I have been a citizen of Los Angeles for the past 17 years. I have been one of millions who have watch Michael Moore lie to the public throughout his tenure about "reforming" the LAPD. I watched media personalities lap up this nonsense in the naive hope that maybe starting tomorrow, there would be real, qualitative change in the culture and tactics of LAPD. And I have watched absolutely nothing fundamentally change about the department.

We hear talk of "good cops" and I am absolutely sure good cops exist. However, over the past seventeen years I have become even more convinced that, sadly, in this city, good cops may be the exception, not the rule. And that's a damn shame for what is supposed to be a world class city, a progressive city, a diverse city. When it comes to departmental reform, when it comes to creating a demilitarized police force that has the interests of LA's CITIZENS, rather than financial interests, at heart; when it comes to a police force that is interested in de-escalation and actual justice, rather than a policy of "Tase First ask questions later" Michael Moores record is one of two things: a embarrassing record of negligence, or an embarrassing record of incompetence. You choose which. In either case, it is a record of failure - one that does not deserve re-appointment.

A few more items for Michael Moore's re-appointment application:

-
- The targeting of protestors during the 2020 uprising following the murder of George Floyd, Breonna Taylor, and countless other victims of police violence.
- Protestors were attacked, injured, jailed, and harassed, resulting in thousands of complaints filed and hundreds of reports of injuries sustained by LAPD. Moore then used the protests as an opportunity to further increase funding for the department, including
- the surveillance of protestors and dissent.
-
-
- The December 2020 assault on protestors taking part in a demonstration with BLM-LA outside the Mayor’s mansion, in which members of the crowd were beaten
- with batons
-
-
- Covering up the actions of officers who killed one of their own, Houston Tipping, during a training exercise after Tipping filed a report on the rape of
- a woman by four LAPD officers, one of whom took part in the training where Tipping was killed
-
-
- A publicity stunt to detonate fireworks taken from a home in South Los Angeles, while still within the community, and without effective evacuation - the

- explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who ultimately died
- from the shock and stress
-
-
- Creating a culture where cops were enabled to circulate a "Valentine Card" with a despicable reference to George Floyd and the words "you take my breath
- away."
-
-
- The continuation of racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD's crime reports through the lens of race;
- a decades-old tactic to falsely imply race and criminality are linked while justifying the deeply racist policing of LAPD
-
-
- Denying that LAPD was responsible for the deaths of Janisha Harris and Jamarea Keyes in August 2022 when police chased a driver through a red light, causing
- a fatal crash
-
-
- Continuing a culture and system in which Metro police officers felt empowered and entitled to enter people they stopped into California's gang database
- without justification
-
-
- Proclaiming not once but twice that those who protested the murder of George Floyd were just as responsible for his death as the police who killed him
-
-
- Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both "represent ideology that's counter to democracy"
-
-
- Lying on the record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded
- number was 639, a number revealed by the media
-
-
- Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary
-
-
- Failing to act on behalf of an LAPD captain who was being sexually harassed at work
-
-
- Ignoring the demands of approximately ⅔ of Angelenos who consistently and loudly demand that LAPD is defunded
-
-

COMMON SENSE says we need change. We need to move on. We need to hold Michael Moore accountable, and not only reject his re-appointment, but remove him from the force.

Thank you,

I support the re-appointment of Chief Moore for a second term at the helm of LAPD. His integrity and sense of responsibility during these chaotic times in our city should be rewarded. I have seen first-hand his commitment to keeping all Angelenos safe and continuing the mission of improving the best police force in the United States. Chief Moore is a dedicated public servant and in my personal experience, I have never seen a Police Chief carefully consider the unique problems in my community of Venice and the coast of LA. My only hope is that he is allowed to continue his service to our city and that he is granted increased resources to direct at Venice, the unique and important resource for the entire city that has been allowed to decay under previous political leadership.
Many thanks

Commissioners,

We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

As its budget increases year after year, LAPD is still the most homicidal police agency in the US. Despite millions of dollars in training and technology for situational awareness, de-escalation, less-lethal weapons, and mental health evaluation teams, LAPD continues to murder people who are in crisis or in need of aid. Commissioners,

As a citizen and taxpayer in Los Angeles, a city I love, I join fellow Angelenos in rejecting the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality against the people of Los Angeles. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

As its budget increases year after year, LAPD is still the most homicidal police agency in the entire United States. Despite millions of dollars invested in "reform programs" promising to bring about change and humanity, including training and technology for situational awareness, de-escalation, less-lethal weapons, and mental health evaluation teams, LAPD continues to murder people who are in crisis or in need of aid.

According to our new City Controller, Kenneth Mijia, 41% (15 out of 37) people killed by LAPD in 2021 were experiencing a mental health crisis. "Over the last 10 years, LA Taxpayers spent $359 million on LAPD settlements and judgements." Payouts come out of the General fund, not out of LAPD's budget, "which means less money for essential city resources and services." And $359 million is only the payout, not the added legal costs to the city for prosecution and trial.

Already in 2023 LAPD has killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. People were rightly outraged, even those who don't live here, including the daughter of the

late, great Martin Luther King, Jr., Bernice King, who had this to say this past weekend as we honored his legacy and fight for justice:

"Somewhere, somebody is excusing this with whataboutism and a horribly unjust belief that law enforcement = absolute power and the right to brutality with impunity. But what LAPD officers did to #KeenanAnderson is inexcusable."

This continued police violence has devastating consequences for communities and families, with Black and Brown communities being most targeted, and therefore, the deeply impacted generation after generation.

As the head of LAPD, Michel Moore has defended and facilitated its violence. Over his term Moore has been responsible for the following:

-

These are only a few of the harmful ways Michel Moore has perpetuated trauma and a culture of harassment, unaccountability, and at times, murder with impunity in Los Angeles as the head of LAPD.

We reject and condemn his nomination. Enough already.

Kimberly Owens

Good evening,
I am writing in light of the recent killing of Keenan Anderson at the hands of the Los Angeles Police Department. At this point, I don't even know how to express the anger and grief that I'm feeling in a way that I haven't employed time and time again as we learn of another life cut short due to needless violence so I am just going to launch right into the demands that I, and countless others, have regarding first steps toward justice in this case.

First, we demand that you remove LAPD Police Chief Michel Moore from office. Under his leadership, the LAPD has killed more people than any other other department in the nation.

Second, we demand that you work with the local community to pull police out of traffic stops and other areas they don’t belong such as schools, mental health, and housing.

Third, we demand restrictions on the use of tasers to ensure that death's like Keenan's never happen again. “Less-lethal” does not mean non-lethal.

Finally, we ask for a full and transparent investigation leading to meaningful accountability being the individual officers and the department as a whole. This is crucial to build trust with the community and to do right by Mr. Anderson and his family. However, it is only part of the solution and must occur in tandem with all of the demands above to truly create lasting change.

