Mayor Bass and Police Commissioners of Los Angeles,

Recently you have been hearing the false narrative and perhaps, even wittingly or unwittingly, promoting that false narrative that describes ICE agents kidnapping people off the streets of LA due to the color of their Brown skin. This false narrative is obviously politically motivated and espoused by radical revolutionary activists who don't believe in the rule of law and advocate for anarchy, revolution, socialism/communism and the abolition of the Police. Some of these people include the Mayor and City Council. For years, the US Border, Immigration law and criminal law has not been enforced for political reasons which has caused high crime, more victimization, the deterioration of the quality of life and the destruction of lives and souls. Now, thanks to the new administration, border enforcement and the rule of law is returning. Comrade Mayor Bass and her fellow traveler Comrades are attempting to thwart the will of the people and interfere and obstruct with ICE carrying out its lawful duty to our country! Why is that? Is it because Mayor Comrade Bass, who received her Communist training in Castro's Cuba, does not believe in our laws and enforcement of our border? In a functioning city the government works on behalf of American citizens. In a functioning lawful city, LAPD would be working together with all Federal, State and Municipal agencies to protect the public! The problem is that the LAPD is not functioning up to its potential and the people of Los Angeles are suffering. Not because the LAPD doesn't have good people and officers that want to do the job, but because the politicized leadership has been holding the LAPD back from carrying out its mission in a variety of ways.

Los Angeles City should be implementing the 287(g) program which allows ICE agents or designated trained local personnel to screen arrestees and ascertain if they are removable aliens subject to deportation. This cooperation would all be focused on arrestees who have already been

arrested for violations of the law where they are already in custody in a controlled environment. Local law enforcement should be working with ICE to deport removable aliens involved in gang activity, violent crimes, human smuggling, organized crime, sex offenses, drug smuggling, money laundering and many other crimes! It is clear that our Criminal Justice system in Los Angeles and many other cities has not been working! We often see a revolving door of injustice where the offender is released back onto the streets only to find another victim and commit another crime. Where is the justice for the victim and victims families? Who cares about the victims? Who has allowed this situation to go on and on?

The law is the law and must be enforced fairly and impartially! Federal immigration law must also be enforced fairly and impartially! Law abiding Citizens deserve and demand no less! LAPD and ICE should be working together with an emphasis and priority of removing criminal aliens to their home country so that our country and all its residents will be safer!

For Truth, Justice and the American Way,
Steve Reilly
