Commissioners,

Last week, the Board ruled that the police officers who killed Evelyn Del Real and Grisha Alaverdyan in 2021 were acting within policy, reminding us how normalized it is for LAPD to kill. LAPD continues to be the most murderous police department in the United States, killing more people per year than any other agency. In 2021, approximately 30% of the people shot at by LAPD were folks with mental illness. Instead of investing in much needed services and facilities for mental health care and ongoing treatments that people need, Michel Moore is asking for yet more money for LAPD, under the guise of "mental health evaluation units." These have been an utter failure for the community and are not what we need. Every year LAPD kills a disproportionate number of folks in crisis, while more funding goes to police and not to community healthcare and facilities for families. We reject funding for police for any response to folks in mental health crisis, and demand investment in ongoing care and support for individuals and their families as a person receives treatment, including rent assistance and other life-affirming services that families may require.

On the agenda also (Item 4a) is a contract for upgrades and maintenance of LAPD's network of surveillance CCTV cameras. These cameras gather information and video on community members and are used to track people's movements in public spaces, as well as residential areas. The camera system LAPD has used since 2015 also includes radio components, which the manufacturer today advertises as including gunshot detection, a deadly and inaccurate technology that places microphones in communities and public spaces and send cops to locations under the guise of "gunshot detected."

CCTV cameras do not increase community safety. LAPD has used CCTV cameras since at least 2005, installing them first in predominantly Black and brown communities

including McArthur Park, Jordan Downs, and Skid Row. They do not improve quality of life for folks, reduce harm, or increase safety and well-being for residents. CCTV cameras do not even work by LAPD's standards of "reducing crime." We know cameras do not increase safety or reduce harm, but the city invests in them anyway, framing them as "crime reduction" while using them to gather data that will be used to criminalize community members deemed undesirable. Community members are demanding investments in services other than surveillance, including accessible and affordable housing, schools, healthcare, transportation; services that will increase community wellness. We demand LAPD is defunded! No cameras for LAPD; defund surveillance!

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Signed,

Lizabeth Belli she/her/hers

Commissioners,

It's time we meaningfully addressed the continuing increase of violent crime perpetrated by members of our own police force.

Last week, the Board ruled that the police officers who killed Evelyn Del Real and Grisha Alaverdyan in 2021 were acting within policy, reminding us how normalized it is for LAPD to kill. LAPD continues to be the most murderous police department in the United States, killing more people per year than any other agency. In 2021, approximately 30% of the people shot at by LAPD were folks with mental illness. Instead of investing in much needed services and facilities for mental health care and ongoing treatments that people need, Michael Moore is asking for yet more money for LAPD, under the guise of "mental health evaluation units." These have been an utter failure for the community and are not what we need. Every year LAPD kills a disproportionate number of folks in crisis, while more funding goes to police and not to community healthcare and facilities for families. We reject funding for police for any response to folks in mental health crisis, and demand investment in ongoing care and support for individuals and their families as a person receives treatment, including rent assistance and other life-affirming services that families may require.

On the agenda also (Item 4a) is a contract for upgrades and maintenance of LAPD's network of surveillance CCTV cameras. These cameras gather information and video on community members and are used to track people's movements in public spaces, as well as residential areas. The camera system LAPD has used since 2015 also includes radio components, which the manufacturer today advertises as including gunshot detection, a deadly and inaccurate technology that places microphones in communities and public spaces and send cops to locations under the guise of "gunshot detected."

CCTV cameras do not increase community safety. LAPD has used CCTV cameras since at least 2005, installing them first in predominantly Black and brown communities including McArthur Park, Jordan Downs, and Skid Row. They do not improve quality of life for folks, reduce harm, or increase safety and well-being for residents. CCTV cameras do not even work by LAPD's standards of "reducing crime." We know cameras do not increase safety or reduce harm, but the city invests in them anyway, framing them as "crime reduction" while using them to gather data that will be used to criminalize community members deemed undesirable. Community members are demanding investments in services other than surveillance, including accessible and affordable housing, schools, healthcare, transportation; services that will increase community

wellness. We demand LAPD is defunded! No cameras for LAPD; defund surveillance!