Thank you for your time,
Brit Hiedeman

Re: Reappointment of Chief Michael Moore

Dear Mayor Bass…

I am writing to implore you to not to re-appoint Michael Moore as Los Angeles City Police Chief. His approval as the leader of LA law enforcement would unequivocally communicate to Black and Brown LA communities that your lives do not matter.

In the first two weeks of 2023, three people of color have been killed by LAPD. https://www.latimes.com/opinion/story/2023-01-13/police-killings-mental-health

Most recently, Keenan Anderson CALLED police, requested help, but he was brutally tased to death by police officers who then quickly endeavored to smear his character, implying that perhaps this school teacher deserved to be tased to death. https://theintercept.com/2023/01/17/keenan-anderson-toxicology-lapd/

LAPD blew up the homes of poor people of color in the wreckless demolition of fireworks. Thirty-five properties were damaged, seventeen people injured and dozens more residents were displaced—many of whom have not returned.Two people died as a result. https://www.latimes.com/california/story/2022-03-06/how-lapd-blew-up-a-neighborhoo
]
The LAPD were universally criticized for their treatment of the press during the 2022 protests denouncing the Supreme Court Roe vs. Wade decision. https://www.latimes.com/california/story/2022-06-25/lapd-treatment-of-journalists-denounced-again-after-abortion-rights-protest-downtown

LAPD posted ads to recruit offices on the racist website, Breitbart. https://www.diversityinc.com/lapd-recruitment-ads-breitbart-2/

The Chief blamed the death of George Floyd on “looters.” Three reports on the Los Angeles Police Department's handling of 2020 George Floyd protests conclude that the department and its officers were not properly trained or prepared - from planning to the use of less-lethal weapons officers fired, which injured several demonstrators. https://www.usatoday.com/story/news/nation/2020/06/02/george-floyd-los-angeles-chief-michel-moore-death-looters/3127688001/

The strong appearance is that Chief Moore is the one looting Los Angeles. "Before Michel Moore was promoted to become the Los Angeles Police Department’s new chief, h took a brief, highly unusual retirement. He left as chief of operations for only a few weeks before rejoining the force in the same job at the same pay. But the move provided him

with a financial windfall: a lump sum retirement payment of $1.27 million from the city." https://www.latimes.com/local/lanow/la-me-chief-drop-2018-08012-story.html

Yes, it was legal but when the City cries about what it cannot afford that is a tough pill to swallow. It can afford to pay the Chief of Police. It can afford payouts to settle lawsuits regarding police violence, as in 2021: "Los Angeles is poised to pay nearly $1.6 million to settle three lawsuits involving alleged wrongdoing by the Los Angeles Police Department, including a $1.15-million payout over the shooting of a man from an LAPD helicopter." https://www.latimes.com/california/story/2021-04-07/l-a-to-pay-nearly-1-6-million-in-three-suits-alleging-lapd-wrongdoing

But the City cannot afford to pay for services that would decrease poverty, improve education and increase safety.

A "yes" for Michael Moore" is a "no" to Black and Brown communities. No, your lives do not matter. No, your communities do not matter. No, no justice for you.

It is time for new leadership in the LAPD. Do not re-appoint Chief Michael Moore.

Police Commissioners: William J. Briggs, Eileen Decker, Dale Bonner, Maria Lou Calanche, Steve Soboroff

Good morning, Police Commissioners, I hope you all are very well. Before I begin, I would like to start off with a quote from Jacob Bronowski, **"No science is immune to the infection of politics and the corruption of power."**

On January 10, 2023, Chief Moore provided a Covid report for December 20th & 27th of 2022. There was a total of **135 new positive Covid-19 infections** from these two reporting periods. From these 135 new infections, **107 were vaccinated** employees and **28 of the 135 were unvaccinated employees**. From January 11, 2022, to December 27, 2022, the vaccinated made up 78% of the reported new positive Covid-19 infections within the LAPD. These figures are based upon Chief Moore's numbers that he provided during Police Commission meetings on Covid infections. There are seven times that a Covid-19 report either was not given or was incomplete. Those dates are, 1/11/22, 2/08/22, 3/15/22, 4/12/22, 5/17/22, 5/24/22, 7/26/22.

On January 10,2023, Chief Moore further provided a breakdown for January 3rd & 10th 2023. For these two reporting periods there were a total of **117 new positive Covid-19 infections** within the LAPD, **94 of the 117 are from vaccinated employees**. **These two reporting periods the vaccinated employees are making up 80% of the total new positive Covid-19 infections within the LAPD.**

The City of Los Angeles under Mayor Garcetti authored the Covid-19 mandate, that requires ALL city employees to become vaccinated against the Covid-19 variants. This was done in efforts to stop the spread of Covid-19 and to "protect the City's workforce and the public that it serves". A complete years' worth of your own data show that **78% of the Covid-19 infections are from vaccinated employees**. Can someone please

explain to the public how this mandate is doing to stop the spread and to protect the City's workforce and the public that it serves?

Currently the City of Los Angeles is only requiring the unvaccinated employees to test for Covid-19, yet the **vaccinated employees currently are making up 80% of new positive Covid-19 infections**. I have obtained a document that was drafted by the City of Los Angeles that doesn't require city employees to remain current with Covid-19 boosters, instead you "strongly encourage" them. It's worth asking again because I never got an answer. What medical Doctor or Scientist did the City of Los Angeles consult with to come up with this policy? How are these current practices enhancing public safety for anyone?

We were told from the beginning the City of Los Angeles would be following the science and data throughout this pandemic. Maybe I'm looking at this wrong and perhaps, Mayor Bass can go on record and address the public and explain how the current policies in place from the City of Los Angeles are enhancing public safety with this mandate. I'm curious as to the reason this mandate is still active.

I have a feeling that your past actions will continue and will make the conscious decision to ignore this at all costs because you are aware this Covid-19 mandate is an absolute farce. The ball is in your court now, the public will be waiting for an explanation.

There is an overabundance of a lack of public trust right now. You don't have to look very far to see this occurring within the City of Los Angeles with its public officials. 3 Indictments in 2 years from current or former L.A. City Councilmembers, former Council President Nury Martinez racist remarks and Police Commissioner Briggs providing misinformation to the public for reasoning to extend the state of emergency. I acknowledge the fact that you won't be able to please everyone but what everyone expects from you, is to do the right thing and not be influenced by dollar signs.

Dr. Aseem Malhotra who is a Cardiologist and lead author of a peer reviewed research reanalyzing Pfizer and Moderna trials on mRNA vaccines. He is speaking out and calling for immediate suspension of the Covid "vaccine" due to the serious harm that its causing.

Myocarditis as a cause of death is now registering across ALL age ranges, but only for the vaccinated population. I remember when Myocarditis being linked to this "vaccine" was considered misinformation but now can be found published in medical journals. There is also mounting evidence that is showing the Covid gene therapy shot is destroying people's immune systems.

