Hello Commissioners,

I'm writing to say that Chief Moore is a complete disgrace to the city of LA and ask that you do everything in your power to reject his reappointment. Under his leadership, the budget for LAPD has ballooned, he has failed to properly investigate reports filed by his own officers about problems in the dept, and he has continuously obstructed public calls for transparency and lied repeatedly on the record. Not to mention the outright disdain he shows for the people of LA, particularly those who have been impacted by police violence and their allies.

I have to believe you can do better for our city. He has failed to make our communities safer.

Best,
Ashley Brim

Commissioners,

On the agenda is the re-appointment of Michel Moore as head of LAPD. As LAPD Police Chief, Michel Moore has overseen the relentless ballooning of LAPD's budget as police continue to kill members of the community that are the most vulnerable: Black, brown, and Indigenous community members; immigrants and migrants; youth, disabled, and unhoused people; queer and trans community members; and people who are in crisis.

As is increasingly understood in LA and worldwide, police do not create or contribute to community safety. Rather, the existence of police destabilizes communities, as funding for much-needed services are instead commandeered by police, whose presence adds further harm in the form of harassment, detainment, surveillance, brutalization, and other forms of violence.

LAPD remains the most murderous police agency in the US, with police killing three people in the first few days of 2023 - Keenan Anderson, Oscar Leon, and Takar Smith. As the head of LAPD, Michel Moore has facilitated, strengthened, and magnified its violence, while continuing and deepening its corruption.

Over his term Moore has been responsible for the following:

-
-
- A publicity stunt to detonate fireworks taken from a home in South Los Angeles, while
- still within the community, and without effective evacuation. The explosion resulted in injuries to 17 people including
- Auzie Houchins and Ramon Reyes, who ultimately
- died from the shock and stress
-
-
-
- A continuation of racialized stops of Black pedestrians and drivers, which Moore
- defends by presenting LAPD's crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the deeply racist policing of LAPD
-
-

- Proclaiming not once but twice that those who protested the murder of George Floyd were just as responsible for his death as the police who killed him
- Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both “represent ideology that’s counter to democracy”
- Lied on the record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media
- Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary
- Failing to act on behalf of an LAPD captain who was being sexually harassed at work

These are just a few of the ways Michel Moore has perpetuated harm against the community from his position of head of LAPD. We reject and condemn his nomination, and demand a defunding of LAPD.

We reject these rules and tactics intended to quell dissent and public speech. Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in or attends to have an opportunity to speak. Remove the two-time limitation on each individual’s public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings! In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the “citizen’s voice in police affairs.”

Signed,

Caroline

Board of Police Commissioners:
I am writing in support of the reappointment of Chief Moore.
I have personally known Chief Moore in his capacity as Chief of the Los Angeles Police Department. He has consistently acted in the best interests in the protection of the people of Los Angeles and in support of the LAPD. He has been proactive in implementing best practices often seeking new and innovative methods to maintain law and order while supporting the morale of the personnel, sworn and non sworn, who work in the Department.
I particularly am impressed with Chief Moore's openness to accept responsibility and be accountable for the actions of all those that report to him. He is proactive in making corrections and improvements.
Chief Moore is very experienced, capable, confident, loyal and respected.
I believe another term will allow him to continue improving the Department and making Los Angeles a safer city in which to live.
Thank you for your attention.

Dear Commissioners:

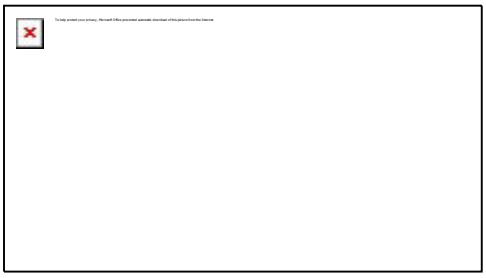
I am writing to express my opposition to Michel Moore's request for another term as Chief of the Police, of the Los Angeles Police Department (LAPD).

I have read countless news articles about the conduct of Police Officers in the LAPD. I am greatly disappointed with Mr. Moore's inability to change the culture of the Los Angeles Police Department (LAPD). The LAPD has faced public criticism for the excessive use of force. The LAPD has internal problems as well. The Los Angeles Times has published many articles about the problems within the LAPD and how Michel Moore has not done anything meaningful to change the toxic culture within the LAPD.

Michel Moore has failed in his obligation to implement meaningful reforms in the LAPD. The LAPD needs to be Reorganized and Restructured. It has not done so! They continue to be plagued with problems. We have witnessed how some people were killed by police officers and how others were beaten up. This is excessive use of force. The Police Department has not learned its previous lessons and history.

FRONTLINE PBS - An investigation into police training, tactics, and accountability as well as racial disparities in how force is used by police in Utah. (November 23, 2021).

FRONTLINE PBS released a Documentary on this exact problem on a record number of police shootings and lack of accountability.



Shots Fired

Amid record police shootings in Utah, an investigation into the use of deadly force in the state. With local journalism partner The Salt Lake Tribune, FRONTLINE examines police training, tactics and accountability, as well as racial disparities in the way force is used.

www.pbs.org

I am also disappointed with Mr. Moore for his mishandling of the Sexual Harassment Claims by Captain Lillian L. Carranza, Commanding Officer of the Gangs and Narcotics Division. Lillian L. Carranza stated that Michel Moore knew what was going on in the department but failed to stop it. Because of Moore's mishandling of

internal problems, the City of Los Angeles paid Ms. Carranza $4 million in a Civil Lawsuit costing the city's taxpayers millions of dollars in damages.

Mr. Moore's problems with the department, and his inability to hold his police officers accountable for their behavior and for not following the LAW, are reasons for dismissal.

Mr. Moore should NOT be given another term as Chief. Michel Moore is not the right person for the job. He has not demonstrated the ability to keep the LAPD in check and not hold those who violated departmental policy and the law. They continue to violate the trust of the people. They, the LAPD, should dismiss its top leadership. They have done poorly.

