Commissioners,

In the last week, LAPD officers shot at two people in Los Angeles, killing one and wounding the other. LAPD continues to be the most murderous law enforcement agency in the US. So far in 2022, its officers have shot at people 25 times, killing 11 of them. In the most recent lethal shooting this week, LAPD claims that the officer was conducting an “investigative stop”: a scenario that all too often proves deadly for community members who are tracked and stopped by police. It goes without saying that these people are disproportionately Black and brown.

Enabled by this Commission, as well as by LA City Council, the police continue to take funding away from the city budget. They justify their money grabs with official-sounding buzzwords and jargon, hoping to impart some legitimacy: data analysis, de-escalation, situational awareness training. But the outcomes are the same old, same old for community members, who continue to endure police violence, escalation, and the threats of incarceration and death. Commissioners, I demand that you divert funding away from more LAPD programs and equipment, and invest directly in communities. LAPD does not keep us safe, and it never will.

Regarding the donations to Community Safety Partnership sites: for years, families at LAPD’s CSP stations have provided feedback to the city indicating that instead of more police, they would prefer youth programs that allow families to spend more time with each other. But as usual, LAPD and the Police Foundation donate to communities only on LAPD’s terms, through programs overseen and controlled by police, and labelled as “community policing.” Communities demand and deserve more - more resources, more funding, and more facilities for community and families. We demand

community funding that is direct, and that specifically does NOT come through LAPD.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to be allowed to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Commissioners, I demand that you divert funding away from more LAPD programs and equipment, and invest directly in communities. LAPD does not keep us safe, and it never will.

Regarding the donations to Community Safety Partnership sites: for years, families at LAPD's CSP stations have provided feedback to the city indicating that instead of more police, they would prefer youth programs that allow families to spend more time with each other. But as usual, LAPD and the Police Foundation donate to communities only on LAPD's terms, through programs overseen and controlled by police, and labelled as "community policing." Communities demand and deserve more - more resources, more funding, and more facilities for community and families. We demand community funding that is direct, and that specifically does NOT come through LAPD.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to be allowed to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Commissioners,

In the last week, LAPD officers shot at two people in Los Angeles, killing one and wounding the other. LAPD continues to be the most murderous law enforcement agency in the US. So far in 2022, its officers have shot at people 25 times, killing 11 of them. In the most recent lethal shooting this week, LAPD claims that the officer was conducting an "investigative stop": a scenario that all too often proves deadly for community members who are tracked and stopped by police. It goes without saying that these people are disproportionately Black and brown.

Enabled by this Commission, as well as by LA City Council, the police continue to take funding away from the city budget. They justify their money grabs with official-sounding buzzwords and jargon, hoping to impart some legitimacy: data analysis, de-escalation, situational awareness training. But the outcomes are the same old, same old for community members, who continue to endure police violence, escalation, and the threats of incarceration and death. Commissioners, I demand that you divert funding away from more LAPD programs and equipment, and invest directly in communities. LAPD does not keep us safe, and it never will.

Enabled by this Commission, as well as by LA City Council, the police continue to take funding away from the city budget. They justify their money grabs with official-sounding buzzwords and jargon, hoping to impart some legitimacy: data analysis, de-escalation, situational awareness training. But the outcomes are the same old, same old for community members, who continue to endure police violence, escalation, and the threats of incarceration and death. Commissioners, I demand that you divert funding away from more LAPD programs and equipment, and invest directly in communities. LAPD does not keep us safe, and it never will.

Regarding the donations to Community Safety Partnership sites: for years, families at LAPD's CSP stations have provided feedback to the city indicating that instead of

more police, they would prefer youth programs that allow families to spend more time with each other. But as usual, LAPD and the Police Foundation donate to communities only on LAPD's terms, through programs overseen and controlled by police, and labelled as "community policing." Communities demand and deserve more - more resources, more funding, and more facilities for community and families. We demand community funding that is direct, and that specifically does NOT come through LAPD.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to be allowed to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Commissioners,

In the last week, LAPD officers shot at two people in Los Angeles, killing one and wounding the other. LAPD continues to be the most murderous law enforcement agency in the US. So far in 2022, its officers have shot at people 25 times, killing 11 of them. In the most recent lethal shooting this week, LAPD claims that the officer was conducting an “investigative stop”: a scenario that all too often proves deadly for community members who are tracked and stopped by police. It goes without saying that these people are disproportionately Black and brown.

Commissioners,

In the last week, LAPD officers shot at two people in Los Angeles, killing one and wounding the other. LAPD continues to be the most murderous law enforcement agency in the US. So far in 2022, its officers have shot at people 25 times, killing 11 of them. Are these the records we want to set as Angelenos? Is this what we want to be known for?

