Greetings Board of Police Commissioners,

Again I want it to be know loud and clear that I support Chief Michel Moore's 2nd term as Chief of Police.

I truly hope and pray that each of you agree that those negative speakers are all basically saying the same thing. None of them are speaking from the heart nor with respect.

Thank you for taking time to read my e-mail. May all of you stay healthy and safe.

Police Commissioners: William J. Briggs, Eileen Decker, Dale Bonner, Maria Lou Calanche, Steve Soboroff

Good morning, Police Commissioners, I hope everyone is doing well, I would like to start off with a quote from Jane Casey, **"Sometimes the hardest thing is admitting you were wrong. It's hard to say you need to be forgiven."**

As we enter 2023 the month of January is almost complete. **187 total Covid-19 infections** within the LAPD for this month. **156 of the 187 infections are from the vaccinated** employees and **31 of the 187 are unvaccinated employees within the LAPD**. This does not include the Covid-19 figures for today.

Chief Moore continues to mention 14 "Long Covid Cases" employees are off work. I'm not comprehending what exactly that means, did these employees suffer from an adverse event from the Covid-19 shot? We continue to hear about these employees' month after month. I will pray for a speedy recovery and pray they do not suffer any long-term injuries as a direct result of your current policies and procedures.

***On January 26, 2023**, the FDA hosted a Vaccine and Related Biological Products Advisory Committee (VRBPAC). The **CDC Deputy Director Tom Shimabukuro** admitted that Covid-19 vaccines are **causing "Debilitating Illnesses".** He further stated, **"We are aware of these reports of people experiencing long-lasting health problems following Covid vaccination."** Perhaps this is what Chief Moore is speaking of during Police Commission meetings when he mentioned there are currently 14 "Long Covid Cases".*

You speak a lot about the importance of being transparent with the public, because it builds public trust. Please make a better attempt with aligning your words with your actions. There are several valid questions that have been repeatedly asked and gone unanswered. As a public official you don't get to pick and choose

what questions you decide to provide an answer to. This is the profession that you all have chosen. When you don't provide answers, we begin to question your true intentions.

Mayor Bass, you have a way with words and perhaps you can publicly address the City of Los Angeles and explain how the Covid mandate is in the best interest of public safety and to "protect the City's workforce and the public that it serves". Your own data does not support the C.O.L.A. to have a Covid-19 mandate. We would like to hear what you have to say about this. I think it would be good for you to answer our unanswered questions because no one else is willing apparently. I would like to know your rationale on why this Covid-19 mandate is still active?

Help us all understand because this is clearly not adding up. There is plenty of documentation that being vaccinated doesn't stop infection or transmission of the Covid-19 variants. If you would like this documentation, just ask. I will gladly provide my sources.

Currently the C.O.L.A. only is requiring the unvaccinated employees to test for Covid-19. Many of the positive Covid-19 cases stem from vaccinated employees. This month alone, 83% of your infections are from the vaccinated employees. Why isn't the C.O.L.A. testing all employees every week for Covid-19? I would think by testing ALL employees this would be the best practice to ensure proper public safety for everyone. The vaccinated last year made up 78% of the infections within the LAPD. The C.O.L.A. isn't requiring its employees to stay current on Covid-19 Boosters. If you truly believe that these Covid-19 gene therapy shots are working to save lives, why aren't you requiring your employees to stay current with boosters? I have also recently discovered that the City of Los Angeles Covid-19 mandate 187134 is not being enforced equally with other entities of the City of Los Angeles. Can someone please explain why?

I would like to add in all the above data from local sources and the CDC there **is no breakdown as to the vaccination status of the Covid-19 positive cases reported.**

I can only speculate that **if vaccination status were provided in the above reports, it would likely mirror the current data** the LAPD has provided. The **vaccinated would-be the overwhelming majority of the new positive Covid-19 infections / admissions.**

Australian Public Health data finds ALL the 1,779 Covid related hospitalizations and ICU admissions were all vaccinated. The total Covid-19 deaths, 6.3% of those were unvaccinated, leaving 93.7% of the deaths being vaccinated. Same Covid-19 virus, same gene therapy shot.

The Covid-19 gene therapy shot has clearly shown us all that it does not prevent the transmission or infection of Covid-19. I question if the gene therapy shot even makes your symptoms less. To my knowledge there has not been a completed clinical study between the symptoms of the current variants of Covid-19 being unvaccinated compared to vaccinated. If you have any data that says otherwise, please provide it to the public with sources.

Attention Media, I remember when we all entered upon Covid-19, news media outlets were providing daily breakdowns of hospitalizations, new infections, and deaths with Covid-19. The media certainly didn't hesitate to mention the vaccination status back then, why not now? Maybe a little more investigative journalism and define which virus caused death instead of "Virus-related" death. As you are aware, globally we are all dealing with different viruses at the current moment.

Good morning, Police Commissioners, I hope everyone is doing well, I would like to start off with a quote from Jane Casey, **"Sometimes the hardest thing is admitting you were wrong. It's hard to say you need to be forgiven."**

As we enter 2023 the month of January is almost complete. **187 total Covid-19 infections** within the LAPD for this month. **156 of the 187 infections are from the vaccinated** employees and **31 of the 187 are unvaccinated employees within the LAPD**. This does not include the Covid-19 figures for today.

Chief Moore continues to mention 14 "Long Covid Cases" employees are off work. I'm not comprehending what exactly that means, did these employees suffer from an adverse event from the Covid-19 shot? We continue to hear about these employees' month after month. I will pray for a speedy recovery and pray they do not suffer any long-term injuries as a direct result of your current policies and procedures.

***On January 26, 2023**, the FDA hosted a Vaccine and Related Biological Products Advisory Committee (VRBPAC). The **CDC Deputy Director Tom Shimabukuro** admitted that Covid-19 vaccines are **causing "Debilitating Illnesses".** He further stated, **"We are aware of these reports of people experiencing long-lasting health problems following Covid vaccination."** Perhaps this is what Chief Moore is speaking of during Police Commission meetings when he mentioned there are currently 14 "Long Covid Cases".*

You speak a lot about the importance of being transparent with the public, because it builds public trust. Please make a better attempt with aligning your words with your actions. There are several valid questions

that have been repeatedly asked and gone unanswered. As a public official you don't get to pick and choose what questions you decide to provide an answer to. This is the profession that you all have chosen. When you don't provide answers, we begin to question your true intentions.

Mayor Bass, you have a way with words and perhaps you can publicly address the City of Los Angeles and explain how the Covid mandate is in the best interest of public safety and to "protect the City's workforce and the public that it serves". Your own data does not support the C.O.L.A. to have a Covid-19 mandate. We would like to hear what you have to say about this. I think it would be good for you to answer our unanswered questions because no one else is willing apparently. I would like to know your rationale on why this Covid-19 mandate is still active?

