03/21/2023

Attention: Mayor Karen Bass, City Attorney Hydee Feldstein Soto, Councilmember Eunisses Hernandez, Councilmember Paul Krekorian, Councilmember Bob Blumenfield, Councilmember Monica Rodriguez, Councilmember Marqueece Harris-Dawson, Councilmember Curren D. Price Jr., Councilmember Heather Hutt, Councilmember Traci Park, Councilmember John Lee, Councilmember Tim McOsker, Councilmember Hugo Soto-Martinez, Councilmember Kevin de Leon, Councilmember John Lee.
Police Commissioners: William J. Briggs, Dale Bonner, Maria Lou Calanche, Steve Soboroff

Good morning, Police Commissioners, I hope everyone is doing well. Before I begin, I want to begin with a quote from Sophia Lee, "The Truth will always come out. No matter how long it will take, or how hard people will try to cover and bury it underneath everything".

I was wondering if any of the Police Commissioners would like to provide a comment on what you read and reflected upon last week? I'm certain that each Commissioner has read the public comments because that is what we were all told on October 4, 2022, from Commissioner Briggs.

I'm aware that being on the inside looking out has a different viewpoint then being on the outside looking in. If you were to separate each of the caller's or authors of public comments and critically listen or read each one separately, you will find that PUBLIC TRUST is a major issue with all of us.

I have read the Management Principles and the Core Values of the LAPD, I do not see the actions of the Police Commission, City Councilmembers or Mayor Bass aligning with the phrases that are published on your webpage. Maybe I'm in the wrong here and further explanation needs to be given to the public so that we all can understand. I have heard plenty of questions go unanswered for weeks, months and years now.

I would like all the callers that call in each week to know that I may not agree with everything that you say and to be fair you may not agree with everything that I say as well. Something that we can all agree upon and support one another is we all agree that there is a lack of public trust with the City of Los Angeles leadership. This needs to be addressed and addressed now!

Mayor Bass, can you please provide a further detailed report and explain to the public why the City of Los Angeles continues to implement the Covid-19 mandate 187134? The reason that I ask is because this seems a little bizarre and there is more to it than what the public is being told. The data from the CDC along with your own provided data does not support having a Covid-19 mandate in the first place. The Covid-19 gene therapy shot is now well documented

that it does not prevent transmission nor infection. If you need accredited sources on this matter, please feel free to email me and I will be more than happy to assist you further. (Service to Our Communities, Commitment to Leadership, Integrity in ALL WE Say and Do, Respect for People)

I have also read that the City of Los Angeles has granted all exemptions that were submitted prior to January 31, 2023. The City of Los Angeles is stopping the differential treatment of only testing its unvaccinated employees. (Reverence for the Law) Is it true, if the City of Los Angeles gets rid of the Covid-19 mandate prior to May 11 th , 2023, the City of Los Angeles would be responsible for paying back over 2.6 billion dollars that was received from the U.S. Government for implementing a Covid-19 mandate in the first place? This to me certainly gives the appearance that this mandate was created as a financial incentive for the City of Los Angeles under the facade that it was for public safety. I have yet to see how the implementation of this mandate has done anything for public safety using the data provided from multiple sources within the City of Los Angeles. (Integrity in ALL We Say and Do, Respect for People, Reverence for the Law)

I have compared the effects of business shutdowns, school shutdowns, church shutdowns, mask mandates, vaccine mandates and vaccine passports to other states that did not implement such drastic measures as the City of Los Angeles did. I found the numbers are comparably the same with the overall total Covid-19 infections, deaths, and hospitalizations. The public is ready for an explanation why the City of Los Angeles continues to implement a Covid-19 mandate.

On 3/14/2023 Chief Moore provided Covid-19 figures from a two-week period covering 3/07/23 - 3/14/23. For this two-week period there was a total of 24 positive infections within the LAPD. 18 of the 24 infections were previously vaccinated employees and 6 of the 24 infections were from unvaccinated employees. Chief Moore or Mayor Bass would one of you be able to elaborate on the City of Los Angeles definition of being “fully vaccinated”? How many employees are up to date with Covid-19 boosters per the CDC and FDA recommendations? The reason why I ask is the CDC is showing 16.4% of the population in the United States are up to date with their Covid-19 boosters. You can view and verify this on the CDC website. Using the CDC’s 16.4% as a guide, if one applies this to the Police Commission that means only 1 of the 4 of you is up to date with their Covid-19 boosters. This would also mean that only 3 people of all the City Council plus Mayor Bass are up to date with their Covid-19 boosters. This would also mean we should expect 1,502 LAPD employees to be “fully vaccinated”. However, 84% has been cited several times as the percentage of “fully vaccinated” LAPD employees, which would be 7,695 employees. While one cannot simply extrapolate national numbers and expect them to precisely reflect a city police department’s number, the wide discrepancy between the two figures is too large to ignore. Did the City of Los Angeles consult with a medical doctor or scientist to defer from the FDA and CDC recommendations about being current with Covid-19 boosters? If so, with whom?

Last week Chief Moore mentioned there are still 11 “Long Covid Cases” during the Police Commission meeting. Can you please define what Long Covid Cases means? Are you referring to adverse events with the Covid-19 gene therapy shot or are you referring to what the CDC Deputy Director Tom Shimabukuro admitted to that Covid-19 vaccines are causing “Debilitating Illnesses” and “We are aware of these reports of people experiencing long-lasting health problems following Covid vaccination.” I’m not requesting the names of the LAPD personnel, just a definition as to the meaning of “Long Covid Cases”. The term “Long Covid Cases” has been used for the past several months and it’s unclear. (Respect for People, Commitment to Leadership) How would one know if symptoms are from long term side effects of taking part in a clinical trial, never tested on humans before or from “Long Covid”? I would imagine it would be hard to tell since long flu wasn’t in the public consciousness via the media

before.

I find it rather odd that suddenly, this state of emergency now has a prescheduled end date after 3 years. The state of California ended the state of emergency on 2/28/2023 to which the City of Los Angeles won't be receiving extra money for continuing to "declare" a state of emergency still exists. Commissioner Briggs provided misinformation to the public on September 20, 2022, and October 25, 2022. On these two dates Commissioner Briggs used data from the L.A. County Health Department from July 7, 2022, to validate the reasoning of the Police Commission to continue the State of Emergency. The data that Commissioner Briggs provided on these two dates, clearly did not reflect the current trends to justify the extension of the state of emergency. I did ask numerous times (10/25/22, 11/01/22, 11/15/22, 11/22/22, 12/06/22, these can be found in the archives under public comment) why he did this, and I never got an answer. On 11/22/2022 the Police Commission voted to continue the state of emergency once again but this time it was under the clever disguise of agenda item #3 which was titled "Teleconference Meetings". I am aware that under the Brown Act when a state of emergency is declared you are allowed to hold public meetings virtually. However, this does not change the way Commissioner Briggs misinformed the public with false information and narrative in a feeble attempt to validate the reasoning to meet virtually. These Police Commission meetings can also be viewed online if one wishes. (Commitment to Leadership, Integrity in ALL WE SAY and Do, Respect for People).

