. Mind you they've never ever asked to speak with me. Never have I stepped a foot in a courtroom about this. I believe the since police did have a preexisting relationship with this retail store through loss prevention they automatically side with them and forgo an actually proper investigation. Bias policing with no transparency has lead to a disgusting violation of civil rights a coverup to protect lapd and the city of Los Angeles at my expense.

In part I Demand Justice and Freedom. I demand the right to fight for my name in the

court of law. The same courts that saw fit to give January 6th insurrection the opportunity to defend their names...or are we not giving black women the same measure of law.

Commissioners:

LAPD killed a person in El Sereno on July 22nd. This is the 22nd shooting by LAPD this year. Of those 22 shootings, LAPD has killed nine people in seven months. There have additionally been three people who have died in LAPD custody. There is no amount of training or cameras on cops or in police facilities that will stop these killings. We demand a divestment from police and policing, and an investment in community lives and community services! We demand funding for housing, schools, education, job training, transportation, and health care services. We demand an investment in city departments and services other than police!

LAPD continues to shoot and kill individuals with mental illness, including the shooting of Jermaine Petit in his community of Leimert Park this July 18th. These devastating attacks on the disabled community by police must stop. The crisis response line 988 was recently launched nationally to provide a resource to folks who are having a mental health emergency - how is the city of Los Angeles investing in this resource, rather than spending more money on LAPD? People with mental illness should be able to exist in public (or anywhere!) without fear of getting killed by police. We don't need police to respond to folks who need help, we need an investment in services that are preventative, as well as crisis response that is not police.

On the agenda this week is the ABLE program, training for cops to “intervene” when they see a cop doing something harmful. How is this not already a basic requirement of the job? These training programs in response to the actions of killer cops including Derek Chauvin are an act of violence against the community in themselves, and intentionally fail to address the real issue: the fundamental racist violence of policing, that seeks to dominate and retain social control. The ABLE program is just more funding for police and it will not prevent people from being killed.

Finally, remove the limitation on public comment, and let every person who calls in and raises their hand, give public comment. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,

Elizabeth Sommer

Subject: Item for public comment 7-26-22

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

To the LAPD BOPC and All Concerned,

On the 7/12/22 weekly meeting of the BOPC a caller self identified as Hiram during his rambling racist rant full of racial epithets and profanities attacked previous participants in public comment, Betty Ley and Steve Rogers, by saying. "Fuck Betty Ley, Fuck Steve Rogers" . At the moment Hiram uttered his attack there was still approximately 19-20 seconds left on the time clock. BOPC President Briggs failed to intervene and conclude the remarks of the caller and allowed Hiram to use up his public comment time.

The BOPC public comment policy stated prior to item 2. public comment at every meeting includes , " Public comment is your opportunity to address the BOPC so you are free to express your opinion on matters before the Board and to generally express when you disagree with other opinions expressed. HOWEVER, DIRECTING YOUR COMMENTS TO OTHER INDIVIDUALS WHO HAVE SPOKEN or ATTACKING OTHERS WHO HAVE EXPRESSED THEIR OPINION, SHALL BE DEEMED OFF TOPIC AND YOUR PUBLIC COMMENT PERIOD WILL BE CONCLUDED."

Hiram committed a first violation of BOPC public comment policy with 24 seconds

remaining when he made a remark about "White people got us two steps from World War III". Is that not off topic? The Police Commission President should have concluded Hiram's comment right at that moment but he did not conclude the comment. WHY NOT?

We had two clear violations of BOPC Public Comment policy and no action was taken. Not a conclusion of the remark, or a warning or an acknowledgement of the violations and attacks!

What is the commenting public to conclude from this? There seems to be a DOUBLE STANDARD being practiced by BOPC President Briggs as he does not apply the rules uniformly, consistently, impartially and fairly.

This letter is to put the BOPC on notice that a double standard enforcement of BOPC public comment policy will not be tolerated and all remedies are being considered. Equal treatment is demanded!

Betty Ley and Steve Rogers were verbally attacked with the most vile, violent, offensive language and deserve an apology. The BOPC has to do better. The people of Los Angeles deserve better. ALL the people.

Respectfully,

Steve Rogers

Commissioners—

The LAPD killed a person in El Sereno on July 22, the 22nd shooting by LAPD this year. Of those 22 shootings, the LAPD has killed nine people in seven months, and there have additionally been three people who have died in LAPD custody

There is no amount of training or cameras on cops or in police facilities that will stop these killings. I demand divestment from police and policing and investment in community lives and community services such as funding for housing, schools, education, job training, transportation, and health care services. Furthermore, we need investments in city departments and services other than the police.