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Commissioners,

Last week, the Board ruled that the police officers who killed Evelyn Del Real and Grisha Alaverdyan in 2021 were acting within policy, reminding us how normalized it is for LAPD to kill. LAPD continues to be the most murderous police department in the United States, killing more people per year than any other agency. In 2021, approximately 30% of the people shot at by LAPD were folks with mental illness. Instead of investing in much needed services and facilities for mental health care and ongoing treatments that people need, Michel Moore is asking for yet more money for LAPD, under the guise of "mental health evaluation units." These have been an utter failure for the community and are not what we need. Every year LAPD kills a disproportionate number of folks in crisis, while more funding goes to police and not to community healthcare and facilities for families. We reject funding for police for any response to folks in mental health crisis, and demand investment in ongoing care and support for individuals and their families as a person receives treatment, including rent assistance and other life-affirming services that families may require.

On the agenda also (Item 4a) is a contract for upgrades and maintenance of LAPD's network of surveillance CCTV cameras. These cameras gather information and video on community members and are used to track people's movements in public spaces, as well as residential areas. The camera system LAPD has used since 2015 also includes radio components, which the manufacturer today advertises as including gunshot detection, a deadly and inaccurate technology that places microphones in communities and public spaces and send cops to locations under the guise of "gunshot detected."

CCTV cameras do not increase community safety. LAPD has used CCTV cameras since at least 2005, installing them first in predominantly Black and brown communities including McArthur Park, Jordan Downs, and Skid Row. They do not improve quality of life for folks, reduce harm, or increase safety and well-being for residents. CCTV cameras do not even work by LAPD's standards of "reducing crime." We know cameras do not increase safety or reduce harm, but the city invests in them anyway, framing them as "crime reduction" while using them to gather data that will be used to criminalize community members deemed undesirable. Community members are demanding investments in services other than surveillance, including accessible and affordable housing, schools, healthcare, transportation; services that will increase community wellness. We demand LAPD is defunded! No cameras for LAPD; defund surveillance!

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Signed,

Caroline

Commissioners,

Last week, again the Board failed the people of LA, the Board ruled that the police officers who killed Evelyn Del Real and Grisha Alaverdyan in 2021 were acting within policy, reminding us how normalized it is for LAPD to kill. LAPD continues to be the

most murderous police department in the United States, killing more people per year than any other agency. In 2021, approximately 30% of the people shot at by LAPD were folks with mental illness. Instead of investing in much needed services and facilities for mental health care and ongoing treatments that people need, Michel Moore is asking for yet more money for LAPD, under the guise of “mental health evaluation units.” These have been an utter failure for the community and are not what we need. Every year LAPD kills a disproportionate number of folks in crisis, while more funding goes to police and not to community healthcare and facilities for families. We reject funding for police for any response to folks in mental health crisis, and demand investment in ongoing care and support for individuals and their families as a person receives treatment, including rent assistance and other life-affirming services that families may require. This is just another way for the LAPD to grab more of our tax dollars for themselves instead of giving funds to people who can really do this work without injuring anyone!!!

On the agenda also (Item 4a) is a contract for upgrades and maintenance of LAPD’s network of surveillance CCTV cameras. These cameras gather information and video on community members and are used to track people’s movements in public spaces, as well as residential areas. The camera system LAPD has used since 2015 also includes radio components, which the manufacturer today advertises as including gunshot detection, a deadly and inaccurate technology that places microphones in communities and public spaces and send cops to locations under the guise of “gunshot detected.”

CCTV cameras do not increase community safety. LAPD has used CCTV cameras since at least 2005, installing them first in predominantly Black and brown communities including McArthur Park, Jordan Downs, and Skid Row. They do not improve quality of life for folks, reduce harm, or increase safety and well-being for residents. CCTV cameras do not even work by LAPD’s standards of “reducing crime.” We know cameras do not increase safety or reduce harm, but the city invests in them anyway, framing them as “crime reduction” while using them to gather data that will be used to criminalize community members deemed undesirable. Community members are demanding investments in services other than surveillance, including accessible and affordable housing, schools, healthcare, transportation; services that will increase community wellness. We demand LAPD is defunded! No cameras for LAPD; defund surveillance!

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. LAPD continues to be the most murderous police department in the United States, killing more people per year than any other agency. In 2021, approximately 30% of the people shot at by LAPD were folks with mental illness. Instead of investing in much needed services and facilities for mental health care and ongoing treatments that people need, Michel Moore is asking for yet more money for LAPD, under the guise of "mental health evaluation units." These have been an utter failure for the community and are not what we need. Every year LAPD kills a disproportionate number of folks in crisis, while more funding goes to police and not to community healthcare and facilities for families. We reject funding for police for any response to folks in mental health crises, and demand investment in ongoing care and support for individuals and their families as a person receives treatment, including rent assistance and other life-affirming services that families may require.