Help us all understand because this is clearly not adding up. There is plenty of documentation that being vaccinated doesn't stop infection or transmission of the Covid-19 variants. If you would like this documentation, just ask. I will gladly provide my sources.

Currently the C.O.L.A. only is requiring the unvaccinated employees to test for Covid-19. Many of the positive Covid-19 cases stem from vaccinated employees. This month alone, 83% of your infections are from the vaccinated employees. Why isn't the C.O.L.A. testing all employees every week for Covid-19? I would think by testing ALL employees this would be the best practice to ensure proper public safety for everyone. The vaccinated last year made up 78% of the infections within the LAPD. The C.O.L.A. isn't requiring its employees to stay current on Covid-19 Boosters. If you truly believe that these Covid-19 gene therapy shots are working to save lives, why aren't you requiring your employees to stay current with boosters? I have also recently discovered that the City of Los Angeles Covid-19 mandate 187134 is not being enforced equally with other entities of the City of Los Angeles. Can someone please explain why?

I would like to add in all the above data from local sources and the CDC there **is no breakdown as to the vaccination status of the Covid-19 positive cases reported.**

I can only speculate that **if vaccination status were provided in the above reports, it would likely mirror the current data** the LAPD has provided. The **vaccinated would-be the overwhelming majority of the new positive Covid-19 infections / admissions.**

Australian Public Health data finds ALL the 1,779 Covid related hospitalizations and ICU admissions were all vaccinated. The total Covid-19 deaths, 6.3% of those were unvaccinated, leaving 93.7% of the deaths being vaccinated. Same Covid-19 virus, same gene therapy shot.

The Covid-19 gene therapy shot has clearly shown us all that it does not prevent the transmission or infection of Covid-19. I question if the gene therapy shot even makes your symptoms less. To my knowledge there has not been a completed clinical study between the symptoms of the current variants of Covid-19 being unvaccinated compared to vaccinated. If you have any data that says otherwise, please provide it to the public with sources.

Attention Media, I remember when we all entered upon Covid-19, news media outlets were providing daily breakdowns of hospitalizations, new infections, and deaths with Covid-19. The media certainly didn't hesitate to mention the vaccination status back then, why not now? Maybe a little more investigative journalism and define which virus caused death instead of "Virus-related" death. As you are aware, globally we are all dealing with different viruses at the current moment.

Police Commissioners,

In 2022 US law enforcement agencies killed at least 1,186 people, more than any other year on record since 2013 when such information started being gathered. These include people who were fatally shot, beaten, restrained, and Tasered to death by police. LAPD continues to lead the nation in being the most murderous police agency overall, killing more people every year than any other agency.

Police kill regardless of cameras, regardless of training, regardless of diversity. Police kill regardless of policy, access to "less lethal" weapons, or having to release the videos. Police kill by stealing our resources. As the rubber-stamping head of LAPD, Los Angeles Police Commissioners facilitate and are accomplices in these murders.

We grieve with the families and loved ones of those murdered by police. Tyre Nichols, Keenan Anderson, Charlie Towns, Sandra Bland, Oscar Leon Sanchez, Takar Smith, Anthony Vargas, John Horton, Anthony Lowe, Charlie Africa, Wakeisha Wilson, Michael Brown, Philando Castile, Terence Crucher, Tortuguita, Devin Brown, Ezell Ford, David Sullivan, Ryan Joseph, Eulia May Love, and thousands more. Our communities are not safer.

We demand that city resources be divested from LAPD, and diverted instead to the survivors of police violence and those families and communities most heavily impacted by police. We demand that police are defunded and dismantled, and there is a reinvestment in communities. LAPD must be abolished as an organization, it cannot be reformed.

The so-called head of LAPD Michel Moore will likely say the murder of Tyre Nichols was an aberration. In reality, it is what policing is - the use of fear, punishment, and brutal force for social control and the theft of a community's resources. As he defends this brutality, Michel Moore has further overseen the criminalization of protest, using the 2020 protests and uprising against the murder of George Floyd, Breonna Taylor, and all victims of police violence to secure millions of dollars in additional funding for LAPD for overtime, "training," and the surveillance of protest.

Today the Board will vote on the re-appointment of current Police Chief Michel Moore. Over his term Moore has been responsible for the continued ballooning of the LAPD budget, as well as the following abuses:

- Engaging in a publicity stunt to detonate fireworks taken from a home in South Los Angeles, without moving them from the community. The explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who died from the shock and stress.
- Continuing the practice of racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD's crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the racist policing of LAPD.
- Proclaiming that those who protested the murder of George Floyd were just as responsible for his death as the cops who killed him.
- Presenting internal investigations that repeatedly avoid accountability, including finding that not one of the 4862 racial-bias complaints filed by the public were valid.
- Sustaining a culture where officers were enabled to circulate a "Valentine Card" with a despicable reference to Mr. Floyd and the words "you take my breath away.
- Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both "represent ideology that's counter to democracy."
- Lying on record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media.
- Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary.
- Failing to act on behalf of an LAPD captain who was being sexually harassed, and who asked for Moore to intervene.

And on and on. There are too many abuses to list. As head of LAPD, Michel Moore continues to perpetuate harm against the community. We reject and condemn his nomination, and demand the defunding and dismantlement of LAPD.

Ending houselessness and building fully invested in communities (something that elected officials talk about often) is possible by divesting from a key source of money--police budgets. It is unacceptable that our taxpayer dollars go towards funding a department that kills people regardless of 'reform'--it is time we recognize when something isn't working. It's time to reduce the power of LAPD.

Police kill regardless of cameras, regardless of training, regardless of diversity. Police kill regardless of policy, access to “less lethal” weapons, or having to release the videos. Today the Board will vote on the re-appointment of current Police Chief Michel Moore. Over his term Moore has been responsible for the continued ballooning of the LAPD budget, as well as the following abuses:

- Engaging in a publicity stunt to detonate fireworks taken from a home in South Los Angeles, without moving them from the community. The explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who died from the shock and stress.
- Continuing the practice of racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD’s crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the racist policing of LAPD.
- Proclaiming that those who protested the murder of George Floyd were just as responsible for his death as the cops who killed him.
- Presenting internal investigations that repeatedly avoid accountability, including finding that not one of the 4862 racial-bias complaints filed by the public were valid.
- Sustaining a culture where officers were enabled to circulate a "Valentine Card" with a despicable reference to Mr. Floyd and the words "you take my breath away."
- Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both “represent ideology that’s counter to democracy”
- Lying on record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media
- Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary
- Failing to act on behalf of an LAPD captain who was being sexually harassed, and who asked for Moore to intervene

There are too many abuses to list. As head of LAPD, Michel Moore continues to perpetuate harm against the community. We reject and condemn his nomination, and demand the defunding and dismantlement of LAPD.

