Commissioners,

This weekend was the 27th annual October 22nd National Day of Protest (NDP) to Stop Police Brutality, Repression, and the Criminalization of a Generation, to expose the nationwide epidemic of police brutality and the treatment of Black people in the US and to meet that epidemic with powerful and visible protest and resistance.

Since 2000, LAPD has murdered over 509 people in Los Angeles. The LA Sheriff's Department (LASD) has murdered over 400 people, and hundreds of additional folks have been killed or died under violent and oppressive conditions while in police custody in Los Angeles County; at least 292 people between the years 2000 to 2019; though as information about police violence is frequently hidden or obscured, the true numbers are likely far higher.

The role of police in the oppression of Black people has been ongoing and continues today in every police action and tactic. This will never be exposed by the state or elected officials, whom we never look to or rely on. Instead, we join in solidarity with each other and with the families of those killed by police, to lift up their experiences and commit to the fight against police brutality, murder, and repression.

Police brutality extends as well to the harm, intimidation, and murder of police's own comrades and family members. Police brutality includes brutality at home, in the form of domestic violence. In 1997, criminal defense consultant Bob Mullally leaked information to a KCBS reporter regarding confidential files about LAPD domestic violence. The files revealed that from 1990-1993, 79 officers were investigated for beating their intimate partners and family members. Out of 85 cases, 75 showed evidence of a crime. In one case, an officer struck his wife so hard her liver ruptured. In another case, an officer abused his wife and repeatedly raped her 14-year-old niece.

Complaints filed include 61 felony assaults, 35 terrorist threats, 28 assaults with a deadly weapon, 20 gun-brandishing incidents, 13 child-abuse complaints, and six rapes. No officers were arrested or prosecuted, and while 4 officers were fired and 19 were suspended, almost one third of officers were eventually promoted.

Following the leak in 1997, the Feminist Majority Foundation and its National Center for Women and Policing pushed for an investigation of LAPD practices involving police officers guilty of domestic abuse. In the resulting report, Inspector General Katherine Mader examined 227 cases of domestic violence committed by officers from 1990-1997 and found that "many of the investigations lacked objectivity or were otherwise flawed or skewed.

In 2015, the Officer of the Inspector General (OIG) released a review of complaints made and investigated from 2012-2014. The data reveals that of 269 alleged complaints of domestic violence, 86 were sustained. Compared to the IG's 1997 investigation, the rate at which domestic violence was being reported against officers had more than doubled.

We join with those thousands and even millions of individuals nationwide that have been harmed by police brutality and demand an end to the violence. We demand funding be diverted from LAPD and invested in those communities most harmed by systemic police violence. Dismantle, defund, and abolish LAPD.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Signed,
Sammi

We join with those thousands and even millions of individuals nationwide that have been harmed by police brutality and demand an end to the violence. We demand funding be diverted from LAPD and invested in those communities most harmed by systemic police violence. Dismantle, defund, and abolish LAPD.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Signed,
Dr. Michele Dumont

KEVIN DE LEON: RESIGN.

Hi Commissioners,

This weekend was the 27th annual October 22nd National Day of Protest (NDP) to Stop Police Brutality, Repression, and the Criminalization of a Generation, to expose the nationwide epidemic of police brutality and the treatment of Black people in the US and to meet that epidemic with powerful and visible protest and resistance.

Since 2000, LAPD has murdered over 509 people in Los Angeles. The LA Sheriff's Department (LASD) has murdered over 400 people, and hundreds of additional folks have been killed or died under violent and oppressive conditions while in police custody in Los Angeles County; at least 292 people between the years 2000 to 2019; though as information about police violence is frequently hidden or obscured, the true numbers are likely far higher.

The role of police in the oppression of Black people has been ongoing and continues today in every police action and tactic. This will never be exposed by the state or elected officials, whom we never look to or rely on. Instead, we join in solidarity with each other and with the families of those killed by police, to lift up their experiences and committ to the fight against police brutality, murder, and repression.