Sincerely,

LM

As the head of LAPD, Michel Moore has facilitated, strengthened, and magnified its violence, while continuing and deepening its corruption. All three men were experiencing mental health crises- when will we provide CARE to those in need instead of sending guns?! Untrained trigger-happy cops do not treat mental health needs, trained mental healthcare providers do.

As evidenced, Moore doesn't enforce de-escalation as a plan for LAPD. He repeatedly approves the harm as necessary and "in-policy." When a shooting is designated out-of-policy by him or the Commission, officers are almost never disciplined or held accountable. How can we expect LAPD to gain trust of the community if LAPD continues the same violent cycles- the definition of insanity.

Over his term Moore has been responsible for the following:

- Permitted cops to spread COVID in the department and in neighborhoods by refusing vaccinations and not masking up while we were losing 1,000 Angelenos a day to covid

- A publicity stunt to detonate fireworks taken from a home in South LA, while still within the community, and without effective evacuation. The explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who ultimately died from the shock and stress

- A continuation of racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD's crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the deeply racist policing of LAPD

- Enabled officers to circulate a "Valentine Card" referencing the murder of George Floyd with "you take me breath away" on LAPD's internal online communication system

- Proclaiming not once but twice that those who protested the murder of George Floyd were just as responsible for his death as the police who killed him

- Refused to disclose or publicly hold accountable the LAPD officers who participated in the attack of the U.S. Capitol on January 6, 2021

January 7, 2023

Dear Board of Police Commissioners, Mayor Karen Bass, and LA City Council,

My name is Heather Carbone and I am the founder and leading member of the group Defend the LAPD. Defend the LAPD is a group of approximately 25,000 community members of Los Angeles. Our group was started following the defunding movement in 2020 and our primary focus is public safety for our community and supporting the LAPD. There has never been a more challenging time than right now. With that said, I am writing this letter of endorsement for Chief Michel Moore because he is the right person to continue to lead the Los Angeles Police Department.

Communities in Los Angeles depend on having a safe and secure environment. They depend on this police commission and every elected official to ensure that the LAPD has the best leadership in place to achieve that goal. Chief Moore has continued to lead this department through the most trying times that no one could have prepared for. He led the department through the COVID pandemic, restored stability following the civil unrest, and he has diligently implemented numerous reform efforts and initiatives to keep improving the LAPD. Under Chief Moore's leadership, the diversity of both the sworn and civilian workforce have increased to further reflect parity with the community. Chief Moore has also implemented the Diversity, Equity and Inclusion (DEI) initiatives and he has remained focused on the principles of procedural justice and constitutional policing. He has also furthered his commitment to modernizing technology to increase productivity and effectiveness. Most importantly, Chief Moore has regained the public's trust in the LAPD, as is evident from surveys showing 75% of the public wants more LAPD officers patrolling the streets.

It goes without saying that Chief Moore is a fighter for the people of Los Angeles. Despite a reduction in the workforce, as has been seen across the nation, constant budget challenges, and a historic shift in prosecutorial practices, Chief Moore remains a dedicated servant to the people of Los Angeles, achieving what no one else can. He is the leader that the LAPD and City of Los Angeles need. Most importantly, he is the law enforcement leader the people of Los Angeles deserve for the next 5 years.

Respectfully,

Heather Carbone
Defend the LAPD

I have now spoken with 5 or 6 agencies without any resolution to this housing matter. As of yesterday LA County DPSS was looking into a motel voucher referral to the Winter Shelter office. But this morning they notified me it was reserved for "families with children who've exhausted their eligibility for other DPSS services."

But in speaking directly to Winter Shelter offices this morning I was told " we've got rooms" and the referral would get me one.

So I know rooms are available. And given the criminal issues at play, which have been well-documented in dozens of emails to each of you, refusing services to me is unconscionable and could be viewed as retaliatory in nature.

Additionally, as an HIV+ adult, I know HUD and various agencies who get HOPWA funds could be resources as well.

I'd appreciate a return call, as I've officially exhausted all money at my disposal. Tomorrow it's a tent on Skid Row.assuming I can afford the rent.

Commissioners,

We reject the re-appointment of Michel Moore. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the Los Angeles Police Department be divested from the agency, and invested instead in life affirming, life supporting services and programs.

As LAPD Police Chief, Michel Moore has overseen the relentless ballooning of LAPD's budget as police continue to kill members of the community that are the most vulnerable: Black, brown, and Indigenous community members; immigrants and migrants; youth, disabled, and unhoused people; queer and trans community members; and people who are in crisis.

As is increasingly understood in LA and worldwide, police do not create or contribute to community safety. Rather, the existence of police destabilizes communities, as funding for much-needed services are instead commandeered by police, whose presence adds further harm in the form of harassment, detainment, surveillance, brutalization, and other forms of violence.

LAPD remains the most murderous police agency in the US, with police killing three people in the first few days of 2023 - Keenan Anderson, Oscar Leon, and Takar Smith. As the head of LAPD, Michel Moore has facilitated, strengthened, and magnified its violence, while continuing and deepening its corruption.

Over his term Moore has been responsible for the following:

-
-
- A publicity stunt to detonate fireworks taken from a home in South Los Angeles, while still within

- the community, and without effective evacuation. The explosion resulted in injuries to 17 people including
- Auzie Houchins and Ramon Reyes, who ultimately died from the
- shock and stress
- A continuation of racialized stops of Black pedestrians and drivers, which Moore defends by presenting
- LAPD's crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the deeply racist policing of LAPD
- Proclaiming not once but twice that those who protested the murder of George Floyd were just as
- responsible for his death as the police who killed him
- Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating
- that both "represent ideology that's counter to democracy"
- Lied on the record to the public about the number of traffic stops made in South Central in 2021,
- stating the number was 74, when the actual recorded number was 639, a number revealed by the media
- Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum
- retirement and a nearly $400,000 annual salary
- Failing to act on behalf of an LAPD captain who was being sexually harassed at work

These are just a few of the ways Michel Moore has perpetuated harm against the community from his position of head of LAPD. We reject and condemn his nomination, and demand a defunding of LAPD.