Police Commissioners,

In 2022 US law enforcement agencies killed at least 1,186 people, more than any other year on record since 2013 when such information started being gathered. These include people who were fatally shot, beaten, restrained, and Tasered to death by police. LAPD continues to lead the nation in being the most murderous police agency overall, killing more people every year than any other agency. THIS MUST STOP.

Police kill regardless of cameras, regardless of training, regardless of diversity. Police kill regardless of policy, access to “less lethal” weapons, or having to release the videos. Police kill by stealing our resources. As the rubber-stamping head of LAPD, Los Angeles Police Commissioners facilitate and are accomplices in these murders. THIS MUST STOP.

We grieve with the families and loved ones of those murdered by police. **Tyre Nichols, Keenan Anderson, Charlie Towns, Sandra Bland, Oscar Leon Sanchez, Takar Smith, Anthony Vargas, John Horton, Anthony Lowe, Charlie Africa, Wakeisha Wilson, Michael Brown, Philando Castile, Terence Crucher, Tortuguita, Devin Brown, Ezell Ford, David Sullivan, Ryan Joseph, Eulia May Love, and thousands more.** Our communities are not more safe.

We demand that city resources be divested from LAPD, and diverted instead to the survivors of police violence and those families and communities most heavily impacted by police. We demand that police are defunded and dismantled, and there is a reinvestment in communities. LAPD must be abolished as an organization, it cannot be reformed.

The so-called head of LAPD Michel Moore will likely say the murder of Tyre Nichols was an aberration. In reality, it is what policing is - the use of fear, punishment, and brutal force for social control and the theft of a community’s resources. As he defends this brutality, Michel Moore has further overseen the criminalization of protest, using the 2020 protests and uprising against the murder of George Floyd, Breonna Taylor, and all

We demand that city resources be divested from LAPD, and diverted instead to the survivors of police violence and those families and communities most heavily impacted by police. We demand that police are defunded and dismantled, and there is a reinvestment in communities. LAPD must be abolished as an organization, it cannot be reformed.

The so-called head of LAPD Michel Moore will likely say the murder of Tyre Nichols was an aberration. In reality, it is what policing is - the use of fear, punishment, and brutal force for social control and the theft of a community’s resources. As he defends this brutality, Michel Moore has further overseen the criminalization of protest, using the 2020 protests and uprising against the murder of George Floyd, Breonna Taylor, and all

victims of police violence to secure millions of dollars in additional funding for LAPD for overtime, “training,” and the surveillance of protest.

Today the Board will vote on the re-appointment of current Police Chief Michel Moore. Over his term Moore has been responsible for the continued ballooning of the LAPD budget, as well as the following abuses:

- Engaging in a publicity stunt to detonate fireworks taken from a home in South Los Angeles, without moving them from the community. The explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who died from the shock and stress.
- Continuing the practice of racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD’s crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the racist policing of LAPD.
- Proclaiming that those who protested the murder of George Floyd were just as responsible for his death as the cops who killed him.
- Presenting internal investigations that repeatedly avoid accountability, including finding that not one of the 4862 racial-bias complaints filed by the public were valid.
- Sustaining a culture where officers were enabled to circulate a "Valentine Card" with a despicable reference to Mr. Floyd and the words "you take my breath away."
- Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both “represent ideology that’s counter to democracy”
- Lying on record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media
- Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary
- Failing to act on behalf of an LAPD captain who was being sexually harassed, and who asked for Moore to intervene

There are too many abuses to list. As head of LAPD, Michel Moore continues to perpetuate harm against the community. We reject and condemn his nomination, and demand the defunding and dismantlement of LAPD.

Police Commissioners,

In 2022 US law enforcement agencies killed at least 1,186 people, more than any other year on record since 2013 when such information started being gathered. These include people who were fatally shot, beaten, restrained, and Tasered to death by police. LAPD continues to lead the nation in being the most murderous police agency overall, killing more people every year than any other agency.

Police kill regardless of cameras, regardless of training, regardless of diversity. Police kill regardless of policy, access to “less lethal” weapons, or having to release the videos. Police kill by stealing our resources. As the rubber-stamping head of LAPD, Los Angeles Police Commissioners facilitate and are accomplices in these murders.

We grieve with the families and loved ones of those murdered by police. Tyre Nichols, Keenan Anderson, Charlie Towns, Sandra Bland, Oscar Leon Sanchez, Takar Smith, Anthony Vargas, John Horton, Anthony Lowe, Charlie Africa, Wakeisha Wilson, Michael Brown, Philando Castile, Terence Crucher, Tortuguita, Devin Brown, Ezell Ford, David Sullivan, Ryan Joseph, Eulia May Love, and thousands more. LAPD continues to lead the nation in being the most murderous police agency overall, killing more people every year than any other agency.

Police kill regardless of cameras, regardless of training, regardless of diversity. Police kill regardless of policy, access to “less lethal” weapons, or having to release the videos. Police kill by stealing our resources. As the rubber-stamping head of LAPD, Los Angeles Police Commissioners facilitate and are accomplices in these murders.

We grieve with the families and loved ones of those murdered by police. Tyre Nichols, Keenan Anderson, Charlie Towns, Sandra Bland, Oscar Leon Sanchez, Takar Smith, Anthony Vargas, John Horton, Anthony Lowe, Charlie Africa, Wakeisha Wilson, Michael Brown, Philando Castile, Terence Crucher, Tortuguita, Devin Brown, Ezell Ford, David Sullivan, Ryan Joseph, Eulia May Love, and thousands more. Our communities are not more safe.

We demand that city resources be divested from LAPD, and diverted instead to the survivors of police violence and those families and communities most heavily impacted by police. We demand that police are defunded and dismantled, and there is a reinvestment in communities. LAPD must be abolished as an organization, it cannot be reformed.

The so-called head of LAPD Michel Moore will likely say the murder of Tyre Nichols was an aberration. In reality, it is what policing is - the use of fear, punishment, and brutal force for social control and the theft of a community’s resources. As he defends this brutality, Michel Moore has further overseen the criminalization of protest, using the 2020 protests and uprising against the murder of George Floyd, Breonna Taylor, and all

victims of police violence to secure millions of dollars in additional funding for LAPD for overtime, “training,” and the surveillance of protest.

Today the Board will vote on the re-appointment of current Police Chief Michel Moore. Over his term Moore has been responsible for the continued ballooning of the LAPD budget, as well as the following abuses:

- Engaging in a publicity stunt to detonate fireworks taken from a home in South Los Angeles, without moving them from the community. The explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who died from the shock and stress.
- Continuing the practice of racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD’s crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the racist policing of LAPD.
- Proclaiming that those who protested the murder of George Floyd were just as responsible for his death as the cops who killed him.
- Presenting internal investigations that repeatedly avoid accountability, including finding that not one of the 4862 racial-bias complaints filed by the public were valid.
- Sustaining a culture where officers were enabled to circulate a "Valentine Card" with a despicable reference to Mr. Floyd and the words "you take my breath away."
- Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both “represent ideology that’s counter to democracy”
- Lying on record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media
- Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary
- Failing to act on behalf of an LAPD captain who was being sexually harassed, and who asked for Moore to intervene

There are too many abuses to list. As head of LAPD, Michel Moore continues to perpetuate harm against the community. We reject and condemn his nomination, and demand the defunding and dismantlement of LAPD.