I would like to add that the data from local sources and the CDC there is no breakdown as to the vaccination status of the Covid-19 positive cases reported.

I can only speculate that if vaccination status were provided in the above reports, it would likely mirror the current data the LAPD has provided. The vaccinated would-be overwhelming majority of the new positive Covid-19 infections / admissions. Australian Public Health data finds ALL the 1,779 Covid related hospitalizations and ICU admissions were all vaccinated. The total Covid-19 deaths, 6.3% of those were unvaccinated, leaving 93.6% of the deaths being vaccinated. Same Covid-19 virus, same gene therapy shot.

Attention Local Media,

I have taken notice that local media reports on Covid-19 seem to be fewer and fewer in the past few weeks. Has something changed that I'm not aware of?

Commissioners,

At last week's meeting there were five people who submitted cards in person for public comment, and they were not allowed to speak due to the 45 minute time restriction set for ALL of public comment. We demand that this restriction be removed and that every person who attends the meeting and hands in a comment card be allowed to speak.

Police commission meetings are already difficult to attend, and impossible for some. The time of day and location present significant barriers to folks who have to get to work or school, or who don't have transportation or live nearby. The room is small and confined and filled with police. The agenda and information on each item are only available online, and come out just a few days ahead of the meeting. Public comment is the most important part of police commission meetings, but the Board and the agenda do not acknowledge or reflect that; in fact the opposite occurs, and barriers are more often added, making it harder for people to attend and to speak. For people who attend in person it can take the better part of the day just to get to and from the meeting. We demand that public comment be opened up so that every person who hands in a comment card be allowed to speak.

This week the Police Commission is also acknowledging Women's History Month. At LAPD and for the community, that history includes the abuse of women and children at the hands of LAPD officers. Abused individuals include family members, members of the community in an officer's patrol, someone calling for help, youth in a community policing program, and even fellow officers. There is also a pattern within LAPD and particularly from Police Chiefs, of minimizing and/or ignoring the seriousness of sexual harassment, rape, and abuse within LAPD. Sgt. Darcy French is [only the most recently reported](#) LAPD officer to be suing the city due to sustained sexual harassment at work and the failure of her supervisors to take action. As LAPD reflects on Women's History (item 5A) and diversity in hiring (5C), its acts of violence against women and culture of sexism and abuse must be acknowledged.

Police are inherently violent and do not create or increase safety, even in their own families, communities, or workplaces. In addition to this, police consume large amounts of city resources and taxpayer dollars that could be funding community programs and services. We demand a divestment from LAPD and an investment in community resources.

Signed,
Bethany

Commissioners,

At last week's meeting, five people submitted cards in person for public comment, and they were not allowed to speak due to the 45-minute time restriction set for public comments. This restriction must be removed so that every person who attends the meeting and submits a comment card can speak.

Police commission meetings are already challenging to attend and impossible for some. The time of day and location present significant barriers to folks who have to get to work or school, don't have transportation, or live nearby. The room is small and confined and filled with police. The agenda and information on each item are only available online and come out just a few days before the meeting. Public comment is an essential part of police commission meetings, but the Board and the agenda do not acknowledge or reflect that; in fact, the opposite occurs as more barriers are added, making it harder for people to attend and to speak. For people who participate in person, getting to and from the meeting can take the better part of the day. We ask that public comment be opened so everyone who hands in a comment card can speak.

This week the Police Commission is also acknowledging Women's History Month. At LAPD and for the community, that history includes LAPD officers' abuse of women and children. Abused individuals have family members, community members in an officer's patrol, someone calling for help, youth in a community policing program, and even fellow officers. There is also a pattern within LAPD and particularly from Police Chiefs, of minimizing and/or ignoring the seriousness of sexual harassment, rape, and abuse within the LAPD. Sgt. Darcy French is the most recent LAPD officer to sue the city due to sustained LAPD sexual harassment and the failure of her supervisors to take action. As LAPD reflects on Women's History (item 5A) and diversity in hiring (5C), LAPD's acts of violence against women and culture of sexism and abuse must be acknowledged.

Police are inherently violent and do not create or increase safety, even within their families, communities, or workplaces. In addition to this, police consume large amounts of city resources and taxpayer

dollars that could be funding community programs and services. It is time to divest from the failed, antiquated LAPD and invest in community resources proven to increase safety.

Dear Commissioners,

I'd like to give a comment about last week's meeting. There were five people who submitted cards in person for public comment, and they were not allowed to speak due to the 45 minute time restriction set for ALL of public comment. We demand that this restriction be removed and that every person who attends the meeting and hands in a comment card be allowed to speak.

Public comment is the most important part of police commission meetings. For people who attend in person it can take the better part of the day just to get to and from the meeting. We demand that public comment be opened up so that every person who hands in a comment card be allowed to speak.

Police commission meetings are already difficult to attend, and impossible for some. The time of day and location present significant barriers to folks who have to get to work or school, or who don't have transportation or live nearby.

This week the Police Commission is also acknowledging Women's History Month. As LAPD reflects on Women's History (item 5A) and diversity in hiring (5C), its acts of violence against women and culture of sexism and abuse must be acknowledged and a mechanism for thorough investigations and safe ways for victims to come out should be enforced/emphasized.

Sgt. Darcy French is [only the most recently reported](#) LAPD officer to be suing the city due to sustained sexual harassment at work and the failure of her supervisors to take action.

Thank you for your time and service,
Melanie

Commissioners,

At last week's meeting there were five people who submitted cards in person for public comment, and they were not allowed to speak due to the 45 minute time restriction set for ALL of public comment. We demand that this restriction be removed and that every person who attends the meeting and hands in a comment card be allowed to speak.

Police commission meetings are already difficult to attend, and impossible for some. The time of day and location present significant barriers to folks who have to get to work or school, or who don't have transportation or live nearby. The room is small and confined and filled with police. The agenda and information on each item are only available online, and come out just a few days ahead of the meeting. Public comment is the most important part of police commission meetings, but the Board and the agenda do not acknowledge or reflect that; in fact the opposite occurs, and barriers are more often added, making it harder for people to attend and to speak. For people who attend in person it can take the better part of the day just to get to and from the meeting. We demand that public comment be opened up so that every person who hands in a comment card be allowed to speak.

