Review and discuss the Use of Force Policy - revised including Reverence for Human Life, Moral and Ethical Dilemma, Deadly Force, Tactical De-escalation and Command and Control: Group Discussion

Procedure: Conduct and open discussion, addressing legal updates and the Los Angeles Police Department Use of Force Policy, Tactical Consideration and De- Escalation

A. California Penal Code Section 835(a)¹

1. Updated pursuant to Assembly Bill 392 that was signed into law on August 19, 2019 and effective as of January 1, 2020.
2. Any peace officer who has reasonable cause to believe that the person to be arrested has committed a public offense may use objectively reasonable force to:
 - a. Defend themselves,
 - b. Defend Others,
 - c. Effect an arrest,
 - d. Prevent escape/detention, or
 - e. Overcome Resistance
3. The authority to use physical force, conferred on peace officers by this section, is a serious responsibility that shall be exercised judiciously and with respect for human rights and dignity and for the sanctity of every human life.
4. A peace officer who makes or attempts to make an arrest need not retreat or desist from their efforts by reason of the resistance or threatened resistance of the person being arrested. A peace officer shall not be deemed an aggressor or lose the right to self-defense by the use of objectively reasonable force in compliance with

¹ California Penal Code Section 835a

LOS ANGELES POLICE DEPARTMENT
Firearms Tactical Rifle Update
1850-32078

subdivisions (b) and (c) to effect the arrest or to prevent escape or to overcome resistance. For the purposes of this subdivision, "retreat" does not mean tactical repositioning or other de-escalation tactics.

5. A peace officer is justified in using deadly force upon another person only when the officer reasonably believes, based on the totality of the circumstances, that such force is necessary for either of the following reasons:
 - a. To defend against an imminent threat of death or serious bodily injury to the officer or to another person.
 - b. To apprehend a fleeing person for any felony that threatened or resulted in death or serious bodily injury, if the officer reasonably believes that the person will cause death or serious bodily injury to another unless immediately apprehended. Where feasible, a peace officer shall, prior to the use of force, make reasonable efforts to identify themselves as a peace officer and to warn that deadly force may be used, unless the officer has objectively reasonable grounds to believe the person is aware of those facts.
6. "Deadly force" means any use of force that creates a substantial risk of causing death or serious bodily injury, including, but not limited to, the discharge of a firearm.
7. "Totality of the circumstances" means all facts known to the peace officer at the time, including the conduct of the officer and the subject leading up to the use of deadly force.
8. A threat of death or serious bodily injury is "imminent" when, based on the totality of the circumstances, a reasonable officer in the same situation would believe that a person has the present ability, opportunity, and apparent intent to immediately cause death or serious bodily injury to the peace officer or another person. An imminent harm is not merely a fear of future harm, no matter how great the fear and no matter how great the likelihood of the harm, but is one that, from appearances, must be instantly confronted and addressed.
9. A peace officer shall not use deadly force against a person based on the danger that person poses to themselves, if an objectively reasonable officer would believe the person does not pose an imminent threat of death or serious bodily injury to the peace officer or to another person.

B. Graham v. Connor 490 U.S. 386 (1989)

1. Affirms the "objectively reasonable" standard and states that the "reasonableness" of a particular use of force must be judged from the perspective of a reasonable officer on the scene, and its calculus must embody an allowance for the fact that police officers are often forced to make split-second decisions about the amount of force necessary in a particular situation.
2. Reasonableness judged without the 20/20 vision of hindsight.
3. The test of reasonableness is not capable of precise definition or mechanical application

C. Tennessee v. Garner, 471 U.S. 1 (1985)

Under the Fourth Amendment of the U.S. Constitution, a police officer may use deadly force to prevent the escape of a fleeing suspect only if the officer has a good-faith belief that the suspect poses a significant threat of death or serious physical injury to the officer or others.