These include people who were fatally shot, beaten, restrained, and tasered to death by police. LAPD continues to be the most murderous police agency in the nation, killing more people each year than any other agency.

Police kill regardless of cameras, training, or diversity. Police kill regardless of policy, access to "less lethal" weapons, or having to release the videos. Police kill by stealing our resources. As the rubber-stamping head of LAPD, Los Angeles Police Commissioners facilitate and are accomplices in these murders.

We grieve with the families and loved ones of those murdered by police. Tyre Nichols, Keenan Anderson, Charlie Towns, Sandra Bland, Oscar Leon Sanchez, Takar Smith, Anthony Vargas, John Horton, Anthony Lowe, Charlie Africa, Wakeisha Wilson, Michael Brown, Philando Castile, Terence Crucher, Tortuguita, Devin Brown, Ezell Ford, David Sullivan, Ryan Joseph, Eulia May Love, and thousands more. Our communities are not safer for their deaths at the hands of police.

We demand that city resources be divested from LAPD, and diverted instead to the survivors of police violence and those families and communities most heavily impacted by police. We demand that police be defunded and dismantled, and that there is a reinvestment in communities. LAPD must be abolished as an organization, it cannot be reformed.

The so-called head of LAPD Michel Moore will likely say the murder of Tyre Nichols was an aberration. In reality, it is the essence of policing - the use of fear, punishment, and brutal force for social control and the theft of a community's resources and lives. Police Commissioners,

In 2022 US law enforcement agencies killed at least 1,186 people, more than any other year on record since 2013 when such information started being gathered. These include people who were fatally shot, beaten, restrained, and Tasered to death by police. LAPD continues to lead the nation in being the most murderous police agency overall, killing more people every year than any other agency.

Police kill regardless of cameras, regardless of training, regardless of diversity. Police kill regardless of policy, access to “less lethal” weapons, or having to release the videos. Police kill by stealing our resources. As the rubber-stamping head of LAPD, Los Angeles Police Commissioners facilitate and are accomplices in these murders.

We grieve with the families and loved ones of those murdered by police. Tyre Nichols, Keenan Anderson, Charlie Towns, Sandra Bland, Oscar Leon Sanchez, Takar Smith, Anthony Vargas, John Horton, Anthony Lowe, Charlie Africa, Wakeisha Wilson, Michael Brown, Philando Castile, Terence Crucher, Tortuguita, Devin Brown, Ezell Ford, David Sullivan, Ryan Joseph, Eulia May Love, and thousands more. Our communities are not more safe.

We demand that city resources be divested from LAPD, and diverted instead to the survivors of police violence and those families and communities most heavily impacted by police. We demand that police are defunded and dismantled, and there is a reinvestment in communities. LAPD must be abolished as an organization, it cannot be reformed.

The so-called head of LAPD Michel Moore will likely say the murder of Tyre Nichols was an aberration. In reality, it is what policing is - the use of fear, punishment, and brutal force for social control and the theft of a community’s resources. As he defends this brutality, Michel Moore has further overseen the criminalization of protest, using the 2020 protests and uprising against the murder of George Floyd, Breonna Taylor, and all victims of police violence to secure millions of dollars in additional funding for LAPD for overtime, “training,” and the surveillance of protest.

Today the Board will vote on the re-appointment of current Police Chief Michel Moore. Over his term Moore has been responsible for the continued ballooning of the LAPD budget, as well as the following abuses:

- Engaging in a publicity stunt to detonate fireworks taken from a home in South Los Angeles, without moving them from the community. The explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who died from the shock and stress.
- Continuing the practice of racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD's crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the racist policing of LAPD.
- Proclaiming that those who protested the murder of George Floyd were just as responsible for his death as the cops who killed him.
- Presenting internal investigations that repeatedly avoid accountability, including finding that not one of the 4862 racial-bias complaints filed by the public were valid.
- Sustaining a culture where officers were enabled to circulate a "Valentine Card" with a despicable reference to Mr. Floyd and the words "you take my breath away."
- Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both "represent ideology that's counter to democracy"
- Lying on record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media
- Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary
- Failing to act on behalf of an LAPD captain who was being sexually harassed, and who asked for Moore to intervene

There are too many abuses to list. As head of LAPD, Michel Moore continues to perpetuate harm against the community. We reject and condemn his nomination, and demand the defunding and dismantlement of LAPD.

Dear Police Commissioners,

I'm writing to beg you with all of my heart not to re-appoint Chief Moore. His tenure has been a deadly disaster for Black and Brown Angelenos. Surely you can see that. Police violence in general is an ongoing human rights crisis, and he is a part of it. FIRE HIM. Please.

Police Commissioners,

In 2022 US law enforcement agencies killed at least 1,186 people, more than any other year on record since 2013 when such information started being gathered. These include people who were fatally shot, beaten, restrained, and Tasered to death by police. LAPD continues to lead the nation in being the most murderous police agency overall, killing more people every year than any other agency.

Police kill regardless of cameras, regardless of training, regardless of diversity. Police kill regardless of policy, access to “less lethal” weapons, or having to release the videos. Police kill by stealing our resources. As the rubber-stamping head of LAPD, Los Angeles Police Commissioners facilitate and are accomplices in these murders.

We grieve with the families and loved ones of those murdered by police. Tyre Nichols, Keenan Anderson, Charlie Towns, Sandra Bland, Oscar Leon Sanchez, Takar Smith, Anthony Vargas, John Horton, Anthony Lowe, Charlie Africa, Wakeisha Wilson, Michael Brown, Philando Castile, Terence Crucher, Tortuguita, Devin Brown, Ezell Ford, David Sullivan, Ryan Joseph, Eulia May Love, and thousands more. Our communities are not more safe.

We demand that city resources be divested from LAPD, and diverted instead to the survivors of police violence and those families and communities most heavily impacted by police. We demand that police are defunded and dismantled, and there is a reinvestment in communities. LAPD must be abolished as an organization, it cannot be reformed.

The so-called head of LAPD Michel Moore will likely say the murder of Tyre Nichols was an aberration. In reality, it is what policing is - the use of fear, punishment, and brutal force for social control and the theft of a community’s resources. As he defends this brutality, Michel Moore has further overseen the criminalization of protest, using the 2020 protests and uprising against the murder of George Floyd, Breonna Taylor, and all

victims of police violence to secure millions of dollars in additional funding for LAPD for overtime, “training,” and the surveillance of protest.