The LAPD continues to shoot and kill individuals with mental illness, including the shooting of Jermaine Petit of Leimert Park on July 18 of this year. These devastating attacks on the disabled community by police must stop. The crisis response line 988 was recently launched nationally to provide a resource to folks with a mental health emergency. How is the city of Los Angeles investing in this resource versus spending more money on police? People with mental illness should be able to exist without fear of getting killed by police. Police should not be responding to folks in a mental health emergency. We need investment in proactive and preventative services versus the violent and reactive response often associated with the LAPD.

On this week's agenda is the ABLE program, which trains cops to "intervene" when they see a cop doing something harmful. How is this not already a basic requirement of the job? Regardless of when they're instituted, these training programs fail to address the real issue: the fundamental racist violence of policing that seeks to dominate and retain social control. The ABLE program is more funding for police masquerading as a reform and will not prevent people from being killed.

Finally, remove the limitation on public comment, and let every person who calls in and raises their hand give public comment. Members of the communities most affected by police are by far the most knowledgeable about the real-world effects of the matters before the board and about LAPD in their neighborhoods, and you need to hear what they have to say.

Subject: Agenda Item #1 missing Critical Data

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

As you are aware I have requested on two separate occasions that Chief Moore accurately report on Agenda item #1. As of today Chief Moore has reported to the Police Commission twenty one times and has not reported on six of those times, an accurate breakdown of the numbers concerning Agenda item #1. It is important to be transparent and accurate when speaking to the public, so the public can continue to see the trends.

When you don't report accurate numbers or don't give the covid numbers the public begins to question your motive for doing so. As I have requested I would like the covid numbers for the following dates:

	Total Infections	# vaccinated	# unvaccinated
01/11/22			
02/08/22			
03/15/22			
04/12/22			
05/17/22			
05/24/22			
07/14/22			

All of these dates are missing critical data that is necessary to understand the covid trends that are going on in your Department. A simple breakdown such as the following, Total infections, total of vaccinated and total of unvaccinated that equal the sum of the total infections.

It is very hard to follow when you give a number then begin to speak about the number of Officers year to date that were infected, then speak about the number of double infections. Please stay consistent when you report on Agenda item #1

I appreciate each and everyone of you taking the time and reading my concerns.

Commissioners:

LAPD killed a person in El Sereno on July 22nd. This is the 22nd shooting by LAPD this year. Of those 22 shootings, LAPD has killed nine people in seven months. There have additionally been three people who have died in LAPD custody. There is no amount of training or cameras on cops or in police facilities that will stop these killings. We demand a divestment from police and policing, and an investment in community lives and community services! We demand funding for housing, schools, education, job training, transportation, and health care services. We demand an investment in city departments and services other than police!

LAPD continues to shoot and kill individuals with mental illness, including the shooting of Jermaine Petit in his community of Leimert Park this July 18th. These devastating attacks on the disabled community by police must stop. The crisis response line 988 was recently launched nationally to provide a resource to folks who are having a mental health emergency - how is the city of Los Angeles investing in this resource, rather than spending more money on LAPD? People with mental illness should be able to exist in public (or anywhere!) without fear of getting killed by police. We don't need police to respond to folks who need help, we need an investment in services that are preventative, as well as crisis response that is not police.

On the agenda this week is the ABLE program, training for cops to "intervene" when they see a cop doing something harmful. How is this not already a basic requirement

of the job? These training programs in response to the actions of killer cops including Derek Chauvin are an act of violence against the community in themselves, and intentionally fail to address the real issue: the fundamental racist violence of policing, that seeks to dominate and retain social control. The ABLE program is just more funding for police and it will not prevent people from being killed.

Finally, remove the limitation on public comment, and let every person who calls in and raises their hand, give public comment. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

Signed,

Kristen Studard

Subject: Agenda item #1 missing critical Data

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

As you are aware I have requested on two separate occasions that Chief Moore accurately report on Agenda item #1. As of today Chief Moore has reported to the Police Commission twenty one times and has not reported on six of those times, an accurate breakdown of the numbers concerning Agenda item #1. It is important to be transparent and accurate when speaking to the public, so the public can continue to see the trends.

When you don't report accurate numbers or don't give the covid numbers the public begins to question your motive for doing so. As I have requested I would like the covid numbers for the following dates:

	Total Infections	# vaccinated	#
unvaccinated			
01/11/22			
02/08/22			
03/15/22			
04/12/22			
05/17/22			
05/24/22			
07/14/22			

All of these dates are missing critical data that is necessary to understand the covid trends that are going on in your Department. A simple breakdown such as

the following, Total infections, total of vaccinated and total of unvaccinated that equal the sum of the total infections.

It is very hard to follow when you give a number then begin to speak about the number of Officers year to date that were infected, then speak about the number of double infections. Please stay consistent when you report on Agenda item #1

I appreciate each and everyone of you taking the time and reading my concerns.