On the agenda also (Item 4a) is a contract for upgrades and maintenance of LAPD's network of surveillance CCTV cameras. These cameras gather information and video on community members and are used to track people's movements in public spaces, as well as residential areas. The camera system LAPD has used since 2015 also includes radio components, which the manufacturer today advertises as including gunshot detection, a deadly and inaccurate technology that places microphones in communities and public spaces and send cops to locations under the guise of "gunshot detected."

CCTV cameras do not increase community safety. LAPD has used CCTV cameras since at least 2005, installing them first in predominantly Black and brown communities including McArthur Park, Jordan Downs, and Skid Row. They do not improve quality of

life for folks, reduce harm, or increase safety and well-being for residents. CCTV cameras do not even work by LAPD's standards of "reducing crime." We know cameras do not increase safety or reduce harm, but the city invests in them anyway, framing them as "crime reduction" while using them to gather data that will be used to criminalize community members deemed undesirable. Community members are demanding investments in services other than surveillance, including accessible and affordable housing, schools, healthcare, transportation; services that will increase community wellness. We demand LAPD is defunded! No cameras for LAPD; defund surveillance!

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Signed,

Molly Ortiz, resident of Los Angeles

Instead of investing in much needed services and facilities for mental health care and ongoing treatments that people need, Michel Moore is asking for yet more money for LAPD, under the guise of “mental health evaluation units.” These have been an utter failure for the community and are not what we need. Every year LAPD kills a disproportionate number of folks in crisis, while more funding goes to police and not to community healthcare and facilities for families. We reject funding for police for any response to folks in mental health crises, and demand investment in ongoing care and support for individuals and their families as a person receives treatment, including rent assistance and other life-affirming services that families may require.

On the agenda also (Item 4a) is a contract for upgrades and maintenance of LAPD’s network of surveillance CCTV cameras. These cameras gather information and video on community members and are used to track people’s movements in public spaces, as well as residential areas. The camera system LAPD has used since 2015 also includes radio

components, which the manufacturer today advertises as including gunshot detection, a deadly and inaccurate technology that places microphones in communities and public spaces and sends cops to locations under the guise of “gunshot detected.”

CCTV cameras do not increase community safety. LAPD has used CCTV cameras since at least 2005, installing them first in predominantly Black and brown communities including McArthur Park, Jordan Downs, and Skid Row. They do not improve quality of life for folks, reduce harm, or increase safety and well-being for residents. CCTV cameras do not even work by LAPD’s standards of “reducing crime.” We know cameras do not increase safety or reduce harm, but the city invests in them anyway, framing them as “crime reduction” while using them to gather data that will be used to criminalize community members deemed undesirable. Community members are demanding investments in services other than surveillance, including accessible and affordable housing, schools, healthcare, transportation; services that will increase community wellness. We demand LAPD is defunded! No cameras for LAPD; defund surveillance!

Finally, remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual’s public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the “citizen’s voice in police affairs.”

Disgustedly,

Mayank Keshaviah

Commissioners,

Last week, the Board ruled that the police officers who killed Evelyn Del Real and Grisha Alaverdyan in 2021 were acting within policy, reminding us how normalized it is for LAPD to kill. LAPD continues to be the most murderous police department in the United States, killing more people per year than any other agency. In 2021, approximately 30% of the people shot at by LAPD were folks with mental illness. Instead of investing in much needed services and facilities for mental health care and ongoing treatments that people need, Michel Moore is asking for yet more money for LAPD, under the guise of "mental health evaluation units." These have been an utter failure for the community and are not what we need. Every year LAPD kills a disproportionate number of folks in crisis, while more funding goes to police and not to community healthcare and facilities for families. We reject funding for police for any response to folks in mental health crisis, and demand investment in ongoing care and support for individuals and their families as a person receives treatment, including rent assistance and other life-affirming services that families may require.