Today the Board will vote on the re-appointment of current Police Chief Michel Moore. Over his term Moore has been responsible for the continued ballooning of the LAPD budget, as well as the following abuses:

- Engaging in a publicity stunt to detonate fireworks taken from a home in South Los Angeles, without moving them from the community. The explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who died from the shock and stress.
- Continuing the practice of racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD’s crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the racist policing of LAPD.
- Proclaiming that those who protested the murder of George Floyd were just as responsible for his death as the cops who killed him.
- Presenting internal investigations that repeatedly avoid accountability, including finding that not one of the 4862 racial-bias complaints filed by the public were valid.
- Sustaining a culture where officers were enabled to circulate a "Valentine Card" with a despicable reference to Mr. Floyd and the words "you take my breath away."
- Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both “represent ideology that’s counter to democracy”
- Lying on record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media
- Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary

Subject: Public Comment for 1/31/23 - Don't reappoint Chief Moore

ATTENTION: This email originated outside of LAPD. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Hello Commissioners,

I am writing today to again voice my strong opposition to Police Chief Michel Moore's reappointment. Under his leadership we have seen the budget of LAPD balloon, police violence escalate, and even recruitment decline because no one wants to work for him.

As the head of LAPD, Chief Moore has defended its violence, anti-Black and racialized policies, brutal treatment of peaceful protestors, and arrests of journalists reporting on protests.

Within the dept, Chief Moore has fostered a culture that permitted cops to circulate a "Valentine" with a disgusting reference to George Floyd and the text "you take my breath away", empowered Metro officers to enter people they stopped into gang databases without justification,

Meanwhile he failed to protect officers facing problems within the dept. Chief Moore refused to act on behalf of an LAPD officer who reported sexual harassment in the workplace and he covered up the murder of a LAPD whistleblower, Houston Tipping, during a training exercise that was led by one of the four LAPD officers Tipping reported as being involved in the rape of a woman.

And he has repeatedly failed to be accountable to your body and the public - he lied on the record about traffic stops made in South LA, claiming it was 74 when the actual number was 639, he took a $1.3 million lump sum retirement before becoming Chief where he now receives a huge salary and will receive more retirement benefits, and he has denied LAPD's responsibility for the deaths of Janisha Harris and Jamarea Keyes when police chased a driver through a red light and caused a crash and for the damage to property, injuries and deaths related to the detonation of fireworks seized from a home in South Central by the police when they were still in the community.

After six years of his leadership, LAPD remains the most murderous police force in the country. With this track record, how could he possibly be the right person for the job?

As a city we need to invest in life-affirming community services and mental health care. We need a police chief who won't continue the tradition of harm, racism and violence that LAPD is known for. We need to invest in programs that provide mental health care, jobs training, housing, and healthcare and divest from systems of punishment and harm. Chief Moore has proven he is not interested in the former. He must go.

Best,
Ashley Brim

Police Commissioners,

In 2022 US law enforcement agencies killed **at least 1,186 people**, more than any other year on record since 2013 when such information started being gathered. These include people who were fatally shot, beaten, restrained, and Tasered to death by police. LAPD continues to lead the nation in being the most murderous police agency overall, killing more people every year than any other agency.

Police kill regardless of cameras, regardless of training, regardless of diversity. Police kill regardless of policy, access to "less lethal" weapons, or having to release the videos. Police kill by stealing our resources. As the rubber-stamping head of LAPD, Los Angeles Police Commissioners facilitate and are accomplices in these murders.

We grieve with the families and loved ones of those murdered by police. Tyre Nichols, Keenan Anderson, Charlie Towns, Sandra Bland, Oscar Leon Sanchez, Takar Smith, Anthony Vargas, John Horton, Anthony Lowe, Charlie Africa, Wakeisha Wilson, Michael Brown, Philando Castile, Terence Crucher, Tortuguita, Devin Brown, Ezell Ford, David Sullivan, Ryan Joseph, Eulia May Love, and thousands more. **There shouldn't be too many to list, but here we are; ALL of their deaths were preventable.** Our communities are not more safe.

We demand that city resources be divested from LAPD, and diverted instead to the survivors of police violence and those families and communities most heavily impacted by police. We demand that police are defunded and dismantled, and there is a reinvestment in communities. LAPD must be abolished as an organization, it cannot be reformed.

Of the murder of Tyre Nichols, Chief Moore said, "The grotesque actions I watched in the video were incredibly disturbing, cruel and inhumane. To witness former Memphis police officers engaged in such unjustified and excessive force at the expense of Tyre Nichols' life angers me as a police officer, as an American. This behavior goes against every principle of the law enforcement profession and is in direct contradiction to the dedication and sacrifice of the vast majority of our members who strive to protect and serve. The violation of trust tarnishes our badge and has a caustic

effect on the public's trust." **Like the actions of LAPD officers who killed Houston Tipping during a training exercise** after Tipping filed a report on the rape of a woman by four LAPD officers, one of whom took part in the training where Tipping was killed? **Any statement Chief Moore makes falls flat when the same unjustified and excessive force results in death within his own department.** Not to mention the daily unjustified and excessive force that LAPD enacts on community members; where's the BWV from all of the interactions that don't result in death? Who review's that footage? Will you only speak out when the harm is caused by a dept other than LAPD?

"In the days ahead, the LAPD will ensure that the lawful expression of the public's anger and frustration is protected and we are prepared to facilitate those wishing to exercise their First Amendment rights. Ensure the safety of all, we are asking Angelenos to remain peaceful and united in their expression of outrage." **Again, protestors are held to a higher standard than police officers.** Angelenos are united in rejecting the reappointment of Chief Moore. This Commission has heard public comment week after week from both defenders and critics of the LAPD; all agree that Chief Moore must go.

His statement contradicts his record as Police Chief. Michel Moore has further overseen the criminalization of protest, using the 2020 protests and uprising against the murder of George Floyd, Breonna Taylor, and all victims of police violence to secure millions of dollars in additional funding for LAPD for overtime, "training," and the surveillance of protest.

Tuesday the Board will vote on the re-appointment of current Police Chief Michel Moore. Over his term Moore has been responsible for the continued ballooning of the LAPD budget, as well as the following abuses:

- Failing to act on behalf of an LAPD captain who was being sexually harassed, and who asked for Moore to intervene

- Lying on record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, **(underreported by 762%)** a number revealed by the media

- Presenting internal investigations that repeatedly avoid accountability, including finding that not one of the 4862 racial-bias complaints filed by the public were valid.

- Engaging in a publicity stunt to detonate fireworks taken from a home in South Los Angeles, without moving them from the community. The explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who died from the shock and stress.

- Continuing the practice of racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD's crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the racist policing of LAPD.