Police brutality extends as well to the harm, intimidation, and murder of police's own comrades and family members. Police brutality includes brutality at home, in the form of domestic violence. In 1997, criminal defense consultant Bob Mullally leaked information to a KCBS reporter regarding confidential files about LAPD domestic violence. The files revealed that from 1990-1993, 79 officers were investigated for beating their intimate partners and family members. Out of 85 cases, 75 showed evidence of a crime. In one case, an officer struck his wife so hard her liver ruptured. In another case, an officer abused his wife and repeatedly raped her

14-year-old niece.

Complaints filed include 61 felony assaults, 35 terrorist threats, 28 assaults with a deadly weapon, 20 gun-brandishing incidents, 13 child-abuse complaints, and six rapes. No officers were arrested or prosecuted, and while 4 officers were fired and 19 were suspended, almost one third of officers were eventually promoted.

Following the leak in 1997, the Feminist Majority Foundation and its National Center for Women and Policing pushed for an investigation of LAPD practices involving police officers guilty of domestic abuse. In the resulting report, Inspector General Katherine Mader examined 227 cases of domestic violence committed by officers from 1990-1997 and found that "many of the investigations lacked objectivity or were otherwise flawed or skewed.

In 2015, the Officer of the Inspector General (OIG) released a review of complaints made and investigated from 2012-2014. The data reveals that of 269 alleged complaints of domestic violence, 86 were sustained. Compared to the IG's 1997 investigation, the rate at which domestic violence was being reported against officers had more than doubled.

We join with those thousands and even millions of individuals nationwide that have been harmed by police brutality and demand an end to the violence. We demand funding be diverted from LAPD and invested in those communities most harmed by systemic police violence. Dismantle, defund, and abolish LAPD.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. Complaints filed include 61 felony assaults, 35 terrorist threats, 28 assaults with a deadly weapon, 20 gun-brandishing incidents, 13 child-abuse complaints, and six rapes. No officers were arrested or prosecuted, and while 4 officers were fired and 19 were suspended, almost one third of officers were eventually promoted.

Following the leak in 1997, the Feminist Majority Foundation and its National Center for Women and Policing pushed for an investigation of LAPD practices involving police officers guilty of domestic abuse. In the resulting report, Inspector General Katherine Mader examined 227 cases of domestic violence committed by officers from 1990-1997 and found that "many of the investigations lacked objectivity or were otherwise flawed or skewed.

In 2015, the Officer of the Inspector General (OIG) released a review of complaints made and investigated from 2012-2014. The data reveals that of 269 alleged complaints of domestic violence, 86 were sustained. Compared to the IG's 1997 investigation, the rate at which domestic violence was being reported against officers had more than doubled.

We join with those thousands and even millions of individuals nationwide that have been harmed by police brutality and demand an end to the violence. We demand funding be diverted from LAPD and invested in those communities most harmed by systemic police violence. Dismantle, defund, and abolish LAPD.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Signed,
J.Stephen Brantley

Commissioners,

This weekend was the 27th annual October 22nd National Day of Protest (NDP) to Stop Police Brutality, Repression, and the Criminalization of a Generation, to expose the nationwide epidemic of police brutality and the treatment of Black people in the US and to meet that epidemic with powerful and visible protest and resistance.

Since 2000, LAPD has murdered over 509 people in Los Angeles. The LA Sheriff's Department (LASD) has murdered over 400 people, and hundreds of additional folks have been killed or died under violent and oppressive conditions while in police custody in Los Angeles County; at least 292 people between the years 2000 to 2019; though as information about police violence is frequently hidden or obscured, the true numbers are likely far higher.

The role of police in the oppression of Black people has been ongoing and continues today in every police action and tactic. This will never be exposed by the state or elected officials, whom we never look to or rely on. Instead, we join in solidarity with each other and with the families of those killed by police, to lift up their experiences and committ to the fight against police brutality, murder, and repression.

Police brutality extends as well to the harm, intimidation, and murder of police's own comrades and family members. Police brutality includes brutality at home, in the form of domestic violence. In 1997, criminal defense consultant Bob Mullally leaked information to a KCBS reporter regarding confidential files about LAPD domestic violence. The files revealed that from 1990-1993, 79 officers were investigated for beating their intimate partners and family members. Out of 85 cases, 75 showed evidence of a crime. In one case, an officer struck his wife so hard her liver ruptured. In another case, an officer abused his wife and repeatedly raped her 14-year-old niece.

