Mayor Bass and LAPD Police Commissioners,

Today being Tuesday, August 5th it is National Night Out where police departments nationwide reach out to the public and connect as a way of taking back the streets in the cause of public safety. Once again the LAPD Police Commission missed an opportunity to partner and communicate with all the various neighborhoods and communities of the City of Los Angeles or is it Lost Angeles. When is the LAPD going to start utilizing the official [LAPDONLINE.ORG](https://lapdonline.org) website as a tool for community policing and building the LAPD Community Policing partnership with the public? WHEN? Each LAPD Division should be encouraged to be involved in National Night Out and held accountable for participating in National Night Out!

We are living in the Information and Communication Age! Start leading the Community Policing Partnership with meetings and improved communication, that's how you build public trust! We must have consistent communication resulting in a strong healthy partnership to achieve the shared goal of Improved public safety for All!

Respectfully,
Voices For LAPD
