Commissioners,

The "Housing for Hires" program championed by Commissioner Steve Soboroff is a conflict of interest for the millionaire land developer as he attempts to rally donors to pay the partial rent of police recruits for 24 months, to join and stay with LAPD. Police are increasingly used to clear people and especially poor and unhoused individuals off of the land. By paying the rent of new recruits for LAPD as homelessness in LA continues to rise, Soboroff and his cronies are demonstrating where their focus lies. Communities that are policed the most by LAPD also struggle with rent and desperately need rent relief programs, but this is ignored in favor of funding for LAPD, which remains the most murderous police department in the US, with Black community members being profiled and harmed by police at the highest rates.

As Soboroff attempts to find funding for more recruits, LAPD kills its own as was the case with Houston Tipping, killed during a training exercise this year after suffering critical injuries to his head and spinal cord. At the same time, Michel Moore and LAPD command staff have been unwilling or unable to take actions to defend a veteran Captain in the department, Lillian Carranza who has been with LAPD for 33 years, who was sexually harassed and felt humiliated, then was further left without help or support. Moore's inaction and inability to confront the situation once informed speaks volumes, not only about his personal perceptions but about the culture and norms of LAPD when it comes to sex and gender.

On the agenda as well is a continuation of funding for the so-called Safe Neighborhoods grant, which funds LAPD overtime hours for the continued heavy patrol and surveillance of neighborhoods in 77th and Southeast division areas. The program claims to use hot-spot policing, an old tactic of engaging in high-visibility policing that is presented as "taking action" while failing to address the underlying needs of a community. With hot-spot policing, police determine where to target based on "analysis" of crime reports and other data, a trite tactic that does not result in better outcomes for communities, but does ensure the continued occupation of marginalized communities by police.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Signed,

Dr. Beth F. Baker

Subject: LAPD Continues to Misuse Taxpayers' Funds: Public Comment BOPC 10/4/2022

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Dear Board of Commissioners and City Council Members:

As a citizen of Los Angeles District 10 I'm writing to submit public comments to the LA Police Commission meeting. I'm also cc-ing city council members since 1) the commission continuously fails to hold LAPD accountable, and 2) the city council continues to give ever increasing budgets to the LAPD even as LAPD continues to spend more of my tax dollars in lawsuits over their violence and discrimination. I'm so sick of it.

Agenda Item 3B

The "Safe Neighborhoods grant" should really just be called what it is: more surveillance and patrolling of marginalized communities. This old school "hot-spot policing" does nothing to address the underlying needs of a community. Police again use discriminatory "data" and "analysis" to determine where to target more surveillance infringing on human privacy rights.

Agenda Item 4A

Let me guess - the police commission is going to yet again DO NOTHING about the death and violence LAPD commits.

General Public Comment: Sick of LAPD Not Being Held Accountable

Again, LAPD gets more and more funding and no pushback from the "oversight" commission even as LAPD kills its own as was the case with Houston Tipping, killed during a training exercise this year after suffering critical injuries to his head and spinal cord. At the same time, Michel Moore and LAPD command staff have been unwilling or unable to take actions to defend a veteran Captain in the department, Lillian Carranza who has been with LAPD for 33 years, who was sexually harassed and felt humiliated, then was further left without help or support. Moore's inaction and inability to confront the situation once informed speaks volumes, not only about his personal perceptions but about the culture and norms of LAPD when it comes to sex and gender.

General Public Comment: Housing for Hires Program

I saw an advertisement on Facebook for LAPD's "Housing for Hires" program. This is so disgusting. LAPD is spending EVEN MORE money on LAPD officers getting housing subsidies in addition to the enormous salaries they make while

LAPD continues to criminalize and displace people who are houseless. This is such hypocrisy. It is also a conflict of interest for Steve Sobaroff, a millionaire land developer.

General Public Comment: Stop Limiting Public Comment

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to be allowed to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Sincerely,
Sarah Bowers

Commissioners,

The “Housing for Hires” program championed by Commissioner Steve Soboroff is a conflict of interest for the millionaire land developer as he attempts to rally donors to pay the partial rent of police recruits for 24 months, to join and stay with LAPD. This is a truly harmful allocation of funds.