Complaints filed include 61 felony assaults, 35 terrorist threats, 28 assaults with a deadly weapon, 20 gun-brandishing incidents, 13 child-abuse complaints, and six rapes. No officers were arrested or prosecuted, and while 4 officers were fired and 19 were suspended, almost one third of officers were eventually promoted.

This weekend was the 27th annual October 22nd National Day of Protest (NDP) to Stop Police Brutality, Repression, and the Criminalization of a Generation, to expose the nationwide epidemic of police brutality and the treatment of Black people in the US and to meet that epidemic with powerful and visible protest and resistance.

Since 2000, LAPD has murdered over 509 people in Los Angeles. The LA Sheriff's Department (LASD) has murdered over 400 people, and hundreds of additional folks have been killed or died under violent and oppressive conditions while in police custody in Los Angeles County; at least 292 people between the years 2000 to 2019; though as information about police violence is frequently hidden or obscured, the true numbers are likely far higher.

The role of police in the oppression of Black people has been ongoing and continues today in every police action and tactic. This will never be exposed by the state or elected officials, whom we never look to or rely on. Instead, we join in solidarity with each other and with the families of those killed by police, to lift up their experiences and committ to the fight against police brutality, murder, and repression.

Police brutality extends as well to the harm, intimidation, and murder of police's own comrades and family members. Police brutality includes brutality at home, in the form of domestic violence. In 1997, criminal defense consultant Bob Mullally leaked information to a KCBS reporter regarding confidential files about LAPD domestic violence. The files revealed that from 1990-1993, 79 officers were investigated for beating their intimate partners and family members. Out of 85 cases, 75 showed evidence of a crime. In one case, an officer struck his wife so hard her liver ruptured. In another case, an officer abused his wife and repeatedly raped her 14-year-old niece.

Complaints filed include 61 felony assaults, 35 terrorist threats, 28 assaults with a deadly weapon, 20 gun-brandishing incidents, 13 child-abuse complaints, and six rapes. No officers were arrested or prosecuted, and while 4 officers were fired and 19 were suspended, almost one third of officers were eventually promoted.

Following the leak in 1997, the Feminist Majority Foundation and its National Center for Women and Policing pushed for an investigation of LAPD practices involving police officers guilty of domestic abuse. In the resulting report, Inspector General Katherine Mader examined 227 cases of domestic violence committed by officers from 1990-1997 and found that "many of the investigations lacked objectivity or were otherwise flawed or skewed.

In 2015, the Officer of the Inspector General (OIG) released a review of complaints made and investigated from 2012-2014. The data reveals that of 269 alleged complaints of domestic violence, 86 were sustained. Compared to the IG's 1997 investigation, the rate at which domestic violence was being reported against officers had more than doubled.

We join with those thousands and even millions of individuals nationwide that have been harmed by police brutality and demand an end to the violence. We demand funding be diverted from LAPD and invested in those communities most harmed by systemic police violence. Dismantle, defund, and abolish LAPD.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Signed,
Rachel

Commissioners,

I write to you with a sad heart regarding the LAPD's history. AND I write to you in hopes that we can change this legacy. AND- I believe this change can happen with you!!

This weekend marks an important annual day across the Nation to examine the impact of policing and to Stop Police Brutality, Repression, and the Criminalization of a Generation. This past weekend, on October 22nd, the nation acknowledges with a heavy heart, the National Day of Protest (NDP). This day was created 27 years ago to demand change. This email will outline ways the LAPD has participated in a Nation wide sickness. This email is part of the effort to expose the nationwide epidemic of police brutality, how that brutality is especially cruel towards Black people.

Los Angeles has an opportunity to break this cycle. The LAPD, under the leadership of your guidance can form new policies and create new procedures so that the numbers I share in this email COULD be a record- and not our future.

I write this email in hopes you will consider changing your behavior so that more lives are not lost. Here is the terrible current reality in Los Angeles.