In my lifetime I have never seen so many **athletes, journalists, children, and healthy adults having "sudden" heart related medical emergencies**, why is this suddenly happening? What has changed in the past few years?

Unfortunately, we are witnessing history in the making. The internet and social media have changed how history will be documented in the future. One click of a mouse, Historians will have access to public records and will have everything at their fingertips to document the actions of the leaders of the City of Los Angeles. **You are the sailor of your own ship, if you choose to sail towards jagged rocks, understand you are bound by the consequences of your own actions.**

New Covid-19 admissions per 9.83 million population **440 or 0.0045%**

11/05/2022, My News LA reported **1,447 new covid cases in L.A. County as of Friday**, and **7 new "virus-related" fatalities. It was not distinguished what these virus-related deaths were (Influenza, RSV, Covid-19)** Health officials have said many of the deaths from Covid-19 are either elderly or have underlying health conditions, or both. The number of **Covid-19 patients in L.A. County hospitals have increased to 453**, and 44 of those were being treated in intensive care. **My News LA did not report the status of the other 409 patients** that were treated in L.A. County hospitals, only can presume they were either released back home or were admitted for other reasons later testing positive for Covid while at the hospital.

11/05/2022, per My News L.A.

Case rate per 9.83 million population **1,447 or 0.0147%**

New Covid-19 admissions per 9.83 million population **453 or 0.0046%**

Death rate per 9.83 million population **7 or 0.00007%**

On **11/02/2022**, Fox 11 news reported the number of Covid-19 positive cases patients in L.A. County hospitals is on the rise. The data is showing on 11/01/2022 there were 388 Covid-19 patients in the hospital, on 11/02/2022 the number of positive Covid-19 increased to **427 positive cases in L.A. County hospitals.** L.A. County reported **1,392 new Covid infections**.

Fox 11 news reported that **40% of the admitted Covid positive patients were admitted due to "virus related illness"**, while the others were admitted for other reasons, and in many cases only learning they were infected when they were tested at the hospital. **171 of the 427 were admitted for Covid-19 related ailments** and **256 of the 427 were admitted for other reasons**, later learning they have tested positive for Covid while already being admitted into the hospital for other medical reasons.

11/02/2022, per Fox 11 news

Case rate per 9.83 million population **1,392 or 0.0142%**

New Covid-19 admissions per 9.83 million population **427 or 0.0043%**

I would like to add in all the above data from local sources and the CDC there **is no breakdown as to the vaccination status of the Covid-19 positive cases reported.**

I can only speculate that **if vaccination status were provided in the above reports, it would likely mirror the current data** the LAPD has provided. The **vaccinated would-be the overwhelming majority of the new positive Covid-19 infections / admissions.**

The Covid-19 gene therapy shot has clearly shown us all that it does not prevent the transmission or infection of Covid-19. I question if the gene therapy shot even makes your symptoms less. To my knowledge there has not been a completed clinical study between the symptoms of the current variants of Covid-19 being unvaccinated compared to vaccinated.

When you compare the infection rate from around the world and locally, there is a clear distinct pattern that the vaccinated population is the majority becoming infected with Covid-19 again and again.

There have been numerous recent alarming numbers of cardiac medical emergencies events that have taken place locally and throughout our country and no one is even speaking of it. Maybe now is the time you all have this difficult conversation so this can stop, and we all can proceed forward with our lives.

Attention Media, I remember when we all entered upon Covid-19, news media outlets were providing daily breakdowns of hospitalizations, new infections, and deaths with Covid-19. The media certainly didn't hesitate to mention the vaccination status back then, why not now? Maybe a little more investigative journalism and define which virus caused death instead of "Virus-related" death. As you are aware, globally we are all dealing with different viruses at the current moment.

January 23, 2023

Dear Los Angeles Board of Police Commissioners,

I have never seen the outlook for LAPD as grave as it currently is in my 70 years as a native Californian.
Angelinos are wide awake watching the current command staff, including Chief Moore quickly destroy the morale and recruitment of our fine Los Angeles officers.
When Covid 19 presented, officers and staff were confronted with the decision to either take the emergency use authorization vaccine (EUA) or resign, despite documentation that the vaccine does not protect nor prevent the spread of the disease, including documentation that the vaccine in fact is responsible for millions of cardiac related deaths world wide. In addition, An EUA can only be granted when no adequate, approved, available alternatives exist. (There are effective medications that have been used and approved for decades).
LAPD officers including the public are increasingly aware of covid vaccination truths. Mandating that our officers receive it is a huge reason for low recruitment.
During the 2020 riots when LAPD officers dutifully, and courageously defended this city, they were met with the discouraging news that their department would be defunded because of BLM demands. Today we again see the demands from BLM activists/anarchists to remove The Thin Blue Line flag from station lobbies across Los Angeles.
When do we stop bowing to anti police activists' demands and stand up for American principles and values?!! Not only do BLM activists/anarchists oppose the blue line flag, they also oppose the American flag. Anyone who visits any LAPD police station will see the American flag, and officers in uniform wearing badges and firearms, all things BLM activists/anarchists oppose. Bending a knee to BLM activists/anarchists to appease their demands is the reason for low morale and low recruitment. American principles and values and standing up for what is right always deserves attention and respect.
Chief Moore Moore is turning away from his obligations as a leader who should strive to lead through strength, integrity and commitment to his officers and the public, but instead is allowing rogue activists and anarchists to set the tone. Pathetic. It makes one question where Chief Moores loyalties lie, certainly not with the officers and staff he leads, nor with American principles and values.
Finally, I reside within the Foothill Division area once overseen by a very fine, conscientious, upstanding captain that officers and community alike highly respect. Ive heard, and reject Chief Moore's attempt to explain why Captain Smith was demoted and transferred. The communuty, including myself are unsatisfied with Chief Moores condescending attitude with regard to our legitimate concerns and his unjust decision that affected Captain Smith and Foothill Community Police Station. Captain Smith conducts himself at all times with the utmost level of honesty, integrity and respect for Foothill officers and the community. The unexpected decision to immediately demote and transfer Captain Smith is questionable to say the least, unjustified and is wrong. In addition, Foothill SLO Contreras' transfer was politically motivated as well, and was unjustified and wrong.
The atmosphere Chief Moore has created within the LAPD has had a substantial demoralizing effect on officers and has created mistrust. Its not surprising that recruitment has been down and continues to be a considerable concern for the protection and safety of Los Angeles. For all of the above outlined reasons it is my sincerest hope that the Board of

Police Commissioners reject the reappointment of Chief Michel Moore.

Respectfully,
Catherine Leona

Hi there,

Keenan Anderson, Takar Smith, and Oscar Leon Sanchez should be alive today. They were undergoing mental health crises and needed help from trained mental health professionals. Instead, they were met with the violent, biased, and dehumanizing practices of the LAPD under Police Chief, Michael Moore.