We reject these rules and tactics intended to quell dissent and public speech. Remove the 45-minute time limit on public comment, thereby allowing every single person who calls in or attends to have an opportunity to speak. Remove the two-time limitation on each individual's public comment. Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings! In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Amanda Horowitz

We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs. If you have any concern for the residence of Los Angeles you would not support Moore as the chief. He vilifies the victims of police violence and murder and allows what has been shown to be causing deaths; namely, the use of force and/or tasers on people who are or may be acting out a drug-related condition. Using force on these people has repeatedly caused death, which you and the chief refuse to acknowledge as a cause of their deaths. Research and your own experiences should have proved this to you and called for the ban on tasers and the calling of other experts who can deal with people who are unfortunately experiencing what is probably an unexpected result of taking drugs. Using drugs should not be a death sentence. Stop the LAPD murdering these people - it is murder when you know what is likely to happen when you act.

As its budget increases year after year, LAPD is still the most homicidal police agency in the US. Commissioners,

I cannot fathom a world in which Michel Moore is reappointed. His list of never ending failures is so friggin long it is starting to feel more like a comedy skit than a leader of our public safety. Our city has never been more in jeopardy of harm due to LAPD's inept manner with which they patrol this city. We have been demanding for YEARS, FOR YEARS that LAPD not be responding to folks in mental health crisis. I can recall being in the police commission room about 4 years ago and always making sure that my time at the podium found its way to stating "LAPD HAS NO BUSINESS RESPONDING TO MENTAL HEALTH CALLS!" And here we are, the first week of 2023, LAPD executed 3 men, all in a mental health crisis. In addition, the amount of lies Moore tells knows no bounds. He has no hesitation to twist the truth, hell he even makes up words at times, to talk in circles to bend the truth to fit his needs. When he needs crime to be high, it's high, when he needs it to be lower, it's lower. I have notebooks full of notes where one week crime was raging out of control and the next we are seeing decreases. These things are easy to get away with when the public has no ability to attend regularly. This is why the commission meetings are strategically scheduled at the exact same time city council meets, and often board of supervisors as well.

As the head of LAPD, Michel Moore has defended and facilitated its violence. Over his term Moore has been responsible for the following:

Commissioners,

We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

As its budget increases year after year, LAPD is still the most homicidal police agency in the US. Despite millions of dollars in training and technology for situational awareness, de-escalation, less-lethal weapons, and mental health evaluation teams, LAPD continues to murder people who are in crisis or in need of aid. Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted.

Commissioners,

We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

As its budget increases year after year, LAPD is still the most homicidal police agency in the US. Despite millions of dollars in training and technology for situational awareness, de-escalation, less-lethal weapons, and mental health evaluation teams, LAPD continues to murder people who are in crisis or in need of aid. Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted.

As the head of LAPD, Michel Moore has defended and facilitated its violence. Over his term Moore has been responsible for the following:

-
-
- The targeting of protestors
- during the 2020 uprising following the murder of George Floyd, Breonna Taylor, and countless other victims of police violence. Protestors were attacked, injured, jailed, and harassed, resulting in thousands of complaints filed and hundreds of reports of injuries
- sustained by LAPD. Moore then used the protests as an opportunity to further increase funding for the department, including the surveillance of protestors and dissent.

- The December 2020
- assault on protestors taking part in a demonstration with BLM-LA outside the Mayor’s mansion, in which members of the crowd were beaten with batons
- Covering up the actions
- of officers who killed one of their own, Houston Tipping, during a training exercise after Tipping filed a report on the rape of a woman by four LAPD officers, one of whom took part in the training where Tipping was killed
- A publicity stunt
- to detonate fireworks taken from a home in South Los Angeles, while still within the community, and without effective evacuation - the explosion resulted in injuries to 17 people including
- Auzie
- Houchins and Ramon Reyes, who ultimately died from
- the shock and stress
- Creating a culture
- where cops were enabled to circulate a "Valentine Card" with a despicable reference to George Floyd and the words "you take my breath away."
- The continuation of
- racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD’s crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the deeply racist policing of LAPD
- Denying that LAPD
- was responsible for the deaths of Janisha Harris and Jamarea Keyes in August 2022 when police chased a driver through a red light, causing a fatal crash
- Continuing a culture
- and system in which Metro police officers felt empowered and entitled to enter people they stopped into California’s gang database without justification
- Proclaiming not once
- but twice that those who protested the murder of George Floyd were just as responsible for his death as the police who killed him

- Publicly comparing
- Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both “represent ideology that’s counter to democracy”
-
-
-
- Lying on the record
- to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media
-
-
-
- Robbing the budget
- of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary
-
-
-
- Failing to act on
- behalf of an LAPD captain who was being sexually harassed at work
-
-
-
- Ignoring the demands
- of approximately ⅔ of Angelenos who consistently and loudly demand that LAPD is defunded

Commissioners,

Nothing has changed since the historic uprisings of 2020. In fact, those who stood with the protestors are now supporting the exact opposite of what the movement stands for. A publicity stunt to detonate fireworks taken from a home in South Los Angeles, while still within the community, and without effective evacuation - the explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who ultimately died from the shock and stress
Creating a culture where cops were enabled to circulate a "Valentine Card" with a despicable reference to George Floyd and the words "you take my breath away."
The continuation of racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD's crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the deeply racist policing of LAPD
Denying that LAPD was responsible for the deaths of Janisha Harris and Jamarea Keyes in August 2022 when police chased a driver through a red light, causing a fatal crash
Continuing a culture and system in which Metro police officers felt empowered and entitled to enter people they stopped into California's gang database without justification
Proclaiming not once but twice that those who protested the murder of George Floyd were just as responsible for his death as the police who killed him
Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both "represent ideology that's counter to democracy"
Lying on the record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media
Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary
Failing to act on behalf of an LAPD captain who was being sexually harassed at work
Ignoring the demands of approximately ⅔ of Angelenos who consistently and loudly demand that LAPD is defunded

These are just a few of the ways Michel Moore has perpetuated harm against the community from his position of head of LAPD. We reject and condemn his nomination! #NoMoreMoore and #DefundLAPD!

Commissioners,

We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD **be invested instead in life-affirming, life-supporting, and accessible community services and programs**.