Police are increasingly used to clear people and especially poor and unhoused individuals off of land. By paying the rent of new recruits for LAPD as homelessness in LA continues to rise, Soboroff and his cronies are demonstrating where their focus lies. Why is it so difficult to provide affordable housing to our communities? That needs to be the priority.

Communities that are policed the most by LAPD also struggle with rent and desperately need rent relief programs, but this is ignored in favor of funding for LAPD, which remains the most murderous police department in the US, with Black community members being profiled and harmed by police at the highest rates. The number of housed individuals and families in LA is consistently rising. It’s devastating. Providing housing for recruits rather than our communities is a blatant act of violence.

As Steve attempts to find funding for more recruits, LAPD kills its own as was the case with Houston Tipping, killed during a training exercise this year after suffering critical injuries to his head and spinal cord. At the same time, Michel Moore and LAPD command staff have been unwilling or unable to take actions to defend a veteran Captain in the department, Lillian Carranza who has been with LAPD for 33 years, who was sexually harassed and felt humiliated, then was further left without help or support. Moore’s inaction and inability to confront the situation once informed speaks volumes, not only about his personal perceptions but about the culture and norms of LAPD when it comes to sex and gender.

On the agenda as well is a continuation of funding for the so-called Safe Neighborhoods grant, which funds LAPD overtime hours for the continued heavy patrol and surveillance of neighborhoods in 77th and Southeast division areas. The program claims to use hot-spot policing, an old tactic of engaging in high-visibility policing that is presented as “taking action” while failing to address the underlying needs of a community. With hot-spot policing, police determine where to target based on “analysis” of crime reports and

other data, a trite tactic that does not result in better outcomes for communities, but does ensure the continued occupation of marginalized communities by police.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Signed,
Lex Ryan

Subject: Public Comment for the BOPC meeting on 10/4/2022

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

To the BOPC,

The “Housing for Hires” program championed by Commissioner Steve Soboroff is a conflict of interest for the millionaire land developer as he attempts to rally donors to pay the partial rent of police recruits for 24 months, to join and stay with LAPD. Police are increasingly used to clear people and especially poor and unhoused individuals off of land. By paying the rent of new recruits for LAPD as homelessness in LA continues to rise, Soboroff and his cronies are demonstrating where their focus lies. Communities that are policed the most by LAPD also struggle with rent and desperately need rent relief programs, but this is ignored in favor of funding for LAPD, which remains the most murderous police department in the US, with Black community members being profiled and harmed by police at the highest rates.

As Steve attempts to find funding for more recruits, LAPD kills its own as was the case with Houston Tipping, killed during a training exercise this year after suffering critical injuries to his head and spinal cord. At the same time, Michel Moore and LAPD command staff have been unwilling or unable to take actions to defend a veteran Captain in the department, Lillian Carranza who has been with LAPD for 33 years, who was sexually harassed and felt humiliated, then was further left without help or support. Moore’s inaction and inability to confront the situation once informed speaks volumes, not only about his personal perceptions but about the culture and norms of LAPD when it comes to sex and gender.

On the agenda as well is a continuation of funding for the so-called Safe Neighborhoods grant, which funds LAPD overtime hours for the continued heavy patrol and surveillance of neighborhoods in 77th and Southeast division areas. The program claims to use hot-spot policing, an old tactic of engaging in high-visibility policing that is presented as “taking action” while failing to address the underlying needs of a community. With hot-spot policing, police determine where to target based on “analysis” of crime reports and other data, a trite tactic that does not result in better outcomes for communities, but does ensure the continued occupation of marginalized communities by police.

Lastly, remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings.