Chief Moore should not be reappointed as police chief.

I am writing to ask the commission not to reappoint Chief Moore, death and police violence have continued to plague the citizens of Los Angeles under his leadership. Tax payer dollars for misconduct continue to the the only form of "accountability" victims receive, however nothing about that is true accountability because it does nothing to discourage violence against us.

Please do not reappoint. We deserve better leadership.

The murders of three Angelenos in the first six days of 2023 by the LAPD reflect the ongoing brutality of policing and the immense harm its practices cause to our communities.

Our community members, Keenan Anderson (31), Takar Smith (46), and Oscar Leon Sanchez (35) were undergoing mental health crises and needed help from trained mental health professionals. Instead, they were met with the violent, biased, and dehumanizing practices of the LAPD under the reign of Police Chief, Michael Moore.

I am writing to urge you that Chief Moore not be reappointed. We urgently need change.

Commissioners,

Stop supporting police surveillance of our people. This week LAPD is asking for $1M to increase the size and scope of its Digital Evidence Management System to keep up with all the videos it is gathering through Body Worn Video (BWV) cameras and Digital-In-Car-Video (DICV) cameras. As police predominantly target and stop Black, brown, Indigenous, and poor community members more than other members of the community, its database of “digital evidence” most heavily contains video and photographic information on these communities, to be used in whatever manner police decide.

As a community we know that both In-Car and Body-Worn video and camera systems were ushered in under the guise of “holding police accountable” following particularly visible acts of police corruption and brutality, as well as the ongoing police assaults and murders of Black community members. Instead of “holding police accountable” however, they have been used for continuous data gathering on communities, which is stored as potential “evidence” and made available to other local agencies.

At the same time, companies that create and sell carceral technologies that are used predominantly against Black, brown, and poor communities continue to profit. Axon Enterprises, LAPD’s long-time partner and the creator of the Taser, will benefit from this grant, as Axon also manages LAPD’s digital “evidence” system.

As LAPD and Axon Enterprises profit, BWV cameras and In-Car video have not decreased police murders. They have not reduced racist stops, which continue to target Black community members and especially Black youth. They do not prevent deaths by police. LAPD is still the most murderous agency in the United States, but now when they kill it is captured from multiple angles, video that is controlled and managed by the murderers themselves.

Body-Worn Video and In-Car Video do not lead to police prosecutions, or a reduction in use of force by police. We demand a defunding and dismantling of these systems of police surveillance and of the LAPD!

We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted. We demand #NoMoreMoore and #DefundLAPD!

Subject: No more Moore

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Moore has failed in many ways. During his tenure, LAPD has continued to be the most murderous law enforcement agency in the nation. LAPD has disproportionately killed Black folks, houseless people, and those suffering from mental challenges and/or substance abuse. Moore does not appear to enforce de-escalation as a philosophy or plan for LAPD. He consistently approves the harm as necessary and "in-policy." If and when a shooting is designated out-of-policy by him or the Commission, officers are almost never disciplined or held accountable in any way.

As a result of excessive LAPD violence against peaceful protestors in 2020 following the police/white-supremacist murders of George Floyd, Breonna Taylor, and Ahmaud Arbery, several lawsuits, including one of the most significant class-actions in history, were filed. The investigative report developed around the harms names Moore's failure to properly plan and worse his "direct approval" of many of the abusive tactics to be at fault. Some of these suits have resulted in the City having to pay out enormous sums because of Moore's failures. In spite of these facts, Moore continued to allow this behavior in 2022, as those protesting the overturning of abortion rights were brutalized, arrested, and intimidated by LAPD.

In 2021, Moore oversaw a planned detonation, which was communicated to the media as an anti-fireworks stunt. The explosion was not contained and, horrendously, the lives of Auzie Houchins and Ramon Reyes were cut short; the long-time residents and community pillars died in the explosion's aftermath. The explosion also resulted in the destruction of an entire city block in South LA. Houses, apartment buildings, businesses, vehicles, and property were destroyed, as the explosion dislodged residents from their homes. Many former residents of this tightly-knitted community are still suffering and have not been adequately compensated. Beyond the human toll, the explosion cost the City many millions of dollars.

As a reminder, the list of harms committed by Chief Moore is long. During his tenure he: used a white-supremacist media outlet (Breitbart) to recruit LAPD applicants, enabled anti-Black racism by allowing Black people to be stopped by LAPD at 5 times their population share and searched 3 times the rate of other races, fostered a culture of corruption where officers in South Central were found to have illegally and unjustly entered the names of Black and Brown residents into gang databases, presented internal

investigations that repeatedly avoid accountability, including finding that not a single one of 4863 racial-bias complaints filed by the public was valid, stated that protestors in 2020 were just as responsible for the death of George Floyd as were the officers who killed him, created a culture where officers were enabled to circulate a “Valentine Card” with a despicable reference to Mr. Floyd and the words “you take me breath away” on LAPD’s internal online communication system, refused to disclose or publicly hold accountable the LAPD officers who participated in the attack of the U.S. Capitol on January 6, 2021, publicly compared Black Lives Matter to the right-wing extremist group the Proud Boys stating that both “represent ideology that’s counter to democracy,” lied on the record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639 - a number revealed by the media, enabled the targeting, intimidation, arrest, and “swatting” of movement activists and organizers, “double-dipped” by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary, allowed for the flying of racist flags on LAPD buildings, turned a blind-eye to officers who drive under the influence and abuse their spouses, permitted cops to spread COVID in the department and in neighborhoods by refusing vaccinations and not masking up, and allowed for crime rings to form by officers who do everything from sell LAPD firearms to commit sexual assault.

Chief Michael Moore is part of the reason why people distrust the LAPD. Under him, despite the protests back in 2020, police brutality has only worsened in the following years, with almost nothing being done to address it. This willful negligence and denial of wrongdoing is unacceptable, and is a clear sign that something is very rotten in the LAPD. Michael Moore can no longer be the chief of police, for the good of the city and county. He must step down or be removed.

They have not reduced racist stops, which continue to target Black community members and especially Black youth. They do not prevent deaths by police. LAPD is still the most murderous agency in the United States, but now when they kill it is captured from multiple angles, **video that is controlled and managed by the murderers themselves.**

Body-Worn Video and In-Car Video do not lead to police prosecutions, or a reduction in use of force by police. We demand a defunding and dismantling of these systems of police surveillance and of the LAPD!

We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. **These deaths were preventable**. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted. We demand #NoMoreMoore and #DefundLAPD!

In community,

Michelle King

Commissioners,

This week LAPD is asking for $1M to increase the size and scope of its Digital Evidence Management System to keep up with all the videos it is gathering through Body Worn Video (BWV) cameras and Digital-In-Car-Video (DICV) cameras. As police predominantly target and stop Black, brown, Indigenous, and poor community members more than other members of the community, its database of “digital evidence” most heavily contains video and photographic information on these communities, to be used in whatever manner police decide.

