## Motorcycle Officer Update

### Expanded Course Outline

**Instructional Goal:** To provide the student with an update of basic police motorcycle riding: focusing on safety and proper motorcycle / control manipulation.

**Performance Objectives:** Students will utilize riding techniques taught in Basic Motorcycle School and will be tested on the Road Course Qualification given in Motorcycle School. The following concepts will be taught:

- Individual safe riding techniques in practice mazes.
- Pair safe riding techniques and control in the Road Course.

**Learning Activities:** Motorcycle instruction is conducted on a paved area. Continued evaluation for the Basic Rider Skills consists of test of timed Road Course.

**Student Assessment:** The students are evaluated in established categories and determined to be at a “proficient” or “needs improvement” level.

- Evaluated level of “needs improvement” level will result in the students Commanding Officer being notified as well as scheduled individual training with the Motorcycle Training Unit.

**References:** Instructors, facilitators and training supervisors shall ensure that current references are utilized