D. LAPD Use of Force Policy - Revised²

² Department Manual Section 1/556.10, Policy on the Use of Force

LOS ANGELES POLICE DEPARTMENT
Firearms Tactical Rifle Update
1850-32078

1. Updated to reflect new 835(a) PC regarding the use of force by a peace officer, to include deadly force.
2. Guiding principle when using force shall be reverence for human life
3. Factors used to determine reasonableness may include but are not limited to:
 - ii. The feasibility of using de-escalation tactics;
 - iii. The seriousness of the crime or suspected offense;
 - iv. The level of threat or resistance presented by the subject;
 - v. Whether the subject was posing an immediate threat to officers or a danger to the community;
 - vi. The potential for injury to citizens, officers or subjects;
 - vii. The risk or apparent attempt by the subject to escape;
 - viii. The conduct of the subject being confronted (as reasonably perceived by the officer at the time);
 - ix. The amount of time and any changing circumstances during which the officer had to determine the type and amount of force that appeared to be reasonable;
 - x. The availability of other resources;
 - xi. The training and experience of the officer;
 - xii. The proximity or access of weapons to the subject;
 - xiii. Officer versus subject factors such as age, size, relative strength, skill level, injury/exhaustion and number of officers versus subjects; and,
 - xiv. The environmental factors and/or other exigent circumstances.
4. The Department will analyze an officer's use of deadly force by evaluating the totality of the circumstances of each case consistent with the California Penal Code Section 835(a), as well as the factors articulated in *Graham v. Connor*.
5. Serious Bodily Injury:
Pursuant to California Penal Code Section 243(f)(4), Serious bodily injury includes but is not limited to:
 - a. Loss of consciousness;
 - b. Concussion;
 - c. Bone fracture;
 - d. Protracted loss or impairment of function of any bodily member or organ;
 - e. A wound requiring extensive suturing; and,
 - f. Serious disfigurement.
6. Shooting at or from a moving vehicle:
It is the policy of this Department that firearms shall not be discharged at a moving vehicle unless a person in the vehicle is immediately threatening the officer or another person with deadly force by means other than the vehicle. The moving vehicle itself shall not presumptively constitute a threat that justifies an officer's use of deadly force. An officer threatened by an oncoming vehicle shall move out of its path instead of discharging a firearm at it or any of its occupants. Firearms shall not be discharged from a moving vehicle, except in exigent circumstances and *consistent with this policy regarding the use of Deadly Force*.

Note: It is understood that the policy in regard to discharging a firearm at or from a moving vehicle may not cover every situation that may arise. In all situations, Department members are expected to act with intelligence and exercise sound judgment, attending to the spirit of this policy. Any deviations from the provisions of this policy shall be examined rigorously on a case by case basis. The involved officer must be able to articulate clearly the reasons for the use of deadly force. Factors that may be considered include whether the officer's life or the lives of others were in immediate peril and there was no reasonable or apparent means of escape.

LOS ANGELES POLICE DEPARTMENT
Firearms Tactical Rifle Update
1850-32078

7. Warning Shots:

It is the policy of this Department that warning shots shall only be used in exceptional circumstances where it might reasonably be expected to avoid the need to use deadly force. Generally, warning shots shall be directed in a manner that minimizes the risk of injury to innocent persons, ricochet dangers and property damage.

E. LAPD Drawing and Exhibiting Policy³

1. Unnecessarily or prematurely drawing or exhibiting a firearm limits an officer's alternatives in controlling a situation, creates unnecessary anxiety on the part of citizens, and may result in an unwarranted or accidental discharge of the firearm. An officer's decision to draw or exhibit a firearm should be based on the tactical situation and the officer's reasonable belief there is a substantial risk that the situation may escalate to the point where deadly force may be justified.
2. When an officer has determined that the use of deadly force is not necessary, the officer shall, as soon as practicable, secure or holster the firearm.

F. Tactical De-Escalation Techniques⁴

1. Guided by the principal of reverence for human life.
2. The use of techniques to:
 - a. Reduce the intensity of an encounter with a suspect; and,
 - b. Enable an officer to have additional options to gain voluntary compliance; or,
 - c. Mitigate the need to use a higher level of force.
 - d. All while maintaining control of the situation.
3. Tactical de-escalation **DOES NOT** require that an officer compromise their safety or increase the risk of physical harm to the public.
4. Tactical de-escalation techniques should only be used when it is safe and prudent to do so.

- **P**lanning

Department Manual Section 245.60 Deployment of the Patrol Rifle and Slug Ammunition states; Qualified Patrol Rifle (PR) or Slug Ammunition (SSA) personnel may deploy their firearms in field operations, in accordance with Department Manual Sections 3/610.17, Deployment of the Patrol Rifle and 3/611.60 Deployment of Slug Ammunition. Slug Ammunition may be deployed as is determined to be necessary. Personnel, however, must be able to articulate the specific tactical circumstances that warrant drawing, exhibiting and deploying the PR or SSA as opposed to a handgun.

- (1) Suspect is wearing or possibly wearing body armor
- (2) Covering the approach of officers to a structure or location where the suspect has high ground, position of advantage, fortified position
- (3) Suspect is armed with a weapon superior to what officers have immediately available
- (4) An incident where the ranges involved are in excess of the 15-25-yard effective range of the typical patrol equipment
- (5) MACTAC another Tactical Considerations / Appropriate Weapon system
- (6) Building searches with no extenuating circumstances where a shotgun or handgun would be a more practical option
- (7) Felony Vehicle stops with no extenuating circumstances where a shotgun or handgun would be a more practical option
- (8) Are there enough Rifles already deployed at the incident where there is a single threat or suspect
- (9) An incident where the ranges involved are within the 15-25-yard effective range of the typical patrol equipment

Purpose: Revisit basic training in the area of use of force considerations, policy, legal issues, moral and ethical dilemmas to include De-Escalation and Reverence for Human Life.