This week the Police Commission is also acknowledging Women's History Month. At LAPD and for the community, that history includes the abuse of women and children at the hands of LAPD officers. Abused individuals include family members, members of the community in an officer's patrol, someone calling for help, youth in a community policing program, and even fellow officers. There is also a pattern within LAPD and particularly from Police Chiefs, of minimizing and/or ignoring the seriousness of sexual harassment, rape, and abuse within LAPD. Sgt. Darcy French is [only the most recently reported](#) LAPD officer to be suing the city due to sustained sexual harassment at work and the failure of her supervisors to take action. As LAPD reflects on Women's History (item 5A) and diversity in hiring (5C), its acts of violence against women and culture of sexism and abuse must be acknowledged.

Police are inherently violent and do not create or increase safety, even in their own families, communities, or workplaces. In addition to this, police consume large amounts of city resources and taxpayer dollars that could be

funding community programs and services. We demand a divestment from LAPD and an investment in community resources.

Thank you from a concerned citizen,

Kevin King

Commissioners,

It is unacceptable that at last week's meeting there were five people who submitted cards in person for public comment, and they were not allowed to speak due to the 45 minute time restriction set for ALL of public comment. We live in a massive city, full of people who know we deserve better than what you and the police force are offering. You offer platitudes rather than real action and accountability, and while your job is to serve the public, all you really do is rubber stamp whatever orders you're given by LAPD. We demand that this restriction be removed and that every person who attends the meeting and hands in a comment card be allowed to speak. It is your duty to hear from the citizens of LA. Do your job. Listen. Fully.

Police commission meetings are already difficult to attend, and impossible for some. The time of day and location present significant barriers to folks who have to get to work or school, or who don't have transportation or live nearby. Do you honestly believe that poor and working class people can just drop the obligations required of them for survival in order to attend inaccessible meetings (that are supposedly meant for their voices to be heard)?

The room is small and confined and filled with police. The agenda and information on each item are only available online, and come out just a few days ahead of the meeting. Public comment is the most important part of police commission meetings, but the Board and the agenda do not acknowledge or reflect that; in fact the opposite occurs, and barriers are more often added, making it harder for people to attend and to speak. For people who attend in person it can take the better part of the day just to get to and from the meeting. We demand that public comment be opened up so that every person who hands in a comment card be allowed to speak.

This week the Police Commission is also acknowledging Women's History Month. At LAPD and for the community, that history includes the abuse of women and children at the hands of LAPD officers. Abused individuals include family members, members of the community in an officer's patrol, someone calling for help, youth in a community policing program, and even fellow officers. The time of day and location present significant barriers to folks who have to get to work or school, or who don't have transportation or live nearby. The room is small and confined and filled with police. The agenda and information on each item are only available online, and come out just a few days ahead of the meeting. Public comment is the most important part of police commission meetings, but the Board and the agenda do not acknowledge or reflect that; in fact the opposite occurs, and barriers are more often added, making it harder for people to attend and to speak. For people who attend in person it can take the better part of the day just to get to and from the meeting. We demand that public comment be opened up so that every person who hands in a comment card be allowed to speak.

This week the Police Commission is also acknowledging Women's History Month. At LAPD and for the community, that history includes the abuse of women and children at the hands of LAPD officers. Abused individuals include family members, members of the community in an officer's patrol, someone calling for help, youth in a community policing program, and even fellow officers. There is also a pattern within LAPD and particularly from Police Chiefs, of minimizing and/or ignoring the seriousness of sexual harassment, rape, and abuse within LAPD. Sgt. Darcy French is [only the most recently reported](#) LAPD officer to be suing the city due to sustained sexual harassment at work and the failure of her supervisors to take action. As LAPD reflects on Women's History (item 5A) and diversity in hiring (5C), its acts of violence against women and culture of sexism and abuse must be acknowledged.

Police are inherently violent and do not create or increase safety, even in their own families, communities, or workplaces. In addition to this, police consume large amounts of city resources and taxpayer dollars that could be funding community programs and services. We demand a divestment from LAPD and an investment in community resources.

Signed,
Olivia Gleason

We demand that public comment be opened up so that every person who hands in a comment card be allowed to speak.

This week the Police Commission is also acknowledging Women's History Month. At LAPD and for the community, that history includes the abuse of women and children at the hands of LAPD officers. Abused individuals include family members, members of the community in an officer's patrol, someone calling for help, youth in a community policing program, and even fellow officers. There is also a pattern within LAPD and particularly from Police Chiefs, of minimizing and/or ignoring the seriousness of sexual harassment, rape, and abuse within LAPD. Sgt. Darcy French is [only the most recently reported](#) LAPD officer to be suing the city due to sustained sexual harassment at work and the failure of her supervisors to take action. As LAPD reflects on Women's History (item 5A) and diversity in hiring (5C), its acts of violence against women and culture of sexism and abuse must be acknowledged.

Police are inherently violent and do not create or increase safety, even in their own families, communities, or workplaces. In addition to this, police consume large amounts of city resources and taxpayer dollars that could be funding community programs and services. We demand a divestment from LAPD and an investment in community resources.

Signed,
Lizabeth

At last week's meeting there were five people who submitted cards in person for public comment, and they were not allowed to speak due to the 45 minute time restriction set for ALL of public comment. We demand that this restriction be removed and that every person who attends the meeting and hands in a comment card be allowed to speak.

Police commission meetings are already difficult to attend, and impossible for some. The time of day and location present significant barriers to folks who have to get to work or school, or who don't have transportation or live nearby. The room is small and confined and filled with police. The agenda and

information on each item are only available online, and come out just a few days ahead of the meeting. Public comment is the most important part of police commission meetings, but the Board and the agenda do not acknowledge or reflect that; in fact the opposite occurs, and barriers are more often added, making it harder for people to attend and to speak. For people who attend in person it can take the better part of the day just to get to and from the meeting. We demand that public comment be opened up so that every person who hands in a comment card be allowed to speak.

This week the Police Commission is also acknowledging Women's History Month. At LAPD and for the community, that history includes the abuse of women and children at the hands of LAPD officers. Abused individuals include family members, members of the community in an officer's patrol, someone calling for help, youth in a community policing program, and even fellow officers. There is also a pattern within LAPD and particularly from Police Chiefs, of minimizing and/or ignoring the seriousness of sexual harassment, rape, and abuse within LAPD. Sgt. Darcy French is [only the most recently reported](#) LAPD officer to be suing the city due to sustained sexual harassment at work and the failure of her supervisors to take action. As LAPD reflects on Women's History (item 5A) and diversity in hiring (5C), its acts of violence against women and culture of sexism and abuse must be acknowledged.