In the most recent lethal shooting this week, LAPD claims that the officer was conducting an "investigative stop": a scenario that all too often proves deadly for community members who are tracked and stopped by police. It should go without saying that these people are disproportionately Black and brown. And yet, we keep having to say it.

Enabled by this Commission, as well as by LA City Council, the police continue to take funding away from the city budget. They justify their money grabs with official-sounding buzzwords and jargon, hoping to impart some legitimacy: data analysis, de-escalation, situational awareness training. But the outcomes are the same old, same old for community members, who continue to endure police violence, escalation, and the threats (and reality) of incarceration and death.

Commissioners, I demand that you divert funding away from more LAPD programs and equipment, and invest directly in communities. LAPD does not keep us safe, and it never will.

Regarding the donations to Community Safety Partnership sites: for years, families at LAPD's CSP stations have provided feedback to the city indicating that instead of more police, they would prefer youth programs that allow families to spend more time with each other. But as usual, LAPD and the Police Foundation donate to communities only on LAPD's terms, through programs overseen and controlled by police, and labelled as "community policing." Communities demand and deserve more - more resources, more funding, and more facilities for community and families. We demand community funding that is direct, and that specifically does NOT come through LAPD.

And again: please. Please remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to be allowed to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In summary, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve.

Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods. If you are there to uphold the values you say you have, you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Commissioners,

LAPD continues to be the most murderous law enforcement agency in the US. So far in 2022, its officers have shot at people 25 times, killing 11 of them. This week's lethal shooting began, according to LAPD, with an "investigative stop": a scenario that all too often proves deadly for community members - especially Black and brown

Angelenos - who are tracked and stopped by police.

Police shootings and killings need to stop in which there is no crime being committed.

Many of these shootings cannot be explained: no crime is being committed.

There needs to be accountability.

There is currently a serious lack of accountability.

Currently there is minimal harm to officers, due, in part to the appeals process that needs to be reformed.

We demand community funding that is direct, and that specifically does NOT come through LAPD.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to be allowed to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

To the Commissioners,

In the last week, LAPD officers shot at two people in Los Angeles, killing one and wounding the other. LAPD continues to be the most murderous law enforcement agency in the U.S. So far in 2022, its officers have shot at people 25 times, killing 11 of them. In the most recent lethal shooting this week, LAPD claims that the officer was conducting an “investigative stop”: a scenario that all too often proves deadly for community members who are tracked and stopped by police. It goes without saying that these people are disproportionately Black and brown.

Enabled by this Commission, as well as by LA City Council, the police continue to take funding away from the city budget. They justify their money grabs with official-sounding buzzwords and jargon, hoping to impart some legitimacy: data analysis, de-escalation, situational awareness training. But the outcomes are the same old, same old for community members, who continue to endure police violence, escalation, and the threats of incarceration and death. Commissioners, I demand that you divert funding away from more LAPD programs and equipment, and invest directly in communities. LAPD does not keep us safe, and it never will.

Regarding the donations to Community Safety Partnership sites: for years, families at LAPD’s CSP stations have provided feedback to the city indicating that instead of more police, they would prefer youth programs that allow families to spend more time with each other. But as usual, LAPD and the Police Foundation donate to communities only on LAPD’s terms, through programs overseen and controlled by police, and labelled as “community policing.” Communities demand and deserve more - more resources, more funding, and more facilities for community and families. We demand community funding that is direct, and that specifically does NOT come through LAPD.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to be allowed to speak. Remove the two-time limitation on each individual’s public comment. Here are some concrete ways to do this:

- Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to be allowed to speak.

Enabled by this Commission, as well as by LA City Council, the police continue to take funding away from the city budget. They justify their money grabs with official-sounding buzzwords and jargon, hoping to impart some legitimacy: data analysis, de-escalation, situational awareness training. But the outcomes are the same old, same old for community members, who continue to endure police violence, escalation, and the threats of incarceration and death. Commissioners, I demand that you divert funding away from more LAPD programs and equipment, and invest directly in communities. LAPD does not keep us safe, and it never will.

Regarding the donations to Community Safety Partnership sites: for years, families at LAPD's CSP stations have provided feedback to the city indicating that instead of more police, they would prefer youth programs that allow families to spend more time with each other. But as usual, LAPD and the Police Foundation donate to communities only on LAPD's terms, through programs overseen and controlled by police, and labelled as "community policing." Communities demand and deserve more - more resources, more funding, and more facilities for community and families. We demand community funding that is direct, and that specifically does NOT come through LAPD.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to be allowed to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Signed,