In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Commissioners,

Police are increasingly used to clear people and especially poor and unhoused individuals off of land. By paying the rent of new recruits for LAPD as homelessness in LA continues to rise, the "Housing for Hires" program headed by Steve Soboroff demonstrates where their priorities lie. Communities that are policed the most by LAPD also struggle with rent and desperately need rent relief programs, but this is ignored in favor of funding for LAPD, which remains the most murderous police department in the US, with Black community members being profiled and harmed by police at the highest rates.

On the agenda as well is a continuation of funding for the so-called Safe Neighborhoods grant, which funds LAPD overtime hours for the continued heavy patrol and surveillance of neighborhoods in 77th and Southeast division areas. The program claims to use hot-spot policing, an old tactic of engaging in high-visibility policing that is presented as "taking action" while failing to address the underlying needs of a community, which would be better solved by increased community resources for mental health and meeting basic needs for safety. With hot-spot policing, police determine where to target based on "analysis" of crime reports and other data, a trite tactic that does not result in better outcomes for communities, but does ensure the continued occupation of marginalized communities by police.

Lastly, please alter the public comment period to better serve the community, by allowing all members an opportunity to speak without limitation to how many times a community member can use their voice to express concerns. Allow community members to speak after single agenda items as they are reviewed, as opposed to speaking before any of these items have been discussed which restricts the information the community and public are able to engage critically with and respond to. It would be helpful to inform the public who is up next to speak to keep this streamlined and efficient- we see this working well in other city meetings already. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and thus as the "citizen's voice in police affairs." it is your responsibility to allow rather than inhibit public engagement.

Thank you,
Laura Adery, Ph.D.

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Commissioners,

The "Housing for Hires" program championed by Commissioner Steve Soboroff is an enormous conflict of interest for the millionaire land developer as he attempts to rally donors to pay the partial rent of police recruits for 24 months who join and stay with the LAPD. Amid a vast unhoused crisis, Police are increasingly used to clear and incarcerate our hurting neighbors. Communities that are policed the most by LAPD also struggle with rent and desperately need rent relief programs, but this life-changing assistance is ignored in favor of funding for LAPD, which remains the most murderous police department in the US, with Black community members being profiled and harmed by police at the highest rates.

As Steve attempts to find funding for more recruits, LAPD kills its own, as was the case with Houston Tipping, killed during a training exercise this year after suffering critical injuries to his head and spinal cord. At the same time, Michel Moore and LAPD command staff have been unwilling or unable to take action to defend a veteran Captain in the department, Lillian Carranza, who has been with LAPD for 33 years, who was sexually harassed and felt humiliated, then was further left without help or support. Moore's inaction and inability to confront the situation once informed speaks volumes, not only about his perceptions but also about the culture and norms of LAPD regarding sex and gender.

On the agenda is a continuation of funding for the so-called Safe Neighborhoods grant, which funds LAPD overtime hours for the ongoing heavy patrol and surveillance of neighborhoods in the 77th and Southeast division areas. The program claims to use hot-spot policing, an old tactic of engaging in high-visibility policing that is presented as "taking action" while failing to address the underlying needs of a community. With hot-spot policing, police determine where to target based on "analysis" of crime reports and other data, a trite tactic that does not result in better outcomes for communities but does ensure the continued traumatizing occupation of marginalized communities by LAPD.

Remove the 45-minute time limit on public comment, allowing every person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public statement. Allow community members to talk after every single agenda item instead of continuing the patently ludicrous practice of forcing

the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by police are the most knowledgeable about the real-world effects of the matters before this board and about LAPD in their neighborhoods. You should do everything you can to make it easy for them to comment publicly. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Signed, Michele Wetteland

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Commissioners,

AGENDA ITEMS E, F, G, H, I: Reject all outside donations to the LAPD. They already receive the bulk of our city's budget, the lawsuits against them don't even come out of their budget, and they should be forced to operate within the money the cit allocates to them. LAPD should never be allowed to receive outside money.