Police are inherently violent and do not create or increase safety, even in their own families, communities, or workplaces. In addition to this, police consume large amounts of city resources and taxpayer dollars that could be funding community programs and services. BRIGGS:

At last Tuesday's meeting, you went out of your way to say that the comments about police murder "contained the same language," as if that's a knock on those comments and the people who submitted them. To the contrary, that's actually how organizing works: people don't have time to craft their individual comments (which you don't read anyway), so they rely on others to craft the specific message for them, but they still take the time to send them in, to show their support for that message. You're an awful person and a miserable tool of this broken system. Shame on you.

Commissioners:

At last week's meeting there were five people who submitted cards in person for public comment, and they were not allowed to speak due to the 45-minute time restriction set for ALL of public comment. We demand that this restriction be removed, and that every person who attends the meeting and hands in a comment card be allowed to speak.

Price Jr., Councilmember Heather Hutt, Councilmember Traci Park, Councilmember John Lee, Councilmember Tim McOsker, Councilmember Hugo Soto-Martinez, Councilmember Kevin de Leon, Councilmember John Lee.

Police Commissioners: William J. Briggs, Dale Bonner, Maria Lou Calanche, Steve Soboroff

Good morning, Police Commissioners, I hope everyone is doing well. Before I begin, I want to begin with a quote from Sophia Lee, **“The Truth will always come out. No matter how long it will take, or how hard people will try to cover and bury it underneath everything”.**

I was wondering if any of the Police Commissioners would like to provide a comment on what you read and reflected upon last week? I’m certain that each Commissioner has read the public comments because that is what we were all told on October 4, 2022, from Commissioner Briggs.

I’m aware that being on the inside looking out has a different viewpoint then being on the outside looking in. If you were to separate each of the caller’s or authors of public comments and critically listen or read each one separately, you will find that PUBLIC TRUST is a major issue with all of us.

I have read the **Management Principles** and the **Core Values** of the LAPD, I do not see the actions of the Police Commission, City Councilmembers or Mayor Bass aligning with the phrases that are published on your webpage. Maybe I’m in the wrong here and further explanation needs to be given to the public so that we all can understand. I have heard plenty of questions go unanswered for weeks, months and years now.

I would like all the callers that call in each week to know that I may not agree with everything that you say and to be fair you may not agree with everything that I say as well. Something that we can all agree upon and support one another is we all agree that there is a lack of public trust with the City of Los Angeles leadership. This needs to be addressed and addressed now!

Mayor Bass, can you please provide a further detailed report and explain to the public why the City of Los Angeles continues to implement the Covid-19 mandate 187134? The reason that I ask is because this seems a little bizarre and there is more to it than what the public is being told. The data from the CDC along with your own provided data does not support having a Covid-19 mandate in the first place. The Covid-19 gene therapy shot is now well documented that it does not prevent transmission nor infection. If you need accredited sources on this matter, please feel free to email me and I will be more than happy to assist you further.

(Service to Our Communities, Commitment to Leadership, Integrity in ALL WE Say and Do, Respect for People)

I have also read that the City of Los Angeles has granted all exemptions that were submitted prior to January 31, 2023. The City of Los Angeles is stopping the differential treatment of only testing its unvaccinated employees. ***(Reverence for the Law)*** Is it true, if the City of Los Angeles gets rid of the Covid-19 mandate prior to May 11th, 2023, the City of Los Angeles would be responsible for paying back over 2.6 billion dollars that was received from the U.S. Government for implementing a Covid-19 mandate in the first place? This to me certainly gives the appearance that this mandate was created as a financial incentive for the City of Los Angeles under the facade that it was for public safety. I have yet to see how the implementation of this mandate has done anything for public safety using the data provided from multiple sources within the City of Los Angeles. ***(Integrity in ALL We Say and Do, Respect for People, Reverence for the Law)***

I have compared the effects of business shutdowns, school shutdowns, church shutdowns, mask mandates, vaccine mandates and vaccine passports to other states that did not implement such drastic measures as the City of Los Angeles did. I found the numbers are comparably the same with the overall total Covid-19 infections, deaths, and hospitalizations. The public is ready for an explanation why the City of Los Angeles continues to implement a Covid-19 mandate.

On 3/14/2023 Chief Moore provided Covid-19 figures from a two-week period covering 3/07/23 - 3/14/23. For this two-week period there were a total of **24 positive infections within the LAPD. 18 of the 24 infections were previously vaccinated employees and 6 of the 24 infections were from unvaccinated employees.** Chief Moore or Mayor Bass would one of you be able to elaborate on the City of Los Angeles definition of being “fully vaccinated”? How many employees are up to date with Covid-19 boosters per the CDC and FDA recommendations? The reason why I ask is the **CDC is showing 16.4% of the population in the United States are up to date with their Covid-19 boosters. You can view and verify this on the CDC website.** Using the CDC’s 16.4% as a guide, if one applies this to the Police Commission that means only 1 of the 4 of you is up to date with their Covid-19 boosters. This would also mean that only 3 people of all the City Council plus Mayor Bass are up to date with their Covid-19 boosters. **This would also mean we should expect 1,502 LAPD employees to be “fully vaccinated”. However, 84% has been cited several times as the percentage of “fully vaccinated” LAPD employees, which would be 7,695 employees.** While one cannot simply extrapolate national numbers and expect them to precisely reflect a city police department’s number, the wide discrepancy between the two figures is too large to ignore. Did the City of Los Angeles consult with a medical doctor or scientist to defer from the FDA and CDC recommendations about being current with Covid-19 boosters? If so, with whom?

Last week Chief Moore mentioned there are still 11 “Long Covid Cases” during the Police Commission meeting. Can you please define what Long Covid Cases means? Are you referring to adverse events with the Covid-19 gene therapy shot or are you referring to what ***the CDC Deputy Director Tom Shimabukuro*** admitted

to that Covid-19 vaccines are **causing “Debilitating Illnesses” and “We are aware of these reports of people experiencing long-lasting health problems following Covid vaccination.”** I’m not requesting the names of the LAPD personnel, just a definition as to the meaning of “Long Covid Cases”. The term “Long Covid Cases” has been used for the past several months and it’s unclear. **(Respect for People, Commitment to Leadership)** How would one know if symptoms are from long term side effects of taking part in a clinical trial, never tested on humans before or from “Long Covid”? I would imagine it would be hard to tell since long flu wasn’t in the public consciousness via the media before.