- Proclaiming that those who protested the murder of George Floyd were just as responsible for his death as the cops who killed him.

- Sustaining a culture where officers were enabled to circulate a "Valentine Card" with a despicable reference to Mr. Floyd and the words "you take my breath away."

- Publicly comparing Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both "represent ideology that's counter to democracy"

- Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary

- Robbing the city of HALF of the city's $639.5M American Rescue Plan funds for officer salaries during the pandemic

There are too many abuses to list. In his 1/10/23 Chief's report, Moore acknowledged that last year LAPD killed 31 people, celebrating that as a decrease from 37 the previous year & as the 3rd lowest annual kills in his 5 years.... what do you have to lose? His dept already killed 4 people this year; rejecting Chief Moore's reappointment could save 30+ lives this year. As head of LAPD, Michel Moore continues to perpetuate harm against the community. We reject and condemn his nomination, and demand the defunding and dismantlement of LAPD.

Police Commissioners,

How much overtime was spent on protest preparation for dozens of folks this past Friday night? How many helicopters, cruisers, and OT officers wasted taxpayers money in response to ANOTHER brutal murder by police?

What justifies this response? What justifies contacting neighborhood councils warning them about antifascists? What is the goal of this inflammatory language in response to the brutal murder of Tyrone Nichols, Keenan Anderson, Oscar Leon Sanchez, Takar Smith, the 7 people LASD killed this year already, and so many others?! Truly what is going on with this department? Multiple reports detailed the ineffective, inappropriate, and botched response of the LAPD to the 2020 uprising. What new strategies are in place?

With all that was going on Friday night, why wasn't there one cop on traffic control? Why was it up to city bus drivers to block and divert traffic? If there was a traffic collision which resulted in injury based on the ineffective staging strategy of LAPD which drew dozens of people into an open road, how much would that cost taxpayers in settlements from resultant lawsuits against the department?

Why are officers, like officers Peltekian and Salcedo, still pointing "less than lethal" munitions at protester, media, and legal observer's heads/faces, at point-blank?! After the 2020 uprising, the commissioners called for more training, yet the officers you deploy to manage these situations show that they are dangerously negligent and unable to follow protocol. This is the kind of violent, fear-based escalation the public has come to know and expect from the LAPD.

Last week we talked about the new camera cop unit for crowd surveillance at actions - we know you're funding different approaches to crowd control - has there been any research of funding into deescalation of unarmed crowds that doesn't involve weapons such as clubs or foam bullets? Has there been any attempt to meet nonviolent crowds with anything other than violence

Last week Soboroff said, “you only need to do a quick Google to find out how body cams lead to less out of policy action by officers” but the truth is body camera footage is actually routinely used as evidence to convict poor people of things like drug possession and trespassing and almost never used against police officers. And to Soboroff’s point, the first result I found when Google-ing “Do body cameras curb police violence” returned this article from the National Institute of Justice, which states “A comprehensive review of 70 studies of body-worn cameras use found that the larger body of research on body-worn cameras showed no consistent or no statistically significant effects.” (https://nij.ojp.gov/topics/articles/research-body-worn-cameras-and-law-enforcement)

The truth about body cameras is that many departments wanted them for years before they were able to finance them. After the killing of Michael Brown, “reformers” enabled millions in federal grants to pay for this technology, increasing the surveillance infrastructure in the guise of “reform” for police violence, while it actually ushered in a new era of state repression. This boon not only further equipped departments like the LAPD with a new paradigm of surveillance technology, but GREATLY profited it’s corporate partners, specifically AXON, who’s higher-ups Chief Moore was speaking with this past week with regards to tasers.

As we saw in the brutal killing of Tyrese Nichols, body cameras do not deter officers from a culture that they are trained to enact. As Chief Moore said last week, “culture eats policy for breakfast AND lunch.” Body cams did nothing to prevent the death of Keenan Anderson or Takar Smith. Body cams did nothing to prevent the death of Valentina Peralta. Instead they manufacture “content” which continuse to perpetuate the cycle of “spectacle lynching” which reenforces police dominance and black disposability, traumatizing Black minds and entertaining white ones. or the threat of violence?

Instead of more funding, more training, and more body cameras, we want to see the suspension of paid administrative leave for cops under investigation. We want to see withheld pensions for cops involved in excessive force. We want cops to be liable for misconduct settlements, not taxpayers.

Finally, we want to see an end to Michael Moore leading the LAPD as chief. You've heard me bring up on the past three meetings some of his failings, including the explosion in South LA which was the result of his officers inappropriate misuse of their bomb-disposal technology, resulting in the death of Auzie Houchins and Ramon Reyes, his sustaining a culture where officers were enabled to circulate a "Valentine Card" with a horrendous reference to Mr. Floyd and the words, "you take my breath away", and lying on record about the number of traffic stops in South Central in 2021, misquoting the number as 74 when in reality it was 639. While he has called for reforms for the LAPD, the unsystematic and haphazard response to a few dozen mourning protesters this past Friday make it clear: he has not done his job and will only continue to divert crucial public funds from life-saving and sustaining public programs to the already bloated LAPD budget. LA deserves more, not Moore.

Dear LA Police Commission:

As a citizen of Los Angeles District 10 I'm writing to submit my comments on your January 31 meeting.

General Public Comment: Divest from LAPD
As a social worker and current grad student studying and researching police, I've long been telling you that LAPD funds need to be divested. You as the Commission need to be creating alternatives to police in traffic stops and responding to mental health crises. I've studied alternatives to police in these capacities --- the academic research shows that they work, and all without police killing people.

You know the numbers - in 2022 US law enforcement killed at least 1,186 people, more than any other year on record. And LAPD is the police department that kills the most people in the country out of all law enforcement agencies. Police kill despite body camera and no matter the amount of trainings you give them. You are complicit in these murders - you continued to just approve everything LAPD wants. Soboroff, you say that people who believe that are uninformed and that there have been many 3-2 or 4-1 votes. What doesn't matter is the makeup of the votes, but their result -- and they always result in approving LAPD to do whatever it wants to do. You need to defund the police, take those funds, and reinvest in the community.

General Public Comment: DO NOT RE-APPOINT MOORE
As a citizen of Los Angeles that is a social worker and continuously works to promote the equity and true community-based public safety of Angelenos, I beg of you **to not support** the re-appointment of Chief Moore for several reasons.

These reasons include the following:

1. Chief Moore continues to defend and facilitate LAPD's violence. As its budget increases year after year, LAPD is still the most homicidal police agency in the US. Despite millions of dollars in training and technology for situational awareness, de-escalation, less-lethal weapons, and mental health evaluation teams, LAPD continues to murder people who are in crisis or in need of aid. Already in 2023 LAPD have killed three people who were in crisis - Keenan Anderson, Oscar Leon Sanchez, and Takar Smith. This continued police violence has devastating consequences for communities and families, with Black communities being most deeply impacted.