AGENDA ITEM 4A: As Steve attempts to find funding for more recruits, LAPD kills its own as was the case with Houston Tipping, killed during a training exercise this year after suffering critical injuries to his head and spinal cord. At the same time, Michel Moore and LAPD command staff have been unwilling or unable to take actions to defend a veteran Captain in the department, Lillian Carranza who has been with LAPD for 33 years, who was sexually harassed and felt humiliated, then was further left without help or support. Moore's inaction and inability to confront the situation once informed speaks volumes, not only about his personal perceptions but about the culture and norms of LAPD when it comes to sex and gender.

AGENDA ITEM 4C / OPPOSE: Please don't fund the "Safe Neighborhoods grant, which funds LAPD overtime hours for the continued heavy patrol and surveillance of neighborhoods in 77th and Southeast division areas. The program claims to use hot-spot policing, an old tactic of engaging in high-visibility policing that is presented as "taking action" while failing to address the underlying needs of a community. With hot-spot policing, police determine where to target based on "analysis" of crime reports and other data, a trite tactic that does not result in better outcomes for communities, but does ensure the continued occupation of marginalized communities by police.

CLOSED SESSION ITEMS: Reports on Officer Involved shootings should not be kept from the public. Your job is to demand transparency from LAPD and we want to hear these reports.

GENERAL PUBLIC COMMENT: Please change your policy for Public Comment. Let people speak AFTER each agenda item so they can speak to what has been said. Remove the 45 minute time limit for Public Comment. You are supposed to be the "People's Voice" in LAPD affairs and you can't do your job if you don't hear from the people. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before the board, and about LAPD in their neighborhoods, and you need to hear what they have to say.

The "Housing for Hires" program championed by Commissioner Steve Soboroff is a conflict of interest for the millionaire land developer as he attempts to rally donors to pay the partial rent of police recruits for 24 months, to join and stay with LAPD. Police are increasingly used to clear people and especially poor and unhoused individuals off of land. By paying the rent of new recruits for LAPD as homelessness in LA continues to rise, Soboroff and his cronies are demonstrating where their focus lies.

Why should Police housing be subsidized when our Teachers and essential workers cannot afford rent in LA because their salaries are much lower than even starting LAPD officers? Communities that are policed the most by LAPD also struggle with rent and desperately need rent relief programs, but this is ignored in favor of funding for LAPD, which remains the most murderous police department in the US, with Black community members being profiled and harmed by police at the highest rates.

Signed,
Ashley Brim

Commissioners:

Do you even read these?

The "Housing for Hires" program championed by Commissioner Steve Soboroff is a conflict of interest. The millionaire land developer is attempting to rally donors to pay the partial rent of police recruits for 24 months, to incentivize them to join LAPD and remain with the force. By paying the rent of new recruits for LAPD as homelessness in LA continues to rise, Soboroff and his cronies are demonstrating where their focus lies. Police are increasingly used to clear people and especially poor and unhoused individuals off of land. Communities that are policed the most by LAPD also struggle with rent and desperately need rent relief programs. But this need takes a backseat to more and more and more funding for LAPD, which remains the most murderous police department in the US, with Black community members being profiled and harmed by police at the highest rates.

As Steve attempts to find funding for more recruits, LAPD kills its own members, like Houston Tipping, who died during a training exercise this year after suffering critical injuries to his head and spinal cord. At the same time, Michel Moore and LAPD command staff have been unwilling or unable to take actions to defend Lillian Carranza, a veteran Captain in the department, who was sexually harassed and humiliated, and then abandoned. Chief Michel Moore's inaction and inability to confront the situation speaks volumes about both his personal awfulness and the culture and norms of LAPD when it comes to sex and gender.

Also on this week's agenda: a continuation of funding for the so-called Safe Neighborhoods grant, which funds LAPD overtime hours for the continued heavy patrol and surveillance of neighborhoods in 77th and Southeast division areas. The program claims to use hot-spot policing, an old tactic of engaging in high-visibility policing that is presented as "taking action" while failing to address the underlying needs of a community. With hot-spot policing, police determine where to target based on "analysis" of crime reports and other data, a trite tactic that does not result in better outcomes for communities, but does ensure the continued occupation of marginalized communities by police.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an

opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Moore's inaction and inability to confront the situation once informed speaks volumes, not only about his personal perceptions but about the culture and norms of LAPD when it comes to sex and gender.