*I find it rather odd that suddenly, this state of emergency now has a pre scheduled end date after 3 years. The state of California ended the state of emergency on 2/28/2023 to which the City of Los Angeles won’t be receiving extra money for continuing to “declare” a state of emergency still exists. Commissioner Briggs provided **misinformation to the public on September 20, 2022, and October 25, 2022.** On these two dates Commissioner Briggs used data from the L.A. County Health Department from July 7, 2022, to validate the reasoning of the Police Commission to continue the State of Emergency. The data that Commissioner Briggs provided on these two dates, **clearly did not reflect the current trends** to justify the extension of the state of emergency. I did ask numerous times (10/25/22, 11/01/22, 11/15/22, 11/22/22, 12/06/22, these can be found in the archives under public comment) why he did this, and I never got an answer. On **11/22/2022** the Police Commission voted to continue the state of emergency once again but this time it was under the clever disguise of agenda item #3 which was titled “Teleconference Meetings”. I am aware that under the Brown Act when a state of emergency is declared you are allowed to hold public meetings virtually. However, this does not change the way Commissioner Briggs misinformed the public with false information and narrative in a feeble attempt to validate the reasoning to meet virtually. These Police Commission meetings can also be viewed online if one wishes. **(Commitment to Leadership, Integrity in ALL WE SAY and Do, Respect for People).***

Here are the most recent numbers from the CDC and local media.

March 16, 2023, per the CDC

Case rate per 100,000 population	60.54 or 0.06054%
New Covid-19 admissions per 100,000 population	5.4 or 0.0054%
% Staffed inpatient beds in use by patients with confirmed Covid-19	3.1%

March 9, 2023, per the CDC

Case rate per 100,000 population	62.73 or 0.06273%
New Covid-19 admissions per 100,000 population	5.9 or 0.0059%
% Staffed inpatient beds in use by patients with confirmed Covid-19	3.7%

March 2, 2023, per the CDC

Case rate per 100,000 population 75.54 or 0.07554%
New Covid-19 admissions per 100,000 population 6.9 or 0.0069%
% Staffed inpatient beds in use by patients with confirmed Covid-19 3.8%

February 23, 2023, per the CDC

Case rate per 100,000 population 64.71 or 0.06471%
New Covid-19 admissions per 100,000 population 7 or 0.007%
% Staffed inpatient beds in use by patients with confirmed Covid-19 3.9%

February 16, 2023, per the CDC

Case rate per 100,000 population 72.02 or 0.07202%
New Covid-19 admissions per 100,000 population 7.5 or 0.0075%
% Staffed inpatient beds in use by patients with confirmed Covid-19 3.9%

February 9, 2023, per the CDC

Case rate per 100,000 population 76.69 or 0.07669%
New Covid-19 admissions per 100,000 population 7.0 or 0.007%
% Staffed inpatient beds in use by patients with confirmed Covid-19 4.0%

February 2, 2023, per the CDC

Case rate per 100,000 population 65.79 or 0.0657%
New Covid-19 admissions per 100,000 population 7.0 or 0.007%
% Staffed inpatient beds in use by patients with confirmed Covid-19 4.0%

January 26, 2023, per the CDC

Case rate per 100,000 population 73.07 or 0.07307%
New Covid-19 admissions per 100,000 population 7.2 or 0.0072%

% Staffed inpatient beds in use by patients with confirmed Covid-19 4.6%

January 19, 2023, per the CDC

Case rate per 100,000 population 93.29 or 0.0932%

New Covid-19 admissions per 100,000 population 9.5 or 0.0095%

% Staffed inpatient beds in use by patients with confirmed Covid-19 5.8%

January 12, 2023, per the CDC

Case rate per 100,000 population 120.19 or 0.1201%

New Covid-19 admissions per 100,000 population 11.9 or 0.0119%

% Staffed inpatient beds in use by patients with confirmed Covid-19 6.7%

January 5, 2023, per the CDC

Case rate per 100,000 population 165.7 or 0.1657%

New Covid-19 admissions per 100,000 population 14.3 or 0.0143%

% Staffed inpatient beds in use by patients with confirmed Covid-19 7.3%

December 29, 2022, per the CDC

Case rate per 100,000 population 234.71 or 0.2347%

New Covid-19 admissions per 100,000 population 13.1 or 0.0131%

% Staffed inpatient beds in use by patients with confirmed Covid-19 6.9%

December 22, 2022, per the CDC

Case rate per 100,000 population 119.83 or 0.1193%

New Covid-19 admissions per 100,000 population 13.1 or 0.0131%

% Staffed inpatient beds in use by patients with confirmed Covid-19 7.1%

December 15, 2022, per the CDC

Case rate per 100,000 population 223.8 or 0.2238%
New Covid-19 admissions per 100,000 population 14.2 or 0.0142%
% Staffed inpatient beds in use by patients with confirmed Covid-19 7.2%

December 8, 2022, per the CDC

Case rate per 100,000 population 271.61 or 0.2716%
New Covid-19 admissions per 100,000 population 14.8 or 0.0148%
% Staffed inpatient beds in use by patients with confirmed Covid-19 6.9%

December 1, 2022, per CDC

Case rate per 100,000 population 165.3 or 0.1653%
New Covid-19 admissions per 100,000 population 11.9 or 0.0119%
% Staffed inpatient beds in use by patients with confirmed Covid-19 5.6%

November 25, 2022, per CDC *note CDC did not report on Thanksgiving Day.

Case rate per 100,000 population 139.7 or 0.1397%
New Covid-19 admissions per 100,000 population 8.6 or 0.0086%
% Staffed inpatient beds in use by patients with confirmed Covid-19 4%

November 17, 2022, per CDC

Case rate per 100,000 population 105.3 or 0.1053%
New Covid-19 admissions per 100,000 population 6 or 0.0060%
% Staffed inpatient beds in use by patients with confirmed Covid-19 3.1%

November 10, 2022, per the CDC

Case rate per 100,000 population 84.49 or 0.0844%
New Covid-19 admissions per 100,000 population 5.2 or 0.0052%

% Staffed inpatient beds in use by patients with confirmed Covid-19 2.6%

November 3, 2022, per the CDC

Case rate per 100,000 population 68.66 or 0.0686%

New Covid-19 admissions per 100,000 population 4.3 or 0.0043%

% Staffed inpatient beds in use by patients with confirmed Covid-19 2.2%

October 27, 2022, per the CDC

Case Rate per 100,000 population 96.75 or 0.0976%

New Covid-19 admissions per 100,000 population 4 or 0.0040%

% Staffed inpatient beds in use by patients with confirmed Covid-19 2.2%

October 20, 2022, per the CDC

Case Rate per 100,000 population 52.05 or 0.0520%

% Staffed inpatient beds in use by patients with confirmed Covid-19 2.4%

October 13, 2022, per the CDC.

Case Rate per 100,000 population 73.42 or 0.0734%

New Covid-19 admissions per 100,000 population 4.9 or 0.0049%

% Staffed inpatient beds in use by patients with confirmed Covid-19 2.8%

Local Media Coverage of Covid-19

The latest census from 2021 show 9.83 million people currently residing in L.A. County.

Per California census as of 2021 California's population is 39.24 million.