As a community we know that both In-Car and Body-Worn video and camera systems were ushered in under the guise of “holding police accountable” following particularly visible acts of police corruption and brutality, as well as the ongoing police assaults and murders of Black community members. Instead of “holding police accountable” however, they have been used for continuous data gathering on communities, which is stored as potential “evidence” and made available to other local agencies.

At the same time, companies that create and sell carceral technologies that are used predominantly against Black, brown, and poor communities continue to profit. Axon Enterprises, LAPD’s long-time partner and the creator of the Taser, will benefit from this grant, as Axon also manages LAPD’s digital “evidence” system.

As LAPD and Axon Enterprises profit, BWV cameras and In-Car video have not decreased police murders. They have not reduced racist stops, which continue to target Black community members and especially Black youth. They do not prevent deaths by police. LAPD is still the most murderous agency in the United States, but now when they kill it is captured from multiple angles, video that is controlled and managed by the murderers themselves.

Hi there,

My name is Christina Dirkes, and I live in the city of Los Angeles, 91606.

I used to think that the police would actually help me when I was in trouble, but over and over again, especially under Chief Moore's leadership, I have felt increasingly unsafe. I have read time and again about police officers who have shot people that they were called to help, especially people experiencing mental health crises, and Chief Moore has not censured any of them, nor put anything in place that has led to police PROTECTING people rather than killing or injuring them. I have absolutely no confidence in the LAPD since he has been the police chief, and in fact since he has been chief I am actively working towards defunding and abolishing the LAPD since they make our city worse and eat up all the budget.

I am against Chief Moore being reappointed as Police Chief. We need new leadership.

Christina Dirkes, North Hollywood, 91606

To the Police Commission,

Chief Michel Moore's current 5-year term ends in June, and I am writing today to ask you not to reappoint him.

During Moore's tenure, LAPD has continued to be the most murderous law enforcement agency in the nation. LAPD has disproportionately killed Black people, unhoused people, and those suffering from mental challenges and/or substance abuse. His failures have caused irreparable harm to the lives of our community members and have required the city to pay out millions of dollars; the planned detonation in South LA in 2021 is just one example of his negligence. We cannot afford a Chief who behaves this way.

The end of Moore's current term will allow for the appointment of a new chief through a community-engaged process. I urge you to engage this opportunity.

Sincerely,
Jennifer Collins

To whom it may concern:

I am a Los Angeles city resident and I am writing to demand that Chief Moore NOT be reappointed as police chief. LAPD is failing the city.

Within the first six days of the year, LAPD killed three Angelenos of color, all of whom were having mental health crises. This cannot continue to be our status quo.

Chief Moore has proven himself incapable of leading LAPD and must not be reappointed.

Thank you,
Amy

Hello LA Police Commission Members,

I respectfully urge you not to reappoint Chief Michael Moore. I believe he has not shown the kind of enlightened and compassionate (even visionary - why not?) leadership that our city so desperately needs.

I was outraged and saddened — although not surprised — to learn that in just the first 6 days of this year, three residents of our city who were going through mental health crises were killed by LAPD officers. I'm referring to the horrifying murders of Oscar Leon, Taka Smith and Keenan Anderson, all men of color - two African-American, one Latino.

Instead of calling on mental health professionals to help de-escalate the situation, and intervene non-violently, the police resorted to the only thing they seem to know: using lethal force to brutalize, attack and subdue.

It's become clearer than ever that Michael Moore has to go. And that policing in LA needs to be thoroughly re-thought, re-envisioned and re-structured such that violent, discriminatory and dehumanizing practices - as reflected in the completely unjustified killings of Oscar Leon, Taka Smith and Keenan Anderson — are eliminated and abolished.

Sincerely,

Rebecca Wilson
(I am a white woman, aged 74)

Hello,

I'm a concerned and disgusted citizen of Los Angeles. LAPD's blatant disregard for human life, especially that of Black and Brown Angelenos, is unacceptable. 3 people have been murdered by LAPD so far this year and that's not the kind of world I nor my fellow Angelenos deserve. I demand that Chief Moore not be reappointed as LAPD's chief of police.

Sincerely,
Nikki Osborne

Dear Commissioners,

This week LAPD is asking for $1M to increase the size and scope of its Digital Evidence Management System to keep up with all the videos it is gathering through Body Worn Video (BWV) cameras and Digital-In-Car-Video (DICV) cameras. As police predominantly target and stop Black, brown, Indigenous, and poor community members more than other members of the community, its database of “digital evidence” most heavily contains video and photographic information on these communities, to be used in whatever manner police decide.

As a community we know that both In-Car and Body-Worn video and camera systems were ushered in under the guise of “holding police accountable” following particularly visible acts of police corruption and brutality, as well as the ongoing police assaults and murders of Black community members. Instead of “holding police accountable” however, they have been used for continuous data gathering on communities, which is stored as potential “evidence” and made available to other local agencies.

At the same time, companies that create and sell carceral technologies that are used predominantly against Black, brown, and poor communities continue to profit. Axon Enterprises, LAPD’s long-time partner and the creator of the Taser, will benefit from this grant, as Axon also manages LAPD’s digital “evidence” system.

As LAPD and Axon Enterprises profit, BWV cameras and In-Car video have not decreased police murders. They have not reduced racist stops, which continue to target Black community members and especially Black youth. They do not prevent deaths by police. LAPD is still the most murderous agency in the United States, but now when they kill it is captured from multiple angles, video that is controlled and managed by the murderers themselves.

Body-Worn Video and In-Car Video do not lead to police prosecutions, or a reduction in use of force by police. We demand a defunding and dismantling of these systems of police surveillance and of the LAPD!

We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted. We demand #NoMoreMoore and #DefundLAPD!

Hi I'd like to submit written public comment -

Please do not reappoint police chief Moore- he's a murderer and he's done nothing but perpetuate and excuse state violence. He's had more than enough chance and we the city of LA do not want him. Fire Chief Moore - do not reappoint him please! Thank you for your time.

Hello LA Police Commission.

I am writing in support of Black Lives Matter and the people of Los Angeles in demanding a NO vote on reinstating Chief Moore.

Our community has experienced tragedy after tragedy under his leadership. It is clear he has no connection to the community, the community's experience of LAPD, and there is NEVER accountability for LAPD officers for their extensive (and public) crimes.

Please show the community that poor leadership, criminal behavior, and murder have consequences in an institution that claims to "protect and serve".

Commissioners,

This week LAPD is asking for $1M to increase the size and scope of its Digital Evidence Management System to keep up with all the videos it is gathering through Body Worn Video (BWV) cameras and Digital-In-Car-Video (DICV) cameras. As police predominantly target and stop Black, brown, Indigenous, and poor community members more than other members of the community, its database of “digital evidence” most heavily contains video and photographic information on these communities, to be used in whatever manner police decide.

