Mayor Bass and the LAPD Police Commission,

Did you see what happened last Saturday on Memorial Day weekend in Downtown Los Angeles where an LAPD patrol vehicle was vandalized and marked with graffiti with a female officer standing by and occupying the vehicle? Did you see the mob of riotous vandals attack and terrorize an MTA train stopped with terrified passengers? Did you see all the businesses that were marked with spray paint? Did you see the LAPD officers just standing there in riot gear allowing it to happen? What is going on with the LAPD? Have they forgotten how to use force to defend lives and property or does the LAPD just allow crimes and unrestrained destruction to occur in front of them? The damage done is not only to property but to the psyche of the residents of Los Angeles watching their police officers not protect themselves, the public and property! The whole world saw LAPD officers just stand their and witness crimes in progress and NOT ONE ARREST was made. NOT ONE!!!

What do you think of that Mayor Bass and Police Commissioners? We are looking forward to seeing how this incident will be characterized. Will you once again praise the LAPD for its restraint and inaction? The lack of police action and arrests is embarrassing to our city and will encourage future riotous incidents that will lead to citizens being physically harmed. Who is responsible for this? You, Mayor Bass? Who held the LAPD back from doing its job? Was it the Incident Commander? Who? The public demands to know why Our LAPD is not taking police action when crimes are being committed right in front of them!

Something needs to be done Mayor Bass and Police Commissioners! If you cant figure out what needs to be done then it is time for a new Mayor and Police Commission and that change can't come soon enough!

We support our LAPD in protecting people and property with the force that is needed to do so. The LAPD needs to be allowed to enforce the law for a safer city for us all.

Respectfully,  
Voices For LAPD