As its budget increases year after year, LAPD is still the most homicidal police agency in the US. **Despite millions of dollars in training and technology for situational awareness, de-escalation, less-lethal weapons, and mental health evaluation teams, LAPD continues to murder people who are in crisis or in need of aid.** Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted.

As the head of LAPD, Michel Moore has defended and facilitated its violence. Over his term Moore has been responsible for the following:

- **Covering up** the actions of officers who killed one of their own, Houston Tipping, during a training exercise after Tipping filed a report on the rape of a woman by four LAPD officers, one of whom took part in the training where Tipping was killed

- **Refused to disclose** or publicly hold accountable the LAPD officers who participated in the attack of the U.S. Capitol on January 6, 2021

- **Creating a culture** where cops were enabled to circulate a "Valentine Card" with a despicable reference to George Floyd and the words "you take my breath away."

- Permitted cops to spread COVID in the department and in neighborhoods by refusing vaccinations and not masking up while the community was losing 1,000 Angelenos a day to COVID

- **Targeting protestors** during the 2020 uprising following the murder of George Floyd, Breonna Taylor, and countless other victims of police violence. Protestors were attacked, injured, jailed, and harassed, resulting in thousands of complaints filed and hundreds of reports of injuries sustained by LAPD. Moore then used the protests as an opportunity to further increase funding for the department, including the surveillance of protestors and dissent.

- The December 2020 **assault on protestors** taking part in a demonstration with BLM-LA outside the Mayor's mansion, in which members of the crowd were beaten with batons

- Proclaiming not once but twice that those who protested the murder of George Floyd were just as responsible for his death as the police who killed him

Commissioners,

I vehemently reject the re-appointment of Chief Michael Moore for another term. There is no universe in which a moral city government can look at Moore's tenure as chief and believe he deserves the right to continue brutalizing the people of Los Angeles. We cannot address the very serious problems this city faces, particularly the crisis of unhoused Angelenos dying in our streets, if we continue to allow Chief Moore to perpetuate murder and abuse through the LAPD, particularly against the Black community in LA.

How can a man who has overseen the murder of three people in the first week of 2023 possibly be expected to lead this city with anything resembling justice? Aren't you horrified by the carnage perpetuated by this man? Let's revisit just some of Moore's egregious offenses while in office.

You are neglecting your duties to the people of Los Angeles as you continue to rubber stamp Moore's abuses. I demand that you fire Moore immediately and support demands to redirect LAPD funding to forms of community care that will actually protect Angelenos.

Commissioners and Mayor Bass,

I am writing today to voice my strong opposition to Police Chief Michel Moore's reappointment. Under his leadership we have seen the budget of LAPD balloon, police violence escalate, and even recruitment decline because no one wants to work for him.

As the head of LAPD, Chief Moore has defended its violence, anti-Black and racialized policies, brutal treatment of peaceful protestors, and arrests of journalists reporting on protests.

Within the dept, Chief Moore has fostered a culture that permitted cops to circulate a "Valentine" with a disgusting reference to George Floyd and the text "you take my breath away", empowered Metro officers to enter people they stopped into gang databases without justification,

Meanwhile he failed to protect officers facing problems within the dept. Chief Moore refused to act on behalf of an LAPD officer who reported sexual harassment in the workplace and he covered up the murder of a LAPD whistleblower, Houston Tipping, during a training exercise that was led by one of the four LAPD officers Tipping reported as being involved in the rape of a woman.

And he has repeatedly failed to be accountable to your body and the public - he lied on the record about traffic stops made in South LA, claiming it was 74 when the actual number was 639, he took a $1.3 million lump sum retirement before becoming Chief where he now receives a huge salary and will receive more retirement benefits, and he has denied LAPD's responsibility for the deaths of Janisha Harris and Jamarea Keyes when police chased a driver through a red light and caused a crash and for the damage to property, injuries and deaths related to the detonation of fireworks seized from a home in South Central by the police when they were still in the community.

After six years of his leadership, LAPD remains the most murderous police force in the country. With this track record, how could he possibly be the right person for the job?

As a city we need to invest in life-affirming community services and mental health care. We need a police chief who won't continue the tradition of harm, racism and violence that LAPD is known for. We need to invest in programs that provide mental health care, jobs training, housing, and healthcare and divest from systems of punishment and harm. Chief Moore has proven he is not interested in the former. He must go.

Best,
Ashley Brim

Commissioners,

We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

As its budget increases year after year, LAPD is still the most homicidal police agency in the US. Despite millions of dollars in training and technology for situational awareness, de-escalation, less-lethal weapons, and mental health evaluation teams, LAPD continues to murder people who are in crisis or in need of aid. Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted.

As the head of LAPD, Michel Moore has defended and facilitated its violence. Over his term Moore has been responsible for the following:

- The targeting of protestors during the 2020 uprising following the murder of George Floyd, Breonna Taylor, and countless other victims of police violence. Protestors were attacked, injured, jailed, and harassed, resulting in thousands of complaints filed and hundreds of reports of injuries sustained by LAPD. Moore then used the protests as an opportunity to further increase funding for the department, including the surveillance of protestors and dissent.
- The December 2020 assault on protestors taking part in a demonstration with BLM-LA outside the Mayor's mansion, in which members of the crowd were beaten with batons
- Covering up the actions of officers who killed one of their own, Houston Tipping, during a training exercise after Tipping filed a report on the rape of a woman by four LAPD officers, one of whom took part in the training where Tipping was killed
- A publicity stunt to detonate fireworks taken from a home in South Los Angeles, while still within the community, and without effective evacuation - the explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who ultimately died from the shock and stress

- Creating a culture where cops were enabled to circulate a "Valentine Card" with a despicable reference to George Floyd and the words "you take my breath away."
- The continuation of racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD's crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the deeply racist policing of LAPD
- Denying that LAPD was responsible for the deaths of Janisha Harris and Jamarea Keyes in August 2022 when police chased a driver through a red light, causing a fatal crash
- Continuing a culture and system in which Metro police officers felt empowered and entitled to enter people they stopped into California's gang database without justification
- Proclaiming not once but twice that those who protested the murder of George Floyd were just as responsible for his death as the police who killed him
- Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both "represent ideology that's counter to democracy"
- Lying on the record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media
- Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary
- Failing to act on behalf of an LAPD captain who was being sexually harassed at work
- Ignoring the demands of approximately ⅔ of Angelenos who consistently and loudly demand that LAPD is defunded

These are just a few of the ways Michel Moore has perpetuated harm against the community from his position of head of LAPD. We reject and condemn his nomination! #NoMoreMoore and #DefundLAPD!