As a community we know that both In-Car and Body-Worn video and camera systems were ushered in under the guise of “holding police accountable” following particularly visible acts of police corruption and brutality, as well as the ongoing police assaults and murders of Black community members. Instead of “holding police accountable” however, they have been used for continuous data gathering on communities, which is stored as potential “evidence” and made available to other local agencies.

At the same time, companies that create and sell carceral technologies that are used predominantly against Black, brown, and poor communities continue to profit. Axon Enterprises, LAPD’s long-time partner and the creator of the Taser, will benefit from this grant, as Axon also manages LAPD’s digital “evidence” system.

As LAPD and Axon Enterprises profit, BWV cameras and In-Car video have not decreased police murders. They have not reduced racist stops, which continue to target Black community members and especially Black youth. They do not prevent deaths by police. LAPD is still the most murderous agency in the United States, but now when they kill it is captured from multiple angles, video that is controlled and managed by the murderers themselves.

Body-Worn Video and In-Car Video do not lead to police prosecutions, or a reduction in use of force by police. We demand a defunding and dismantling of these systems of police surveillance and of the LAPD!

We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted. We demand #NoMoreMoore and #DefundLAPD!

Hello,

I am writing to submit my public comment in opposition to the re-appointment of current LAPD Chief Michel Moore. For the duration of his service there has been no improvement in the number of police killings or instances of police brutality in Los Angeles, and he has shown no interest in instating reforms within the LAPD in order to address this pressing human rights issue. I do not feel safe in the city of LA knowing that Michel Moore is heading the LAPD, and I do not support his service for another term.

Commissioners,

This week LAPD is asking for $1M to revamp the Digital Evidence Management System to accommodate the mass of videos it's gathering through Body Worn Video (BWV) cameras and Digital-In-Car-Video (DICV) cameras. This is highly concerning as police predominantly target and stop Black, brown, Indigenous, and poor community members more than other members of the community. Its database of “digital evidence” most heavily contains video and photographic information on these communities.

Both In-Car and Body-Worn video and camera systems were ushered in under the guise of “holding police accountable” following particularly visible acts of police corruption and brutality, as well as ongoing police assaults and murders of Black community members. Instead of “holding police accountable”, however, they have been used to gather data to be stored as potential “evidence” and made available to other local agencies. These technologies are being used predominantly against Black, brown, and poor communities.

Meanwhile, companies that create and sell technologies used to incarcerate continue to profit. Axon Enterprises, LAPD’s long-time partner and the creator of the Taser, will benefit from this grant, as Axon also manages LAPD’s digital “evidence” system.

As LAPD and Axon Enterprises profit, BWV cameras and In-Car video have not decreased police murders. They have not reduced racist stops, which continue to target Black community members and especially Black youth. They do not prevent deaths by police. LAPD is still the most murderous agency in the United States, but now when they kill it is captured from multiple angles, video that is controlled and managed by the murderers themselves.

We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued over-funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

Hi there,

I'm writing to inform you that it is my opinion Michael Moore should not be reappointed as LAPD's chief of police. There have been too many instances of police brutality and escalation that has resulted in the death of citizens that LAPD are meant to protect and serve, such as Keenan Anderson, Takar Smith, and Oscar Leon Sanchez, who were undergoing mental health crises and were met with violence at the hands of LAPD that took their lives. This is unacceptable and cannot continue, new leadership is needed for change to happen.

Thank you for your time and consideration of my written public comment.

Best regards,
Kimberly Dobbs

To the Police Commission,

Chief Moore should not be reappointed as Chief of Police. Under his leadership, violence and racism have continued to thrive in the department. Reappointing Chief Moore would be to sanction more violence against Angelenos, particularly in communities of color and against Black Angelenos.

Chief Moore should not be reappointed.

This email is in strong recommendation not to reappoint Chief Moore of the LAPD. Enough loss of life is enough. LA can't be a safe place until dramatic changes are made to the way LAPD approaches people of color in crisis.

Commissioners,

This week LAPD is asking for $1M to increase the size and scope of its Digital Evidence Management System to keep up with all the videos it is gathering through Body Worn Video (BWV) cameras and Digital-In-Car-Video (DICV) cameras. As police predominantly target and stop Black, brown, Indigenous, and poor community members more than other members of the community, its database of “digital evidence” most heavily contains video and photographic information on these communities, to be used in whatever manner police decide.

As a community we know that both In-Car and Body-Worn video and camera systems were ushered in under the guise of “holding police accountable” following particularly visible acts of police corruption and brutality, as well as the ongoing police assaults and murders of Black community members. Instead of “holding police accountable” however, they have been used for continuous data gathering on communities, which is stored as potential “evidence” and made available to other local agencies.

At the same time, companies that create and sell carceral technologies that are used predominantly against Black, brown, and poor communities continue to profit. Axon Enterprises, LAPD’s long-time partner and the creator of the Taser, will benefit from this grant, as Axon also manages LAPD’s digital “evidence” system.

As LAPD and Axon Enterprises profit, BWV cameras and In-Car video have not decreased police murders. They have not reduced racist stops, which continue to target Black community members and especially Black youth. They do not prevent deaths by police. LAPD is still the most murderous agency in the United States, but now when they kill it is captured from multiple angles, video that is controlled and managed by the murderers themselves. The last thing the LAPD should be given in the wake of 3 murders already this year, is additional money to hide their harm.

Body-Worn Video and In-Car Video do not lead to police prosecutions, or a reduction in use of force by police. We demand a defunding and dismantling of these systems of police surveillance and of the LAPD!

We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted. We demand #NoMoreMoore and #DefundLAPD!

Chief Moore is an abject failure and danger to Los Angeles. He has failed on numerous occasions to hold his own department accountable and instead this year alone four people have been shot by his department. He refuses to show remorse and instead lobbies for more money on an already bloated budget. He is the leader of the most dangerous city department in Los Angeles and in California and he must go.

Hello,

I add my voice to the chorus of concerned citizens who are witnessing the murders at the hands of LAPD and are demanding Chief Moore not be reappointed. All our community members deserve respect and support, not violence and dehumanization. I urge LAPC to prioritize public safety by listening to the public's response to such events. Thank you.

Commissioners,

#NoMoreMoore. In order to make things better with the LAPD, we need *new* leadership, not more of the same. (And certainly not someone who currently says, essentially, "don't worry, go ahead and vote me in, I won't stay the full five years, just two or three..." and yet could easily "change his mind" later and we're stuck with him for a full five.....*no thank you*.) We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

C'mon, folks -- already in 2023 LAPD has killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted.

We demand #NoMoreMoore!

