LAPD Board of Police Commissioners,

Lately week after week, the Police Commissioners seem preoccupied and obsessed with the issue of how LAPD may or may not be assisting ICE in their operations in the City of Los Angeles. Commissioners Calanche and Sanchez-Gordon seem to be more concerned about the perceptions and public safety of the illegal alien community than actual citizens and LEGAL residents. These two appointed Police Commissioners reveal on a regular basis that they do not possess the knowledge adequate and necessary to be Police Commissioners. They should resign and make room for the appointment of people who are competent and care about OUR entire community of citizens and legal residents!

I hope that ICE conducts enforcement actions in Los Angeles and LAPD provides any support that would be appropriate and necessary for the apprehension and arrest of Illegal alien invader criminals who have victimized our communities.

If LAPD is not cooperating with ICE operations according to Special Order 40 then President Trump should defund the LAPD and L.A. City because it has broken the covenant between the government and people to defend the people against all enemies, foreign and domestic. The city of Los Angeles should be in compliance with the U.S. Constitution, the Supreme Law of the Land, under the concept of subsidiarity.

I recommend that everyone actually read Special Order 40 which was signed by Chief Daryl Gates. The LAPD has not been asking the immigration status of victims of and witnesses to crime for a long time. Stop the fearmongering! The best advice that could and should be given to the illegal alien invader community is to return home or if you decide to stay, avoid behavior which is criminal, conspicuous, or complained of.

It is shocking that people in law enforcement positions of leadership do not distinguish between Legal and illegal immigrants! This demonstrates a complete ignorance of the meaning of the rule of law or a double standard is being employed for the sake of identity politics and demographic warfare.

America is a nation of laws that must have secure borders and an orderly process of facilitating LEGAL immigration! No one has the right to

ignore our border and laws and expect to receive any benefits. We need a national ID that can be used as Voter ID, election integrity and elections we can trust!

This current administration at City Hall has proven it lacks competence and does not care about the average working Angeleno American. Any violation of the law should include an immigration check on that person and, if in violation should be turned over to ICE and with minimal due process repatriated to their own country. This is OUR country, not theirs, and ALL Americans have a right to be prioritized above foreign nationals who are illegal alien invaders!

Thank you to ICE Director Thomas Homan and "Homan's Heroes" for all your efforts in creating a safer America that upholds the rule of law and enforces our laws and borders!

Respectfully,  
Steve Reilly

Board of Police Commissioners, Chief McDonnell, LAPD, and public,

On April 2, 2025 22 new recruits graduated from the Los Angeles Police Academy! Keeping in mind that the department goal is 60 recruit graduates per month to replace the many officers that are leaving the department for various reasons, 22 is an incredibly low number! Upon review of the recruit graduate class demographics provided by [LAPDONLINE.ORG](http://LAPDONLINE.ORG), we see that the graduating class by the LA City categorization by race is 18 Hispanic, 1 African-American, 1 Asian and 2 Caucasian listed in that order. And what order is that exactly? It's not alphabetical and it isn't by descending order of category from high to low. The time has come to ask what is going on with these abysmal hiring numbers, categorizations by race and their presentation with Caucasians always being listed last.

The category designations by race are counterproductive if we are striving to look beyond race and see people as individuals and not representatives of their collective race identity which is racial arbitrariness! Caucasians should not be identified as Caucasians any longer and should be designated as European-Americans if a category is really needed, which it is not. Upon review of the recent hiring trends, the hiring of European-Americans is inextricably extremely low. There has to be an explanation for that! What is it? It would appear that "Caucasians" are always put at the bottom of the list and very often are intentionally omitted from LAPD recruiting materials and content altogether. The message seems to be a replay of "No Irish Need Apply" expanded to "No Whites Need Apply".

Discrimination in hiring practices based on race is illegal. I call for an investigation into LAPD hiring practices on the basis of disparate impact on "European-American, Caucasian or "White" individuals who appear to be the victims of LA City discriminatory hiring practices. I call for the US. Civil Rights Division of the US Dept of Justice to investigate the matter because the LAPD and Los Angeles City are unable or unwilling to provide the information on recruitment numbers and processes in a complete, accurate, thorough, honest and public way.

Another issue which I'm sure prospective LAPD candidates are looking at is the COVID-19 mandate policy and the way those who stood for their individual sovereignty and rights were cruelly, harshly and unfairly treated with no respect for their religious convictions or individual medical and health concerns. Any and all officers that suffered harm should be re-instated with back pay, an apology and choice of assignment in an attempt to undo the damage that was done to those officers and their families. New recruits should not be required to be Covid 19 vaccinated and their individual rights must be respected and publicly so.

When citizens need the police and call for police help and service they are entitled to a prompt response by professional police officers that represent the best of the police profession. It is the duty of the Los Angeles Police Commission and Mayor to set policies that will make that a reality. Higher standards will lead to higher recruitment numbers and lower standards will lead to lower recruitment numbers. A culture of excellence and integrity must be encouraged and Chief McDonnell can do that but the policies are set not by him , but by the Mayor, Police Commission and City Council! The people need the Police Commission to set policies that set up the LAPD for success and not failure! As goes the LAPD, so goes the City. If the LAPD fails in its mission to protect and serve and provide public safety, the city will continue to decline and that would be a disaster for everyone!

For One Standard And Justice For All,  
Steve Reilly