These are just a few of the ways Michel Moore has perpetuated harm against the community from his position of head of LAPD. We reject and condemn his nomination! #NoMoreMoore and #DefundLAPD!

Dear Commissioners:

I am writing today to express my fervent opposition to the reappointment of Michel Moore to a second term as LAPD Chief. I also reject the continued funding and support of the murderous LAPD.

During Chief Moore's tenure, LAPD has continued to be the most murderous law enforcement agency in the nation. This is unacceptable! LAPD has disproportionately killed Black folks, unhoused people, and those suffering from mental health episodes. We must do better, and Moore does not appear to enforce de-escalation as a philosophy or plan for LAPD. He consistently approves the harm as necessary and "in-policy." If and when a shooting is designated out-of-policy, officers are almost never disciplined or held accountable in any way.

We need new leadership that reflects our City's growing understanding of what really decreases violence and crime, we need leadership that aligns with our collective demand for community-based alternatives to policing. Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. I am outraged and call on the Commission to take accountability for this ongoing failure to serve our communities.

Chief Moore must not be reappointed.

Regards,
Erin

Commissioners,

Michel Moore has continued LAPD's legacy of anti-Blackness and brutality and should not be reappointed.

Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. Again and again police have killed civilians in distress who need help not tasers.

As the head of LAPD, Michel Moore has defended and facilitated its violence. Over his term Moore has been responsible for the following:

-
-
- The targeting of protestors during the 2020 uprising following the murder of George Floyd, Breonna
- Taylor, and countless other victims of police violence. Protestors were attacked, injured, jailed, and harassed, resulting in thousands of complaints filed and hundreds of reports of injuries sustained by LAPD. Moore then used the protests as an opportunity
- to further increase funding for the department, including the surveillance of protestors and dissent.
-
-
-
- The December 2020 assault on protestors taking part in a demonstration with BLM-LA outside the
- Mayor's mansion, in which members of the crowd were beaten with batons
-
-

- Covering up the actions of officers who killed one of their own, Houston Tipping, during a training exercise after Tipping filed a report on the rape of a woman by four LAPD officers, one of whom took part in the training where Tipping was killed
- A publicity stunt to detonate fireworks taken from a home in South Los Angeles, while still within the community, and without effective evacuation - the explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who ultimately died from the shock and stress
- Creating a culture where cops were enabled to circulate a "Valentine Card" with a despicable reference to George Floyd and the words "you take my breath away."
- The continuation of racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD's crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the deeply racist policing of LAPD
- Denying that LAPD was responsible for the deaths of Janisha Harris and Jamarea Keyes in August 2022 when police chased a driver through a red light, causing a fatal crash
- Continuing a culture and system in which Metro police officers felt empowered and entitled to enter people they stopped into California's gang database without justification
- Proclaiming not once but twice that those who protested the murder of George Floyd were just as responsible for his death as the police who killed him
- Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both "represent ideology that's counter to democracy"
- Lying on the record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media
- Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary

-
-
- Failing to act on behalf of an LAPD captain who was being sexually harassed at work
-
-
-
- Ignoring the demands of approximately ⅔ of Angelenos who consistently and loudly demand that LAPD
- is defunded
-

Enough is enough! We need change. You need change. The city resources need to be invested instead in life-affirming, life-supporting, and accessible community services and programs.

As its budget increases year after year, LAPD is still the most homicidal police agency in the US. Despite millions of dollars in training and technology for situational awareness, de-escalation, less-lethal weapons, and mental health evaluation teams, LAPD continues to murder people who are in crisis or in need of aid. There is a better way.

One thing you can do to show you are actively interested in addressing the harm is to appoint someone who is interested in building bridges. As the saying goes - Fish rots from the head.

Rebecca Feldman

Commissioners,

We all know how 2023 began. It began with the LAPD murdering three civilians, all of whom were In the midst of a mental health crisis. Fathers and sons, even a high school English teacher, who flagged THEM down for help. They certainly earned their title of "the most murderous police department in the nation" in the first six days of 2023.

So what do you all plan to do about it? Do you plan to continue to support Chief Moore? Already proven to continue the LAPD's legacy of anti-Blackness and brutality? Are you going to continue to fund and support the murderous LAPD at an $8million/day pricetag?

We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

People experiencing a mental health crisis need help. **Deescalation**. **Mental health professionals**.
Keenan Anderson, Oscar Leon Sanchez, and Takar Smith **should all be alive and at home with their loved ones**.
Why is it the Black people die when having a mental health episode and the police are called.
Showing up with a gun
does not promote de-escalation. I fear for my loved ones who are Black, Brown, and Indigenous on most days

and especially if they should need help because of a mental health episode and someone calls law enforcement.

Commissioners,

We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

As its budget increases year after year, LAPD is still the most homicidal police agency in the US. Despite millions of dollars in training and technology for situational awareness, de-escalation, less-lethal weapons, and mental health evaluation teams, LAPD continues to murder people who are in crisis or in need of aid. Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted.