Commissioners,

This week LAPD is asking for $1M to increase the size and scope of its Digital Evidence Management System to keep up with all the videos it is gathering through Body Worn Video (BWV) cameras and Digital-In-Car-Video (DICV) cameras. As police predominantly target and stop Black, brown, Indigenous, and poor community members more than other members of the community, its database of “digital evidence” most heavily contains video and photographic information on these communities, to be used in whatever manner police decide.

As a community, we know that both In-Car and Body-Worn video and camera systems were ushered in under the guise of “holding police accountable” following particularly visible acts of police corruption and brutality, as well as the ongoing police assaults and murders of Black community members. Instead of “holding police accountable” however, they have been used for continuous data gathering on communities, which is stored as potential “evidence” and made available to other local agencies.

At the same time, companies that create and sell carceral technologies that are used predominantly against Black, brown, and poor communities continue to profit. Axon Enterprises, LAPD’s long-time partner and the creator of the Taser, will benefit from this grant, as Axon also manages LAPD’s digital “evidence” system.

As LAPD and Axon Enterprises profit, BWV cameras and In-Car video have not decreased police murders. They have not reduced racist stops, which continue to target Black community members and especially Black youth. They do not prevent deaths by police. LAPD is still the most murderous agency in the United States, but now when they kill it is captured from multiple angles, video that is controlled and managed by the murderers themselves.

Body-Worn Video and In-Car Video do not lead to police prosecutions, or a reduction in use of force by police. We demand a defunding and dismantling of these systems of police surveillance and of the LAPD!

We reject the re-appointment of Michel Moore, who has continued LAPD’s legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

Dear LA Police Commission:

As a citizen of Los Angeles District 10 I'm writing to submit my comments on your January 24 meeting.

Agenda Items 3A and 4A
Against human and privacy rights, LAPD continues to collect and accrue more and more "digital evidence" to be used in whatever manner LAPD decides is best - which historically and contemporarily have led to targeting of Black, brown, indigenous, and poor community members more than other members of the community. You allow LAPD to use in-car and body-worn cameras under the guide of "holding police accountable" but continue to not hold police accountable and to rubber stamp their policies when cameras do show police misconduct. Furthermore, LAPD just edits the camera footage they have to promote themselves and to avoid being held accountable, rather than releasing unedited footage of their brutality.

In addition, LAPD's use of this surveillance also benefits their partners, Axon Enterprises, who profit off of carceral technologies and the unethical collection of "data" on marginalized communities.

The research clearly states that BWV and In-car video do not decrease police murders or reduce racist stops or prevent deaths by police. BWV and in-car video do not lead to police prosecutions or a reduction in police force. LAPD needs to be defunded from their surveillance of the community!

General Public Comment: DO NOT RE-APPOINT MOORE
As a citizen of Los Angeles that is a social worker and continuously works to promote the equity and true community-based public safety of Angelenos, I beg of you **to not support** the re-appointment of Chief Moore for several reasons.

These reasons include the following:

1. Chief Moore continues to defend and facilitate LAPD's violence. As its budget increases year after year, LAPD is still the most homicidal police agency in the US. Despite millions of dollars in training and technology for situational awareness, de-escalation, less-lethal weapons, and mental health evaluation teams, LAPD continues to murder people who are in crisis or in need of aid. Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted.

2. Chief Moore oversaw LAPD while it targeted protestors during the 2020 uprising following the murder of George Floyd, Breonna Taylor, and countless other victims of police violence. Protestors were attacked, injured, jailed, and harassed, resulting in thousands of complaints filed and hundreds of reports of injuries

sustained by LAPD. Moore then used the protests as an opportunity to further increase funding for the department, including the surveillance of protestors and dissent.

3. In the course of his tenure, LAPD performed a publicity stunt to detonate fireworks taken from a home in South Los Angeles, while still within the community, and without effective evacuation. The explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who ultimately died from the shock and stress.

4. Chief Moore covered up the the actions of officers who killed one of their own, Houston Tipping, during a training exercise after Tipping filed a report on the rape of a woman by four LAPD officers, one of whom took part in the training where Tipping was killed

5. Chief Moore oversaw LAPD during the December 2020 assault on protestors taking part in a demonstration with BLM-LA outside the Mayor's mansion, in which members of the crowd were beaten with batons.

6. Chief Moore created a culture where cops were enabled to circulate a "Valentine Card" with a despicable reference to George Floyd and the words "you take my breath away." Chief Moore promised he would hold accountable the perpetrator of this gross act, but then did not.

7. In his course of his tenure, LAPD continued racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD's crime reports through the lens of race: a decades-old tactic to falsely imply race and criminality are linked while justifying the deeply racist policing of LAPD.

8. Chief Moore proclaimed not once but twice that those who protested the murder of George Floyd were just as responsible for his death as the police who killed him.

9. Chief Moore denied LAPD was responsible for the deaths of Janisha Harris and Jamarea Keyes in August 2022 even though they were the ones who chased a driver through a red light and caused a fatal crash.

10. Chief Moore lied on the record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media.

11. Chief Moore publicly compares Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both "represent ideology that's counter to democracy."

12. Chief Moore Continued a culture and system in which Metro police officers felt empowered and entitled to enter people they stopped into California's gang database without justification.

13. Chief Moore has robbed the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary.

14. Chief Moore failed to act on behalf of an LAPD captain who was being sexually harassed at work.

15. Chief Moore has continuously Ignored the demands of approximately ⅔ of Angelenos who consistently and loudly demand that LAPD is defunded

We need a chief that will prioritize the diversion of police calls to mental health responders and community ambassadors. Moore *said* he would be open to that but has done nothing to actually do that.

General Public Comment: Allowing Public Comment

Allow community members to speak after every single agenda item, as opposed to continuing the patently ludicrous practice of forcing the public to speak before any of these items have been discussed. Inform the public who is up next to speak. Resume in-person meetings. In general, make every effort to remove procedural barriers and impediments to civic expression, and discontinue your visible displays of irritation with and hostility towards the public you purport to

serve. Members of the communities most affected by policing are by far the most knowledgeable about the real-world effects of the matters before this board, and about LAPD in their neighborhoods, and you should be doing everything you can to make it easy for them to give public comment. Week after week, your actions belie your hollow claim to be the “citizen’s voice in police affairs.”

Sincerely,
Sarah Bowers

Police Commission,

The list of grievances against Chief Moore is long. He has established a record of mismanagement, deceit, corruption and brutality. While these harms have impacted the entire City, they have had a particularly brutal effect on Black and poor communities.

We need change. Chief Moore must NOT be reappointed as LAPD's chief of police.

Hello,

Between a disastrous fireworks detonation in the heart of the city that killed residents, using Breitbart to recruit LAPD, and his outright disdain for the people he's supposed to protect and *serve*, Moore has shown himself to be incredibly unfit to lead the Los Angeles Police Department. We deserve so much better than what he has offered in his tenure. Angelinos demand a different kind of leadership, one with compassion and intelligence. He's outright lied about the amount of traffic stops made in South Central in 2021, failed to hold his officers accountable for racist and demeaning practices, and I saw him lie to protestors promising they would not get tear gassed before deploying it moments later.