Since 2000, the following has been documented:

- LAPD has murdered over 509 people in Los Angeles.

- The LA Sheriff's Department (LASD) has murdered over 400 people.
- In addition, 292 folks have been killed or died under the miserable conditions of police custody in Los Angeles County. *Please be aware that these numbers are most likely higher because of a lack of LAPD accountability and transparency WHICH YOU COMMISSIONERS HAVE THE POWER TO CHANGE. :)*

Please remember for every number, there are tens of people impacted, families severed. Family members grieve. They pay their taxes and attend commission meetings heartbroken and beg for change. In return, unfortunately, this very body of commissioners is silent and inactive AT BEST, and hurtful, intimidating, and scornful at its worst. Please- change this behavior. The impact of the loss of life cannot be measured. It brings me nothing but heartache to report these numbers.

What is happening psychologically to LAPD officers in training and in practice on the streets? The violent practices of the job AND the lack of assistance, help, and mental health offered BY THIS COMMISSION also points to a shilling reality. Police families are being impacted by violence. Hurt people hurt people. Your officers are suffering and because this commission is not helpful, police bear their wounds at home and hurt their own family members, in the form of domestic violence. In 1997, criminal defense consultant Bob Mullally leaked information to a KCBS reporter regarding confidential files about LAPD domestic violence. The files revealed that from 1990-1993, 79 officers were investigated for beating their intimate partners and family members. Out of 85 cases, 75 showed evidence of a crime. In one case, an officer struck his wife so hard her liver ruptured. In another case, an officer abused his wife and repeatedly raped her 14-year-old niece.

Complaints filed include 61 felony assaults, 35 terrorist threats, 28 assaults with a deadly weapon, 20 gun-brandishing incidents, 13 child-abuse complaints, and six rapes. No officers were arrested or prosecuted, and while 4 officers were fired and 19 were suspended, almost one third of officers were eventually promoted.

Following the leak in 1997, the Feminist Majority Foundation and its National Center for Women and Policing pushed for an investigation of LAPD practices involving police officers guilty of domestic abuse. In the resulting report, Inspector General Katherine Mader examined 227 cases of domestic violence committed by officers from 1990-1997 and found that "many of the investigations lacked objectivity or were otherwise flawed or skewed.

In 2015, the Officer of the Inspector General (OIG) released a review of complaints made and investigated from 2012-2014. The data reveals that of 269 alleged complaints of domestic violence, 86 were sustained. Compared to the IG's 1997 investigation, the rate at which domestic violence was being reported against officers had more than doubled.

We join with those thousands and even millions of individuals nationwide that have been harmed by police brutality and demand an end to the violence. We demand funding be diverted from LAPD and invested in those communities most harmed by systemic police violence. Dismantle, defund, and abolish LAPD.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

I believe this commission can change this reality.
I believe that changing practice can change outcomes!
Please. Your own children and the health of Los Angeles beg you to be accountable.
Thank you,
concerned mother of two
Citizen of Sherman Oaks CA 91411
Kirsten Laurel Prather Caplan

Good day Police Commissioners,

On October 4, 2022, Commissioner Briggs noted during a Police Commission meeting, the Police Commission reads all emails submitted by the public. I'm happy to hear this and thank you for doing so. I feel that it's important that you do take the time, and all read public comments. As you are aware, I have been speaking about the city of Los Angeles mandate for making your city workers get the Covid-19 gene therapy shot. I'm not against true vaccines that have gone through the proper clinical trials, have been proven to effectively work, and do not cause adverse events. (Please refer to **VAERS** and see what I speak of).

What's troubling is that Mayor Eric Garcetti and city Council continues to push this mandate. It is common knowledge that the city of Los Angeles has received money from the U.S. Government to push this "vaccine". Every time city Council votes to extend the Covid state of emergency the city of Los Angeles receives even more money. The C.O.L.A. has a gift that keeps on giving, **the more people that get vaccinated and or boosted the more people become infected time and time again.** You use these numbers to validate your reasoning for extending the emergency. Is this mandate truly about public safety or receiving money from the State and Federal levels? When the money runs out- and it will- I wonder what will happen with your mandate?