As the head of LAPD, Michel Moore has defended and facilitated its violence. Over his term Moore has been responsible for the following:

-
- The
- targeting of protestors during the 2020 uprising following the murder of George Floyd, Breonna Taylor, and countless other victims of police violence. Protestors were attacked, injured, jailed, and harassed, resulting in thousands of complaints filed and hundreds
- of reports of injuries sustained by LAPD. Moore then used the protests as an opportunity to further increase funding for the department, including the surveillance of protestors and dissent.
-

-
- The
- December 2020 assault on protestors taking part in a demonstration with BLM-LA outside the Mayor’s mansion, in which members of the crowd were beaten with batons
-
-
- Covering
- up the actions of officers who killed one of their own, Houston Tipping, during a training exercise after Tipping filed a report on the rape of a woman by four LAPD officers, one of whom took part in the training where Tipping was killed
-
-
- A
- publicity stunt to detonate fireworks taken from a home in South Los Angeles, while still within the community, and without effective evacuation - the explosion resulted in injuries to 17 people including
- Auzie Houchins and Ramon Reyes,
- who ultimately died from the shock and stress
-
-
- Creating
- a culture where cops were enabled to circulate a "Valentine Card" with a despicable reference to George Floyd and the words "you take my breath away."
-
-
- The
- continuation of racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD’s crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the deeply racist policing
- of LAPD
-
-
- Denying
- that LAPD was responsible for the deaths of Janisha Harris and Jamarea Keyes in August 2022 when police chased a driver through a red light, causing a fatal crash
-
-
- Continuing
- a culture and system in which Metro police officers felt empowered and entitled to enter people they stopped into California’s gang database without justification
-
-
- Proclaiming
- not once but twice that those who protested the murder of George Floyd were just as responsible for his death as the police who killed him

Dear Board of Police Commissioners,

I wrote to you last week explaining that Chief Moore needs to be replaced because officer morale is down, recruitments are down, arrests are down, and crime is up.

I was furious to find out that Chief Moore ordered all Thin Blue Line Flags be removed from public view including police station lobbies where fallen officers are memorialized.

This directive came the SAME day as the Police Commission meeting when earlier Black Lives Matter Los Angeles Leader Paula Minor complained about the "Blue Lives Flag" and demanded it be taken down.

"And Chief Moore, get that blue lives flag down that's over the desk in Rampart station. Put it in the locker room. People should not have to walk into a public station and see a blue lives flag."
-Paula Minor (BLM Los Angeles Leader)

Evidence at 1:39:30

https://youtube.com/watch?v=IXHFd8gCqmM&si=EnSIkaIECMiOmarE

This is another example of Chief Moore pandering to BLM (and the alt-left) instead of backing the LAPD officers and us common citizens who support police and want more police, not less, to protect us. Chief Moore didn't even sleep on it! What kind of leader is that? Moore is reactive instead of proactive. This is a lose-lose. He lost respect from police officers and the public AND BLM Activists are not going to change their minds and support him.

The Thin Blue Line Flag is not racist or bigoted, just like the Firefighter Flag with the red line isn't. It unites our support for police officers, those who have died in the line of duty and those who risk their lives every time they put on their uniform. It's not a flag that divides, but rather unites us despite our skin color or political affiliation. When we call 911 we don't care what race, religion, or sexual identity the officer is. We just need help! Do you think you'll get more or less recruits as a result of this erroneous decision?

Chief Moore should not capitulate or negotiate with these extremists. Please recommend a new Chief who will stand by LAPD officers instead of demeaning them. Chief Moore is a disgrace and we need someone with integrity, honor, and a backbone.

Please help us citizens! We are scared that Los Angeles will become less and less safe. We are scared for our families and children. We desperately need your help.

Sincerely, a concerned mother and Los Angeles community member,

Commissioners,

We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

As its budget increases year after year, LAPD is still the most homicidal police agency in the US. Despite millions of dollars in training and technology for situational awareness, de-escalation, less-lethal weapons, and mental health evaluation teams, LAPD continues to murder people who are in crisis or in need of aid. Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted.

As the head of LAPD, Michel Moore has defended and facilitated its violence. Over his term Moore has been responsible for the following:

- The targeting of protestors during the 2020 uprising following the murder of George Floyd, Breonna Taylor, and countless other victims of police violence. Protestors were attacked, injured, jailed, and harassed, resulting in thousands of complaints filed and hundreds of reports of injuries sustained by LAPD. Moore then used the protests as an opportunity to further increase funding for the department, including the surveillance of protestors and dissent.
- The December 2020 assault on protestors taking part in a demonstration with BLM-LA outside the Mayor's mansion, in which members of the crowd were beaten with batons
- Covering up the actions of officers who killed one of their own, Houston Tipping, during a training exercise after Tipping filed a report on the rape of a woman by four LAPD officers, one of whom took part in the training where Tipping was killed

- A publicity stunt to detonate fireworks taken from a home in South Los Angeles, while still within the community, and without effective evacuation - the explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who ultimately died from the shock and stress
- Creating a culture where cops were enabled to circulate a "Valentine Card" with a despicable reference to George Floyd and the words "you take my breath away."
- The continuation of racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD's crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the deeply racist policing of LAPD
- Denying that LAPD was responsible for the deaths of Janisha Harris and Jamarea Keyes in August 2022 when police chased a driver through a red light, causing a fatal crash
- Continuing a culture and system in which Metro police officers felt empowered and entitled to enter people they stopped into California's gang database without justification
- Proclaiming not once but twice that those who protested the murder of George Floyd were just as responsible for his death as the police who killed him
- Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both "represent ideology that's counter to democracy"
- Lying on the record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media
- Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary
- Failing to act on behalf of an LAPD captain who was being sexually harassed at work
- Ignoring the demands of approximately ⅔ of Angelenos who consistently and loudly demand that LAPD is defunded

These are just a few of the ways Michel Moore has perpetuated harm against the community from his position of head of LAPD. We reject and condemn his nomination! #NoMoreMoore and #DefundLAPD!

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Board of Police Commissioners,

As a very active volunteer of my community, I want to ask that we move in a positive direction with a new Chief of Police. Los Angeles desperately needs a Chief of Police that stands for the entire LAPD, who is backed by the department, who is looked up by the community and the Police Department for his/her convictions, and who can make his/her own decisions without the input of politicians.

I have learned that Chief Moore has asked that all thin, blue line American flags be removed from public view at police station lobbies and that just saddened me and to a point makes me angry. This flag represents the unity of law enforcement when one of their members dies in the line of duty. How about the families of the fallen officers? How do they feel about not receiving any acknowledgment from the community they served and gave their lives for? This is a good reason for not looking for a career in law enforcement. No wonder the LAPD is struggling to recruit new members.

