Commissioners,

This week the Board will be discussing the police killing of 23 year-old Marvin Cua last June 2nd, 2022. LAPD officer Christopher Jongsomjit, serial number 37243, fatally shot Cua as he ran away; a fact confirmed by the coroner's report which states Cua was killed by a "gunshot wound to the back."

When LAPD released a "critical incident" video of the shooting, Captain Kelly Muniz states that Cua was shot after taking a gun from his waistband and "pointing it in the direction of the officers," but the body worn video only shows Cua running away right before he is shot, not raising a gun.

This is not the first time LAPD has lied either outright or through omission in its critical incident videos, such as in the shooting of Jermaine Petit and the killing of Margarito Lopez. LAPD claims its edited videos are "an understanding of what occurred based on what we know right now" but they are conveyed as the official narrative. It is another damning example of how police outright lie and get away with it as they continue to kill people.

So far in 2023 LAPD has killed 4 people by fatally shooting them, a 5th person with a taser and bodily force, and a 6th person was found dead inside the Van Nuys jail. LAPD also continues to take resources the community needs; over $3B of the city budget goes to funding LAPD, an organization that does not increase community safety or well-being, and does not prevent or solve what we call crime - in fact, it only contributes to it. We demand a divestment from LAPD and an investment in communities! Fund communities, not the police!

Signed,
Kristen

Commissioners,

This week the Board will discuss the police killing of 23-year-old Marvin Cua last June 2nd, 2022. LAPD officer Christopher Jongsomjit, serial number 37243, fatally shot Cua as he ran away, a fact confirmed by the coroner's report, which states Cua was killed by a "gunshot wound to the back."

When LAPD released a "critical incident" video of the shooting, Captain Kelly Muniz stated that Cua was shot after taking a gun from his waistband and "pointing it in the direction of the officers." In contradiction to this statement, the body-worn video only shows Cua running away right before he is shot, not raising a gun.

This is not the first time the LAPD has lied either outright or through omission in its critical incident videos, such as in the shooting of Jermaine Petit and the killing of Margarito Lopez. LAPD claims its edited videos are "an understanding of what occurred based on what we know right now," but they are conveyed as the official narrative. It is another damning example of how police outright lie and get away with it as they continue to kill people.

So far, in 2023, LAPD has killed four people by fatally shooting them, a 5th person with a taser and physical force, and a 6th person was found dead inside the Van Nuys jail. LAPD also continues to take resources the community needs; over **$3B** of the city budget goes to funding LAPD, an organization that contributes to community harm and crime. We seek divestment from LAPD's wasteful funding and investment in productive community safety needs. Fund communities, not the police!

Signed,
Michele Wetteland

Commissioners,

This week the Board will be discussing the police killing of 23 year-old Marvin Cua last June 2nd, 2022. LAPD officer Christopher Jongsomjit, serial number 37243, fatally shot Cua as he ran away; a fact confirmed by the coroner's report which states Cua was killed by a "gunshot wound to the back."

When LAPD released a "critical incident" video of the shooting, Captain Kelly Muniz states that Cua was shot after taking a gun from his waistband and "pointing it in the direction of the officers," but the body worn video only shows Cua running away right before he is shot, not raising a gun.

This is not the first time LAPD has lied either outright or through omission in its critical incident videos, such as in the shooting of Jermaine Petit and the killing of Margarito Lopez. LAPD claims its edited videos are "an understanding of what occurred based on what we know right now" but they are conveyed as the official narrative. It is another damning example of how police outright lie and get away with it as they continue to kill people.

So far in 2023 LAPD has killed 4 people by fatally shooting them, a 5th person with a taser and bodily force, and a 6th person was found dead inside the Van Nuys jail. LAPD also continues to take resources the community needs; over $3B of the city budget goes to funding LAPD, an organization that does not increase community safety or well-being, and does not prevent or solve what we call crime - in fact, it only contributes to it. We demand a divestment from LAPD and an investment in communities! Fund communities, not the police!

Signed,
Samantha

Good afternoon,

It is really upsetting to see the "mobile force option simulator" being funded to the tune of $40K more when this amounts to a tactic to gaslight the communities LAPD abuses. It is akin to an abuser who expects and feels justified demanding of the person they have harmed that they try to put themselves in the abuser's position and consider how hard it was for them (the abuser). It's a really fucked up and abusive tactic and it's disturbing to see it continued and funded another $40k, when the original item was $140K I believe. This is not for the community, it is for police.

It has been appalling to hear the response from the Police Commission regarding the release of names and information about police officers and the publishing of this information on a website for the community.

This is public information. People are asking for it and glad to have access to it. We should not have any secret police. It is not unusual for cops to terrorize community members in Los Angeles and use the authority of their position to do so, and to protect their actions - it is good for the expectation to be, that there is no privacy for cops.

It is already hard enough to get information (that are public records) regarding police violence. Take for instance the shootings and killings by cops - it takes 10 months or so for them to be adjudicated - which happens in secret - and then from there it takes several years for those documents to be published, and they are done so quietly and it takes time and access to the internet and the ability to go through documents which can be hard to read, to even view and understand them. It is all done to protect cops. There is no care or concern for the public. We will continue to publish and share information about police that is public record, and fight to make it more accessible, as we also fight to dismantle, shrink, defund, and abolish the police.

I further agree with everything below. You are a terrible insular board which is a part of the racialized and gendered violence committed by LAPD and city leadership.

When LAPD released a "critical incident" video of the shooting, Captain Kelly Muniz states that Cua was shot after taking a gun from his waistband and "pointing it in the direction of the officers," but the body worn video only shows Cua running away right before he is shot, not raising a gun.

This is not the first time LAPD has lied either outright or through omission in its critical incident videos, such as in the shooting of Jermaine Petit and the killing of Margarito Lopez. LAPD claims its edited videos are "an understanding of what occurred based on what we know right now" but they are conveyed as the official narrative. It is another damning example of how police outright lie and get away with it as they continue to kill people.

So far in 2023 LAPD has killed 4 people by fatally shooting them, a 5th person with a taser and bodily force, and a 6th person was found dead inside the Van Nuys jail. LAPD also continues to take resources the community needs; over $3B of the city budget goes to funding LAPD, an organization that does not increase community safety or well-being, and does not prevent or solve what we call crime - in fact, it only contributes to it. We demand a divestment from LAPD and an investment in communities! Fund communities, not the police!

LAPD Police Commissioners,

Once again the Police Commission President lost control of the meeting and allowed the mob to take over the meeting time and space. This is emblematic of what the problem is here in Lost Angeles and other places throughout the nation where the rule of law is not enforced.
It is a criminal act, 403 PC,to willfully to disrupt a public meeting. And while occasional limited heckling is viewed as free speech , a sustained willful interruption of other speakers speaking is disruptive and should be dealt with with; Two warnings and then an immediate arrest to be followed by a prosecution and appropriate penalty of at least 30 days jail for the first offense. The offense is public and on video! It is a violation of the civil rights of attendees in person and virtually to have the meeting disrupted by a dedicated minority of ideologically motivated radicals who have no interest in allowing the community to have its voice heard by the Board of Police Commissioners, the Chief of Police and all the good people who are listening.

Enough is Enough!
Start enforcing the law at the meetings and in the city! Public discourse and safety demand it!

God Bless our Officers and keep them safe!