The numbers provided by Chief Moore year- to- date within the LAPD paints the same picture as that stated above in bold. **(Please don't take my word for it, just review what Chief Moore stated during the Police Commission meetings.)** The numbers from highly vaccinated counties and countries mirror the current trends within the LAPD. The overwhelming amount of people becoming infected and reinfected from Covid-19 are from the **vaccinated population.**

I have seen on several occasions during Police Commission meetings while a presentation pertaining to something financial or during an audit you are able to catch errors when they are presented. You have voiced concern for clarification on the spot. I do commend you for doing that. I'm sure you don't find it easy nor entertaining pointing out another's mistake. Why haven't any of you asked any follow up questions when Chief Moore or appointee either skipped reporting on Covid all together or only gave a partial report?

Let me provide some examples,

1/11/2022 No Covid report given

2/8/2022 No Covid report given

3/15/2022 Total infections reported but no breakdown of vaccinated/ unvaccinated

4/12/2022 Total infections reported but no breakdown of vaccinated/ unvaccinated

5/17/2022 Total infections reported but no breakdown of vaccinated/ unvaccinated

5/24/2022 Total infections reported but no breakdown of vaccinated/ unvaccinated

7/26/2022 Only gave 77% did not provide further breakdown

When you fill in the blanks, will the percentage from the vaccinated becoming infected go up or down? I'm going to go out on a limb and say the vaccinated will continue to be the overwhelming majority of the ones who are becoming infected. I will give you an opportunity to prove me wrong though, **just provide the missing numbers.** In my past public comments, I have provided the public with an easy-to-follow graph showing the exact numbers from Chief Moore's covid reports and it was censored. Why?

Perhaps the Police Commission would be interested in drafting their own easy-to-follow graph and include Chief Moore's numbers from 2022 year- to- date from his Covid reports? I think that would be very beneficial for the public to see. You speak about being transparent with the public, now let's align your words with your actions.

I have yet to hear any Police Commissioners ask for clarification on this lack of reporting. We the citizens of Los Angeles expect you to ask some tough questions when necessary. We need you to ensure that everyone is being honest and transparent. **When you don't, you lose all credibility with us.**

I have always found it easier just to be up front and honest with people no matter how difficult it is. I don't need to always have to remember what I said, I just need to remember what the truth is and speak to that. As each day passes, the truth on this "vaccine" and Covid are coming out. As city leaders ignoring and pretending you are unaware is irresponsible and downright criminal. I would strongly encourage you to start reading published medical journals or case studies pertaining to the current events involving Covid-19.

On October 4, 2022, Chief Moore continues to state that 58% of the vaccinated are making up the total infections. I have three sources from the C.O.L.A. that contain covid infections data within the LAPD. All three sources do not align with one another. Two of these sources are capturing data from **June of 2021.**

Using numbers that are over a year old and including them to reflect current trends is not being transparent with the citizens. We are currently dealing with Omicron and its subvariants, that was discovered in the United States in late November 2021 per the CDC. Let's look at the recent numbers in L.A. County.

October 13, 2022, per the CDC.

Case Rate per 100,000 population	73.42
New Covid-19 admissions per 100,000 population	4.9
% Staffed inpatient beds in use by patients with confirmed Covid-19	2.8%

October 20, 2022, per the CDC

Case Rate per 100,000 population	52.05
New Covid-19 admissions per 100,000 population	4.3
% Staffed inpatient beds in use by patients with confirmed Covid-19	2.4%

When you **purposely mislead people, there is no difference than if you were to tell them an outright lie.**

We would like to know the current numbers of the LAPD personnel that are **fully vaccinated, partially vaccinated** and **unvaccinated**. When I use the term vaccinated, I'm speaking to the CDC's definition of vaccinated. There is a recent document that was published by the city of Los Angeles that I have obtained that provides a definition of what the C.O.L.A. considers to be fully vaccinated that goes against the CDC's definition. Why is this?

