CRIME PREVENTION INFORMATION AND TIPS:

It is important to remain vigilant and pay attention to what is occurring in your neighborhood. Be aware of solicitors that go door to door offering their services. While some are legitimate, there are those who look for homes for possible future break-ins. There are also those who pose as city workers (Department of Water and Power) to commit distraction burglaries. Make sure you talk through the door making your presence known. Do not let strangers into your house and always have your phone handy to call police if need be. Keep side gates used to access back yards locked with beware of dog signs clearly visible. Be aware of packages being delivered to your residence and remove them from your door step in a timely manner. Keep the exterior of your residence illuminated at night. Ring doorbells can be installed to help alert you to persons on your property and assist with identifying potential dangers. Remove visible personal property from vehicles making sure to lock and secure vehicle doors. These simple steps greatly reduce the chance of being victimized. You can call our non-emergency number for suspicious people in your neighborhood. 1(877) ASK- LAPD or dial 1-877-275-5273. Dial 911 for emergency responses.

Take care and be safe,