03/16/2023, My News L.A. reported there was 13 Covid-19-related deaths most of which were elderly or had an underlying health condition such as diabetes, heart disease or hypertension. 643 new Covid-19

infections were reported, and **487 patients were admitted to L.A. County hospitals**, of those reported patients 55 were being treated inside the ICU. My News L.A. reported that some of these patients were initially treated for other medical reasons and later discovered they tested positive for Covid-19. I would be curious to compare the admitted Covid-19 patients using Hospitalizations with Covid as a primary cause, Hospitalizations with Covid as a contributing cause and Hospitalizations with incidental Covid and comparing to the figures that My News LA published in this article.

My News LA can you inform the public know who your “Contributing Editor” for this article is? A contributing editor is a person who has served as some kind of consultant to the article preparation but is not responsible for the articles final content.

03/16/2023, Per My News L.A.

Case rate per 9.83 million population **643 or 0.00654%**

New Covid-19 admissions per 9.83 million **487 or 0.0049%**

Death Rate per 9.83 million **13 or 0.00013%**

* **03/09/2023, My News L.A.** reported that L.A. County reported **901 new Covid-19 infections**. My News L.A. wrote according to state figures, there were **645 Covid-positive patients in L.A. County hospitals**. Of those 645 Covid-positive patients 62 were being treated in the ICU. My News L.A. reported there were **11 “Virus related” deaths. It was not distinguished what these virus-related deaths were (Influenza, RSV, Covid-19).** Perhaps local media sources can publish Covid-19 reports with data that contain Hospitalizations with Covid as a primary cause, Hospitalizations with Covid as a contributing cause and Hospitalizations with incidental Covid.

03/09/2023, Per My News L.A.

Case rate per 9.83 million population **901 or 0.00916%**

New Covid-19 admissions per 9.83 million **645 or 0.0065%**

Death Rate per 9.83 million **11 or 0.00011%**

* **03/02/2023, My News L.A.** reported that **882 new Covid-19 infections** were reported in L.A. County along with **15 “Virus related” deaths. It was not distinguished what these virus-related deaths were (Influenza, RSV, Covid-19).** Perhaps local media sources can publish Covid-19 reports with data that contain Hospitalizations with Covid as a primary cause, Hospitalizations with Covid as a contributing cause and Hospitalizations with incidental Covid. According to state figures, there were **633 Covid-positive patients in L.A. County hospitals**.

03/02/2023, Per My News L.A.

Case rate per 9.83 million population **882 or 0.00897%**

New Covid-19 admissions per 9.83 million **633 or 0.0064%**

Death Rate per 9.83 million **15 or 0.00015%**

02/24/2023, My News L.A. reported 18 new Covid-19 deaths and most people who die with Covid-19 are elderly or have underlying health conditions such as diabetes, heart disease or hypertension. State figures show there were **726 Covid-positive patients in L.A. County hospitals, 71 of those were being treated in the ICU.** My News L.A. reported that some of those 726 admitted patients were admitted for other medical reasons and later discovered that they have tested positive for Covid-19. Being hospitalized for another medical reason, later learning the patient is Covid-positive is called Incidental Covid. The L.A. County public health department reported there were **1,753 new Covid-19 infections on Thursday.**

02/24/2023, Per My News L.A.

Case rate per 9.83 million population	1,753 or 0.0178%
New Covid-19 admissions per 9.83 million	726 or 0.0073%
Death Rate per 9.83 million	18 or 0.00018%

02/17/2023, My News L.A. reported a slight uptick with 699 Covid-19 positive patients admitted to L.A. County hospitals, 85 of those were being treated in the ICU. My News L.A. reported **1,144 new Covid infections reported in L.A. County. The county Department of public Health reported 20 new virus-related deaths on Thursday. It was not distinguished what these virus-related deaths were (Influenza, RSV, Covid-19).**

02/17/2023, Per My News L.A.

Case rate per 9.83 million population	1,144 or 0.0116%
New Covid-19 admissions per 9.83 million	699 or 0.0071%
Death Rate per 9.83 million	20 or 0.00020%

02/14/2023, My News L.A. reported that there were **2,333 new Covid-19** infections from a three-day period in L.A. County. 1,173 infections for Saturday, 786 on Sunday and 388 on Monday. The correct number is **2,347 new Covid-19 Infections not 2,333.** My News L.A. reported **45 new virus-related deaths. It was not distinguished what these virus-related deaths were (Influenza, RSV, Covid-19). This seems to be the trend of local news media sources to lump all virus-related deaths into one category and not define which virus caused death.** My News L.A. reported that there were **697 Covid-19 patients** admitted into L.A. County hospitals and 69 of those were being treated in the ICU.

02/14/2023, Per My News L.A.

Case rate per 9.83 million population	2,347 or 0.0238%
New Covid-19 admissions per 9.83 million	697 or 0.0071%
Death Rate per 9.83 million	45 or 0.00045%

02/08/2023, My New L.A. L.A. County health officials reported **1,103 new Covid-19** infections along with **14 more virus-related deaths**, it was not distinguished what these virus-related deaths were (Influenza, RSV, Covid-19). My New L.A. stated the majority of those who die with Covid-19 are elderly or have underlying health conditions such as diabetes, heart disease or hypertension. According to state figures, there were **692 Covid-positive patients in L.A. County hospitals**, 83 of those were being treated in the ICU.

02/08/2023, Per My News L.A.

Case rate per 9.83 million population **1,103 or 0.0112%**

New Covid-19 admissions per 9.83 million **692 or 0.0070%**

Death Rate per 9.83 million **14 or 0.00014%**

* **04/09/22, Alphanews.org** published an article titled, “**Who died from Covid-19 in Minnesota**”. I understand that this article is not in chronological order. What makes this article fit into place is this article is now suddenly aligning with what the CDC and the L.A. County Health Dept are currently stating. There was a study based on 10,903 Covid-19 death certificates. The **study found that 291 of the 10,903 were Covid-19 deaths with no comorbidity listed**. Feel free to read the article for yourself and make your own decision. It is quite clear that overcounting deaths and misclassifications have been occurring since the beginning of Covid-19.

01/30/2023, NBC Los Angeles reported that the World Health Organizations Emergency Committee has mentioned that the Covid-19 virus remains a threat to millions of people around the world but is reaching a “tipping point”. Tedros Adhanom Ghebreyesus, Director-General of the W.H.O. said in the **past 8 weeks** there have been **more than 170,000 deaths from Covid-19 and those are just the reported deaths as the W.H.O. knows the real number is higher**.

01/30/2023, The Epoch Times reported that the CDC acknowledges overcounting Covid-19 Hospitalizations. The CDC indicators vastly inflate the present risk to communities they include ALL PATIENTS with positive Covid-19 cases, regardless of whether the hospitalization relates to or is caused by Covid-19. These metrics have resulted in, and will continue to result in, misinformed policy decisions at the state and local level.