Commissioners,

When will you start listening to the community? Last week, the Board ruled that the police officers who killed Evelyn Del Real and Grisha Alaverdyan in 2021 were acting within policy, reminding us how normalized it is for LAPD to kill. LAPD continues to be the most murderous police department in the United States, killing more people per year than any other agency. In 2021, approximately 30% of the people shot at by LAPD were folks with mental illness. Instead of investing in much needed services and facilities for mental health care and ongoing treatments that people need,

Michel Moore is asking for yet more money for LAPD, under the guise of "mental health evaluation units." These have been an utter failure for the community and are not what we need. Every year LAPD kills a disproportionate number of folks in crisis, while more funding goes to police and not to community healthcare and facilities for families. We reject funding for police for any response to folks in mental health crisis, and demand investment in ongoing care and support for individuals and their families as a person receives treatment, including rent assistance and other life-affirming services that families may require.

We denounce the increased efforts to surveil and oppress under the guise of predictive policing. On the agenda (Item 4a) is a contract for upgrades and maintenance of LAPD's network of surveillance CCTV cameras. These cameras gather information and video on community members and are used to track people's movements in public spaces, as well as residential areas. The camera system LAPD has used since 2015 also includes radio components, which the manufacturer today advertises as including gunshot detection, a deadly and inaccurate technology that places microphones in communities and public spaces and send cops to locations under the guise of "gunshot detected."

It seems this city finds endless excuses to throw more and more of our tax dollars toward already failed attempts at police reform. CCTV cameras do not increase community safety. LAPD has used CCTV cameras since at least 2005, installing them first in predominantly Black and brown communities including McArthur Park, Jordan Downs, and Skid Row. They do not improve quality of life for folks, reduce harm, or increase safety and well-being for residents. CCTV cameras do not even work by LAPD's standards of "reducing crime." We know cameras do not increase safety or reduce harm, but the city invests in them anyway, framing them as "crime reduction" while using them to gather data that will be used to criminalize community members deemed undesirable. Community members are demanding investments in services other than surveillance, including accessible and affordable housing, schools, healthcare, transportation; services that will increase community wellness. We demand LAPD is defunded! No cameras for LAPD; defund surveillance!

Now you don't even pretend to want to hear our concerns. We insist that you remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Commissioners,

Last week, the Board ruled that the police officers who killed Evelyn Del Real and Grisha Alaverdyan in 2021 were acting within policy, reminding us how normalized it is for LAPD to kill. LAPD continues to be the most murderous police department in the United States, killing more people per year than any other agency. In 2021, approximately 30% of the people shot at by LAPD were folks with mental illness. Instead of investing in much needed services and facilities for mental health care and ongoing treatments that people need, Michel Moore is asking for yet more money for LAPD, under the guise of "mental health evaluation units." These have been an utter failure for the community and are not what we need. Every year LAPD kills a disproportionate number of folks in crisis, while more funding goes to police and not to community healthcare and facilities for families. We reject funding for police for any response to folks in mental health crisis, and demand investment in ongoing care and support for individuals and their families as a person receives treatment, including rent assistance and other life-affirming services that families may require.

On the agenda also (Item 4a) is a contract for upgrades and maintenance of LAPD's network of surveillance CCTV cameras. These cameras gather information and video on community members and are used to track people's movements in public spaces, as well as residential areas. The camera system LAPD has used since 2015 also includes radio components, which the manufacturer today advertises as including gunshot detection, a deadly and inaccurate technology that places microphones in communities and public spaces and sends cops to locations under the guise of "gunshot detected."

CCTV cameras do not increase community safety. LAPD has used CCTV cameras since at least 2005, installing them first in predominantly Black and brown communities including McArthur Park, Jordan Downs, and Skid Row. They do not improve quality of life for folks, reduce harm, or increase safety and well-being for residents. CCTV cameras do not even work by LAPD's standards of "reducing crime." We know cameras do not increase safety or reduce harm, but the city invests in them anyway, framing them as "crime reduction" while using them to gather data that will be used to criminalize community members deemed undesirable. Community members are demanding investments in services other than surveillance, including accessible and affordable housing, schools, healthcare, transportation; services that will increase community wellness. We demand LAPD is defunded! No cameras for LAPD; defund surveillance!

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of

forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the “citizen’s voice in police affairs.”