There is a loud group of activists demanding that the City defund the police, but these activists do not represent all Angelenos. Angelenos who have never had negative encounters wit the police feel safe when they are around. Many people in my community support the police and want more police presence in our communities and they want them enforcing ALL laws. It is devastating to listen to our neighbors speak in a defeated way when they have to make police reports, but know that their call will take too long to get answered, it will not get answered, or are discouraged to follow up because there are not enough officers.

In addition, we also need a new Chief of Police who does not cost the City so much money in law suits and retirement.

Last, I want to ask that police commissioners do not endorse candidates given that they are the ones voting to appoint the chief. Please give ALL candidates an equal

opportunity to this position, listen to what they have to propose, and vote in favor of the one who will take Angelenos is a better direction to reduce crime.

Respectfully,

Norma O. Chávez

Dear LA Police Commission:

As a citizen of Los Angeles District 10 I'm writing to submit my comments on your January 17 meeting.

General Public Comment: DO NOT RE-APPOINT MOORE
As a citizen of Los Angeles that is a social worker and continuously works to promote the equity and true community-based public safety of Angelenos, I beg of you to not support the re-appointment of Chief Moore for several reasons.

These reasons include the following:

1. Chief Moore continues to defend and facilitate LAPD's violence. As its budget increases year after year, LAPD is still the most homicidal police agency in the US. Despite millions of dollars in training and technology for situational awareness, de-escalation, less-lethal weapons, and mental health evaluation teams, LAPD continues to murder people who are in crisis or in need of aid. Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted.

2. Chief Moore oversaw LAPD while it targeted protestors during the 2020 uprising following the murder of George Floyd, Breonna Taylor, and countless other victims of police violence. Protestors were attacked, injured, jailed, and harassed, resulting in thousands of complaints filed and hundreds of reports of injuries sustained by LAPD. Moore then used the protests as an opportunity to further increase funding for the department, including the surveillance of protestors and dissent.

3. In the course of his tenure, LAPD performed a publicity stunt to detonate fireworks taken from a home in South Los Angeles, while still within the community, and without effective evacuation. The explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who ultimately died from the shock and stress.

4. Chief Moore covered up the the actions of officers who killed one of their own, Houston Tipping, during a training exercise after Tipping filed a report on the rape of a woman by four LAPD officers, one of whom took part in the training where Tipping was killed

5. Chief Moore oversaw LAPD during the December 2020 assault on protestors taking part in a demonstration with BLM-LA outside the Mayor’s mansion, in which members of the crowd were beaten with batons.

6. Chief Moore created a culture where cops were enabled to circulate a "Valentine Card" with a despicable reference to George Floyd and the words "you take my breath away." Chief Moore promised he would hold accountable the perpetrator of this gross act, but then did not.

7. In his course of his tenure, LAPD continued racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD's crime reports through the lens of race: a decades-old tactic to falsely imply race and criminality are linked while justifying the deeply racist policing of LAPD.

8. Chief Moore proclaimed not once but twice that those who protested the murder of George Floyd were just as responsible for his death as the police who killed him.

9. Chief Moore denied LAPD was responsible for the deaths of Janisha Harris and Jamarea Keyes in August 2022 even though they were the ones who chased a driver through a red light and caused a fatal crash.

10. Chief Moore lied on the record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media.

11. Chief Moore publicly compares Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both "represent ideology that's counter to democracy."

12. Chief Moore Continued a culture and system in which Metro police officers felt empowered and entitled to enter people they stopped into California's gang database without justification.

13. Chief Moore has robbed the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary.

14. Chief Moore failed to act on behalf of an LAPD captain who was being sexually harassed at work.

15. Chief Moore has continuously Ignored the demands of approximately ⅔ of Angelenos who consistently and loudly demand that LAPD is defunded

General Public Comment: Allowing Public Comment
Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the "citizen's voice in police affairs."

Sincerely,
Sarah Bowers

Commissioners,

We deeply and profoundly reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs. We reject the continued funding and support of the murderous LAPD.

As its budget increases year after year, LAPD is still the most homicidal police agency in the US. Despite millions of dollars in training and technology for situational awareness, de-escalation, less-lethal weapons, and mental health evaluation teams, LAPD continues to murder people who are in crisis or in need of aid. Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted.

As the head of LAPD, Michel Moore has defended and facilitated its violence. Over his term Moore has been responsible for the following:

- - The targeting of protestors during the 2020 uprising following the murder of George Floyd, Breonna Taylor, and countless other victims of police violence. Protestors were attacked, injured, jailed, and harassed, resulting in thousands of complaints filed and hundreds of reports of injuries sustained by LAPD. Moore then used the protests as an opportunity to further increase funding for the department, including the surveillance of protestors and dissent.
- - The December 2020 assault on protestors taking part in a demonstration with BLM-LA outside the Mayor's mansion, in which members of the crowd were beaten with batons
- - Covering up the actions of officers who killed one of their own, Houston Tipping, during a training exercise after Tipping filed a report on the rape of a woman by four LAPD officers, one of whom took part in the training where Tipping was killed
- - A publicity stunt to detonate fireworks taken from a home in South Los Angeles, while still within the community, and without effective evacuation - the explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who ultimately died from the shock and stress

- - Creating a culture where cops were enabled to circulate a "Valentine Card" with a despicable reference to George Floyd and the words "you take my breath away."
- - The continuation of radicalized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD's crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the deeply racist policing of LAPD
- - Denying that LAPD was responsible for the deaths of Janisha Harris and Jamarea Keyes in August 2022 when police chased a driver through a red light, causing a fatal crash
- - Continuing a culture and system in which Metro police officers felt empowered and entitled to enter people they stopped into California's gang database without justification
- - Proclaiming not once but twice that those who protested the murder of George Floyd were just as responsible for his death as the police who killed him
- - Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both "represent ideology that's counter to democracy"
- - Lying on the record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media
- - Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary
- - Failing to act on behalf of an LAPD captain who was being sexually harassed at work
- Ignoring the demands of approximately ⅔ of Angelenos who consistently and loudly demand that LAPD is defunded

These are just a few of the ways Michel Moore has perpetuated harm against the community from his position of head of LAPD. We reject and condemn his nomination! #NoMoreMoore and #DefundLAPD!