Procedures: Small group activity

- 1. Break students into small groups

LOS ANGELES POLICE DEPARTMENT
Firearms Tactical Rifle Update
1850-32078

2. **Review:** Case Study 1 (Juvenile) to half of the groups and Case Study 2 (Person with mental illness) to the other half (if the class is large enough to do so)

Case Study 1 – C-37 Vehicle

“415 man in front of the convenience store in a vehicle. Suspect is playing his car stereo loud. The disturbance has been going on for an hour.”

Upon arrival, the officers observe the suspect sitting inside the vehicle along with a ten-year-old juvenile. The music is loud and disturbing the peace, the officer’s stop and exit their vehicle. As they are walking up on the vehicle, (20 ft. away) the officers run the license plate which comes back as a reported stolen vehicle. The suspect has not seen the officers yet.

Enhancement: Upon awareness of the presence of the officers, the suspect exits his vehicle and walks towards the trunk stating, “you will not take my kid from me again.” Suspect begins to open the trunk and states, “I have something here for you.”

Enhancement: Suspect retrieves a handgun from the trunk and points it in the direction of the officers.

Case Study 2 - Person with a Mental Illness

While on uniformed patrol at 1300 hrs., you receive a radio call “See the woman, “Wife states her husband is in their home breaking objects inside the house. Wife states her husband is mentally ill and has failed to take his medicine for the past 3 days.

Upon arrival officers meet the P/R who states her husband is inside their house right now breaking the furniture and decorations. Officer’s see that the P/R has a cut on her right arm. P/R states that her husband accidentally cut her with a knife as she attempted to stop him, before calling the police. You request back-up and a supervisor along with a Beanbag shotgun and TASER to your location. After the arrival of your requests you make a tactical plan and then make contact with the suspect inside his residence. You observe the suspect standing in the doorway between the living room and the kitchen. The suspect states to you “All of you get out of my house now, I cannot deal with this”. At this time, you see the suspect enter the kitchen and walk toward a cutlery block on the counter. The suspect who is approximately 15 to 18 feet from you, then reaches out and arms himself with a large butcher’s knife from the block. The suspect turns toward the officers and re-states “I told you I cannot deal with this”. The suspect then takes the butcher’s knife and begins to slash himself across his torso with the knife.

3. Ask each group to discuss the following:
- a. What tactical concerns should the officers have as they respond to the area?
 - b. What force options are available?

 - Tactical Issues/De-Escalation⁶
7. Instructor should monitor the groups during the activity making notes of any concerns to incorporate in the debrief if not brought out by the groups
8. Debrief each case study and write the responses in the appropriate column
The following information can be used to debrief both case studies. Ensure that the case study specific information is listed on the white board during the specific debrief. When writing the students' responses on the board, paraphrase the key points and list them under the appropriate column

III. QUALIFICATION/REQUALIFICATION (30 min) (PSP I d, e, f, g)

A. LEARNING ACTIVITY: Field Firing Course Drills (optional)

Procedure: Individual activity

1. This course of fire should be considered enrichment training only, and should not be used as a de-selector for Patrol Rifle school students or a de-certifier for in service Patrol Rifle Cadre members
 - a. In keeping with current law enforcement "best practices", the purpose of this course is to introduce officers to non-standard shooting positions that will provide more stability and hence, a greater likelihood of a stopping shot on a suspect in a field deployment situation
 - b. The course will be shot on a variety of steel, paper and no shoot targets. The different targets will provide the shooter with different perspectives and provide immediate feedback to the shooter and instructor
 - c. The zero confirmation should be the first thing shot after the safety brief. This would allow the shooter to verify their existing zero as well as provide a warm-up before the scored Departmental qualification course
 - d. The course will be set up with the targets at random, unknown distances to aid the shooter officer in developing their ability to accurately estimate distances. This is an issue that will impact the officers and the Department at shooting boards
 - e. The course of fire will provide the officer and the Department a documented pattern of training in the event that an officer's choice of shooting position is questioned regarding its tactical application. This is especially important, as most anti-police lawyers have begun to become intimately familiar with current tactics and techniques. The market has also become flooded with "tactical" experts for hire, most of who have no compunction about testifying against police officers

This applies to rifles stored in soft or hard cases in the trunk or cargo area of a Department vehicle, or a locking rack in the passenger compartment of a Department vehicle.