Commissioners,

I am a resident of Los Angeles County living in Sunland, CA, writing with concern for Board's ruling regarding the police murders of Evelyn Del Real and Grisha Alaverdyan in 2021. Last week, the Board ruled that the police officers were acting within policy, reminding us how normalized it is for LAPD to kill. LAPD continues to be the most murderous police department in the United States, killing more people per year than any other agency. In 2021, approximately 30% of the people shot at by LAPD were folks with mental illness. Instead of investing in much needed services and facilities for mental health care and ongoing treatments that people need, Michel Moore is asking for yet more money for LAPD, under the guise of “mental health evaluation units.” These have been an utter failure for the community and are not what we need. Every year LAPD kills a disproportionate number of folks in crisis, while more funding goes to police and not to community healthcare and

facilities for families. We reject funding for police for any response to folks in mental health crisis, and demand investment in ongoing care and support for individuals and their families as a person receives treatment, including rent assistance and other life-affirming services that families may require.

On the agenda also (Item 4a) is a contract for upgrades and maintenance of LAPD's network of surveillance CCTV cameras. These cameras gather information and video on community members and are used to track people's movements in public spaces, as well as residential areas. The camera system LAPD has used since 2015 also includes radio components, which the manufacturer today advertises as including gunshot detection, a deadly and inaccurate technology that places microphones in communities and public spaces and send cops to locations under the guise of "gunshot detected."

CCTV cameras do not increase community safety. LAPD has used CCTV cameras since at least 2005, installing them first in predominantly Black and brown communities including McArthur Park, Jordan Downs, and Skid Row. They do not improve quality of life for folks, reduce harm, or increase safety and well-being for residents. CCTV cameras do not even work by LAPD's standards of "reducing crime." We know cameras do not increase safety or reduce harm, but the city invests in them anyway, framing them as "crime reduction" while using them to gather data that will be used to criminalize community members deemed undesirable. Community members are demanding investments in services other than surveillance, including accessible and affordable housing, schools, healthcare, transportation; services that will increase community wellness. We demand LAPD is defunded! No cameras for LAPD; defund surveillance!

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Commissioners,

Last week, the Board ruled that the police officers who killed Evelyn Del Real and Grisha Alaverdyan in 2021 were acting within policy, reminding us how normalized it is for LAPD to kill. LAPD continues to be the most murderous police department in the United States, killing more people per year than any other agency. In 2021, approximately 30% of the people shot at by LAPD were folks with mental illness. Instead of investing in much needed services and facilities for mental health care and ongoing treatments that people need, Michel Moore is asking for yet more money for LAPD, under the guise of "mental health evaluation units." These have been an utter failure for the community and are not what we need. Every year LAPD kills a disproportionate number of folks in crisis, while more funding goes to police and not to community healthcare and facilities for families. We ABSOLUTELY reject funding for police for any response to folks in mental health crisis, and demand investment in ongoing care and support for individuals and their families as a person receives treatment, including rent assistance and other life-affirming services that families may require. This also means putting in funding for our unhoused neighbors that require immediate housing assistance and services for their needs.

On the agenda also (Item 4a) is a contract for upgrades and maintenance of LAPD's network of surveillance CCTV cameras. These cameras gather information and video on community members and are used to track people's movements in public spaces, as well as residential areas. The camera system LAPD has used since 2015 also includes radio components, which the manufacturer today advertises as including gunshot detection,

a deadly and inaccurate technology that places microphones in communities and public spaces and send cops to locations under the guise of “gunshot detected.”

CCTV cameras do not increase community safety. LAPD has used CCTV cameras since at least 2005, installing them first in predominantly Black and brown communities including McArthur Park, Jordan Downs, and Skid Row. They do not improve quality of life for folks, reduce harm, or increase safety and well-being for residents. CCTV cameras do not even work by LAPD’s standards of “reducing crime.” We know cameras do not increase safety or reduce harm, but the city invests in them anyway, framing them as “crime reduction” while using them to gather data that will be used to criminalize community members deemed undesirable. We demand LAPD is defunded! No cameras for LAPD; defund surveillance!

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual’s public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the “citizen’s voice in police affairs.”

I don't know how many times we need to keep stressing to DIVEST to the community, we are pouring so much money toward the police that utilize it to purchase technology that HARMS mostly Black and Brown people of Los Angeles. This is not the safety we want for our community and children.