01/26/2023, Fox 11 news reported that L.A. County Department of Public Health, has **overcounted deaths related to Covid-19 by as much as 20%**. Fox 11 news also interviewed Dr. Michael Daignault a board-certified E.R. Doctor. *Fox 11 news asked Dr. Daignault, “When was the last time you personally saw, what you would consider a Covid death in the hospital?”* **Dr. Daignault replied, “It’s been a while, it’s been over a year and probably since last winter.”** *Fox 11 news further inquired with Dr. Daignault if he believes that Covid is still a public health emergency?* **Dr. Daignault replied, “As far as the strain on hospitals, No I wouldn’t classify**

Covid as an emergency anymore. Were back to business as usual, and we have been in the E.R. and hospitals for the last year. We are not overstressed with Covid anymore.”

01/24/2023, NBC Los Angeles news reported the County Department of Public Health reported a total of **2,264 new Covid-19 Infections**. Los Angeles Counted reported **46 Covid-19 related deaths**. NBC Los Angeles reported that Virus-related hospitalizations numbers were not immediately available but as of Saturday there were **830 Covid-positive patients in L.A. County hospitals**, 95 of those being treated in the ICU.

01/24/2023, Per NBC Los Angeles

Case rate per 9.83 million population **2,264 or 0.0230%**

New Covid-19 admissions per 9.83 million **830 or 0.0084%**

Death Rate per 9.83 million **46 or 0.00046%**

* **01/19/2023**, ABC Channel 7 reported that Covid-19 rates Thursday, as Los Angeles County dropped from the federal government’s “MEDIUM” category to the governments “**LOW**” category for the coronavirus activity. ABC 7 reported that there was **1,502 new Covid-19 infections** and **31 new “virus-related” deaths**. It was not distinguished what these virus-related were (Influenza, RSV or Covid-19). According to state figures, **918 Covid-positive patients were admitted into L.A. County hospitals**, 92 of the 918 are being treated inside the ICU.

01/19/2023, Per ABC Channel 7

Case rate per 9.83 million population **1,502 or 0.0152%**

New Covid-19 admissions per 9.83 million **918 or 0.0093%**

Death Rate per 9.83 million **31 or 0.00064%**

* **01/18/2023**, My News L.A. reported that there were **3,217 new Covid-19 infections** in L.A. County. The number of Covid-positive patients admitted into L.A. County hospitals was **1,024 of these admitted patients 125 were being treated in the ICU**. My News LA reported that **L.A. County reported 63 Covid-related deaths**. L.A. County Health Director Barbara Ferrer presented numbers that showed hospitalizations and death are increasingly higher with the elderly, 80 years and older. The death rate with this range is five times higher than for people aged 65-79. Ferrer further added, most people that die from Covid-19 are elderly or have an underlying health condition.

01/18/2023, Per My News L.A.

Case rate per 9.83 million population **3,217 or 0.0327%**

New Covid-19 admissions per 9.83 million **1,024 or 0.0104%**

Death Rate per 9.83 million **63 or 0.00064%**

01/12/2023, My News L.A. reported that there were **2,616 new Covid-19 infections** in L.A. County. The number of Covid-positive patients admitted into L.A. County hospitals was **1,128** of these patients 139 were being treated at the ICU. My News L.A. has indicated that roughly 40% of the Covid-19 positive patients were admitted to hospitals specifically for virus-related reasons, while the others were admitted for other medical reasons and later tested positive. This breaks down to out of the 1,128 patients, **451 were admitted for Covid-**

19 and 677 of the 1,128 were admitted for other medical reasons, later testing positive at the hospital. My News L.A. reported 30 new “virus-related deaths. It was not distinguished what these virus-related deaths were (Influenza, RSV, Covid-19).

01/12/2023, Per My News L.A.

Case rate per 9.83 million population 2,616 or 0.0266%

New Covid-19 admissions per 9.83 million 1,128 or 0.0114%

Death Rate per 9.83 million 30 or 0.00030%

01/05/2023, My News L.A. reported that Los Angeles County logged 2,138 new Covid-19 cases and 26 additional “virus-related” deaths. It was not distinguished what these virus-related deaths were (Influenza, RSV or Covid-19). My News L.A. reported that 1,262 were hospitalized in L.A. County hospitals as of Wednesday.

01/05/2023, Per My News L.A.

Case rate per 9.83 million population 2,138 or 0.0217%

New Covid-19 admissions per 9.83 million 1,262 or 0.0128%

Death Rate per 9.83 million 26 or 0.00026%

12/27/2022, Per My News L.A. that L.A. County has reported 6,994 new covid-19 cases over the holiday weekend. My News L.A. reported that there were 1,220 Covid positive patients that were in L.A. County hospitals, with 153 being treated inside the ICU.

My News L.A. reported that Health officials have estimated that roughly 40% of the patients with the virus were admitted for actual Covid-related ailments, while others were hospitalized for other reasons, later testing positive for Covid-19 while being at the hospital. This breaks down to out of the 1,220 patients admitted in L.A. County hospitals, 488 were admitted for Covid-related ailments and 732 admitted for other medical reasons. L.A. County reported 39 “more virus-related deaths”. It was not distinguished what these virus-related deaths were (RSV, Influenza or Covid-19).

12/27/2022, Per My News L.A.

Case rate per 9.83 million population 6,994 or 0.0711%

New Covid-19 admissions per 9.83 million 1,220 or 0.0124%

Death Rate per 9.83 million 39 or 0.00039%

12/22/2022, My News L.A. reported the number of Covid-19 positive patients in L.A. County hospitals is at 1,274. Of those patients 152 were being treated in the ICU. The number of new infections is at 3,080. My News L.A. reported there were 23 “virus related” deaths. It was not distinguished what these virus-related deaths were (Influenza, RSV or Covid-19).

My News L.A. reported that Health Officials have estimated that roughly 40% of the patients with the virus were admitted for actual Covid-19 related ailments, while others were hospitalized for other reasons, learning after admission to the hospital being infected with Covid-19. **This breaks down to of the 1,274 Covid-19 admissions, 510 were admitted for Covid-19 ailments and 764 were admitted for other reasons**, later learning they tested positive for Covid-19.

12/22/2022, Per My New L.A.

Case rate per 9.83 million population 3,080 or 0.0313%

New Covid-19 admissions per 9.83 million 1,274 or 0.0129%

Death Rate per 9.83 million 23 or 0.00023%

12/15/2022, My News L.A. reported the number of Covid-19 positive patients in L.A. County hospitals is at 1,304. My News L.A. reported that 135 were being treated in the ICU. The County reported 4,211 new infections. My News L.A. reported another 16 “virus related” deaths, it was not distinguished what these virus-related deaths were (Influenza, RSV or Covid-19).