I think you should replace LAPD Chief Moore and I vehemently oppose his directive to ban thin blue line flags. Blue Lives Do Matter! Choose someone who will protect Los Angeles better and increase officer morale so you can get more recruits. Last I heard, you were over 800 officers short! Unacceptable. Don't choose or recommend anyone who is woke or weak or gives into the demands of Black Lives Matter, an organization that is violent and anti-police. Choose someone who is pro-law enforcement.

Thank you, a worried grandmother in Los Angeles,

Commissioners,

It has been reported that Chief "Bended Knee" aka Michel Moore has banned the "Thin Blue Line" American flag from the LAPD public areas such as police station lobbies because there was a complaint from the Anti Police, Racist , Bigoted, Marxist, extremist violent activist group Black Lives Matter. stating that the flag "represented violent extremist views".

Nothing could be further from the truth not that blm or Moore has much regard for the truth or rank and file police officers because they dont. Moore said he viewed the flag as symbolizing "the Honor, Valor, Dedication and Sacrifice of Law Enforcement to protect our communities". And yet Chief "Bended Knee" decided to capitulate AGAIN to blm and ordered the Thin Blue Line flags removed from public areas and view. Moore Disgrace!
What an outrageous insult to the officers, their familes, friends and supporters who see the Thin Blue Line as a symbol of law enforcement solidarity, support for law enforcement, remembrance for the families and colleagues of the fallen, and honorable service of officers past and present.
blm mischaracterizes law enforcement , as they often do because they have a motive and profit from it. The Thin Blue Line flag can be used by anyone or any group to show support and respect for law enforcement. Clearly blm does not share that sentiment.

With the LAPD already imploding and having severe issues with poor morale, recruitment and early retirement/resignations
Moore has a dealt a severe setback to any possible recovery of LAPD. morale and recruitment.

Moore should have informed the public that if they have a problem entering a police station lobby due to being offended by the Thin Blue Line flag then they should not enter the lobby and either conduct business telephonically or request police service outside the station but that would have required a backbone which Morre clearly does not have.

I fear that young people considering a career in law enforcement will see this weakness exhibited by Moore and decide that they dont want to be part of such a declining organization with such an impotent Chief as "Bended Knee". All the marketing in the world will not change reality and the excuses of "economic conditions" and "anti police sentiment" for recruitment failures will fade as people will realize that Moore is the Problem!

Everyone knows how Moore misspeaks, misjudges situations and misguides intentionally the officers and the public
He has serious behavioral issues which are open secrets and he is a potentially very serious liability to the city.

We should all want the LAPD to succeed in their mission of protecting and serving and reducing the fear and incidence of of crime. Moore has failed the public and personnel of LAPD while pandering to his political puppeteers! Los Angeles needs a new chief that can implement community policing utilizing bold ideas and superior communication skills and can restore the morale of the LAPD men and women who risk their lives daily!

Bring back the Thin Blue Line flag and get rid of Moore because Blue Lives Do Matter and they will Save and Protect and Serve All Lives!

Police Commissioners,

Please do not vote to reappoint a failed police chief to the city of Los Angeles. Morale is down, number of officer is down, and crime is up and has risen to scary levels under his watch.

Michel Moore continues to make bad decisions on and off duty however a police chief should be on duty at all times. Moore has been seen and recorded drunk in public in front of other young impressionable officers as well as patrons of Dodger Stadium seen getting into a city vehicle with his private detail. What a disgrace.

The continued pandering to groups that seek to destroy law enforcement is reason alone to find a better replacement for the worst COP in Los Angeles History.

For over a year, residents from Foothill alone have complained about his poor decisions and lack of judgement. If this department wants to grow, remove Moore immediately. No one wants to work for a police agency who has a weak leader.

Commissioners,

We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

As its budget increases year after year, LAPD is still the most homicidal police agency in the US. Despite millions of dollars in training and technology for situational awareness, de-escalation, less-lethal weapons, and mental health evaluation teams, LAPD continues to murder people who are in crisis or in need of aid. Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted.

As the head of LAPD, Michel Moore has defended and facilitated its violence. Over his term Moore has been responsible for the following:

- The targeting of protestors during the 2020 uprising following the murder of George Floyd, Breonna Taylor, and countless other victims of police violence. Protestors were attacked, injured, jailed, and harassed, resulting in thousands of complaints filed and hundreds of reports of injuries sustained by LAPD. Moore then used the protests as an opportunity to further increase funding for the department, including the surveillance of protestors and dissent.
- The December 2020 assault on protestors taking part in a demonstration with BLM-LA outside the Mayor's mansion, in which members of the crowd were beaten with batons
- Covering up the actions of officers who killed one of their own, Houston Tipping, during a training exercise after Tipping filed a report on the rape of a woman by four LAPD officers, one of whom took part in the training where Tipping was killed

- A publicity stunt to detonate fireworks taken from a home in South Los Angeles, while still within the community, and without effective evacuation - the explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who ultimately died from the shock and stress
- Creating a culture where cops were enabled to circulate a "Valentine Card" with a despicable reference to George Floyd and the words "you take my breath away."
- The continuation of racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD's crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the deeply racist policing of LAPD
- Denying that LAPD was responsible for the deaths of Janisha Harris and Jamarea Keyes in August 2022 when police chased a driver through a red light, causing a fatal crash
- Continuing a culture and system in which Metro police officers felt empowered and entitled to enter people they stopped into California's gang database without justification
- Proclaiming not once but twice that those who protested the murder of George Floyd were just as responsible for his death as the police who killed him
- Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both "represent ideology that's counter to democracy"
- Lying on the record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media
- Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary
- Failing to act on behalf of an LAPD captain who was being sexually harassed at work
- Ignoring the demands of approximately ⅔ of Angelenos who consistently and loudly demand that LAPD is defunded

These are just a few of the ways Michel Moore has perpetuated harm against the community from his position of head of LAPD. We reject and condemn his nomination! #NoMoreMoore and #DefundLAPD!

Signed,

Kelly Macías