Signed,

Kris Chan

not increase safety or reduce harm, but the city invests in them anyway, framing them as “crime reduction” while using them to gather data that will be used to criminalize community members deemed undesirable. Community members are demanding investments in services other than surveillance, including accessible and affordable housing, schools, healthcare, transportation; services that will increase community wellness. We demand LAPD is defunded! No cameras for LAPD; defund surveillance!

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual’s public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the “citizen’s voice in police affairs.”

Signed,

Commissioners,

Last week, the Board ruled that the police officers who killed Evelyn Del Real and Grisha Alaverdyan in 2021 were acting within policy, reminding us how normalized it is for LAPD to kill. LAPD continues to be the most murderous police department in the United States, killing more people per year than any other agency. In 2021, approximately 30% of the people shot at by LAPD were folks with mental illness. Instead of investing in much needed services and facilities for mental health care and ongoing treatments that people need, Michel Moore is asking for yet more money for LAPD, under the guise of "mental health evaluation units." These have been an utter failure for the community and are not what we need. Every year LAPD kills a disproportionate number of folks in crisis, while more funding goes to police and not to community healthcare and facilities for families. We reject funding for police for any response to folks in mental health crisis, and demand investment in ongoing care and support for individuals and their families as a person receives treatment, including rent assistance and other life-affirming services that families may require.

On the agenda also (Item 4a) is a contract for upgrades and maintenance of LAPD's network of surveillance CCTV cameras. These cameras gather information and video on community members and are used to track people's movements in public spaces, as well as residential areas. The camera system LAPD has used since 2015 also includes radio components, which the manufacturer today advertises as including gunshot detection, a deadly and inaccurate technology that places microphones in communities and public spaces and send cops to locations under the guise of "gunshot detected."

CCTV cameras do not increase community safety. LAPD has used CCTV cameras since at least 2005, installing them first in predominantly Black and brown communities including McArthur Park, Jordan Downs, and Skid Row. They do not improve quality of life for folks, reduce harm, or increase safety and well-being for residents. CCTV cameras do not even work by LAPD's standards of "reducing crime." We know cameras do not increase safety or reduce harm, but the city invests in them anyway, framing them as "crime reduction" while using them to gather data that will be used to criminalize community members deemed undesirable. Community members are demanding investments in services other than surveillance, including accessible and affordable housing, schools, healthcare, transportation; services that will increase community wellness. We demand LAPD is defunded! No cameras for LAPD; defund surveillance!

Subject: Covid Numbers
Attachments: covid graph.png

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Hello and good day,

I hope this email finds you well. I wanted to give the general public a visual as to the Covid numbers that Chief Moore has reported on during the Police Commission meetings year to date. This graph shows what Chief Moore has reported but there still is missing information that has not been disclosed. I have a strong reason to believe the missing data will only increase the total number and percentage of your vaccinated personnel.

Chief Moore did not disclose / breakdown the Covid numbers for the following dates.

	Total # infections	Vaccinated	Unvaccinated	
01/11/2022	?	?	?	
02/08/2022	?	?	?	
03/15/2022	5	?	?	
04/12/2022	1	?	?	
05/17/2022	36	?	?	
05/24/2022	35	?	?	
07/26/2022	?	?	?	Chief Moore only stated, Vaccinated made up 77% of the infections.

All of this missing data is a part of Agenda item #1 that Chief Moore reports to the Police Commission, yet none of the Police Commissioners have ever asked for this missing data after Chief Moore gave his report.

January values are represented on the graph with **one report** on Covid even though there were **two meetings**
February's values are also represented on the graph with **one report** on Covid even though there were **two meetings**.
March's values are represented on the graph with **three reports** on Covid even though there were **four meetings**
Aprils values are represented on the graph with **two reports** even though there were **three meetings**.
May's values are represented on the graph with **two reports** even though there were **four meetings**.

As you can see, your Covid mandate in the interest of "Public Safety" is not working. Your own data along with the world-wide data shows the same result.

Thank you for taking the time to read through this, I would appreciate you including the graph provided in this email. This data provided on the graph is from Chief Moores reports to the Police Commission since January of this year. The data on the graph is accurate per Chief Moore's reports as of 8/23/2022.

Including data from previous variants that we are no longer dealing with or including data from when the City of Los Angeles first implemented the vaccine mandate is not being transparent with the public to show the current trends. Not properly providing a breakdown on your Dept's Covid numbers doesn't help with being transparent either.

W. Blauer

Chief Moore's Report on Covid Infections to Police Commission