2. Chief Moore oversaw LAPD while it targeted protestors during the 2020 uprising following the murder of George Floyd, Breonna Taylor, and countless other victims of police violence. Protestors were attacked, injured, jailed, and harassed, resulting in thousands of complaints filed and hundreds of reports of injuries sustained by LAPD. Moore then used the protests as an opportunity to further increase funding for the department, including the surveillance of protestors and dissent.

3. In the course of his tenure, LAPD performed a publicity stunt to detonate fireworks taken from a home in South Los Angeles, while still within the community, and without effective evacuation. The explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who ultimately died from the shock and stress.

4. Chief Moore covered up the the actions of officers who killed one of their own, Houston Tipping, during a training exercise after Tipping filed a report on the rape of a woman by four LAPD officers, one of whom took part in the training where Tipping was killed

5. Chief Moore oversaw LAPD during the December 2020 assault on protestors taking part in a demonstration with BLM-LA outside the Mayor's mansion, in which members of the crowd were beaten with batons.

6. Chief Moore created a culture where cops were enabled to circulate a "Valentine Card" with a despicable reference to George Floyd and the words "you take my breath away." Chief Moore promised he would hold accountable the perpetrator of this gross act, but then did not.

7. In his course of his tenure, LAPD continued racialized stops of Black pedestrians and drivers, which Moore defends by presenting LAPD's crime reports through the lens of race: a decades-old tactic to falsely imply race and criminality are linked while justifying the deeply racist policing of LAPD.

8. Chief Moore proclaimed not once but twice that those who protested the murder of George Floyd were just as responsible for his death as the police who killed him.

9. Chief Moore denied LAPD was responsible for the deaths of Janisha Harris and Jamarea Keyes in August 2022 even though they were the ones who chased a driver through a red light and caused a fatal crash.

10. Chief Moore lied on the record to the public about the number of traffic stops made in South Central in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media.

11. Chief Moore publicly compares Black Lives Matter to the right-wing extremist group the Proud Boys, stating that both "represent ideology that's counter to democracy."

12. Chief Moore Continued a culture and system in which Metro police officers felt empowered and entitled to enter people they stopped into California's gang database without justification.

13. Chief Moore has robbed the budget of the city of LA in 2018 by unethically taking both a $1.3 million lump sum retirement and a nearly $400,000 annual salary.

14. Chief Moore failed to act on behalf of an LAPD captain who was being sexually harassed at work.

15. Chief Moore has continuously Ignored the demands of approximately ⅔ of Angelenos who consistently and loudly demand that LAPD is defunded

16. Chief Moore presented internal investigations that repeatedly avoid accountability, including finding that not one of the 4862 racial-bias complaints filed by the public were valid.

We need a chief that will prioritize the diversion of police calls to mental health responders and community ambassadors. Moore *said* he would be open to that but has done nothing to actually do that.

Sincerely,
Sarah Bowers

We grieve with the families and loved ones of those murdered by police. City resources must be divested from LAPD and diverted to the survivors of police violence and those families and communities most heavily impacted by police brutality. We demand that police are defunded and dismantled and there is a reinvestment in communities. LAPD must be abolished as an organization; it cannot be reformed.

The so-called head of LAPD, Michel Moore, will likely say the murder of Tyre Nichols was an aberration. In reality, it is what policing is - using fear, punishment, and brutal force for social control and the theft of a community's resources. As he defends this brutality, Michel Moore has further overseen the criminalization of protest, using the 2020 protests and uprising against the murder of George Floyd, Breonna Taylor, and all victims of police violence to secure millions of dollars in additional funding for LAPD for overtime, "training," and the surveillance of protest.

- Covering up LAPD officer involvement in the January 6, 2021, storm on the US Capitol.

As head of LAPD, Michel Moore perpetuates harm against the community. We reject and condemn his nomination and demand the defunding and dismantlement of the broken and harmful LAPD. Los Angeles needs actual systems of security that help keep people safe, not horrors from a shameful past perpetuated by wasteful ineffective, dangerous leaders like Michael Moore.

Police Commissioners,

In 2022 US law enforcement agencies killed at least 1,186 people, more than any other year on record since 2013 when such information started being gathered. These include people who were fatally shot, beaten, restrained, and Tasered to death by police. LAPD continues to lead the nation in being the most murderous police agency overall, killing more people every year than any other agency.

Police kill regardless of cameras, regardless of training, regardless of diversity. Police kill regardless of policy, access to “less lethal” weapons, or having to release the videos. Police kill by stealing our resources. As the rubber-stamping head of LAPD, Los Angeles Police Commissioners facilitate and are accomplices in these murders.

We grieve with the families and loved ones of those murdered by police. Tyre Nichols, Keenan Anderson, Charlie Towns, Sandra Bland, Oscar Leon Sanchez, Takar Smith, Anthony Vargas, John Horton, Anthony Lowe, Charlie Africa, Wakeisha Wilson, Michael Brown, Philando Castile, Terence Crucher, Tortuguita, Devin Brown, Ezell Ford, David Sullivan, Ryan Joseph, Eulia May Love, and thousands more. Our communities are not more safe.

We demand that city resources be divested from LAPD, and diverted instead to the survivors of police violence and those families and communities most heavily impacted by police. We demand that police are defunded and dismantled, and there is a reinvestment in communities. LAPD must be abolished as an organization, it cannot be reformed.

The so-called head of LAPD Michel Moore will likely say the murder of Tyre Nichols was an aberration. In reality, it is what policing is - the use of fear, punishment, and brutal force for social control and the theft of a community's resources. As he defends this brutality, Michel Moore has further overseen the criminalization of protest, using the 2020 protests and uprising against the murder of George Floyd, Breonna Taylor, and all victims of police violence to secure millions of dollars in additional funding for LAPD for overtime, "training," and the surveillance of protest.

Today the Board will vote on the re-appointment of current Police Chief Michel Moore. Over his term Moore has been responsible for the continued ballooning of the LAPD budget, as well as the following abuses:

- Engaging in a publicity stunt to detonate fireworks taken from a home in South Los
- Angeles, without moving them from the community. The explosion resulted in injuries to 17 people including Auzie Houchins and Ramon Reyes, who died from the shock and stress.
- Continuing the practice of racialized stops of Black pedestrians and drivers, which
- Moore defends by presenting LAPD's crime reports through the lens of race; a decades-old tactic to falsely imply race and criminality are linked while justifying the racist policing of LAPD.
- Proclaiming that those who protested the murder of George Floyd were just as responsible
- for his death as the cops who killed him.
- Presenting internal investigations that repeatedly avoid accountability, including
- finding that not one of the 4862 racial-bias complaints filed by the public were valid.
- Sustaining a culture where officers were enabled to circulate a "Valentine Card"
- with a despicable reference to Mr. Floyd and the words "you take my breath away."
- Publicly comparing Black Lives Matter to the right-wing extremist group the Proud
- Boys, stating that both "represent ideology that's counter to democracy"
- Lying on record to the public about the number of traffic stops made in South Central
- in 2021, stating the number was 74, when the actual recorded number was 639, a number revealed by the media

- Robbing the budget of the city of LA in 2018 by unethically taking both a $1.3 million
- lump sum retirement and a nearly $400,000 annual salary
-
-
-
- Failing to act on behalf of an LAPD captain who was being sexually harassed, and
- who asked for Moore to intervene
-

There are too many abuses to list. As head of LAPD, Michel Moore continues to perpetuate harm against the community. We reject and condemn his nomination, and demand the defunding and dismantlement of LAPD.