12/15/2022, Per My News L.A.

Case rate per 9.83 million population 4,211 or 0.0428%

New Covid-19 admissions per 9.83 million 1,304 or 0.0132%

Death Rate per 9.83 million 16 or 0.00016%

12/09/2022, The L.A. Times reported that Influenza, RSV and Covid-19 cases are all rising. Drug makers and retailers say its soaring demand, that’s leading to empty shelves at pharmacies.

Influenza cases in California have risen to levels that haven’t been seen in years. The CDC stated that seasonal Influenza activity is high and continuing to increase across the country.

The L.A. County Department of Public Health has seen a significant increase in the percentage of specimens that have tested positive for Influenza.

12/4/2022, CBS L.A. reported that experts say the combination of Influenza, RSV and Covid-19 are putting an enormous strain on hospitals. Per the CDC Influenza levels are off the chart in California with Los Angeles and Southern California leading the State. According to the experts, 25% of the people that tested for Influenza in Los Angeles have tested positive for Influenza.

Even with viruses on the rise, one expert says that reinstating the mask mandate should be a last resort. “I think there is very little political appetite to do this and were going to try to not do this as much as possible for the holiday,” said Dr. Peter Chin Hong, a UCSF infectious disease specialist.

12/3/2022, Fox 11 News reported the number of Coronavirus patients in L.A. County hospitals is at **1,205**. Of those 1,205 patients **123 patients were being treated in the ICU** which is down from 131 the previous day. Health Officials have previously stated that roughly 40% of the patients were admitted for Covid-19 related issues while the rest were admitted for other medical reasons but tested positive while at the hospital.

This works out to be out of the 1,205 Covid-19 positive patients **482 were admitted for Covid-19 related issues** and **723 of the 1,205 patients were admitted for other medical reasons** and later tested positive for Covid-19 while already being admitted into the hospital. Fox 11 News reported a total of 4,744 new Covid-19 cases.

12/3/2022, Per Fox 11 News

Case rate per 9.83 million population **4,744 or 0.0482%**

New Covid-19 admissions per 9.83 million **1,205 or 0.0122%**

12/01/2022, My News L.A. reported there were **4,353 new Covid-19 cases** reported in L.A. County. L.A. County reported **1,132 new positive Covid-19 patients that were admitted** into the County hospitals, **122 of the 1,132 being treated in the ICU**. Health Officials have previously stated that roughly 40% of the virus patients were admitted to hospitals for Covid-19 related issues, while the rest were admitted for other medical reasons later testing positive for Covid while already being admitted. This breaks down to **453 out of 1,132 are admitted for Covid-19 related issues** while **679 of the 1,132 were admitted for other medical reasons**, later testing positive for Covid-19 while already being admitted. The Los Angeles Department of Health also reported **10 additional deaths associated with Covid-19**.

12/01/2022, per My News L.A.

Case rate per 9.83 million population **4,353 or 0.0442%**

New Covid-19 admissions per 9.83 million **1,132 or 0.0115%**

Death Rate per 9.83 million **10 or 0.00010%**

County hospitals increased by 52, bringing the total to **492 patients admitted to the hospital.** 43 of the 52 admitted patients were admitted into the I.C.U. which was **down by 10 from the previous day.** **L.A. County reported a total of 1,662 new cases.**

My News LA reported the statewide total of Covid-19 positive patients, rose by 99, bringing the total to 1,855 cases.

11/10/2022, per My News LA

Case rate per 9.83 million population 1,662 or 0.0170%

New Covid-19 admissions per 9.83 million population 492 or 0.0050%

State Covid-19 Admissions per 39.24 million population 1,855 or 0.0047%

11/08/2022, CBS L.A. news reported a total of 1,433 new positive cases of Covid-19, there was a slight uptick over the weekend, reporting **2,978 positive covid-19 cases**. CBS LA reported **440 hospitalizations** in L.A. County which was slightly a lower figure compared to the numbers that were reported over the past two days (448 & 442).

11/08/2022, per CBS L.A.

Case rate per 9.83 million population 2,978 or 0.0302%

New Covid-19 admissions per 9.83 million population 440 or 0.0045%

11/05/2022, My News L.A. reported **1,447 new covid cases in L.A. County as of Friday**, and **7 new “virus-related” fatalities. It was not distinguished what these virus-related deaths were (Influenza, RSV, Covid-19)** Health officials have said many of the deaths from Covid-19 are either elderly or have underlying health conditions, or both. The number of **Covid-19 patients in L.A. County hospitals have increased to 453**, and 44 of those were being treated in intensive care. **My News LA did not report the status of the other 409 patients** that were treated in L.A. County hospitals, only can presume they were either released back home or were admitted for other reasons later testing positive for Covid while at the hospital.

11/05/2022, per My News L.A.

Case rate per 9.83 million population 1,447 or 0.0147%

New Covid-19 admissions per 9.83 million population 453 or 0.0046%

Death rate per 9.83 million population 7 or 0.00007%

On **11/02/2022, Fox 11 news** reported the number of Covid-19 positive cases patients in L.A. County hospitals is on the rise. The data is showing on 11/01/2022 there were 388 Covid-19 patients in the hospital, on 11/02/2022 the number of positive Covid-19 increased to **427 positive cases in L.A. County hospitals**. L.A. County reported **1,392 new Covid infections**.

Fox 11 news reported that **40% of the admitted Covid positive patients were admitted due to “virus related illness”**, while the others were admitted for other reasons, and in many cases only learning they were infected when they were tested at the hospital. **171 of the 427 were admitted for Covid-19 related ailments and 256 of the 427 were admitted for other reasons**, later learning they have tested positive for Covid while already being admitted into the hospital for other medical reasons.

11/02/2022, per Fox 11 news

Case rate per 9.83 million population 1,392 or 0.0142%

New Covid-19 admissions per 9.83 million population 427 or 0.0043%

I would like to add in all the above data from local sources and the CDC there is **no breakdown as to the vaccination status of the Covid-19 positive cases reported**.

I can only speculate that **if vaccination status were provided in the above reports, it would likely mirror the current data** the LAPD has provided. The **vaccinated would-be overwhelming majority of the new positive Covid-19 infections / admissions**.

Australian Public Health data finds ALL the 1,779 Covid related hospitalizations and ICU admissions were all vaccinated. The total Covid-19 deaths, 6.3% of those were unvaccinated, leaving 93.6% of the deaths being vaccinated. Same Covid-19 virus, same gene therapy shot.

Attention Local Media,

I have taken notice that local media reports on Covid-19 seem to be fewer and fewer in the past few weeks. Has something changed that I'm not aware of?

W. Blauer.