Can you provide the citizens of Los Angeles with the names of the Doctors and Scientists the C.O.L.A. consulted with to come up with these new guidelines? Why is the C.O.L.A. using their own made-up definitions for being considered fully vaccinated? Why is there such a divide between the C.O.L.A. and CDC's guidelines? It appears that the COLA is making up the rules as they go and apply or change rules to fit their narrative\$.

Chief Moore mentioned that the C.O.L.A. is paying for the Covid testing for its employees. It wasn't clear, **are all city employees regardless of vaccination status required to test?** I would certainly hope this is the case. Chief Moore's covid reports have shown the vaccinated are making up the majority of infections and reinfections with Covid-19 within the LAPD. These trends just aren't limited to your department though, this is the same trend all around the world.

I believe the C.O.L.A. is still only testing the unvaccinated, which if true, is reckless based off your own covid reports. Please don't take my word on this, review what Chief Moore has reported year to date on his covid reports and see for yourself.

I want you all to remember that having the ability to lead people is a gift, don't abuse this gift. Leaders can think and talk about solutions to problems. Leaders also have the courage that most people can't fathom. Followers only talk about the problems and lack courage! What do you want to be remembered as, A Leader or Follower? Let's see if the Police Commission really does read all emails submitted in public comments. We have genuine questions and concerns; we deserve genuine honest answers.

W. Blauer

“Mistakes are always forgivable, if one has the courage to admit them.” -Bruce Lee

Commissioners,

This weekend was the 27th annual October 22nd National Day of Protest (NDP) to Stop Police Brutality, Repression, and the Criminalization of a Generation, to expose the nationwide epidemic of police brutality and the treatment of Black people in the US and to meet that epidemic with powerful and visible protest and resistance.

Since 2000, LAPD has murdered over 509 people in Los Angeles. The LA Sheriff's Department (LASD) has murdered over 400 people, and hundreds of additional folks have been killed or died under violent and oppressive conditions while in police custody in Los Angeles County; at least 292 people between the years 2000 to 2019; though as information about police violence is frequently hidden or obscured, the true numbers are likely far higher.

The role of police in the oppression of Black people has been ongoing and continues today in every police action and tactic. This will never be exposed by the state or elected officials, whom we never look to or rely on. Instead, we join in solidarity with each other and with the families of those killed by police, to lift up their experiences and committ to the fight against police brutality, murder, and repression.

Police brutality extends as well to the harm, intimidation, and murder of police's own comrades and family members. Police brutality includes brutality at home, in the form of domestic violence. In 1997, criminal defense consultant Bob Mullally leaked information to a KCBS reporter regarding confidential files about LAPD domestic violence. The files revealed that from 1990-1993, 79 officers were investigated for beating their intimate partners and family members. Out of 85 cases, 75 showed evidence of a crime. In one case, an officer struck his wife so hard her liver ruptured. In another case, an officer abused his wife and repeatedly raped her 14-year-old niece.

Complaints filed include 61 felony assaults, 35 terrorist threats, 28 assaults with a deadly weapon, 20 gun-brandishing incidents, 13 child-abuse complaints, and six rapes. No officers were arrested or prosecuted, and while 4 officers were fired and 19 were suspended, almost one third of officers were eventually promoted.

Following the leak in 1997, the Feminist Majority Foundation and its National Center for Women and Policing pushed for an investigation of LAPD practices involving police officers guilty of domestic abuse. In the resulting report, Inspector General Katherine Mader examined 227 cases of domestic violence committed by

officers from 1990-1997 and found that "many of the investigations lacked objectivity or were otherwise flawed or skewed.

In 2015, the Officer of the Inspector General (OIG) released a review of complaints made and investigated from 2012-2014. The data reveals that of 269 alleged complaints of domestic violence, 86 were sustained. Compared to the IG's 1997 investigation, the rate at which domestic violence was being reported against officers had more than doubled.

We join with those thousands and even millions of individuals nationwide that have been harmed by police brutality and demand an end to the violence. We demand funding be diverted from LAPD and invested in those communities most harmed by systemic police violence. Dismantle, defund, and abolish LAPD.

Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."
Signed,

Elizabeth Sommer