On the agenda as well is a continuation of funding for the so-called Safe Neighborhoods grant, which funds LAPD overtime hours for the continued heavy patrol and surveillance of neighborhoods in 77th and Southeast division areas. The program claims to use hot-spot policing, an old tactic of engaging in high-visibility policing that is presented as "taking action" while failing to address the underlying needs of a community. With hot-spot policing, police determine where to target based on "analysis" of crime reports and other data, a trite tactic that does not result in better outcomes for communities, but does ensure the continued occupation of marginalized communities by police.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Signed,
Harrison Weinfeld

Subject: Tomorrow's Farce of a BOPC meeting public comment 10/4/22

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Commissioners,

The “Housing for Hires” program championed by Commissioner Steve Soboroff is a conflict of interest for the millionaire land developer as he attempts to rally donors to pay the partial rent of police recruits for 24 months, to join and stay with LAPD. Police are increasingly used to clear people and especially poor and unhoused individuals off of land. By paying the rent of new recruits for LAPD as homelessness in LA continues to rise, Soboroff and his cronies are demonstrating where their focus lies. Communities that are policed the most by LAPD also struggle with rent and desperately need rent relief programs, but this is ignored in favor of funding for LAPD, which remains the most murderous police department in the US, with Black community members being profiled and harmed by police at the highest rates.

As Steve attempts to find funding for more recruits, LAPD kills its own as was the case with Houston Tipping, killed during a training exercise this year after suffering critical injuries to his head and spinal cord. At the same time, Michel Moore and LAPD command staff have been unwilling or unable to take actions to defend a veteran Captain in the department, Lillian Carranza who has been with LAPD for 33 years, who was sexually harassed and felt humiliated, then was further left without help or support. Moore’s inaction and inability to confront the situation once informed speaks volumes, not only about his personal perceptions but about the culture and norms of LAPD when it comes to sex and gender.

On the agenda as well is a continuation of funding for the so-called Safe Neighborhoods grant, which funds LAPD overtime hours for the continued heavy patrol and surveillance of neighborhoods in 77th and Southeast division areas. Commissioners,

The "Housing for Hires" program championed by Commissioner Steve Soboroff is a conflict of interest for the millionaire land developer as he attempts to rally donors to pay the partial rent of police recruits for 24 months, to join and stay with LAPD. Police are increasingly used to clear people and especially poor and unhoused individuals off of land. By paying the rent of new recruits for LAPD as homelessness in LA continues to rise, Soboroff and his cronies are demonstrating where their focus lies. Communities that are policed the most by LAPD also struggle with rent and desperately need rent relief programs, but this is ignored in favor of funding for LAPD, which remains the most murderous police department in the US, with Black community members being profiled and harmed by police at the highest rates.

As Steve attempts to find funding for more recruits, LAPD kills its own as was the case with Houston Tipping, killed during a training exercise this year after suffering critical injuries to his head and spinal cord. At the same time, Michel Moore and LAPD command staff have been unwilling or unable to take actions to defend a veteran Captain in the department, Lillian Carranza who has been with LAPD for 33 years, who was sexually harassed and felt humiliated, then was further left without help or support. Moore's inaction and inability to confront the situation once informed speaks volumes, not only about his personal perceptions but about the culture and norms of LAPD when it comes to sex and gender.

On the agenda as well is a continuation of funding for the so-called Safe Neighborhoods grant, which funds LAPD overtime hours for the continued heavy patrol and surveillance of neighborhoods in 77th and Southeast division areas. The program claims to use hot-spot policing, an old tactic of engaging in high-visibility policing that is presented as "taking action" while failing to address the underlying needs of a community. With hot-spot policing, police determine where to target based on "analysis" of crime reports and other data, a trite tactic that does not result in better outcomes for communities, but does ensure the continued occupation of marginalized communities by police.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Signed,

Cody Sloan