That kind of person has no shame and no business being an officer, let alone leading the whole department. Do not perform business as usual. We demand and deserve so much better.

Do not reappoint Chief Moore.

Dear Members of the LA Police Commission:

My name is Nicolas Gardner and I am writing to submit public comment regarding the question before the Commission to approve Chief Moore for a second term as Chief of Police.

Under Moore, the LAPD has continued to be the most violent law enforcement agency in the nation. We are not even a whole month into the new year and the LAPD has already murdered a number of people, including Takar Smith, Oscar Sanchez, and Keenan Anderson. In the last few years, the LAPD has leveled an entire city block in South LA, hired known white supremacists to the force, and attacked protesters. This is nothing new: LAPD has disproportionately killed Black folks, houseless people, and those suffering from mental challenges and substance abuse.

It is not possible to list every horrific act the LAPD has committed under Chief Moore in one email. **I strongly urge the LA Police Commission and Mayor Bass to listen to the demands of Black Lives Matter-LA and 1) reject Chief Moore for a second term and 2) lead a community-driven process to find a replacement.**

Thank you
Nicolas Gardner

In the 8 years I have lived in Los Angeles, I have seen too many murders on camera just by scrolling through my Twitter feed. I have not seen that Body-Worn Video and In-Car Video leads to any kind of reduction in police force and violence, nor an increase in police accountability or prosecution. Most recently, the full video of Keenan Anderson's murder was not released, as the data collected by policing video is controlled by the very people committing the offenses. I urge the Board to reject LAPD's request this week for $1M to boost the resources that will go to private companies and policing of vulnerable communities.

I also urge the Board to reject the re-appointment of Michel Moore, under whose "leadership" instances of police violence has increased and has not made Los Angeles safer.

Every death that occurs with "police involvement" is unacceptable. Keenan Anderson went to the police for help and was murdered with the application of a so-called non-violent weapon. I support defunding and diverting the funds--OUR funds—towards community services and programs.

To the Board of Police Commissioners,
I write urging you not to reappoint Chief Michael Moore.
Chief Moore has a long record of mismanagement, deceit, corruption and brutality--too long to recite here. These harms have had a particularly brutal effect on Black and poor communities in our city, but really they impact Los Angeles as a whole. The over-policing and grotesquely unequal justice endured by Black people during Chief Moore's tenure is more than enough reason to chart a new path toward a very different kind of community safety for Los Angeles. Let's start now.

Of many grievous, life-destroying incidents that have occurred during Chief Moore's tenure, one stands out to me in particular: I continue to be shocked, horrified, at the carelessly devised detonation of fireworks in a neighborhood of South Los Angeles, which resulted in two deaths and the destruction of homes and businesses on a city block.

I come to my opinion on Moore's reappointment as an Angeleno and a white person committed to racial and economic justice. I am also the father of a disabled child and know first-hand that we need a Chief who will strongly promote and implement non-police, non-armed responses to mental health crises. Public health and common decency demand nothing less. Thanks for taking this comment.

Dear Board of Police Commissioners,

During last Tuesday's special board meeting regarding the reappointment of Chief Moore, there was an overwhelming majority of callers who do not want him reappointed. Only 3 people of about 60 callers want him reappointed, meaning about 57 don't want him reappointed.

Please put forward a new chief who is pro law-enforcement who will increase officer morale, increase officer recruitments, increase arrests, and consequently lower crime.

We do not want you to recommend anyone who is in the same philosophy or policies as District Attorney Gascón where criminals are given a slap on the wrist and criminals feel emboldened.

Officers feel hopeless. Here is what one officer said, "It's a hopeless situation. Moore is horrible and only cares about staying in power so I'd love to see him get the boot. But on the other hand if the mayor replaces him she will pick someone who is absolutely crazy. There's zero chance she picks someone good, and Moore has already sold out so I just don't even care anymore. None of us do. We're all just counting down our time like prisoners waiting for the day we can escape." This is so sad and NOT what I want to hear as a civilian. I feel for these officers.

I do not think deputy Chief Hamilton would be a good pick. Please don't pick him. He has been caught in lies when speaking with the community and it seems like he cares more about pleasing the City Council than being honest. Emada Tingerides might be good, but I'm not sure if she has the experience. Possibly Girmala, even though she retired. Is that a possibility? Or you can go out on a limb and get Sheriff Villanueva…after all he got a lot of votes throughout Los Angeles County and was a good Sheriff who the deputies and community respected.

Please pick someone good who will make Los Angeles more safe. We need your help! Children and families need your help too! We don't feel safe. LAPD needs a lot of improvements so we can be better served. Maybe look at other PDs (like Glendale) who are doing good and learn from them.

Sincerely, C. Schmidt

As a community we know that both In-Car and Body-Worn video and camera systems were ushered in under the guise of “holding police accountable” following particularly visible acts of police corruption and brutality, as well as the ongoing police assaults and murders of Black community members. Instead of “holding police accountable” however, they have been used for continuous data gathering on communities, which is stored as potential “evidence” and made available to other local agencies.

At the same time, companies that create and sell carceral technologies that are used predominantly against Black, brown, and poor communities continue to profit. Axon Enterprises, LAPD’s long-time partner and the creator of the Taser, will benefit from this grant, as Axon also manages LAPD’s digital “evidence” system.

As LAPD and Axon Enterprises profit, BWV cameras and In-Car video have not decreased police murders. They have not reduced racist stops, which continue to target Black community members and especially Black youth. They do not prevent deaths by police. LAPD is still the most murderous agency in the United States, but now when they kill it is captured from multiple angles, video that is controlled and managed by the murderers themselves.

Body-Worn Video and In-Car Video do not lead to police prosecutions, or a reduction in use of force by police. We demand a defunding and dismantling of these systems of police surveillance and of the LAPD!

We reject the re-appointment of Michel Moore, who has continued LAPD's legacy of anti-Blackness and brutality. We reject the continued funding and support of the murderous LAPD. We demand that city resources currently devoted to the support and maintenance of the LAPD be invested instead in life-affirming, life-supporting, and accessible community services and programs.

Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted. We demand #NoMoreMoore and #DefundLAPD!

Commissioners,

This week LAPD is asking for $1M to increase the size and scope of its Digital Evidence Management System to keep up with all the videos it is gathering through Body Worn Video (BWV) cameras and Digital-In-Car-Video (DICV) cameras. As police predominantly target and stop Black, brown, Indigenous, and poor community members more than other members of the community, its database of “digital evidence” most heavily contains video and photographic information on these communities, to be used in whatever manner police decide.

As a community we know that both In-Car and Body-Worn video and camera systems were ushered in under the guise of “holding police accountable” following particularly visible acts of police corruption and brutality, as well as the ongoing police assaults and murders of Black community members.