Police Commissioners,

2022 exceeded every year since 2013 in deaths by the hands of police. Police end up killing many people whether or not they mean to. Despite more training and cameras and more diversity in the police force, people continue to die by the hands of the police who say they are here to protect. As the rubber-stamping head of LAPD, Los Angeles Police Commissioners facilitate and are accomplices in these murders.

We grieve with the families and loved ones of those murdered by police. People most heavily policed need resources not violence. We call for the city to divest resources from the LAPD and invest in the survivors and communities they have harmed with impunity.

Hello,

I am writing to you today to request that you do not reappoint Chief Moore for another term, in the name of Keenan Anderson, Takar Smith, and Oscar Leon Sanchez, and many, many others. No more violence, abuse or harm.

Thank you.

LAPD Board of Police Commissioners,

Chief "Bended Knee" aka Michel Moore was spotted at the LA Chinatown Chinese New Year Parade celebrating the Year of the Rabbit riding in a car behind Mayor Bass which thankfully kept him far enough away so that he could not kiss the Mayors Ass which he might mistake for a 'BLM Ass".
Thats good parade order placement tactics on the part of the organizers! By the way the LAPD Motorcycle Drill team and the LEAAP contingent of officers looked great and were a most welcome sight for the public who support their police and the Chinatown community certainly does!

It's too bad that feeling of support is not reciprocated by Chief "Bended Knee" and whoever is running the show for public safety in the Chinatown Community.

With all the talk about Anti Asian Hate crime by local politicians in the aftermath of the latest crime tragedy that took place in Monterey Park, it seems like now is a good time to ask how many Chinese or Vietnamese speaking officers who are culturally fluent are deployed in the LA Chinatown community to protect and serve what seems to be a very vulnerable and marginalized community?
Can Chief Moore answer or address that question? What about the Police Commission, do you know?
Crime largely goes unreported in Chinatown and that seems to be the way the LAPD likes it. Its better for crime statistics, never mind reality. Dont ask dont tell seems to be the motto for the LAPD-Chinatown relationship.
Think I'm exaggerating? Imagine this. A merchant on Broadway is the victim of a robbery where force or fear is used to take property and he doesnt even bother to call the police because he thinks it is futile. Isn't that just sad?
I asked if he knew the Foot beat officers or the Senior Lead Officer for that area and he did not. Why? Because the Senior Lead Officer had never visited his very public business on the street which is impossible to miss. And thats just one example! How can this be? Is there no Foot Beat there because of the severe shortage of officers? The merchant did say there was an LAPD officer who spoke Chinese that was "White" that used to visit and check on him often which made him feel safe but he hasn't seen that officer in years. So what is the current state of Community Policing in Chinatown today?
When is the last time a community meeting open to the community took place in Chinatown or the entire Central Division for that matter? Community Policing and Community meetings seem to be by invitation only in Los Angeles and only certain Community members are invited.
Can you find community meetings, neighborhood watches, National Night Out , etc on the LAPD website?
When you do call SLO/CRO offices nobody answers the phone and messages are not returned. Perhaps some divisions are better than others, but everyone in this city deserves professional quality police service and from everything Ive heard and experienced it is just not happening. I have my thoughts as to why and Im sure you do too. But thats for another day.

By the way, how many times does the public have to ask for demographic information on criminal suspects culled from crime reports provided by victims? Can you please provide actual crime numbers and not just percentages and include weekly statistics on Hate Crimes. The LAPD is supposed to be a world class department and I know you have some great people but the leadership is awful and basic things are just not getting done. The Police Commission, Chief and Command Staff, in addition to the District Atty. and City Atty have to support the line officers in policies and action. Officers are risking their lives and careers and for what? So criminals can walk right out the door? Where's the justice? What about the victims? The system becomes a mockery!

We need new leadership and enough with the buzzwords and endless talking with little or no action. The LAPD is in a tailspin and unless there is a course correction the implosion will be irreversible! It may already be too late. Let's hope and pray it isnt too late and support our local police and each other!

Respectfully,

Voices For LAPD

Dear Board of Police Commissioners,

I'd like to start by correcting myself from a previous comment I made in a meeting in which I stated that I agreed with the speakers before me as to why Chief Moore should not be reappointed. Activists continue to yell loudly and clearly that Chief Moore and the LAPD are racist and that they are killing our black and brown brothers, but this is not the feeling of the general population. Reach out to the communities and listen to what they have to say. The community wants more police presence. f

I believe Chief Moore should not be reappointed because he has made at least three decisions that hurt the strength of the LAPD and have hurt my community.

First, Chief Moore ordered all LAPD stations to remove the thin blue line flags because many activists demanded so. This flag represents the honor and respect from the police to an officer who lost his life in the line of duty. Have the families of those officers been asked how they feel about the lack of respect from those activists? The flag should be at the lobby of each police station because it is meaningful to the police.

Second, Chief Moore has failed to back up the LAPD and as a result many officers' morale has gone down. Many of them can't wait to retire early and not many community members are recruited to serve. The communities want more police presence. They want more

Third, Chief Moore transferred officer Contreras from CD7 to CD6 because he reported obstruction of justice from a City Council member who interfered with the search warrant process. This is under current investigation by the FBI. Chief Moore then demoted Captain Smith and transferred him to a different station without previous notice. I am extremely upset by this because these are officers our community is used to dealing with. They are both liked, loved, and respected.

I want to move on to request that we increase the police force. Reimagining Los Angeles simply did not work and proof of that is the high number of incidents of Smash and Grab. Nothing is free and while businesses are suffering for all those items being stolen, eventually it will come down to the consumer. The consumer will have to pay higher prices to make up for the loss due to theft.

I strongly disagree with statements made that black and brown people are being murdered every day. The ordinary citizen who is abiding by the law is not being persecuted nor harassed by the police. Please stop bundling all of us in a single pile. My community is afraid to speak up because activists are loud and aggressive and they don't respect others' points of view.

The community wants our SLOs to do the job they were intended to do. We need them back connecting with students, parents, and all members of the community.

I support the motions regarding money donations to be utilized for police activities.

Respectfully,

Norma O. Chávez
